NOTICE TO READER

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Canuc Resources Corporation (formerly Santa Rosa Silver Mining Corp. and referred to as the "Company" or "Canuc") are the responsibility of management. The condensed interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the condensed interim consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the balance sheet date. In the opinion of management, the consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Financial Reporting Standards appropriate in the circumstances.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the condensed interim consolidated financial statements and (ii) the condensed interim consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the years presented by the condensed interim consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the condensed interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the condensed interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the audited condensed interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

AUDITOR'S INVOLVEMENT

MNP LLP, Chartered Accountants, the external auditors of Canuc Resources Corporation., have not audited or performed review procedures applicable to auditor review of interim financial statements as at the end of the three-month periods March 31, 2018 and 2017.

AMENDED FINANCIAL STATEMENTS

Subject to a review by OSC Staff, the Q1 financial statements have been amended with the following changes:

1. The prior period comparative date on the Consolidated Interim Statement of Financial Position has been changed from March 31, 2017 to December 31, 2017.
2. The prior year comparative period on the Consolidated Interim Statement of Profit and Loss has been changed from the six-month period ended March 31, 2017 to the three-month period ended March 31, 2017.

3. The prior year comparative period on the Consolidated Interim Statement of Cash Flows has been changed from the six-month period ended March 31, 2017 to the three-month period ended March 31, 2017.
4. The Consolidated Interim Statement of Changes in Shareholder's Equity has been changed to compare the three-month period ended March 31, 2018 and 2017.
5. A paragraph has been added to the Notice to Reader page of the financial statements to describe the Auditor's involvement in the preparation of the Interim Financial Statements.

CANUC RESOURCES CORPORATION

(Formerly Santa Rosa Silver Mining Corp.)

Notes to the Consolidated Interim Financial Statements

For the periods ended March 31, 2018

Unaudited, Expressed in Canadian dollars unless otherwise indicated

1. NATURE OF OPERATIONS AND GOING CONCERN

Canuc Resources Corporation (the “Company” or “Canuc”), a company incorporated under the Business Corporation Act (Ontario), and its wholly-owned subsidiaries (collectively the “Canuc” or the “Company”) are engaged in the acquisition, exploration, development and extraction of natural resources, specifically precious metals.

On February 21, 2017, Santa Rosa Silver Mining Corp. (“Santa Rosa”) and Canuc Resources Corporation (“Former Canuc”) completed a reverse takeover transaction and continued as one company, Canuc Resources Corporation. The Company is listed on the TSX-V under the symbol CDA. The registered office is located at 25 Adelaide Street East, Suite 1612, Toronto, Ontario, M5C 3A1.

The Company currently has one project in the state of Sonora, Mexico where it is assembling and exploring, through its subsidiary Minera Stramin S. de R.L. de C.V. (“Minera Stramin”), a package of prospective silver-lead-gold properties. The Company’s project presently has no NI 43-101 resources or reserves of minerals. The Company also has oil and gas interests in Texas, U.S.A. owned through its subsidiary Midtex Oil & Gas Corporation (“Midtex”).

These unaudited condensed consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the realization of assets and discharge of liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying consolidated financial statements, such adjustments could be material.

Mineral exploration projects, even when successful, require large amounts of exploration investment to prove mineable reserves, generally over long periods of time, prior to commencement of production. The ability of the Company to continue as a going concern is dependent upon, among other things, being able to obtain additional financing, the continued support of its existing shareholders, and the outlining and development of commercial deposits of metals at its project to generate positive cash flows from operations. While the Company has been successful in securing financing and identifying suitable properties to date, there is no assurance that the Company will continue to be successful in achieving these objectives.

The ability of the Company to realize the costs it has incurred to date on its properties is dependent upon the Company being able to identify economically recoverable reserves, to finance their development costs and to resolve any environmental, regulatory, or other constraints, which may hinder the successful development of the reserves. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and development activities and in which it has an interest, in accordance with industry standards for the current stage of exploration and development of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, and non-compliance with regulatory and environmental requirements.

The unaudited condensed consolidated financial statements of the Company for the periods ended March 31, 2018 and 2017 were authorized for issue in accordance with a resolution of the directors dated May 30, 2018.

Notes to the Consolidated Interim Financial Statements

2. BASIS OF PREPARATION

(a) Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (IAS34). Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of May 30, 2018, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these consolidated financial statements as in the most recent annual financial statements as at and for the year ended December 31, 2017 with the exception of IFRS 15. Any subsequent changes to IFRS that may be given effect in the Company's annual financial statements for the current fiscal year could result in restatement of these unaudited condensed interim financial statements.

The policies have been consistently applied to all periods presented unless otherwise noted.

(b) Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

(c) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its subsidiaries, Santa Rosa, Minera Stramin, incorporated in Mexico, and Midtex, incorporated under the laws of Ontario. Intra-group balances and transactions are eliminated in preparing the consolidated financial statements.

The Company's registered ownership in Minera Stramin is 2,999 out of a total of 3,000 (99.97%) of the voting rights. The single remaining voting right is held, due to Mexican regulatory requirements, by a director of Minera Stramin.

(d) Functional and presentation currency

These consolidated financial statements are presented in Canadian Dollars. The Canadian dollar is the functional currency of Canuc. The Mexican peso is the functional currency of Minera Stramin. The United States dollar is the functional currency of Midtex.

Assets and liabilities are translated at the closing rate at the date of the statements of financial position. Income and expenses are translated at the exchange rates at the dates of the transactions. All resulting exchanges differences are recognized in other comprehensive income (loss) and accumulated as a separate component of equity.

(e) Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions about future events that affect the amounts reported in the consolidated financial statements and related notes to the financial statements. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values are:

CANUC RESOURCES CORPORATION

(Formerly Santa Rosa Silver Mining Corp.)

Notes to the Consolidated Interim Financial Statements

For the periods ended March 31, 2018

Unaudited, Expressed in Canadian dollars unless otherwise indicated

2. BASIS OF PREPARATION (CONT'D)

(e) Significant accounting judgments, estimates and assumptions (cont'd)

(i) Net investment in a foreign operations

As part of the normal course of operations, the Company advances funds to its subsidiaries in the form of loans repayable in Canadian dollars. Because Minera Stramin's functional currency is the Mexican peso and Midtex's functional currency is the United States dollar, it is exposed to foreign exchange risk on these loans. Any gains and losses are initially recognized through the statement of loss. However, the Company has determined that these loans are not expected to be repaid in the foreseeable future and are therefore considered to be part of its net investment in a foreign operation. Accordingly, in preparing the consolidated financial statements, an adjustment is made to reclassify any foreign exchange gains or losses from loss to accumulated other comprehensive loss.

(ii) Recoverability of value added taxes

The Company's expenditures in Mexico are subject to a value added tax ("VAT") which the Company is entitled to claim and recover from the Mexican government. Due to the timing and inherent uncertainty of the ultimate collection of these amounts, the Company expenses VAT as incurred and will recognize a recovery in the period when the amount can be reasonably determined and collectability has been reasonably assured.

VAT accrued in a given period are reflected as a separate line within expenses in the statement of loss. A summary of the cumulative VAT accrued is presented in Note 11.

(iii) Reserve estimates

The estimation of oil and gas reserves is an inherently complex process requiring significant judgment. Proved and probable reserves are estimated based on geological data, geophysical data, engineering data, projected future rates of production estimated commodity prices, costs, discount rates, and the timing of future expenditures. Reserve estimates, although not reported as part of the Company's consolidated financial statements, can have a significant effect on earnings and assets as a result of their impact on depletion and impairment, decommissioning provisions and deferred taxes. Accordingly, the impact to the consolidated financial statements in future periods could be material.

3. MERGER - CANUC AND SANTA ROSA

On February 21, 2017 Canuc announced the completion of the reverse takeover transaction previously announced, on the terms set out in the business combination agreement dated August 26, 2016 (the "Transaction"). The Transaction involved the combination of Former Canuc and Santa Rosa by way of an amalgamation of Santa Rosa and a wholly-owned subsidiary of Canuc, to form one company as a wholly owned subsidiary of Canuc. Pursuant to the amalgamation, all issued and outstanding securities in the capital of Santa Rosa were converted into like issued and outstanding securities of Canuc on a two-for one basis. The Transaction was approved by written consent of the holders of more than 50% of the issued and outstanding common shares of the Company held by disinterested shareholders. This Transaction resulted in 22,365,000 shares being issued to Santa-Rosa shareholders. All Santa Rosa options and warrants were converted to options and warrants of Canuc, on the same two-for-one basis.

These financial statements, as a result of it being a reverse takeover, are a continuation of Santa Rosa's historical disclosures, combining Canuc's assets and liabilities as of March 31, 2018 and including transactions that flow through the Statements of Loss and Comprehensive Loss from February 21, 2017 through December 31, 2017. Revenues for the period ended March 31, 2018 represent oil and gas sales from January 1, 2018 through March 31, 2018

After evaluating all the facts surrounding this Transaction, Management determined that IFRS 3, *Business Combinations*, is not applicable and that the Transaction was accounted for as an asset acquisition with Santa Rosa as the acquirer for accounting purposes.

3. MERGER - CANUC AND SANTA ROSA (CONT'D)

The issued and outstanding common shares, warrants and options of Former Canuc are included in the identified assets acquired by Santa Rosa, with each valued as of February 21, 2017. The difference between these combined values, net costs associated with the acquisition, and the value of net assets as of February 21, 2017, is accounted for as Listing Costs on the Statement of Loss and Comprehensive Loss.

The following table summarizes the fair value of the total consideration transferred from Former Canuc shareholders and the provisional fair value of identified assets acquired and liabilities assumed, based on fair value.

The Company used a discounted cash flow model to estimate the expected future cash flows from its oil and gas properties and interests. Expected future cash flows are based on estimates of future production and commodity prices, operating costs and forecast capital expenditures based on the life of production as at the acquisition date.

Purchase Price	Quantity	Amount
Common shares issued	10,186,751	\$ 2,037,350
Stock-options	805,000	103,095
Warrants	3,550,000	363,610
Total Purchase Price		\$ 2,504,055
Net Assets Acquired		
Cash		\$ 1,267
Receivables and prepaids		35,588

Accounts payable and accrued liabilities		(336,429)
Goodwill		2,454,110
		\$ 2,504,055

As a condition of closing the Transaction, the Company closed the concurrent financing of \$2,000,000, representing the maximum financing amount disclosed in the filing statement filed in connection with the Transaction. The closing of this financing results in the issuance of 8,000,000 units, with each unit comprised of one common share and one half of one common share purchase warrant, with each unit priced at \$0.25 and each share purchase warrant having a life of two years from the date of issue and an exercise price of \$0.50. In connection with the financing, Canuc paid fees aggregating to \$150,617, 602,468 commission warrants and 75,064 commission units, with the commission units having the same terms and conditions as those units issued under the financing. The commission warrants have an exercise price of \$0.25 but otherwise have the same terms and conditions as the warrants issued under the financing. The funds are being used for the exploration and development of the Company's San Javier project in Sonora, Mexico and for general working capital purposes.

4. EXPLORATION AND EVALUATION PROPERTIES AND EXPENDITURES

The Company's exploration project, the San Javier Project in the State of Sonora, Mexico, involves assembling and exploring certain mineral lands containing known showings and old workings on silver lead mineralized veins that also contain gold, copper and zinc in lesser quantities. The Company has assembled and maintained a consolidated land package on portions of which it has completed underground and surface mapping and sampling. The Company intends to carry out further surface and underground exploration along a four kilometre long structural zone that includes the El Polvorin, Santa Rosa and La Colorada underground workings and other mineralized surface showings within its properties with the goal of outlining commercial quantities of mineralization. During the past two years the Company's work was minimal due to limited capital.

4. EXPLORATION AND EVALUATION PROPERTIES AND EXPENDITURES (CONT'D)

The property package of nineteen mineral concessions making up the Company's San Javier Project has not changed since the most recent audited financial statements dated December 31, 2017. Four net smelter revenue ("NSR") royalties totaling 2.5% apply to future production from all properties in the San Javier Project (note 15).

Exploration and Evaluation Expenditures were incurred during the periods ended March 31, 2017 and 2016 and the three-month period ended March 31, 2018 as outlined below:

6. SHARE CAPITAL (CONT'D)

Legal and consulting fees included \$60,700 paid in cash and 1,144,000 warrants valued at \$34,320 and were included in share capital as share issue costs (572,000 post RTO warrants).

(ii) On May 30, 2016 the Company issued 750,000 shares (1,500,000 post RTO shares) in payment for past services to a director of the Corporation. The shares were deemed to have a value of \$0.10 per share in keeping with the then most recently completed private placement financing.

(iii) On February 21, 2017 Former Canuc completed the reverse takeover transaction resulting in the combination of Former Canuc and Santa Rosa. Pursuant to the amalgamation, all issued and outstanding securities in the capital of Santa Rosa were converted into like issued and outstanding securities of Canuc on a two-for one basis.

All equity instruments of Santa Rosa have been retrospectively adjusted in these financial statements to give effect to the share 2-for-1 consolidation from the Transaction. To give effect to the purchase price Santa Rosa's 10,186,751 common shares valued at \$2,037,350; 3,550,00 share purchase warrants valued at \$363,610 (note 11); and 805,000 stock options valued \$103,095 (note 12) were deemed to be issued by Santa Rosa to holders of Former Canuc equity instruments.

(iv) On February 21, 2017 the Company closed a concurrent financing of \$2,000,000. The closing of this financing resulted in the issuance of 8,000,000 units, with each unit priced at \$0.25 and comprised of one common share and one half of one common share purchase warrant.

The Company incurred financing costs of \$150,617 (cash) and issued 225,064 common shares valued at \$30,000 and 602,468 broker warrants valued at \$59,102 (note 11) and 75,064 broker units. Each broker unit had the same terms as a unit in the financing; accordingly 75,064 common share were valued at \$15,000 and the 37,532 warrants were valued at \$2,425. The net proceeds after all cash and share-based issuance costs of \$1,742,856 were allocated on a relative fair value basis between share capital (\$1,468,856) (note 11) and warrants reserve (\$274,000).

(v) On November 27, 2017 the Company closed a financing of \$464,934. The closing of this financing resulted in the issuance of 1,162,335 units, with each unit priced at \$0.40 and comprised of one common share and one half of one common share purchase warrant.

The Company incurred financing costs of \$23,165 (cash) and issued 4,000 broker warrants valued at \$800 (note 11). Each Finder's warrant entitles the holder to purchase one additional common share at a price of \$0.40 per common share for two years from the closing date.

(vi) On March 5, 2018 the Company closed a financing of \$1,105,000. The closing of this financing resulted in the issuance of 4,420,000 units, with each unit priced at \$0.25 and comprised of one common share and one half of one common share purchase warrant.

The Company incurred financing costs of \$7,667 (cash) and issued no broker warrants.

10. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties include officers of the Company and its subsidiaries, its Board of Directors, key management personnel, their close family members and enterprises which are controlled by these individuals as well as certain persons performing similar functions.

In accordance with IAS24, key management personnel are the persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any director (executive and non-executive) of the Company.

The agreement under which Minera Stramin may acquire the Santa Rosa and Ampliación de Santa Rosa concessions is with two estates whose beneficiaries include an individual who is a director of Minera Stramin and therefore a key management person.

Three directors and key management members hold NSR royalties totalling 1.5% of the total 2.5% on production from the San Javier project (Note 4).

Compensation of key management personnel and directors for the periods ended are as follows:

For the 3 month period ended March 31,	2018	2017
Cash-based remuneration	\$ 19,000	\$ 69,500
Non-cash-based compensation	---	264,220
	\$ 19,000	333,720

11. VALUE ADDED TAXES

The Company expenses refundable value added taxes ("VAT") incurred in Mexico until such a time as it is reasonably certain that the VAT will be collected. If in a future period the VAT are collected, the Company will recognize the refund as a recovery of the expense through the consolidated statements of loss. The following table presents the approximate VAT base at the end of each reporting period. The balances are carried in Mexican pesos (MXN) and a translation to Canadian dollars (CAD) has been presented using the exchange rate at the end of the respective reporting period.

	March 31, 2018		March 31, 2017	
	CAD	MXN	CAD	MXN
VAT base	78,643	1,111,715	71,300	1,004,789

12. COMMITMENTS AND CONTINGENCIES

The Company has certain optional property payments under property acquisition agreements. The Company also has entered into a lease for premises effective May 1, 2016. The lease has one renewal term of five years after the initial 5-year and 4-month term. The Company received a rent-free period from May 1, 2016 until August 31, 2016. As a result of the free rent period, the Company has recorded deferred charges on the balance sheet. The recording of the deferred charges results in a straight-line rent charge to the statement of profit and loss.

The Company has entered into two sublease agreements, each for a term of 5 years. The expected minimum sublease rents to be received from March 31, 2018 to the end of the sublease agreements is \$53,080.

The Company leases its head office space with the following aggregate minimum lease payments:

Not later than a year	\$ 24,593
Between 1 and 5 years	59,433
Later than 5 years	---
	\$ 84,026

12. COMMITMENTS AND CONTINGENCIES (CONT'D)

The Company's exploration and evaluation activities are subject to various international laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

13. CAPITAL MANAGEMENT

The Company considers its capital structure to consist of equity. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable and appropriate.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2018. Neither the Company nor its subsidiary is subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS

(a) Fair value of financial instruments

Fair value estimates are made at the statement of financial position date based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

The carrying amounts for receivables, accounts payable and accrued liabilities, and shareholder loans approximate fair market value because of the limited term of these instruments.

(b) Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no material changes in the risks, objectives, policies and procedures from the previous period.

(i) Credit risk

The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to financial instruments included in cash and receivables is remote.

14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS (CONT'D)

(ii) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's ability to continue operations and fund its exploration and evaluation expenditures is dependent on its ability to secure additional financing. See below for a summary of cash balance and current liabilities as at March 31, 2018 and March 31, 2017.

	March 31, 2018	March 31, 2017
Cash	\$ 893,020	\$1,153,494
Current liabilities	\$ 300,033	\$ 313,708

The Company is continuing to pursue various financing initiatives in order to provide sufficient cash to finance its exploration and evaluation activities as well as corporate operations. The Company's accounts payable and accrued liabilities as at March 31, 2018 and March 31, 2017 have contractual maturities of less than 30 days and are subject to normal trade terms.

(iii) Interest rate risk

The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company is not currently exposed to risks from changes in interest rates.

(iv) Foreign currency risk

The Company's functional currency is the Canadian dollar and purchases of goods and services are transacted in Canadian dollars, Mexican pesos and US dollars. The Company funds certain operations, exploration and administrative expenses in the United States and Mexico on a cash basis using US dollar and Mexican peso currencies converted from its Canadian dollar bank accounts held in Canada. At this time, Management does not believe it is practical to use hedging to reduce its exposure to foreign exchange on these transactions.

	March 31, 2018		March 31, 2017	
	US Dollar	MXN Peso	US Dollar	MXN Peso
Cash held in foreign currency	9,659	108,146	18,421	180,082
Value of foreign currency in Canadian dollars	12,455	7,650	24,502	12,779

(v) Commodity price risk

The Company is exposed to price risk with respect to commodity prices. Even though it is only undertaking exploration and evaluation activities presently, the enthusiasm of investors necessary for funding of on-going work does move with the prices of gold and silver. The Company determines the appropriate course of action to be taken by the Company in relation to its monitoring of the commodity markets.

(vi) Market risk

Market risk is the risk that a change in market prices, interest rate levels, indices, liquidity and other market factors will result in losses. The Company is not materially exposed to market risk as it does not hold marketable securities.

14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS (CONT'D)

(c) Sensitivity analysis

Based on management's knowledge and experience in the financial markets, the Company believes the following movements are "reasonably possible" over a one year period:

- (i) As at March 31, 2018, the Company held \$12,455 and \$7,650 in cash balances denominated in US dollars and Mexican pesos respectively. A 10% change in the value of the Canadian dollar compared to those other foreign currencies would result in a foreign exchange gain/loss of approximately \$1,246 and \$765 respectively for the US dollars and Mexican pesos accounts.

15. SEGMENTED INFORMATION

The Company is engaged in the exploration and evaluation of properties for the mining of precious and base metals and the development of oil and gas properties. The Company does not have formal operating segments. The corporate office operates to support the Company's projects. As of March 31, 2018, the projects are located in the United States and Mexico.

As of March 31, 2018, the Company's oil and gas wells in Texas represent 100% of its revenues and 29% (March 31, 2017 – 12%) of its assets (calculated used on book value). Although the Company's primary asset the San Javier Project in Mexico represents less than 3% of its assets on the Company's books at March 31, 2018 (March 31, 2017 – 1%) as the Company expenses exploration and evaluation expenditures as incurred. Management makes decisions by considering exploration potential and results on a project-by-project basis.

A geographic breakdown of assets by segment follows:

	March 31, 2018	March 31, 2017
Canada - Corporate	\$ 861,289	\$ 1,543,329
United States – Texas	373,106	220,379
Mexico – Sonora	33,267	15,263
	\$ 1,267,661	\$ 1,778,971

16. SUBSEQUENT EVENTS

Subsequent to the Quarter Ended March 31, 2018, on May 7, 2018 the Company appointed Mr. Artie Hao Li as the Chief Financial Officer of the Company. The Company also appointed Ms. Khadijah Samnani as the Corporate Secretary of the Company.

Subsequent to the Quarter Ended March 31, 2018, on May 17, 2018, the Company signed a Letter of Intent to acquire "Full Circle Energy". Full Circle Energy's assets consists of 6 sections of undeveloped oil prospective acreage in southwest Saskatchewan, and a Farmin agreement for a further 6.3 contiguous sections of adjacent land.

On May 22nd, 2018 the company announced that it had released from option two of the 19 ground position claims at San Javier. These 2 claims, which represent just over 8% of the total claim package, were deemed to have metal budgets insufficient to support their option costs. The remaining claims are owned outright.
