Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.02%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total value of fund on March 31, 2025:	\$537.4 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	0.94%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide a return that is similar to the return of an exchange traded fund that invests primarily in U.S. equities listed on the NASDAQ-100 Index, or its successor index. The fund may invest all or a portion of its assets in an exchange traded fund, invest directly in the underlying securities held by the exchange traded fund and/or use derivatives to provide the fund with a return determined by reference to the exchange traded fund. Invests up to 100% of the fund's assets in securities of BMO Nasdaq 100 Equity Index ETF.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Total percentage of top 10 investments 50.6%

Total number of investments: 100

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.1%	March 31, 2023	Your investment would rise to \$1,201
Worst return	-20.2%	June 30, 2022	Your investment would drop to \$798

Average return

The annual compound return of Series A of the fund since inception was 12.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,591.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of Nasdaq listed companies, excluding financials
- you want a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.95% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	0.94%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.95%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.3%	March 31, 2023	Your investment would rise to \$1,203
Worst return	-20.1%	June 30, 2022	Your investment would drop to \$799

Average return

The annual compound return of Series F of the fund since inception was 13.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,625.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of Nasdaq listed companies, excluding financials
- you want a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.41% of its value. This equals \$4 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.40%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.41%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.3%	March 31, 2023	Your investment would rise to \$1,203
Worst return	-20.1%	June 30, 2022	Your investment would drop to \$799

Average return

The annual compound return of Series I of the fund since inception was 13.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,630.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of Nasdaq listed companies, excluding financials
- you want a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 0.80%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.9%	November 30, 2024	Your investment would rise to \$1,119
Worst return	-19.2%	March 31, 2020	Your investment would drop to \$808

Average return

The annual compound return of Series A of the fund was 7.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,967.

Who is this fund for?**Consider this fund if:**

- you are looking for an equity fund that provides exposure to dividend-yielding North American companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.46% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.44%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.46%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.48% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.46%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.48%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.9%	November 30, 2024	Your investment would rise to \$1,119
Worst return	-19.2%	March 31, 2020	Your investment would drop to \$808

Average return

The annual compound return of Series T6 of the fund since inception was 7.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,930.

Who is this fund for?**Consider this fund if:**

- you are looking for an equity fund that provides exposure to dividend-yielding North American companies
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 2.45% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund. BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.2%	November 30, 2024	Your investment would rise to \$1,122
Worst return	-18.9%	March 31, 2020	Your investment would drop to \$811

Average return

The annual compound return of Series F of the fund was 8.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,303.

Who is this fund for?**Consider this fund if:**

- you are looking for an equity fund that provides exposure to dividend-yielding North American companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.91% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.89%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.91%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.2%	November 30, 2024	Your investment would rise to \$1,122
Worst return	-18.9%	March 31, 2020	Your investment would drop to \$811

Average return

The annual compound return of Series F6 of the fund since inception was 8.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,240.

Who is this fund for?**Consider this fund if:**

- you are looking for an equity fund that provides exposure to dividend-yielding North American companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.91% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.89%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.91%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.02% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.02%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.00%, the management fee payable in respect of Series A units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in securities of primarily Canadian companies in the precious metals industry. The fund invests mainly in Canadian companies that are involved in the exploration, mining, production or distribution of precious metals. The fund may invest up to 40% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 5 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	63.1%	April 30, 2016	Your investment would rise to \$1,631
Worst return	-24.7%	June 30, 2022	Your investment would drop to \$753

Average return

The annual compound return of Series A of the fund was 11.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,943.

Who is this fund for?**Consider this fund if:**

- you want specific exposure to the growth potential of precious metals
- you are comfortable with high investment risk (i.e., you are willing to accept significant fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.69% of its value. This equals \$27 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.37%
Trading expense ratio (TER) These are the fund's trading costs.	0.32%
Fund expenses	2.69%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for this series was reduced from 2.00% to 1.85%

Quick facts

Fund code(s):	FE: BMO99147 DSC: BMO97147 LL: BMO98147	Fund manager:	BMO Investments Inc.
Date series started:	November 3, 2008	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$95.4 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER)*:	2.38%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 2.29% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in securities of primarily Canadian companies in the precious metals industry. The fund invests mainly in Canadian companies that are involved in the exploration, mining, production or distribution of precious metals. The fund may invest up to 40% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. Agnico Eagle Mines Limited	11.5%
2. Wheaton Precious Metals Corp.	9.8%

Total number of investments: 41

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 5 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	63.1%	April 30, 2016	Your investment would rise to \$1,631
Worst return	-24.7%	June 30, 2022	Your investment would drop to \$753

Average return

The annual compound return of Advisor Series of the fund was 11.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,943.

Who is this fund for?**Consider this fund if:**

- you want specific exposure to the growth potential of precious metals
- you are comfortable with high investment risk (i.e., you are willing to accept significant fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.70% of its value. This equals \$27 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.38%
Trading expense ratio (TER) These are the fund's trading costs.	0.32%
Fund expenses	2.70%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	63.6%	April 30, 2016	Your investment would rise to \$1,636
Worst return	-24.5%	June 30, 2022	Your investment would drop to \$755

Average return

The annual compound return of Series F of the fund was 12.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,365.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of precious metals
- you are comfortable with high investment risk (i.e., you are willing to accept significant fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 1.42% of its value. This equals \$14 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.10%
Trading expense ratio (TER) These are the fund's trading costs.	0.32%
Fund expenses	1.42%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	64.0%	April 30, 2016	Your investment would rise to \$1,640
Worst return	-24.3%	June 30, 2022	Your investment would drop to \$757

Average return

The annual compound return of Series I of the fund was 14.1% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,740.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of precious metals
- you are comfortable with high investment risk (i.e., you are willing to accept significant fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.32% of its value. This equals \$3 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.32%
Fund expenses	0.32%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.00%, the management fee payable in respect of Series A units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total value of fund on March 31, 2025:	\$7.1 Million	Distributions:	Monthly (any net income, net capital gains and/or return of capital)
Management expense ratio (MER):	1.86%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide a return that is similar to the return of one or more exchange traded funds that seek to provide exposure to a portfolio of U.S. large capitalization companies by primarily investing in U.S. equity securities and derivative instruments to provide long-term capital appreciation, generate income and mitigate downside risk. The fund may invest all or a portion of its assets in an exchange traded fund that invests in such securities, invest directly in the underlying securities held by the exchange traded fund and/or use derivatives to provide the fund with a return determined by reference to the exchange traded fund. The fund invests up to 100% of its assets in securities of BMO Premium Yield ETF.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	5.8%	December 31, 2024	Your investment would rise to \$1,058
Worst return	1.1%	May 31, 2024	Your investment would rise to \$1,011

Average return

The annual compound return of Series A of the fund since inception was 7.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,161.

Who is this fund for?

Consider this fund if:

- you want exposure to a diversified portfolio of U.S. equities and yield strategies
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.92% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.86%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.92%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	5.8%	December 31, 2024	Your investment would rise to \$1,058
Worst return	1.1%	May 31, 2024	Your investment would rise to \$1,011

Average return

The annual compound return of Advisor Series of the fund since inception was 7.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,161.

Who is this fund for?

Consider this fund if:

- you want exposure to a diversified portfolio of U.S. equities and yield strategies
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.93% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.87%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.93%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.1%	December 31, 2024	Your investment would rise to \$1,061
Worst return	1.4%	May 31, 2024	Your investment would rise to \$1,014

Average return

The annual compound return of Series F of the fund since inception was 8.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,191.

Who is this fund for?

Consider this fund if:

- you want exposure to a diversified portfolio of U.S. equities and yield strategies
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.77% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.71%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.77%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.3%	December 31, 2024	Your investment would rise to \$1,063
Worst return	1.6%	May 31, 2024	Your investment would rise to \$1,016

Average return

The annual compound return of Series I of the fund since inception was 9.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,210.

Who is this fund for?

Consider this fund if:

- you want exposure to a diversified portfolio of U.S. equities and yield strategies
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.06% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.06%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.65%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

This document contains key information you should know about BMO Private Strategic Rate Fund I. You can find more details in the fund's simplified prospectus. Ask your representative for a copy, contact BMO Investments Inc. at 1-800-668-7327 or clientservices.mutualfunds@bmo.com or visit www.bmogam.com/ca-en/resources/legal-and-regulatory-documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

This fund is an alternative mutual fund. It has the ability to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate this Fund from other types of mutual funds include the: increased ability to use derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the Fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

Quick facts

Date series started:	November 29, 2024	Fund manager:	BMO Investments Inc.

		Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to generate income while preserving capital by investing primarily in debt instruments anywhere in the world. The fund may make these investments directly, or indirectly by using derivative instruments or investing all or a portion of its assets in one or more investment funds.

The fund is an alternative mutual fund that uses derivatives, which may result in a level of leverage that is not permissible for conventional mutual funds. Also, unlike conventional mutual funds, the fund is not required to hold liquid short-term debt or other types of cash cover in respect of the fund's market exposures obtained through the use of derivatives. The fund's aggregate exposure to cash borrowing, short selling and specified derivatives transactions used for leverage or for other non-hedging purposes may not exceed 300% of the fund's NAV, calculated on a daily basis, except as permitted by National Instrument 81-102 Investment Funds or any exemption therefrom.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

Because this is a new fund, the risk rating is only an estimate by BMO Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

The year-by-year returns are not available for Series A as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

The best and worst 3-month returns are not available for Series A as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Average return

The average return is not available for Series A as it has not been distributed to the public under a simplified prospectus for 12 consecutive months.

Who is this fund for?**Consider this fund if:**

- looking to invest in an alternative mutual fund
- you are looking to earn higher income
- you want monthly distributions
- are comfortable with interest rate risk
- want to hold a mix of Canadian and global fixed income securities
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

The fund's expenses are made up of the management fee, fixed administration fee, certain operating expenses and trading costs. This series' annual management fee is 0.55% and its annual fixed administration fee is 0.1% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.30% of the value of your investment each year. This equals \$3.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The management fee for this series was reduced from 2.00% to 1.85%

Quick facts

Fund code(s):	BMO70137	Fund manager:	BMO Investments Inc.
Date series started:	August 3, 1993	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$106.8 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER)*:	2.33%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 2.26% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in Canadian natural resource companies. The fund invests primarily in companies that are listed on Canadian stock exchanges and that operate in the precious metals, base metals, oil and gas, or forest products industries. It may also buy precious metals directly. The fund may invest up to 40% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	39.2%	April 30, 2016	Your investment would rise to \$1,392
Worst return	-31.0%	March 31, 2020	Your investment would drop to \$690

Average return

The annual compound return of Series A of the fund was 5.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,692.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of the natural resources industry
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.42% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.33%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	2.42%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	39.2%	April 30, 2016	Your investment would rise to \$1,392
Worst return	-30.9%	March 31, 2020	Your investment would drop to \$691

Average return

The annual compound return of Advisor Series of the fund was 5.3% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,676.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of the natural resources industry
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.47% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.38%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	2.47%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Management expense ratio (MER):	1.10%		

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in Canadian natural resource companies. The fund invests primarily in companies that are listed on Canadian stock exchanges and that operate in the precious metals, base metals, oil and gas, or forest products industries. It may also buy precious metals directly. The fund may invest up to 40% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. Agnico Eagle Mines Limited	9.3%
2. Canadian Natural Resources Limited	8.3%
3. Suncor Energy Inc.	7.6%
4. Alamos Gold Inc., Class A	6.2%
5. Franco-Nevada Corporation	5.8%
6. Wheaton Precious Metals Corp.	5.6%
7. K92 Mining Inc.	4.4%
8. ARC Resources Ltd.	4.2%
9. Teck Resources Limited, Class B	4.0%
10. Cameco Corporation	3.4%

Total percentage of top 10 investments 58.8%

Total number of investments: 37

Investment mix (March 31, 2025)**How risky is it?**

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	39.7%	April 30, 2016	Your investment would rise to \$1,397
Worst return	-30.8%	March 31, 2020	Your investment would drop to \$692

Average return

The annual compound return of Series F of the fund was 6.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,913.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of the natural resources industry
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 1.19% of its value. This equals \$12 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.10%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	1.19%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	40.0%	April 30, 2016	Your investment would rise to \$1,400
Worst return	-30.6%	March 31, 2020	Your investment would drop to \$694

Average return

The annual compound return of Series I of the fund was 7.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,139.

Who is this fund for?

Consider this fund if:

- you want specific exposure to the growth potential of the natural resources industry
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.09% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	0.09%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.00%, the management fee payable in respect of Series A units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.3%	June 30, 2020	Your investment would rise to \$1,083
Worst return	-7.3%	June 30, 2022	Your investment would drop to \$927

Average return

The annual compound return of Series A of the fund since inception was 4.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,476.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.88% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.83%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.88%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to seek to preserve the value of your investment and provide potential for growth while seeking to reduce portfolio volatility by investing primarily, directly or indirectly, in global equities and fixed income securities. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Risk Reduction Equity Fund, Series I	31.2%

10. BMO Short-Term US TIPS Index ETF, Listed Hedged Units	1.9%

Total percentage of top 10 investments 91.9%

Total number of investments: 22

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.3%	June 30, 2020	Your investment would rise to \$1,083
Worst return	-7.3%	June 30, 2022	Your investment would drop to \$927

Average return

The annual compound return of Advisor Series of the fund since inception was 4.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,476.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.88% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.83%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.88%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.6%	June 30, 2020	Your investment would rise to \$1,086
Worst return	-7.1%	June 30, 2022	Your investment would drop to \$929

Average return

The annual compound return of Series F of the fund since inception was 5.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,649.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.77% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	0.77%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F4 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F4 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F4 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.6%	June 30, 2020	Your investment would rise to \$1,086
Worst return	-7.1%	June 30, 2022	Your investment would drop to \$929

Average return

The annual compound return of Series F4 of the fund since inception was 5.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,579.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F4 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F4 expenses of the fund were 0.77% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F4 units of the fund.	0.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	0.77%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F4 fees	Series F4 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F4 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.6%	June 30, 2020	Your investment would rise to \$1,086
Worst return	-7.1%	June 30, 2022	Your investment would drop to \$929

Average return

The annual compound return of Series F6 of the fund since inception was 5.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,579.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.76% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund.	0.71%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	0.76%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.5%	June 30, 2020	Your investment would rise to \$1,085
Worst return	-7.2%	June 30, 2022	Your investment would drop to \$928

Average return

The annual compound return of Series G of the fund since inception was 5.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,357.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.16% of its value. This equals \$12 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series G units of the fund.	1.11%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.16%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

10. BMO Short-Term US TIPS Index ETF, Listed Hedged Units	1.9%

Total percentage of top 10 investments 91.9%

Total number of investments: 22

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.8%	June 30, 2020	Your investment would rise to \$1,088
Worst return	-7.0%	June 30, 2022	Your investment would drop to \$930

Average return

The annual compound return of Series I of the fund since inception was 5.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,662.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.05% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	0.05%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.50%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.0%	June 30, 2020	Your investment would rise to \$1,070
Worst return	-6.3%	June 30, 2022	Your investment would drop to \$937

Average return

The annual compound return of Series A of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,319.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.82% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.82%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.0%	June 30, 2020	Your investment would rise to \$1,070
Worst return	-6.3%	June 30, 2022	Your investment would drop to \$937

Average return

The annual compound return of Advisor Series of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,319.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.83% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.79%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.83%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Management expense ratio (MER):	1.79%		

What does the fund invest in?

This fund's objective is to seek to preserve the value of your investment and provide moderate potential for growth while seeking to reduce portfolio volatility by investing primarily, directly or indirectly, in global equities and fixed income securities. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Total percentage of top 10 investments 95.3%

Total number of investments: 19

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T4 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T4 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T4 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.0%	June 30, 2020	Your investment would rise to \$1,070
Worst return	-6.3%	June 30, 2022	Your investment would drop to \$937

Average return

The annual compound return of Series T4 of the fund since inception was 2.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,283.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series T4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T4 expenses of the fund were 1.83% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T4 units of the fund.	1.79%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.83%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.71% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.67%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.71%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F4 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F4 of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F4 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.3%	June 30, 2020	Your investment would rise to \$1,073
Worst return	-6.0%	June 30, 2022	Your investment would drop to \$940

Average return

The annual compound return of Series F4 of the fund since inception was 4.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,424.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F4 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F4 expenses of the fund were 0.71% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F4 units of the fund.	0.67%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.71%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F4 fees	Series F4 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F4 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.3%	June 30, 2020	Your investment would rise to \$1,073
Worst return	-6.0%	June 30, 2022	Your investment would drop to \$940

Average return

The annual compound return of Series F6 of the fund since inception was 4.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,424.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.71% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund.	0.67%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.71%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.2%	June 30, 2020	Your investment would rise to \$1,072
Worst return	-6.1%	June 30, 2022	Your investment would drop to \$939

Average return

The annual compound return of Series G of the fund since inception was 3.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,257.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.10% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series G units of the fund.	1.06%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.10%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.04% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.04%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.45%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Date series started:	August 25, 2015	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$496.0 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	1.73%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to seek to preserve the value of your investment and provide some potential for growth while seeking to reduce portfolio volatility by investing primarily, directly or indirectly, in global equities and fixed income securities. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Risk Reduction Fixed Income Fund, Series I	40.9%
2. BMO Risk Reduction Equity Fund, Series I	20.9%
3. BMO Core Plus Bond Fund, ETF Series	16.4%
4. BMO US Aggregate Bond Index ETF, Listed Hedged Units	6.4%
5. BMO Short-Term US TIPS Index ETF, Listed Hedged Units	3.7%
6. BMO Mid-Term US IG Corporate Bond Hedged to CAD Index ETF	3.6%
7. BMO Low Volatility US Equity ETF, Listed CAD Units	2.4%
8. BMO Long Federal Bond Index ETF	2.2%
9. BMO MSCI USA High Quality Index ETF, Listed CAD Units	0.8%
10. BMO Global Infrastructure Index ETF	0.6%

Total percentage of top 10 investments 97.9%

Total number of investments: 17

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.0%	June 30, 2020	Your investment would rise to \$1,060
Worst return	-5.5%	June 30, 2022	Your investment would drop to \$945

Average return

The annual compound return of Series A of the fund since inception was 1.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,200.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.76% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.73%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.76%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.0%	June 30, 2020	Your investment would rise to \$1,060
Worst return	-5.5%	June 30, 2022	Your investment would drop to \$945

Average return

The annual compound return of Advisor Series of the fund since inception was 2.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,211.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.75% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.75%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T4 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T4 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T4 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.0%	June 30, 2020	Your investment would rise to \$1,060
Worst return	-5.5%	June 30, 2022	Your investment would drop to \$945

Average return

The annual compound return of Series T4 of the fund since inception was 1.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,185.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series T4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T4 expenses of the fund were 1.75% of its value. This equals \$18 for every \$1,000 invested.

Annual rate (as a % of the series' value)

Management expense ratio (MER)

This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T4 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.

1.72%

Trading expense ratio (TER)

These are the fund's trading costs.

	FE: BMO34227 LL: BMO33227	Portfolio manager(s):	BMO Asset Management Inc.
Date series started:	August 25, 2015	Distributions:	Monthly (any net income and/or return of capital) and in December (any net capital gains)
Total value of fund on March 31, 2025:	\$496.0 Million	Minimum investment:	\$500 initial, \$50 additional
Management expense ratio (MER):	1.74%		

What does the fund invest in?

This fund's objective is to seek to preserve the value of your investment and provide some potential for growth while seeking to reduce portfolio volatility by investing primarily, directly or indirectly, in global equities and fixed income securities. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Risk Reduction Fixed Income Fund, Series I	40.9%

10. BMO Global Infrastructure Index ETF	0.6%

Total percentage of top 10 investments 97.9%

Total number of investments: 17

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.0%	June 30, 2020	Your investment would rise to \$1,060
Worst return	-5.5%	June 30, 2022	Your investment would drop to \$945

Average return

The annual compound return of Series T6 of the fund since inception was 2.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,211.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.77% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund.	1.74%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.77%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F4 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F4 of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F4 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.3%	June 30, 2020	Your investment would rise to \$1,063
Worst return	-5.2%	June 30, 2022	Your investment would drop to \$948

Average return

The annual compound return of Series F4 of the fund since inception was 3.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,317.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F4 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F4 expenses of the fund were 0.64% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F4 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.61%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.64%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F4 fees	Series F4 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F4 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.3%	June 30, 2020	Your investment would rise to \$1,063
Worst return	-5.2%	June 30, 2022	Your investment would drop to \$948

Average return

The annual compound return of Series F6 of the fund since inception was 3.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,317.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.65% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.62%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.65%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

8. BMO Long Federal Bond Index ETF	2.2%
9. BMO MSCI USA High Quality Index ETF, Listed CAD Units	0.8%
10. BMO Global Infrastructure Index ETF	0.6%

Total percentage of top 10 investments 97.9%

Total number of investments: 17

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.2%	June 30, 2020	Your investment would rise to \$1,062
Worst return	-5.3%	June 30, 2022	Your investment would drop to \$947

Average return

The annual compound return of Series G of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,192.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.04% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series G units of the fund.	1.01%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.04%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.4%	June 30, 2020	Your investment would rise to \$1,064
Worst return	-5.1%	June 30, 2022	Your investment would drop to \$949

Average return

The annual compound return of Series I of the fund since inception was 3.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,375.

Who is this fund for?

Consider this fund if:

- you are at or near retirement seeking reduced portfolio volatility while maintaining some market exposure
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.03% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.03%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.40%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 7 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 7 years. The series dropped in value in 2 of the 7 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 7 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	June 30, 2020	Your investment would rise to \$1,107
Worst return	-10.3%	June 30, 2022	Your investment would drop to \$897

Average return

The annual compound return of Series F of the fund since inception was 6.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,617.

Who is this fund for?

Consider this fund if:

- you are looking for a global equity fund with less volatility for your portfolio
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Units of the fund are not available for purchase in registered plans.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.86% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.73%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.86%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.9%	June 30, 2020	Your investment would rise to \$1,109
Worst return	-10.1%	June 30, 2022	Your investment would drop to \$899

Average return

The annual compound return of Series I of the fund since inception was 7.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,961.

Who is this fund for?

Consider this fund if:

- you are looking for a global equity fund with less volatility for your portfolio
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Units of the fund are not available for purchase in registered plans.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.13% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.13%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.50%.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.2%	December 31, 2023	Your investment would rise to \$1,062
Worst return	-5.1%	March 31, 2022	Your investment would drop to \$949

Average return

The annual compound return of Series I of the fund since inception was 2.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,246.

Who is this fund for?

Consider this fund if:

- you are looking for a global fixed income fund with less volatility for your portfolio
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Units of the fund are not available for purchase in registered plans.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 6 years. The series dropped in value in 2 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.6%	January 31, 2021	Your investment would rise to \$1,176
Worst return	-21.9%	April 30, 2020	Your investment would drop to \$781

Average return

The annual compound return of Series A of the fund since inception was 6.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,497.

Who is this fund for?

Consider this fund if:

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of Canadian equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.07% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.91%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	2.07%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

10. AltaGas Ltd.	6.0%

Total percentage of top 10 investments 69.7%

Total number of investments: 15

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 6 years. The series dropped in value in 2 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.6%	January 31, 2021	Your investment would rise to \$1,176
Worst return	-21.9%	April 30, 2020	Your investment would drop to \$781

Average return

The annual compound return of Advisor Series of the fund since inception was 6.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,497.

Who is this fund for?

Consider this fund if:

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of Canadian equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.04% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.88%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	2.04%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.0%	January 31, 2021	Your investment would rise to \$1,180
Worst return	-21.8%	April 30, 2020	Your investment would drop to \$782

Average return

The annual compound return of Series F of the fund since inception was 7.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,608.

Who is this fund for?

Consider this fund if:

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of Canadian equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.99% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.83%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	0.99%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.2%	January 31, 2021	Your investment would rise to \$1,182
Worst return	-21.6%	April 30, 2020	Your investment would drop to \$784

Average return

The annual compound return of Series I of the fund since inception was 8.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,686.

Who is this fund for?

Consider this fund if:

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of Canadian equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.16% of its value. This equals \$2 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	0.16%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.65%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.7%	February 29, 2024	Your investment would rise to \$1,177
Worst return	-15.1%	April 30, 2020	Your investment would drop to \$849

Average return

The annual compound return of Series A of the fund since inception was 9.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,747.

Who is this fund for?**Consider this fund if:**

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of North American equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.87%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.7%	February 29, 2024	Your investment would rise to \$1,177
Worst return	-15.0%	April 30, 2020	Your investment would drop to \$850

Average return

The annual compound return of Advisor Series of the fund since inception was 9.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,757.

Who is this fund for?**Consider this fund if:**

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of North American equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.95% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.88%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	1.95%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.0%	February 29, 2024	Your investment would rise to \$1,180
Worst return	-14.8%	April 30, 2020	Your investment would drop to \$852

Average return

The annual compound return of Series F of the fund since inception was 10.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,873.

Who is this fund for?**Consider this fund if:**

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of North American equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.88% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.81%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.88%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.3%	February 29, 2024	Your investment would rise to \$1,183
Worst return	-14.7%	April 30, 2020	Your investment would drop to \$853

Average return

The annual compound return of Series I of the fund since inception was 11.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,973.

Who is this fund for?**Consider this fund if:**

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of North American equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.07% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.07%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.70%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series S units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series S of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series S units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.1%	February 29, 2024	Your investment would rise to \$1,181
Worst return	-6.6%	October 31, 2023	Your investment would drop to \$934

Average return

The annual compound return of Series S of the fund since inception was 10.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,697.

Who is this fund for?**Consider this fund if:**

- you are seeking long-term capital growth from your investment
- you are comfortable with a highly concentrated portfolio of North American equity investments that adjusts to current market conditions
- you are comfortable with medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series S units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series S units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series S expenses of the fund were 0.53% of its value. This equals \$5 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series S units of the fund.	0.46%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.53%

3. Other fees

Series S units are for investors who participate in a separate managed account or discretionary management program through a representative's firm who has entered into an agreement with BMO Investments Inc. and only with BMO Investments Inc.'s prior approval.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.5%	June 30, 2020	Your investment would rise to \$1,105
Worst return	-11.1%	March 31, 2020	Your investment would drop to \$889

Average return

The annual compound return of Series A of the fund was 4.2% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,509.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series A expenses of the fund were 2.51% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	2.40%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	2.51%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.5%	June 30, 2020	Your investment would rise to \$1,105
Worst return	-11.1%	March 31, 2020	Your investment would drop to \$889

Average return

The annual compound return of Advisor Series of the fund was 4.2% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,509.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Advisor Series expenses of the fund were 2.47% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	2.36%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	2.47%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.5%	June 30, 2020	Your investment would rise to \$1,105
Worst return	-11.1%	March 31, 2020	Your investment would drop to \$889

Average return

The annual compound return of Series T6 of the fund was 4.2% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,509.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series T6 expenses of the fund were 2.51% of its value. This equals \$25 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund.	2.40%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	2.51%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.8%	June 30, 2020	Your investment would rise to \$1,108
Worst return	-10.9%	March 31, 2020	Your investment would drop to \$891

Average return

The annual compound return of Series F of the fund since inception was 5.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,674.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F expenses of the fund were 1.40% of its value. This equals \$14 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.29%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	1.40%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.8%	June 30, 2020	Your investment would rise to \$1,108
Worst return	-10.9%	March 31, 2020	Your investment would drop to \$891

Average return

The annual compound return of Series F6 of the fund since inception was 5.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,676.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F6 expenses of the fund were 1.40% of its value. This equals \$14 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund.	1.29%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	1.40%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.2%	June 30, 2020	Your investment would rise to \$1,112
Worst return	-10.6%	March 31, 2020	Your investment would drop to \$894

Average return

The annual compound return of Series I of the fund was 6.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,913.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series I expenses of the fund were 0.11% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.11%
Fund expenses	0.11%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.90%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	June 30, 2020	Your investment would rise to \$1,092
Worst return	-9.1%	June 30, 2022	Your investment would drop to \$909

Average return

The annual compound return of Series A of the fund was 2.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,305.

Who is this fund for?

Consider this fund if:

- you want an conservative investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series A expenses of the fund were 2.38% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	2.30%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	2.38%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	June 30, 2020	Your investment would rise to \$1,092
Worst return	-9.1%	June 30, 2022	Your investment would drop to \$909

Average return

The annual compound return of Advisor Series of the fund was 2.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,318.

Who is this fund for?

Consider this fund if:

- you want an conservative investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Advisor Series expenses of the fund were 2.34% of its value. This equals \$23 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	2.26%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	2.34%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	June 30, 2020	Your investment would rise to \$1,092
Worst return	-9.1%	June 30, 2022	Your investment would drop to \$909

Average return

The annual compound return of Series T6 of the fund was 2.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,305.

Who is this fund for?

Consider this fund if:

- you want an conservative investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series T6 expenses of the fund were 2.38% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund.	2.30%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	2.38%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.5%	June 30, 2020	Your investment would rise to \$1,095
Worst return	-8.8%	June 30, 2022	Your investment would drop to \$912

Average return

The annual compound return of Series F of the fund since inception was 4.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,476.

Who is this fund for?

Consider this fund if:

- you want an conservative investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F expenses of the fund were 1.25% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.17%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	1.25%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.8%	June 30, 2020	Your investment would rise to \$1,098
Worst return	-8.6%	June 30, 2022	Your investment would drop to \$914

Average return

The annual compound return of Series I of the fund was 5.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,629.

Who is this fund for?

Consider this fund if:

- you want an conservative investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series I expenses of the fund were 0.08% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	0.08%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.80%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total percentage of top 10 investments 86.5%	

Total number of investments: 38

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.1%	June 30, 2020	Your investment would rise to \$1,141
Worst return	-18.0%	March 31, 2020	Your investment would drop to \$820

Average return

The annual compound return of Series A of the fund was 6.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,931.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series A expenses of the fund were 2.77% of its value. This equals \$28 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	2.61%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	2.77%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Advisor Series expenses of the fund were 2.74% of its value. This equals \$27 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	2.58%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	2.74%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

Worst return	-18.0%	March 31, 2020	Your investment would drop to \$820

Average return

The annual compound return of Series T6 of the fund was 6.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,931.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series T6 expenses of the fund were 2.81% of its value. This equals \$28 for every \$1,000 invested.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.4%	June 30, 2020	Your investment would rise to \$1,144
Worst return	-17.8%	March 31, 2020	Your investment would drop to \$822

Average return

The annual compound return of Series F of the fund since inception was 8.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,145.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F expenses of the fund were 1.66% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.50%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	1.66%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.4%	June 30, 2020	Your investment would rise to \$1,144
Worst return	-17.8%	March 31, 2020	Your investment would drop to \$822

Average return

The annual compound return of Series F6 of the fund since inception was 9.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,174.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.9%	June 30, 2020	Your investment would rise to \$1,149
Worst return	-17.5%	March 31, 2020	Your investment would drop to \$825

Average return

The annual compound return of Series I of the fund was 9.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,524.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series I expenses of the fund were 0.16% of its value. This equals \$2 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.16%
Fund expenses	0.16%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.10%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total value of fund on March 31, 2025:	\$23.4 Million	Distributions:	Quarterly in March, June, September and December (any net income) and in December (any net capital gains)
Management expense ratio (MER)*:	2.10%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.64% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and generate income by investing primarily in mutual funds that invest in lower risk asset classes in Canada, the U.S. and internationally, like cash or cash equivalents or fixed income securities, with a lesser exposure to mutual funds invested in equity securities with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates. The fund's asset mix may be changed over time to reflect the portfolio manager's long-term outlook for each asset class.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Total number of investments: 12

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 5 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.2%	December 31, 2023	Your investment would rise to \$1,072
Worst return	-7.0%	April 30, 2022	Your investment would drop to \$930

Average return

The annual compound return of Series A of the fund was -0.2% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$980.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with a low level of volatility
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.13% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.10%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	2.13%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.06% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. Fund expenses	2.06%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 10 years. The series dropped in value in 5 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.2%	December 31, 2023	Your investment would rise to \$1,072
Worst return	-7.0%	April 30, 2022	Your investment would drop to \$930

Average return

The annual compound return of Series T6 of the fund was -0.2% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$980.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with a low level of volatility
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

Management expense ratio (MER):	1.07%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to preserve the value of your investment and generate income by investing primarily in mutual funds that invest in lower risk asset classes in Canada, the U.S. and internationally, like cash or cash equivalents or fixed income securities, with a lesser exposure to mutual funds invested in equity securities with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates. The fund's asset mix may be changed over time to reflect the portfolio manager's long-term outlook for each asset class.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Core Bond Fund, Series I	19.1%

10. BMO Strategic Equity Yield Fund, Series I	4.7%

Total percentage of top 10 investments 98.2%

Total number of investments: 12

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.5%	December 31, 2023	Your investment would rise to \$1,075
Worst return	-6.8%	April 30, 2022	Your investment would drop to \$932

Average return

The annual compound return of Series F of the fund since inception was 0.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,088.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with a low level of volatility
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 1.10% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.07%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.10%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.5%	December 31, 2023	Your investment would rise to \$1,075
Worst return	-6.8%	April 30, 2022	Your investment would drop to \$932

Average return

The annual compound return of Series F6 of the fund since inception was -0.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$979.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with a low level of volatility
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 1.10% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.07%

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.8%	December 31, 2023	Your investment would rise to \$1,078
Worst return	-6.5%	April 30, 2022	Your investment would drop to \$935

Average return

The annual compound return of Series I of the fund was 1.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,207.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with a low level of volatility
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.03% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.03%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.70%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.7%	June 30, 2020	Your investment would rise to \$1,127
Worst return	-15.1%	March 31, 2020	Your investment would drop to \$849

Average return

The annual compound return of Series A of the fund was 5.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,724.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series A expenses of the fund were 2.63% of its value. This equals \$26 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	2.50%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	2.63%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.7%	June 30, 2020	Your investment would rise to \$1,127
Worst return	-15.1%	March 31, 2020	Your investment would drop to \$849

Average return

The annual compound return of Advisor Series of the fund was 5.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,741.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Advisor Series expenses of the fund were 2.58% of its value. This equals \$26 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	2.45%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	2.58%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.0%	June 30, 2020	Your investment would rise to \$1,130
Worst return	-14.9%	March 31, 2020	Your investment would drop to \$851

Average return

The annual compound return of Series F of the fund since inception was 7.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,913.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F expenses of the fund were 1.53% of its value. This equals \$15 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.40%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	1.53%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.0%	June 30, 2020	Your investment would rise to \$1,130
Worst return	-14.9%	March 31, 2020	Your investment would drop to \$851

Average return

The annual compound return of Series F6 of the fund since inception was 7.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,935.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F6 expenses of the fund were 1.51% of its value. This equals \$15 for every \$1,000 invested.

	Annual rate (as a % of the series' value)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.4%	June 30, 2020	Your investment would rise to \$1,134
Worst return	-14.6%	March 31, 2020	Your investment would drop to \$854

Average return

The annual compound return of Series I of the fund was 8.3% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,220.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series I expenses of the fund were 0.13% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.13%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.00%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.8%	June 30, 2020	Your investment would rise to \$1,078
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Series A of the fund was 1.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,184.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series A expenses of the fund were 2.29% of its value. This equals \$23 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	2.23%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	2.29%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.8%	June 30, 2020	Your investment would rise to \$1,078
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Advisor Series of the fund was 1.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,195.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Advisor Series expenses of the fund were 2.25% of its value. This equals \$23 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	2.19%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	2.25%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.8%	June 30, 2020	Your investment would rise to \$1,078
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Series T6 of the fund was 1.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,184.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series T6 expenses of the fund were 2.29% of its value. This equals \$23 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund.	2.23%

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.1%	June 30, 2020	Your investment would rise to \$1,081
Worst return	-8.1%	June 30, 2022	Your investment would drop to \$919

Average return

The annual compound return of Series F of the fund since inception was 3.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,335.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F expenses of the fund were 1.17% of its value. This equals \$12 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	1.11%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.17%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.1%	June 30, 2020	Your investment would rise to \$1,081
Worst return	-8.1%	June 30, 2022	Your investment would drop to \$919

Average return

The annual compound return of Series F6 of the fund since inception was 3.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,317.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series F6 expenses of the fund were 1.18% of its value. This equals \$12 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund.	1.12%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.18%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 1 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.4%	June 30, 2020	Your investment would rise to \$1,084
Worst return	-7.9%	June 30, 2022	Your investment would drop to \$921

Average return

The annual compound return of Series I of the fund was 4.1% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,495.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of December 31, 2024, the Series I expenses of the fund were 0.06% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.06%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.75%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Quick facts

Fund code(s):	BMO70290	Fund manager:	BMO Investments Inc.
Date series started:	June 16, 2023	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$558.3 Million	Distributions:	Monthly as determined by the manager which may be comprised of net income, net capital gains and/or return of capital
Management expense ratio (MER)*:	1.80%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.64% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

The fund's objective is to provide investors with the opportunity for capital appreciation and regular distributions while mitigating the downside risk associated with a direct investment in the global equity markets by investing primarily, either directly or indirectly, in global equity securities including through the use of derivatives and/or structured notes from domestic and/or international issuers that provide exposure to global equity securities. The fund will seek to replicate the outcome of an actively managed portfolio of diversified structured notes offered by domestic and/or international issuers.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	5.8%	January 31, 2024	Your investment would rise to \$1,058
Worst return	-1.1%	December 31, 2024	Your investment would drop to \$989

Average return

The annual compound return of Series A of the fund since inception was 1.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,030.

Who is this fund for?**Consider this fund if:**

- you want the opportunity for capital appreciation over the long term;
- you want monthly distributions;
- you are seeking an attractive risk-adjusted rate of return;
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.80% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.80%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.80%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.64% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

The fund's objective is to provide investors with the opportunity for capital appreciation and regular distributions while mitigating the downside risk associated with a direct investment in the global equity markets by investing primarily, either directly or indirectly, in global equity securities including through the use of derivatives and/or structured notes from domestic and/or international issuers that provide exposure to global equity securities. The fund will seek to replicate the outcome of an actively managed portfolio of diversified structured notes offered by domestic and/or international issuers.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	5.8%	January 31, 2024	Your investment would rise to \$1,058
Worst return	-1.0%	December 31, 2024	Your investment would drop to \$990

Average return

The annual compound return of Advisor Series of the fund since inception was 1.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,030.

Who is this fund for?**Consider this fund if:**

- you want the opportunity for capital appreciation over the long term;
- you want monthly distributions;
- you are seeking an attractive risk-adjusted rate of return;
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.76% of its value. This equals \$18 for every \$1,000 invested.

		Annual rate (as a % of the series' value)
Management expense ratio (MER)		
This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.		1.76%
Trading expense ratio (TER)		
These are the fund's trading costs.		0.00%
Fund expenses		1.76%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.1%	January 31, 2024	Your investment would rise to \$1,061
Worst return	-0.8%	December 31, 2024	Your investment would drop to \$992

Average return

The annual compound return of Series F of the fund since inception was 2.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,051.

Who is this fund for?**Consider this fund if:**

- you want the opportunity for capital appreciation over the long term;
- you want monthly distributions;
- you are seeking an attractive risk-adjusted rate of return;
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.67% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.67%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.67%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series S units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

The year-by-year returns are not available for Series S as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

The best and worst 3-month returns are not available for Series S as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Average return

The average return is not available for Series S as it has not been distributed to the public under a simplified prospectus for 12 consecutive months.

Who is this fund for?

Consider this fund if:

- you want the opportunity for capital appreciation over the long term;
- you want monthly distributions;
- you are seeking an attractive risk-adjusted rate of return;
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series S units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series S units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

The fund's expenses are made up of the management fee, operating expenses and trading costs. This series' annual management fee is 0.35% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

3. Other fees

Series S units are for investors who participate in a separate managed account or discretionary management program through a representative's firm who has entered into an agreement with BMO Investments Inc. and only with BMO Investments Inc.'s prior approval.

Fee

What you pay

Short-term trading fee

0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.30% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.30%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.30%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

Fund expenses	1.24%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

The year-by-year returns are not available for Series F as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

The best and worst 3-month returns are not available for Series F as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Average return

The average return is not available for Series F as it has not been distributed to the public under a simplified prospectus for 12 consecutive months.

Who is this fund for?**Consider this fund if:**

- you are looking to earn higher income
- you want monthly distributions
- are comfortable with interest rate risk
- want to hold a mix of Canadian and global fixed income securities
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.72% of its value. This equals \$7 for every \$1,000 invested.

Annual rate (as a % of the series' value)**Management expense ratio (MER)**

This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.

0.72%

Trading expense ratio (TER)

These are the fund's trading costs.

0.00%

Fund expenses

0.72%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

Because this is a new fund, the risk rating is only an estimate by BMO Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

The year-by-year returns are not available for Series I as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

The best and worst 3-month returns are not available for Series I as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Average return

The average return is not available for Series I as it has not been distributed to the public under a simplified prospectus for 12 consecutive months.

Who is this fund for?**Consider this fund if:**

- you are looking to earn higher income
- you want monthly distributions
- are comfortable with interest rate risk
- want to hold a mix of Canadian and global fixed income securities
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.00% of its value. This equals \$0 for every \$1,000 invested.

Annual rate (as a % of the series' value)**Management expense ratio (MER)**

Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.

0.00%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 0.95%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.3%	January 31, 2024	Your investment would rise to \$1,103
Worst return	-11.0%	June 30, 2022	Your investment would drop to \$890

Average return

The annual compound return of Series A of the fund since inception was 3.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,173.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.88% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.88%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.3%	January 31, 2024	Your investment would rise to \$1,103
Worst return	-11.0%	June 30, 2022	Your investment would drop to \$890

Average return

The annual compound return of Advisor Series of the fund since inception was 3.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,173.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.90% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.87%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.90%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total value of fund on March 31, 2025:	\$107.6 Million	Minimum investment:	\$500 initial, \$50 additional
Management expense ratio (MER):	1.86%		

What does the fund invest in?

This fund's objective is to generate a balance of income and potential for growth by investing primarily, directly or indirectly, in global equities and fixed income securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.3%	January 31, 2024	Your investment would rise to \$1,103
Worst return	-11.0%	June 30, 2022	Your investment would drop to \$890

Average return

The annual compound return of Series T6 of the fund since inception was 3.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,173.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.89% of its value. This equals \$19 for every \$1,000 invested.

Annual rate (as a % of the series' value)

Management expense ratio (MER)

This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.

1.86%

Trading expense ratio (TER)

These are the fund's trading costs.

0.03%

Fund expenses

1.89%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee

What you pay

Short-term trading fee

0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

Switch fee

You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Management expense ratio (MER):	1.24%	Distributions:	Annually in December (any net income and any net capital gains)
		Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to generate a balance of income and potential for growth by investing primarily, directly or indirectly, in global equities and fixed income securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.5%	January 31, 2024	Your investment would rise to \$1,105
Worst return	-10.8%	June 30, 2022	Your investment would drop to \$892

Average return

The annual compound return of Series G of the fund since inception was 2.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,088.

Who is this fund for?

Consider this fund if:

- you want a balanced investment with potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.27% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.24%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.27%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to provide income along with the opportunity for growth by investing primarily in Canadian dollar denominated debt instruments using a responsible investment approach. The fund invests primarily in Canadian dollar denominated investment grade fixed income instruments such as debt securities issued or guaranteed by Canadian federal and provincial governments or issued by Canadian corporations and may also invest in non-investment grade debt instruments, loans and any other debt obligations. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process. The fund may invest up to 30% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.4%	December 31, 2023	Your investment would rise to \$1,074
Worst return	-7.3%	March 31, 2022	Your investment would drop to \$927

Average return

The annual compound return of Series A of the fund since inception was -0.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$977.

Who is this fund for?

Consider this fund if:

- you are looking for a Canadian fixed income fund for your portfolio that uses a responsible investment approach
- you want the potential for income from government and corporate bonds, which form part of the fund's portfolio
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.07% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.05%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.07%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.4%	December 31, 2023	Your investment would rise to \$1,074
Worst return	-7.3%	March 31, 2022	Your investment would drop to \$927

Average return

The annual compound return of Advisor Series of the fund since inception was -0.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$977.

Who is this fund for?

Consider this fund if:

- you are looking for a Canadian fixed income fund for your portfolio that uses a responsible investment approach
- you want the potential for income from government and corporate bonds, which form part of the fund's portfolio
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.09% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.07%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.09%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Management expense ratio (MER):	0.51%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide income along with the opportunity for growth by investing primarily in Canadian dollar denominated debt instruments using a responsible investment approach. The fund invests primarily in Canadian dollar denominated investment grade fixed income instruments such as debt securities issued or guaranteed by Canadian federal and provincial governments or issued by Canadian corporations and may also invest in non-investment grade debt instruments, loans and any other debt obligations. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process. The fund may invest up to 30% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	7.6%	December 31, 2023	Your investment would rise to \$1,076
Worst return	-7.2%	March 31, 2022	Your investment would drop to \$928

Average return

The annual compound return of Series F of the fund since inception was -0.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$996.

Who is this fund for?

Consider this fund if:

- you are looking for a Canadian fixed income fund for your portfolio that uses a responsible investment approach
- you want the potential for income from government and corporate bonds, which form part of the fund's portfolio
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.53% of its value. This equals \$5 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.51%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.53%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.0%	January 31, 2024	Your investment would rise to \$1,090
Worst return	-9.4%	June 30, 2022	Your investment would drop to \$906

Average return

The annual compound return of Series A of the fund since inception was 1.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,071.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.99% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.97%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.99%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide moderate potential for growth by investing primarily, directly or indirectly, in global equities and fixed income securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Total percentage of top 10 investments 88.1%

Total number of investments: 15

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.0%	January 31, 2024	Your investment would rise to \$1,090
Worst return	-9.5%	June 30, 2022	Your investment would drop to \$905

Average return

The annual compound return of Advisor Series of the fund since inception was 1.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,071.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.00% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.98%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.00%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.0%	January 31, 2024	Your investment would rise to \$1,090
Worst return	-9.4%	June 30, 2022	Your investment would drop to \$906

Average return

The annual compound return of Series T6 of the fund since inception was 1.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,071.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.3%	January 31, 2024	Your investment would rise to \$1,093
Worst return	-9.2%	June 30, 2022	Your investment would drop to \$908

Average return

The annual compound return of Series F of the fund since inception was 2.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,131.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.87% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.87%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide moderate potential for growth by investing primarily, directly or indirectly, in global equities and fixed income securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Sustainable Bond Fund, Series I	20.7%
2. BMO ESG US Corporate Bond Hedged to CAD Index ETF	13.3%
3. BMO Government Bond Index ETF	12.9%
4. BMO MSCI EAFE Selection Equity Index ETF	10.9%
5. BMO MSCI USA Selection Equity Index ETF, Listed CAD Units	10.3%
6. BMO Sustainable Opportunities Global Equity Fund, Series I	4.4%

8. BMO Women in Leadership Fund, Series I	4.0%
9. BMO Sustainable Opportunities Canadian Equity Fund, Series I	3.8%
10. BMO ESG Corporate Bond Index ETF	3.8%

Total percentage of top 10 investments 88.1%

Total number of investments: 15

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.3%	January 31, 2024	Your investment would rise to \$1,093
Worst return	-9.2%	June 30, 2022	Your investment would drop to \$908

Average return

The annual compound return of Series F6 of the fund since inception was 2.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,121.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.87% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.87%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	January 31, 2024	Your investment would rise to \$1,092
Worst return	-9.3%	June 30, 2022	Your investment would drop to \$907

Average return

The annual compound return of Series G of the fund since inception was 1.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,045.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.26% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.24%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.26%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.5%	January 31, 2024	Your investment would rise to \$1,095
Worst return	-9.1%	June 30, 2022	Your investment would drop to \$909

Average return

The annual compound return of Series I of the fund since inception was 3.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,162.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for some capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.02% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.02%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.4%	January 31, 2024	Your investment would rise to \$1,134
Worst return	1.8%	December 31, 2024	Your investment would rise to \$1,018

Average return

The annual compound return of Series A of the fund since inception was 12.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,245.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.09% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.03%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	2.09%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.4%	January 31, 2024	Your investment would rise to \$1,134
Worst return	1.9%	December 31, 2024	Your investment would rise to \$1,019

Average return

The annual compound return of Advisor Series of the fund since inception was 12.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,247.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.96% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.96%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.4%	January 31, 2024	Your investment would rise to \$1,134
Worst return	1.8%	December 31, 2024	Your investment would rise to \$1,018

Average return

The annual compound return of Series T6 of the fund since inception was 12.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,245.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 2.09% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.03%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	2.09%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. Worst return	2.1%	December 31, 2024	Your investment would rise to \$1,021

Average return

The annual compound return of Series F of the fund since inception was 13.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,272.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.96% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.96%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

What does the fund invest in?

This fund's objective is to provide long term growth by investing primarily, directly or indirectly, in global equity securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO MSCI USA Selection Equity Index ETF, Listed CAD Units	26.7%
2. BMO MSCI EAFE Selection Equity Index ETF	25.4%

8. The Royal Mint Physical Gold ETC Securities	3.7%
9. Cash/Receivables /Payables	2.0%

Total percentage of top 9 investments 100.0%

Total number of investments: 8

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.7%	January 31, 2024	Your investment would rise to \$1,137
Worst return	2.1%	December 31, 2024	Your investment would rise to \$1,021

Average return

The annual compound return of Series F6 of the fund since inception was 13.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,272.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.96% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.96%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.6%	January 31, 2024	Your investment would rise to \$1,136
Worst return	2.0%	December 31, 2024	Your investment would rise to \$1,020

Average return

The annual compound return of Series G of the fund since inception was 13.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,264.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.36% of its value. This equals \$14 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.30%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	1.36%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.0%	January 31, 2024	Your investment would rise to \$1,140
Worst return	2.3%	December 31, 2024	Your investment would rise to \$1,023

Average return

The annual compound return of Series I of the fund since inception was 14.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,293.

Who is this fund for?

Consider this fund if:

- you want an equity growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.06% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.06%
Fund expenses	0.06%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for this series was reduced from 1.70% to 1.60%

Quick facts

Fund code(s):	BMO70218	Fund manager:	BMO Investments Inc.
Date series started:	November 13, 2014	Portfolio manager(s):	Columbia Threadneedle Management Limited
Total value of fund on March 31, 2025:	\$56.7 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER)*:	2.08%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 2.03% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to provide long-term capital growth consistent with the preservation of capital by investing primarily in a balanced portfolio of global equity and fixed income securities using a responsible investment approach. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 1 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.0%	January 31, 2024	Your investment would rise to \$1,120
Worst return	-11.0%	March 31, 2022	Your investment would drop to \$890

Average return

The annual compound return of Series A of the fund was 3.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,397.

Who is this fund for?**Consider this fund if:**

- you want a balanced mix of global equities and fixed income investments
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.09% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.08%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.09%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	0-5% of the amount you invest.	\$0 to \$50 for every \$1,000 you buy.	- The sales charge is negotiable between you and your representative's firm. - The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.10% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.09%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.10%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.88% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.87%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.88%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 1 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.6%	January 31, 2024	Your investment would rise to \$1,126
Worst return	-10.6%	March 31, 2022	Your investment would drop to \$894

Average return

The annual compound return of Series I of the fund was 5.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,692.

Who is this fund for?**Consider this fund if:**

- you want a balanced mix of global equities and fixed income investments
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.70%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 6 years. The series dropped in value in 2 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.3%	June 30, 2020	Your investment would rise to \$1,063
Worst return	-7.3%	June 30, 2022	Your investment would drop to \$927

Average return

The annual compound return of Series A of the fund since inception was 2.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,156.

Who is this fund for?**Consider this fund if:**

- you are looking for a global fixed income fund for your portfolio with a focus on total return
- you want an investment that uses a responsible investment approach
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.08% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.08%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.08%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 6 years. The series dropped in value in 2 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.3%	June 30, 2020	Your investment would rise to \$1,063
Worst return	-7.3%	June 30, 2022	Your investment would drop to \$927

Average return

The annual compound return of Advisor Series of the fund since inception was 2.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,156.

Who is this fund for?**Consider this fund if:**

- you are looking for a global fixed income fund for your portfolio with a focus on total return
- you want an investment that uses a responsible investment approach
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.11% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.11%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.11%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

What does the fund invest in?

This fund's objective is to provide a high level of interest income along with the opportunity for growth by investing primarily in a portfolio of global fixed income securities using a responsible investment approach. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.5%	June 30, 2020	Your investment would rise to \$1,065
Worst return	-7.2%	June 30, 2022	Your investment would drop to \$928

Average return

The annual compound return of Series F of the fund since inception was 2.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,204.

Who is this fund for?**Consider this fund if:**

- you are looking for a global fixed income fund for your portfolio with a focus on total return
- you want an investment that uses a responsible investment approach
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.64% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.64%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.64%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.7%	January 31, 2024	Your investment would rise to \$1,117
Worst return	-12.4%	June 30, 2022	Your investment would drop to \$876

Average return

The annual compound return of Series A of the fund since inception was 5.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,304.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.90% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.87%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.90%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.6%	January 31, 2024	Your investment would rise to \$1,116
Worst return	-12.5%	June 30, 2022	Your investment would drop to \$875

Average return

The annual compound return of Advisor Series of the fund since inception was 5.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,304.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.92% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.89%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.92%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.88% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.88%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.88% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.88%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.0%	January 31, 2024	Your investment would rise to \$1,120
Worst return	-12.2%	June 30, 2022	Your investment would drop to \$878

Average return

The annual compound return of Series F6 of the fund since inception was 7.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,368.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.87% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.84%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.87%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.8%	January 31, 2024	Your investment would rise to \$1,118
Worst return	-12.3%	June 30, 2022	Your investment would drop to \$877

Average return

The annual compound return of Series G of the fund since inception was 3.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,141.

Who is this fund for?

Consider this fund if:

- you want a growth oriented investment with the potential for capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.27% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.24%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.27%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.03% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.03%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.4%	January 31, 2024	Your investment would rise to \$1,084
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Series A of the fund since inception was -0.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$995.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.00% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.98%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.00%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total percentage of top 10 investments 92.0%

Total number of investments: 15

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.4%	January 31, 2024	Your investment would rise to \$1,084
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Advisor Series of the fund since inception was 0.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,000.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.00% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.98%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.00%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.4%	January 31, 2024	Your investment would rise to \$1,084
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Series T6 of the fund since inception was 0.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,000.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.7%	January 31, 2024	Your investment would rise to \$1,087
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Series F of the fund since inception was 1.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,052.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.87% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.87%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide some potential for growth by investing primarily, directly or indirectly, in global equities and fixed income securities selected using a responsible investment approach. The fund will generally invest in underlying funds that meet certain ESG criteria with such underlying funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Sustainable Bond Fund, Series I	25.8%
2. BMO ESG US Corporate Bond Hedged to CAD Index ETF	22.7%
3. BMO Government Bond Index ETF	8.7%
4. BMO MSCI USA Selection Equity Index ETF, Listed CAD Units	7.7%

10. BMO Sustainable Opportunities Canadian Equity Fund, Series I	2.4%

Total percentage of top 10 investments 92.0%

Total number of investments: 15

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.7%	January 31, 2024	Your investment would rise to \$1,087
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Series F6 of the fund since inception was 1.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,047.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.87% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.87%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.6%	January 31, 2024	Your investment would rise to \$1,086
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Series G of the fund since inception was 0.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,000.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.26% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.24%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.26%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.9%	January 31, 2024	Your investment would rise to \$1,089
Worst return	-8.1%	June 30, 2022	Your investment would drop to \$919

Average return

The annual compound return of Series I of the fund since inception was 1.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,086.

Who is this fund for?

Consider this fund if:

- you want a conservative investment with the potential for limited capital appreciation
- you want an investment that uses a responsible investment approach
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.02% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.02%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.9%	January 31, 2024	Your investment would rise to \$1,179
Worst return	-14.7%	June 30, 2022	Your investment would drop to \$853

Average return

The annual compound return of Series A of the fund since inception was 8.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,481.

Who is this fund for?

Consider this fund if:

- you want to diversify your portfolio with a Canadian equity fund that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.80% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.79%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.80%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total number of investments: 37

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.9%	January 31, 2024	Your investment would rise to \$1,179
Worst return	-14.7%	June 30, 2022	Your investment would drop to \$853

Average return

The annual compound return of Advisor Series of the fund since inception was 8.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,481.

Who is this fund for?

Consider this fund if:

- you want to diversify your portfolio with a Canadian equity fund that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.78% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.77%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.78%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.68% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.67%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.68%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.5%	January 31, 2024	Your investment would rise to \$1,185
Worst return	-14.3%	June 30, 2022	Your investment would drop to \$857

Average return

The annual compound return of Series I of the fund since inception was 10.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,613.

Who is this fund for?

Consider this fund if:

- you want to diversify your portfolio with a Canadian equity fund that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.50%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Fund code(s):	BMO55111	Fund manager:	BMO Investments Inc.
Date series started:	December 17, 2020	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$53.7 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	0.17%	Minimum investment:	Determined on a contractual basis

What does the fund invest in?

This fund's objective is to achieve long-term capital appreciation by investing primarily in Canadian equity securities using a responsible investment approach. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. Royal Bank of Canada	8.4%
2. Brookfield Corporation, Class A	5.8%
3. Waste Connections, Inc.	5.7%
4. Constellation Software Inc.	5.7%
5. Toronto-Dominion Bank, The,	5.7%
6. Shopify Inc., Class A	5.2%

10. Thomson Reuters Corporation	3.5%

Total percentage of top 10 investments 51.6%

Total number of investments: 37

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series O units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series O of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.4%	January 31, 2024	Your investment would rise to \$1,184
Worst return	-14.4%	June 30, 2022	Your investment would drop to \$856

Average return

The annual compound return of Series O of the fund since inception was 8.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,411.

Who is this fund for?

Consider this fund if:

- you want to diversify your portfolio with a Canadian equity fund that uses a responsible investment approach
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series O units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series O expenses of the fund were 0.18% of its value. This equals \$2 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series O units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.17%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.18%

3. Other fees

Series O units are for investors who have entered into an investment management agreement with BMO Private Investment Counsel Inc. or BMO Nesbitt Burns Inc.

Fee	What you pay
Series O fee	Series O investors pay a separate fee directly to their representative's firm, a portion of which may be paid to BMO Investments Inc.
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.7%	June 30, 2020	Your investment would rise to \$1,177
Worst return	-15.1%	March 31, 2022	Your investment would drop to \$849

Average return

The annual compound return of Series A of the fund since inception was 9.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,247.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a global equity fund that excludes issuers that are primarily involved in the development and infrastructure of fossil fuels
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.83% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.81%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.83%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Worst return	-15.1%	March 31, 2022	Your investment would drop to \$849

Average return

The annual compound return of Advisor Series of the fund since inception was 9.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,265.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a global equity fund that excludes issuers that are primarily involved in the development and infrastructure of fossil fuels
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.82% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.80%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.82%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to provide long-term growth of capital by investing in a globally diversified portfolio of equity securities and excludes issuers that are primarily involved in the development and infrastructure of fossil fuels. The fund uses general ESG integration, positive screening, exclusionary screening by industry and exclusionary screening by rating in the security selection process.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.0%	June 30, 2020	Your investment would rise to \$1,180
Worst return	-14.9%	March 31, 2022	Your investment would drop to \$851

Average return

The annual compound return of Series F of the fund since inception was 10.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,479.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a global equity fund that excludes issuers that are primarily involved in the development and infrastructure of fossil fuels
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.73% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.71%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.73%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series O units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series O of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.1%	June 30, 2020	Your investment would rise to \$1,191
Worst return	-14.8%	March 31, 2022	Your investment would drop to \$852

Average return

The annual compound return of Series O of the fund since inception was 9.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,622.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a global equity fund that excludes issuers that are primarily involved in the development and infrastructure of fossil fuels
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series O units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series O expenses of the fund were 0.24% of its value. This equals \$2 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series O units of the fund.	0.22%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.24%

3. Other fees

Series O units are for investors who have entered into an investment management agreement with BMO Private Investment Counsel Inc. or BMO Nesbitt Burns Inc.

Fee	What you pay
Series O fee	Series O investors pay a separate fee directly to their representative's firm, a portion of which may be paid to BMO Investments Inc.
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series S units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series S of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series S units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.1%	June 30, 2020	Your investment would rise to \$1,181
Worst return	-14.8%	March 31, 2022	Your investment would drop to \$852

Average return

The annual compound return of Series S of the fund since inception was 9.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,600.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a global equity fund that excludes issuers that are primarily involved in the development and infrastructure of fossil fuels
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series S units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series S units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series S expenses of the fund were 0.40% of its value. This equals \$4 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series S units of the fund.	0.38%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.40%

3. Other fees

Series S units are for investors who participate in a separate managed account or discretionary management program through a representative's firm who has entered into an agreement with BMO Investments Inc. and only with BMO Investments Inc.'s prior approval.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 9 years. The series dropped in value in 1 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.6%	January 31, 2023	Your investment would rise to \$1,146
Worst return	-10.1%	June 30, 2022	Your investment would drop to \$899

Average return

The annual compound return of Series A of the fund was 2.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,293.

Who is this fund for?

Consider this fund if:

- you are looking for a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.82% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.77%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.82%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.86% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.81%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.86%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.9%	January 31, 2023	Your investment would rise to \$1,149
Worst return	-9.9%	June 30, 2022	Your investment would drop to \$901

Average return

The annual compound return of Series F of the fund was 3.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,438.

Who is this fund for?

Consider this fund if:

- you are looking for a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.76% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.71%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	0.76%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total percentage of top 10 investments 77.4%

Total number of investments: 21

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 5 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 5 years. The series dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 5 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.7%	January 31, 2023	Your investment would rise to \$1,147
Worst return	-10.0%	June 30, 2022	Your investment would drop to \$900

Average return

The annual compound return of Series G of the fund since inception was 3.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,199.

Who is this fund for?

Consider this fund if:

- you are looking for a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.27% of its value. This equals \$13 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.22%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	1.27%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.2%	January 31, 2023	Your investment would rise to \$1,142
Worst return	-12.9%	March 31, 2020	Your investment would drop to \$871

Average return

The annual compound return of Series A of the fund was 2.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,305.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.99% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.86%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	1.99%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to provide long term capital growth and current income by investing primarily in a diversified portfolio of exchange traded funds that invest in income producing securities. The fund's asset mix may be changed over time to reflect the portfolio manager's outlook for each asset class. The fund may invest up to 100% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. BMO Premium Yield ETF, Listed CAD Units	25.9%

Total percentage of top 10 investments 97.9%

Total number of investments: 12

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.2%	January 31, 2023	Your investment would rise to \$1,142
Worst return	-12.9%	March 31, 2020	Your investment would drop to \$871

Average return

The annual compound return of Advisor Series of the fund was 2.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,305.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.99% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.86%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	1.99%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.2%	January 31, 2023	Your investment would rise to \$1,142
Worst return	-12.9%	March 31, 2020	Your investment would drop to \$871

Average return

The annual compound return of Series T6 of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,311.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.99% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.86%

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.5%	January 31, 2023	Your investment would rise to \$1,145
Worst return	-12.7%	March 31, 2020	Your investment would drop to \$873

Average return

The annual compound return of Series F of the fund was 3.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,452.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.91% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.91%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

Management expense ratio (MER):	0.78%	Distributions:	Monthly (any net income and/or return of capital) and in December (any net capital gains)
		Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide long term capital growth and current income by investing primarily in a diversified portfolio of exchange traded funds that invest in income producing securities. The fund's asset mix may be changed over time to reflect the portfolio manager's outlook for each asset class. The fund may invest up to 100% of the fund's assets in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.5%	January 31, 2023	Your investment would rise to \$1,145
Worst return	-12.7%	March 31, 2020	Your investment would drop to \$873

Average return

The annual compound return of Series F6 of the fund since inception was 4.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,449.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.91% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.91%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series G units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series G of the fund has performed in each of the past 6 years. The series dropped in value in 2 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series G units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.4%	January 31, 2023	Your investment would rise to \$1,144
Worst return	-12.8%	March 31, 2020	Your investment would drop to \$872

Average return

The annual compound return of Series G of the fund since inception was 2.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,212.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series G units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series G expenses of the fund were 1.39% of its value. This equals \$14 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series G units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.26%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	1.39%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.35% of the value of your investment each year. This equals \$3.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.7%	January 31, 2023	Your investment would rise to \$1,147
Worst return	-12.5%	March 31, 2020	Your investment would drop to \$875

Average return

The annual compound return of Series I of the fund was 4.5% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,553.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.13% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.13%
Fund expenses	0.13%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.55%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.5%	January 31, 2024	Your investment would rise to \$1,085
Worst return	-10.7%	April 30, 2020	Your investment would drop to \$893

Average return

The annual compound return of Series A of the fund since inception was 4.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,526.

Who is this fund for?

Consider this fund if:

- you are seeking a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.79% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	1.79%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.5%	January 31, 2024	Your investment would rise to \$1,085
Worst return	-10.7%	April 30, 2020	Your investment would drop to \$893

Average return

The annual compound return of Advisor Series of the fund since inception was 4.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,526.

Who is this fund for?

Consider this fund if:

- you are seeking a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.79% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund.	1.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	1.79%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.8%	January 31, 2024	Your investment would rise to \$1,088
Worst return	-10.5%	April 30, 2020	Your investment would drop to \$895

Average return

The annual compound return of Series F of the fund since inception was 5.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,662.

Who is this fund for?

Consider this fund if:

- you are seeking a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.80% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.73%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.80%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total number of investments: 17

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F4 units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F4 of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F4 units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.8%	January 31, 2024	Your investment would rise to \$1,088
Worst return	-10.5%	April 30, 2020	Your investment would drop to \$895

Average return

The annual compound return of Series F4 of the fund since inception was 5.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,406.

Who is this fund for?

Consider this fund if:

- you are seeking a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F4 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F4 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F4 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F4 expenses of the fund were 0.80% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F4 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.73%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.80%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F4 fees	Series F4 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F4 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 8 years. The series dropped in value in 1 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.0%	January 31, 2024	Your investment would rise to \$1,090
Worst return	-10.4%	April 30, 2020	Your investment would drop to \$896

Average return

The annual compound return of Series I of the fund since inception was 6.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,764.

Who is this fund for?

Consider this fund if:

- you are seeking a balanced portfolio solution that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.07% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.07%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.55%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.5%	January 31, 2021	Your investment would rise to \$1,125
Worst return	-13.9%	April 30, 2020	Your investment would drop to \$861

Average return

The annual compound return of Series A of the fund was 5.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,724.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.98% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	1.98%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.5%	January 31, 2021	Your investment would rise to \$1,125
Worst return	-13.9%	April 30, 2020	Your investment would drop to \$861

Average return

The annual compound return of Advisor Series of the fund was 5.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,724.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.98% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	1.98%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.5%	January 31, 2021	Your investment would rise to \$1,125
Worst return	-13.9%	April 30, 2020	Your investment would drop to \$861

Average return

The annual compound return of Series T6 of the fund since inception was 5.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,720.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.93% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	1.93%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.7%	January 31, 2021	Your investment would rise to \$1,127
Worst return	-13.7%	April 30, 2020	Your investment would drop to \$863

Average return

The annual compound return of Series F of the fund was 6.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,913.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.99% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.91%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	0.99%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

10. BMO USD Cash Management ETF, Listed USD Units	5.0%

Total percentage of top 10 investments 85.3%

Total number of investments: 13

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.7%	January 31, 2021	Your investment would rise to \$1,127
Worst return	-13.7%	April 30, 2020	Your investment would drop to \$863

Average return

The annual compound return of Series F6 of the fund since inception was 6.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,880.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.98% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	0.98%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 9 years. The series dropped in value in 3 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.9%	January 31, 2021	Your investment would rise to \$1,129
Worst return	-13.5%	April 30, 2020	Your investment would drop to \$865

Average return

The annual compound return of Series I of the fund was 7.3% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,023.

Who is this fund for?

Consider this fund if:

- you are looking for a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.08% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.08%
Fund expenses	0.08%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.60%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 8 years. The series dropped in value in 3 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.8%	January 31, 2023	Your investment would rise to \$1,138
Worst return	-11.7%	June 30, 2022	Your investment would drop to \$883

Average return

The annual compound return of Series A of the fund since inception was 4.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,487.

Who is this fund for?

Consider this fund if:

- you are seeking a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.78% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.74%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.78%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

0.6%	Cash/Receivables /Payables
-0.7%	Written Covered Put Option Contracts

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 8 years. The series dropped in value in 3 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.8%	January 31, 2023	Your investment would rise to \$1,138
Worst return	-11.7%	June 30, 2022	Your investment would drop to \$883

Average return

The annual compound return of Advisor Series of the fund since inception was 4.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,474.

Who is this fund for?

Consider this fund if:

- you are seeking a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.83% of its value. This equals \$18 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund.	1.79%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.83%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 8 years. The series dropped in value in 3 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.1%	January 31, 2023	Your investment would rise to \$1,141
Worst return	-11.4%	June 30, 2022	Your investment would drop to \$886

Average return

The annual compound return of Series F of the fund since inception was 5.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,634.

Who is this fund for?

Consider this fund if:

- you are seeking a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.70% of its value. This equals \$7 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.66%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.70%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)**How risky is it?**

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 8 years. The series dropped in value in 3 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	14.3%	January 31, 2023	Your investment would rise to \$1,143
Worst return	-11.3%	June 30, 2022	Your investment would drop to \$887

Average return

The annual compound return of Series I of the fund since inception was 5.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,676.

Who is this fund for?

Consider this fund if:

- you are seeking a portfolio solution of global equities that adjusts to current market conditions
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.04% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.04%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.55%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Date series started:	November 13, 2014	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$185.9 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	1.56%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide the opportunity for capital appreciation by investing primarily in a diversified mix of mutual funds and/or exchange traded funds until its target date of June 30, 2030 approaches. As the fund's target end date approaches, the fund will gradually shift its asset mix from an exposure that is balanced between Canadian and global equities and fixed income securities to an exposure that is primarily to Canadian and global fixed income securities and cash equivalents. The fund's fixed income and cash equivalent exposure will be achieved either directly or indirectly through investing in a diversified mix of mutual funds and/or exchange traded funds. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Total percentage of top 10 investments 88.1%	

Total number of investments: 16

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.8%	June 30, 2020	Your investment would rise to \$1,098
Worst return	-11.6%	March 31, 2020	Your investment would drop to \$884

Average return

The annual compound return of Series A of the fund was 4.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,568.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2030
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.58% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.56%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.58%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.60% of the value of your investment each year. This equals \$6.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.2%	January 31, 2024	Your investment would rise to \$1,082
Worst return	-8.6%	June 30, 2022	Your investment would drop to \$914

Average return

The annual compound return of Series F of the fund since inception was 3.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,117.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2030
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.92% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.92%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.2%	June 30, 2020	Your investment would rise to \$1,112
Worst return	-15.1%	March 31, 2020	Your investment would drop to \$849

Average return

The annual compound return of Series A of the fund was 5.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,724.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2035
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.58% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.56%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.58%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.60% of the value of your investment each year. This equals \$6.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

Quick facts

Fund code(s):	BMO95171	Fund manager:	BMO Investments Inc.
Date series started:	October 22, 2021	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$211.2 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	0.90%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide the opportunity for capital appreciation by investing primarily in a diversified mix of mutual funds and/or exchange traded funds until its target date of June 30, 2035 approaches. As the fund's target end date approaches, the fund will gradually shift its asset mix from an exposure that is balanced between Canadian and global equities and fixed income securities to an exposure that is primarily to Canadian and global fixed income securities and cash equivalents. The fund's fixed income and cash equivalent exposure will be achieved either directly or indirectly through investing in a diversified mix of mutual funds and/or exchange traded funds. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.4%	January 31, 2024	Your investment would rise to \$1,094
Worst return	-10.1%	June 30, 2022	Your investment would drop to \$899

Average return

The annual compound return of Series F of the fund since inception was 4.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,180.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2035
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.92% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.92%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.2%	January 31, 2021	Your investment would rise to \$1,102
Worst return	-10.9%	June 30, 2022	Your investment would drop to \$891

Average return

The annual compound return of Series A of the fund since inception was 7.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,418.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2040
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.61% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.57%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	1.61%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.60% of the value of your investment each year. This equals \$6.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.9%	January 31, 2024	Your investment would rise to \$1,099
Worst return	-10.8%	June 30, 2022	Your investment would drop to \$892

Average return

The annual compound return of Series F of the fund since inception was 5.6% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,212.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2040
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.94% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund expenses	0.94%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

Because this is a new fund, the risk rating is only an estimate by BMO Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed. However, this information is not available because the fund is new.

Year-by-year returns

This section tells you how Series A units of the fund have performed in past calendar years. However, this information is not available because the fund is new.

Best and worst 3-month returns

This section shows the best and worst returns for Series A units of the fund in a 3-month period. However, this information is not available because the fund is new.

Average return

This section shows the value and the annual compounded rate of return of a hypothetical \$1,000 investment in Series A units of the fund. However, this information is not available because the fund is new.

Who is this fund for?

Consider this fund if:

- you want a core holding that becomes more conservative as its target date approaches
- you are seeking to fund post-secondary education that begins around the year 2045
- you want a fund that will actively manage a diversified asset mix appropriate for the fund's time horizon
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

The fund's expenses are made up of the management fee, operating expenses and trading costs. This series' annual management fee is 1.25% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.60% of the value of your investment each year. This equals \$6.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee

What you pay

Short-term trading fee

0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

Switch fee

None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Management expense ratio (MER):	This information is not available because it is a new fund.		
		Distributions:	Annually in December (any net income and any net capital gains)
		Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide the opportunity for capital appreciation by investing primarily in a diversified mix of mutual funds and/or exchange traded funds until its target date of June 30, 2045 approaches. As the fund's target end date approaches, the fund will gradually shift its asset mix from an exposure that is balanced between Canadian and global equities and fixed income securities to an exposure that is primarily to Canadian and global fixed income securities and cash equivalents. The fund's fixed income and cash equivalent exposure will be achieved either directly or indirectly through investing in a diversified mix of mutual funds and/or exchange traded funds. The fund may invest up to 100% of the fund's assets in securities of underlying funds, with such underlying funds expected to be predominantly or exclusively underlying funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on May 28, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	2.0%	July 31, 2016	Your investment would rise to \$1,020
Worst return	-1.6%	December 31, 2016	Your investment would drop to \$984

Average return

The annual compound return of Series A of the fund was 1.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,172.

Who is this fund for?

Consider this fund if:

- you are seeking to fund post-secondary education that is about to commence or is currently in progress, and you are looking for an investment product from which you can draw down savings
- you want a fund to provide income while preserving capital and maintaining liquidity
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.85% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	0.84%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.85%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.20% of the value of your investment each year. This equals \$2.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.8%	December 31, 2023	Your investment would rise to \$1,018
Worst return	-0.9%	March 31, 2022	Your investment would drop to \$991

Average return

The annual compound return of Series F of the fund since inception was 2.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,102.

Who is this fund for?

Consider this fund if:

- you are seeking to fund post-secondary education that is about to commence or is currently in progress, and you are looking for an investment product from which you can draw down savings
- you want a fund to provide income while preserving capital and maintaining liquidity
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.63% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.62%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.63%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.4%	November 30, 2024	Your investment would rise to \$1,154
Worst return	-18.2%	June 30, 2022	Your investment would drop to \$818

Average return

The annual compound return of Series A of the fund since inception was 9.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,447.

Who is this fund for?

Consider this fund if:

- you are looking for exposure to U.S. securities for your portfolio
- you are seeking long-term capital growth from your investment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.91% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.90%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.91%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.4%	November 30, 2024	Your investment would rise to \$1,154
Worst return	-18.2%	June 30, 2022	Your investment would drop to \$818

Average return

The annual compound return of Advisor Series of the fund since inception was 9.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,447.

Who is this fund for?

Consider this fund if:

- you are looking for exposure to U.S. securities for your portfolio
- you are seeking long-term capital growth from your investment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.87% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.86%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.87%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.7%	November 30, 2024	Your investment would rise to \$1,157
Worst return	-17.9%	June 30, 2022	Your investment would drop to \$821

Average return

The annual compound return of Series F of the fund since inception was 11.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,510.

Who is this fund for?

Consider this fund if:

- you are looking for exposure to U.S. securities for your portfolio
- you are seeking long-term capital growth from your investment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.82% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.81%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.82%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.9%	November 30, 2024	Your investment would rise to \$1,159
Worst return	-17.7%	June 30, 2022	Your investment would drop to \$823

Average return

The annual compound return of Series I of the fund since inception was 12.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,569.

Who is this fund for?

Consider this fund if:

- you are looking for exposure to U.S. securities for your portfolio
- you are seeking long-term capital growth from your investment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.65%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.4%	January 31, 2024	Your investment would rise to \$1,104
Worst return	-5.5%	October 31, 2023	Your investment would drop to \$945

Average return

The annual compound return of Series A of the fund since inception was 2.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,074.

Who is this fund for?

Consider this fund if:

- you are looking for an investment to provide income along with the opportunity for growth
- you want a fund that invests in U.S. dollar denominated corporate debt instruments
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.00% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.00%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.4%	January 31, 2024	Your investment would rise to \$1,104
Worst return	-5.5%	October 31, 2023	Your investment would drop to \$945

Average return

The annual compound return of Advisor Series of the fund since inception was 2.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,074.

Who is this fund for?

Consider this fund if:

- you are looking for an investment to provide income along with the opportunity for growth
- you want a fund that invests in U.S. dollar denominated corporate debt instruments
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 0.98% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.98%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.98%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 2 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.6%	January 31, 2024	Your investment would rise to \$1,106
Worst return	-5.4%	October 31, 2023	Your investment would drop to \$946

Average return

The annual compound return of Series F of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,086.

Who is this fund for?

Consider this fund if:

- you are looking for an investment to provide income along with the opportunity for growth
- you want a fund that invests in U.S. dollar denominated corporate debt instruments
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.57% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.57%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.57%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total percentage of top 10 investments 15.4%

Total number of investments: 137

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 2 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 2 years. The series dropped in value in 0 of the 2 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 2 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	January 31, 2024	Your investment would rise to \$1,107
Worst return	-5.3%	October 31, 2023	Your investment would drop to \$947

Average return

The annual compound return of Series I of the fund since inception was 3.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,104.

Who is this fund for?

Consider this fund if:

- you are looking for an investment to provide income along with the opportunity for growth
- you want a fund that invests in U.S. dollar denominated corporate debt instruments
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.00% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.00%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 0.85%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.0%	June 30, 2020	Your investment would rise to \$1,150
Worst return	-27.2%	March 31, 2020	Your investment would drop to \$728

Average return

The annual compound return of Series A of the fund was 9.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,456.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.0%	June 30, 2020	Your investment would rise to \$1,150
Worst return	-27.2%	March 31, 2020	Your investment would drop to \$728

Average return

The annual compound return of Advisor Series of the fund was 9.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,456.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund.	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

Quick facts

Fund code(s):	BMO95219	Fund manager:	BMO Investments Inc.
Date series started:	November 13, 2014	Portfolio manager(s):	Columbia Management Investment Advisers, LLC
Total value of fund on March 31, 2025:	\$462.0 Million	Distributions:	Quarterly in March, June, September and December (any net income) and in December (any net capital gains)
Management expense ratio (MER):	0.84%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to achieve long-term capital growth by investing primarily in equity securities of U.S. companies that pay dividends, or that are expected to pay dividends, and, to a lesser extent, in other types of securities, such as trusts and preferred shares, that are expected to distribute income.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. Broadcom Inc.	3.6%
2. Exxon Mobil Corporation	3.5%
3. Philip Morris International Inc.	3.0%
4. Cisco Systems, Inc.	2.9%
5. T-Mobile US, Inc.	2.8%

10. CVS Health Corporation	2.4%

Total percentage of top 10 investments 28.4%

Total number of investments: 64

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.4%	June 30, 2020	Your investment would rise to \$1,154
Worst return	-27.0%	March 31, 2020	Your investment would drop to \$730

Average return

The annual compound return of Series F of the fund was 10.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,739.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.85% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.84%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.85%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 1 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.5%	June 30, 2020	Your investment would rise to \$1,155
Worst return	-25.7%	March 31, 2020	Your investment would drop to \$743

Average return

The annual compound return of Series I of the fund was 11.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,024.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.55%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.3%	January 31, 2024	Your investment would rise to \$1,123
Worst return	-11.3%	March 31, 2020	Your investment would drop to \$887

Average return

The annual compound return of Series A of the fund was 4.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,613.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. balanced fund for your portfolio
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.92%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total number of investments: 680

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.3%	January 31, 2024	Your investment would rise to \$1,123
Worst return	-11.3%	March 31, 2020	Your investment would drop to \$887

Average return

The annual compound return of Advisor Series of the fund was 4.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,613.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. balanced fund for your portfolio
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.95% of its value. This equals \$20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.95%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.6%	January 31, 2024	Your investment would rise to \$1,126
Worst return	-11.0%	March 31, 2020	Your investment would drop to \$890

Average return

The annual compound return of Series F of the fund was 6.1% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,808.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. balanced fund for your portfolio
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.79% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.77%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.79%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.8%	January 31, 2021	Your investment would rise to \$1,178
Worst return	-30.1%	March 31, 2020	Your investment would drop to \$699

Average return

The annual compound return of Series A of the fund was 7.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,139.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Total value of fund on March 31, 2025:	\$131.1 Million	Minimum investment:	\$500 initial, \$50 additional
Management expense ratio (MER):	1.93%		

What does the fund invest in?

This fund's objective is to achieve long-term capital growth by investing primarily in equity securities of U.S. companies that pay dividends, or that are expected to pay dividends, and, to a lesser extent, in other types of securities, such as trusts and preferred shares, that are expected to distribute income.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Total percentage of top 10 investments 28.4%

Total number of investments: 64

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	17.8%	January 31, 2021	Your investment would rise to \$1,178
Worst return	-30.1%	March 31, 2020	Your investment would drop to \$699

Average return

The annual compound return of Advisor Series of the fund was 7.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,139.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.94% of its value. This equals \$19 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	1.94%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.1%	January 31, 2021	Your investment would rise to \$1,181
Worst return	-29.9%	March 31, 2020	Your investment would drop to \$701

Average return

The annual compound return of Series F of the fund was 9.1% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,389.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.83% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.82%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.83%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.3%	January 31, 2021	Your investment would rise to \$1,183
Worst return	-29.8%	March 31, 2020	Your investment would drop to \$702

Average return

The annual compound return of Series I of the fund was 10.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,594.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. dividend fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.55%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

To learn more about investing in mutual funds, see the brochure **Understanding mutual funds**, which is available on the website of the Canadian Securities Administrators at www.securities-administrators.ca.

This document contains key information you should know about BMO U.S. Dollar Equity Index Fund. You can find more details in the fund's simplified prospectus. Ask your representative for a copy, contact BMO Investments Inc. at 1-800-665-7700 or mutualfunds@bmo.com or visit www.bmogam.com/ca-en/resources/legal-and-regulatory-documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

Quick facts

Fund code(s):	BMO70803	Fund manager:	BMO Investments Inc.
Date series started:	October 1, 1998	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$211.4 Million	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER):	0.98%	Minimum investment:	\$500 initial, \$50 additional

What does the fund invest in?

This fund's objective is to provide a return that is similar to the return of the Standard & Poor's 500 Total Return Index (S&P 500 Index). The fund may invest all or a portion of its assets in one or more exchange traded funds, invest directly in the underlying securities represented in the S&P 500 Index or use derivatives such as options, futures, and forward contracts that are based on the S&P 500 Index.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. Apple Inc.	7.0%
2. Microsoft Corporation	5.9%
3. NVIDIA Corporation	5.6%
4. Amazon.com, Inc.	3.8%
5. Alphabet Inc.	3.5%
6. Meta Platforms, Inc., Class A	2.7%
7. Berkshire Hathaway Inc., Class B	2.1%
8. Broadcom Inc.	1.7%
9. Tesla Inc.	1.5%
10. JPMorgan Chase & Co.	1.4%

Total percentage of top 10 investments 35.2%

Total number of investments: 500

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.0%	June 30, 2020	Your investment would rise to \$1,200
Worst return	-19.8%	March 31, 2020	Your investment would drop to \$802

Average return

The annual compound return of Series A of the fund was 10.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,789.

Who is this fund for?

Consider this fund if:

- you are looking for a U.S. dollar equity fund that focuses on established companies
- you prefer a fund that seeks to track the performance of the S&P 500 Index
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.98% of its value. This equals \$10 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	0.98%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.98%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.8%	January 31, 2024	Your investment would rise to \$1,158
Worst return	-16.2%	June 30, 2022	Your investment would drop to \$838

Average return

The annual compound return of Series F of the fund since inception was 6.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,261.

Who is this fund for?

Consider this fund if:

- you are looking for a U.S. dollar equity fund that focuses on established companies
- you prefer a fund that seeks to track the performance of the S&P 500 Index
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.43% of its value. This equals \$4 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.43%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.43%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for Series A was reduced from 1.00% to 0.49% and the fixed administration fee of 0.15% in respect of this series was eliminated. BMO Investments Inc. continues to be responsible for payment of the administration expenses for the fund, other than the fund expenses which continue to be paid by the fund directly.

Quick facts

Fund code(s):	BMO70801	Fund manager:	BMO Investments Inc.
Date series started:	October 1, 1998	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$380.6 Million	Distributions:	Annually in September (any ordinary dividends) and within 60 days after September 30 (any capital gains dividends)
Management expense ratio (MER)*:	0.77%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 0.55% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to provide a high level of U.S. dollar interest income and liquidity, while preserving the value of your investment. The fund invests primarily in a variety of U.S. government and corporate money market instruments. The fund strives to maintain a NAV per unit of US \$1.00 by allocating income daily and distributing it monthly, but there is a risk the price could change.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 0 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.2%	December 31, 2023	Your investment would rise to \$1,012
Worst return	0.0%	April 30, 2021	Your investment would rise to \$1,000

Average return

The annual compound return of Series A of the fund was 1.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,149.

Who is this fund for?**Consider this fund if:**

- you want a secure U.S. dollar investment with low investment risk
- you are looking for higher yields than a U.S. dollar bank account may offer
- you want a short-term investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.77% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.77%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.77%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.20% of the value of your investment each year. This equals \$2.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee

What you pay

Switch fee

None. You may have to pay sales charges, switch fees and redemption charges if you invest through a registered broker or a representative's firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This fund's objective is to provide a high level of U.S. dollar interest income and liquidity, while preserving the value of your investment. The fund invests primarily in a variety of U.S. government and corporate money market instruments. The fund strives to maintain a NAV per unit of US \$1.00 by allocating income daily and distributing it monthly, but there is a risk the price could change.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 0 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.2%	December 31, 2023	Your investment would rise to \$1,012
Worst return	0.0%	April 30, 2021	Your investment would rise to \$1,000

Average return

The annual compound return of Advisor Series of the fund was 1.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,149.

Who is this fund for?**Consider this fund if:**

- you want a secure U.S. dollar investment with low investment risk
- you are looking for higher yields than a U.S. dollar bank account may offer
- you want a short-term investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-2% of the amount you invest.	• \$0 to \$20 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 0.77% of its value. This equals \$8 for every \$1,000 invested.

		Annual rate (as a % of the series' value)
Management expense ratio (MER)		
This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.		0.77%
Trading expense ratio (TER)		
These are the fund's trading costs.		0.00%
Fund expenses		0.77%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.20% of the value of your investment each year. This equals \$2.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.20% of the value of your investment each year. This equals \$2.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.20% of the value of your investment each year. This equals \$2.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Switch fee	You and your representative can negotiate this fee. Currently the fee is 0-2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

To learn more about investing in mutual funds, see the brochure **Understanding mutual funds**, which is available on the website of the Canadian Securities Administrators at www.securities-administrators.ca.

This document contains key information you should know about BMO U.S. Dollar Money Market Fund. You can find more details in the fund's simplified prospectus. Ask your representative for a copy, contact BMO Investments Inc. at 1-800-668-7327 or clientservices.mutualfunds@bmo.com or visit www.bmogam.com/ca-en/resources/legal-and-regulatory-documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for Series F was reduced from 0.80% to 0.29% and the fixed administration fee of 0.15% in respect of this series was eliminated. BMO Investments Inc. continues to be responsible for payment of the administration expenses for the fund, other than the fund expenses which continue to be paid by the fund directly.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.32% of its value. This equals \$3 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.32%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.32%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

Investment mix (March 31, 2025)**How risky is it?**

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series O units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series O of the fund has performed in each of the past 8 years. The series dropped in value in 0 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.4%	December 31, 2023	Your investment would rise to \$1,014
Worst return	0.0%	February 28, 2022	Your investment would rise to \$1,000

Average return

The annual compound return of Series O of the fund since inception was 2.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,217.

Who is this fund for?

Consider this fund if:

- you want a secure U.S. dollar investment with low investment risk
- you are looking for higher yields than a U.S. dollar bank account may offer
- you want a short-term investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series O units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series O expenses of the fund were 0.06% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of a fixed administration fee and operating expenses for Series O units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.06%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.06%

3. Other fees

Series O units are for investors who have entered into an investment management agreement with BMO Private Investment Counsel Inc. or BMO Nesbitt Burns Inc.

Fee	What you pay
Series O fee	Series O investors pay a separate fee directly to their representative's firm, a portion of which may be paid to BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.0%	January 31, 2024	Your investment would rise to \$1,110
Worst return	-17.3%	March 31, 2020	Your investment would drop to \$827

Average return

The annual compound return of Series A of the fund was 3.8% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,452.

Who is this fund for?**Consider this fund if:**

- you want regular monthly cash flow in U.S. dollars
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.22% of its value. This equals \$22 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.20%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	2.22%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.23% of its value. This equals \$22 for every \$1,000 invested.

		Annual rate (as a % of the series' value)
Management expense ratio (MER)		
This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.		2.21%
Trading expense ratio (TER)

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T5 units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T5 of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series T5 units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.0%	January 31, 2024	Your investment would rise to \$1,110
Worst return	-17.3%	March 31, 2020	Your investment would drop to \$827

Average return

The annual compound return of Series T5 of the fund was 3.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,438.

Who is this fund for?**Consider this fund if:**

- you want regular monthly cash flow in U.S. dollars
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T5 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T5 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T5 expenses of the fund were 2.26% of its value. This equals \$23 for every \$1,000 invested.

		Annual rate (as a % of the series' value)
Management expense ratio (MER)		
This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series T5 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.		2.24%
Trading expense ratio (TER)		
These are the fund's trading costs.		0.02%
Fund expenses		2.26%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.4%	January 31, 2024	Your investment would rise to \$1,114
Worst return	-17.0%	March 31, 2020	Your investment would drop to \$830

Average return

The annual compound return of Series F of the fund was 5.3% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,676.

Who is this fund for?**Consider this fund if:**

- you want regular monthly cash flow in U.S. dollars
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.80% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.80%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 3 years. The series dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.4%	January 31, 2024	Your investment would rise to \$1,114
Worst return	-9.2%	June 30, 2022	Your investment would drop to \$908

Average return

The annual compound return of Series F6 of the fund since inception was 2.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,080.

Who is this fund for?**Consider this fund if:**

- you want regular monthly cash flow in U.S. dollars
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.80% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.80%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Manager: BMO Investments Inc.

This document contains key information you should know about BMO U.S. Equity ETF Fund. You can find more details in the fund's simplified prospectus. Ask your representative for a copy, contact BMO Investments Inc. at 1-800-665-7700 or mutualfunds@bmo.com or visit www.bmogam.com/ca-en/resources/legal-and-regulatory-documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for Series A was reduced from 0.80% to 0.58% and the fixed administration fee of 0.10% in respect of this series was eliminated. BMO Investments Inc. continues to be responsible for payment of the administration expenses for the fund, other than the fund expenses which continue to be paid by the fund directly.

Quick facts

Fund code(s):	BMO70722	Fund manager:	BMO Investments Inc.
Date series started:	January 7, 1997	Portfolio manager(s):	BMO Asset Management Inc.
Total value of fund on March 31, 2025:	\$1.9 Billion	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER)*:	0.85%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 0.66% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to provide a return that is similar to the return of one or more exchange traded funds that invest primarily in U.S. equities. The fund may invest all or a portion of its assets in one or more exchange traded funds, invest directly in the underlying securities held by the exchange traded funds and/or use derivatives to provide the fund with a return determined by reference to the exchange traded funds. The fund invests up to 100% of its assets in securities of BMO S&P 500 Hedged to CAD Index ETF.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Total number of investments: 500

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.3%	June 30, 2020	Your investment would rise to \$1,193
Worst return	-20.3%	March 31, 2020	Your investment would drop to \$797

Average return

The annual compound return of Series A of the fund was 9.9% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,570.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of U.S. stock markets
- you prefer a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.86% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.85%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.86%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 7 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 7 years. The series dropped in value in 2 of the 7 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 7 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.4%	June 30, 2020	Your investment would rise to \$1,194
Worst return	-20.2%	March 31, 2020	Your investment would drop to \$798

Average return

The annual compound return of Series F of the fund since inception was 11.0% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,303.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of U.S. stock markets
- you prefer a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.29% of its value. This equals \$3 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.28%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.29%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.6%	June 30, 2020	Your investment would rise to \$1,196
Worst return	-20.1%	March 31, 2020	Your investment would drop to \$799

Average return

The annual compound return of Series I of the fund was 11.6% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,997.

Who is this fund for?

Consider this fund if:

- you want greater exposure to the growth potential of U.S. stock markets
- you prefer a fund that seeks to track the performance of a U.S. equities market index
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 0.58%, the management fee payable in respect of Series A units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for this series was reduced from 2.00% to 1.50%

Quick facts

Fund code(s):	BMO70723	Fund manager:	BMO Investments Inc.
	USD BMO70823	Portfolio manager(s):	Columbia Management Investment Advisers, LLC
Date series started:	January 7, 1997	Distributions:	Annually in December (any net income and any net capital gains)
Total value of fund on March 31, 2025:	\$1.1 Billion	Minimum investment:	\$500 initial, \$50 additional
Management expense ratio (MER)*:	2.39%		

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.98% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in equities of well-established U.S. companies that may be undervalued by the marketplace.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. NVIDIA Corporation	6.6%
2. Apple Inc.	6.4%
3. Amazon.com, Inc.	4.9%
4. Microsoft Corporation	4.7%
5. Alphabet Inc.	4.1%
6. Meta Platforms, Inc., Class A	3.0%
7. Exxon Mobil Corporation	2.4%
8. Mastercard Incorporated, Class A	2.3%
9. Walmart Inc.	2.2%
10. Booking Holdings Inc	1.7%

Total percentage of top 10 investments 38.3%

Total number of investments: 86

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.7%	June 30, 2020	Your investment would rise to \$1,157
Worst return	-16.6%	March 31, 2020	Your investment would drop to \$834

Average return

The annual compound return of Series A of the fund was 9.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,524.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.40% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.39%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.40%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A (Hedged) units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A (Hedged) of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A (Hedged) units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.5%	June 30, 2020	Your investment would rise to \$1,195
Worst return	-23.6%	March 31, 2020	Your investment would drop to \$764

Average return

The annual compound return of Series A (Hedged) of the fund since inception was 8.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,119.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Series A (Hedged) units are for investors who want to gain exposure to U.S. investments but wish to minimize exposure to fluctuations in the U.S. dollar relative to the Canadian dollar.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A (Hedged) units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series A (Hedged) units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A (Hedged) expenses of the fund were 2.42% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A (Hedged) units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.41%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.42%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.7%	June 30, 2020	Your investment would rise to \$1,157
Worst return	-16.6%	March 31, 2020	Your investment would drop to \$834

Average return

The annual compound return of Advisor Series of the fund was 9.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,524.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.41% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.40%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.41%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

The management fee for this series was reduced from 2.00% to 1.50%

Quick facts

Fund code(s):	FE: BMO99768 DSC: BMO97768 LL: BMO98768	Fund manager:	BMO Investments Inc.
Date series started:	May 2, 2016	Portfolio manager(s):	Columbia Management Investment Advisers, LLC
Total value of fund on March 31, 2025:	\$1.1 Billion	Distributions:	Annually in December (any net income and any net capital gains)
Management expense ratio (MER)*:	2.42%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.98% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objective is to increase the value of your investment over the long term by investing in equities of well-established U.S. companies that may be undervalued by the marketplace.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

1. NVIDIA Corporation	6.6%

10. Booking Holdings Inc	1.7%

Total percentage of top 10 investments 38.3%

Total number of investments: 86

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series (Hedged) units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series (Hedged) of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series (Hedged) units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.4%	June 30, 2020	Your investment would rise to \$1,194
Worst return	-23.4%	March 31, 2020	Your investment would drop to \$766

Average return

The annual compound return of Advisor Series (Hedged) of the fund since inception was 8.7% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,119.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

Advisor Series (Hedged) units are for investors who want to gain exposure to U.S. investments but wish to minimize exposure to fluctuations in the U.S. dollar relative to the Canadian dollar.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series (Hedged) units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series (Hedged) expenses of the fund were 2.43% of its value. This equals \$24 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series (Hedged) units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.42%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.43%

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.2%	June 30, 2020	Your investment would rise to \$1,162
Worst return	-16.2%	March 31, 2020	Your investment would drop to \$838

Average return

The annual compound return of Series F of the fund was 11.5% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,970.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.84% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.83%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.84%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series N units of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series N of the fund has performed in each of the past 9 years. The series dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series N units of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.4%	June 30, 2020	Your investment would rise to \$1,164
Worst return	-16.1%	March 31, 2020	Your investment would drop to \$839

Average return

The annual compound return of Series N of the fund was 12.1% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,134.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series N units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series N units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series N expenses of the fund were 0.29% of its value. This equals \$3 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of a fixed administration fee and operating expenses for Series N units of the fund.	0.28%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.29%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

Series N units are available to investors who participate in a separate managed account or discretionary management program through a representative's firm who has entered into an agreement with BMO Investments Inc. and only with BMO Investments Inc.'s prior approval.

Fee	What you pay
Series N fee	Series N investors pay a separate fee directly to their representative's firm, a portion of which is paid to BMO Investments Inc. Such portion will not exceed a management fee rate of -, the management fee payable in respect of Series F units of the fund. The Series N fee rate is set by the representative's firm. Please contact your representative's firm for additional details.
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.4%	June 30, 2020	Your investment would rise to \$1,164
Worst return	-16.1%	March 31, 2020	Your investment would drop to \$839

Average return

The annual compound return of Series I of the fund was 12.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,219.

Who is this fund for?

Consider this fund if:

- you are looking for a core U.S. equity fund for your portfolio
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.01% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.01%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 2.00%, the management fee payable in respect of Series A units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.0%	June 30, 2020	Your investment would rise to \$1,160
Worst return	-16.2%	June 30, 2022	Your investment would drop to \$838

Average return

The annual compound return of Series A of the fund was 11.5% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,970.

Who is this fund for?

Consider this fund if:

- you are looking for an equity fund that provides exposure to U.S. and Canadian companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.17% of its value. This equals \$22 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.16%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.17%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.0%	June 30, 2020	Your investment would rise to \$1,160
Worst return	-16.2%	June 30, 2022	Your investment would drop to \$838

Average return

The annual compound return of Advisor Series of the fund was 11.5% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,970.

Who is this fund for?

Consider this fund if:

- you are looking for an equity fund that provides exposure to U.S. and Canadian companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.16% of its value. This equals \$22 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.15%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	2.16%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	16.4%	June 30, 2020	Your investment would rise to \$1,164
Worst return	-16.0%	June 30, 2022	Your investment would drop to \$840

Average return

The annual compound return of Series F of the fund was 13.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$3,395.

Who is this fund for?

Consider this fund if:

- you are looking for an equity fund that provides exposure to U.S. and Canadian companies
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.83% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.82%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%
Fund expenses	0.83%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	June 30, 2020	Your investment would rise to \$1,092
Worst return	-13.6%	March 31, 2020	Your investment would drop to \$864

Average return

The annual compound return of Series A of the fund was 2.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,219.

Who is this fund for?**Consider this fund if:**

- you are looking for income and the potential for capital gains primarily through investments in non-investment grade bonds of U.S. issuers
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.59% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund.	1.59%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	1.59%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.75% of the value of your investment each year. This equals \$7.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.2%	June 30, 2020	Your investment would rise to \$1,092
Worst return	-13.6%	March 31, 2020	Your investment would drop to \$864

Average return

The annual compound return of Advisor Series of the fund was 2.0% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,219.

Who is this fund for?**Consider this fund if:**

- you are looking for income and the potential for capital gains primarily through investments in non-investment grade bonds of U.S. issuers
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.60% of its value. This equals \$16 for every \$1,000 invested.

Annual rate (as a % of the series' value)

Management expense ratio (MER)

This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.

1.60%

Trading expense ratio (TER)

These are the fund's trading costs.

0.00%

Fund expenses

1.60%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.75% of the value of your investment each year. This equals \$7.50 each year for every \$1,000 invested.

DSC Trailing Commission - 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee

What you pay

Short-term trading fee

0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

Switch fee

You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.78% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series F units of the fund.	0.78%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.78%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series O units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series O of the fund has performed in each of the past 10 years. The series dropped in value in 3 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	9.6%	June 30, 2020	Your investment would rise to \$1,096
Worst return	-13.3%	March 31, 2020	Your investment would drop to \$867

Average return

The annual compound return of Series O of the fund was 3.4% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,397.

Who is this fund for?**Consider this fund if:**

- you are looking for income and the potential for capital gains primarily through investments in non-investment grade bonds of U.S. issuers
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series O units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series O expenses of the fund were 0.47% of its value. This equals \$5 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee, a fixed administration fee and operating expenses for Series O units of the fund.	0.47%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.47%

3. Other fees

Series O units are for investors who have entered into an investment management agreement with BMO Private Investment Counsel Inc. or BMO Nesbitt Burns Inc.

Fee	What you pay
Series O fee	Series O investors pay a separate fee directly to their representative's firm, a portion of which may be paid to BMO Investments Inc.
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	19.7%	December 31, 2020	Your investment would rise to \$1,197
Worst return	-26.7%	March 31, 2020	Your investment would drop to \$733

Average return

The annual compound return of Series A of the fund since inception was 8.1% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,721.

Who is this fund for?

Consider this fund if:

- you are looking for a fund that invest in small to mid-capitalization U.S. companies with high growth potential
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.12% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	2.03%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	2.12%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Worst return	-26.7%	March 31, 2020	Your investment would drop to \$733

Average return

The annual compound return of Advisor Series of the fund since inception was 8.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,732.

Who is this fund for?

Consider this fund if:

- you are looking for a fund that invest in small to mid-capitalization U.S. companies with high growth potential
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.10% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.01%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	2.10%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.1%	December 31, 2020	Your investment would rise to \$1,201
Worst return	-26.5%	March 31, 2020	Your investment would drop to \$735

Average return

The annual compound return of Series F of the fund since inception was 9.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,846.

Who is this fund for?

Consider this fund if:

- you are looking for a fund that invest in small to mid-capitalization U.S. companies with high growth potential
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 1.05% of its value. This equals \$11 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.96%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	1.05%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 6 years. The series dropped in value in 1 of the 6 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 6 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	20.3%	December 31, 2020	Your investment would rise to \$1,203
Worst return	-26.4%	March 31, 2020	Your investment would drop to \$736

Average return

The annual compound return of Series I of the fund since inception was 10.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,967.

Who is this fund for?

Consider this fund if:

- you are looking for a fund that invest in small to mid-capitalization U.S. companies with high growth potential
- you are comfortable with medium to high investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.09% of its value. This equals \$1 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.09%
Fund expenses	0.09%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.70%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.8%	January 31, 2024	Your investment would rise to \$1,118
Worst return	-12.6%	June 30, 2022	Your investment would drop to \$874

Average return

The annual compound return of Series A of the fund since inception was 4.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,219.

Who is this fund for?

Consider this fund if:

- you want a balanced U.S. dollar investment with the potential for some capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.56% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.54%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.56%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

What does the fund invest in?

This fund's objective is to generate a balance of income and potential for growth by investing primarily, directly or indirectly, in U.S. equities and fixed income securities. The fund employs a strategic asset allocation strategy and may invest up to 100% of the fund's assets in U.S. dollar securities of underlying funds, with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Top 10 investments (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.8%	January 31, 2024	Your investment would rise to \$1,118
Worst return	-12.6%	June 30, 2022	Your investment would drop to \$874

Average return

The annual compound return of Advisor Series of the fund since inception was 4.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,219.

Who is this fund for?

Consider this fund if:

- you want a balanced U.S. dollar investment with the potential for some capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.60% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.58%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.60%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.8%	January 31, 2024	Your investment would rise to \$1,118
Worst return	-12.6%	June 30, 2022	Your investment would drop to \$874

Average return

The annual compound return of Series T6 of the fund since inception was 4.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,219.

Who is this fund for?

Consider this fund if:

- you want a balanced U.S. dollar investment with the potential for some capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.61% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.59%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.61%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.2%	January 31, 2024	Your investment would rise to \$1,122
Worst return	-12.4%	June 30, 2022	Your investment would drop to \$876

Average return

The annual compound return of Series F of the fund since inception was 5.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,286.

Who is this fund for?

Consider this fund if:

- you want a balanced U.S. dollar investment with the potential for some capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.49% of its value. This equals \$5 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.47%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.49%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

What does the fund invest in?

This fund's objective is to generate a balance of income and potential for growth by investing primarily, directly or indirectly, in U.S. equities and fixed income securities. The fund employs a strategic asset allocation strategy and may invest up to 100% of the fund's assets in U.S. dollar securities of underlying funds, with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.1%	January 31, 2024	Your investment would rise to \$1,121
Worst return	-12.4%	June 30, 2022	Your investment would drop to \$876

Average return

The annual compound return of Series F6 of the fund since inception was 5.5% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,286.

Who is this fund for?

Consider this fund if:

- you want a balanced U.S. dollar investment with the potential for some capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.50% of its value. This equals \$5 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.48%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.50%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	January 31, 2024	Your investment would rise to \$1,107
Worst return	-9.6%	June 30, 2022	Your investment would drop to \$904

Average return

The annual compound return of Series A of the fund since inception was 1.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,093.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.66% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.63%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.66%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	January 31, 2024	Your investment would rise to \$1,107
Worst return	-9.6%	June 30, 2022	Your investment would drop to \$904

Average return

The annual compound return of Advisor Series of the fund since inception was 1.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,088.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.72% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.69%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.72%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total percentage of top 10 investments 97.4%

Total number of investments: 18

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	January 31, 2024	Your investment would rise to \$1,107
Worst return	-9.6%	June 30, 2022	Your investment would drop to \$904

Average return

The annual compound return of Series T6 of the fund since inception was 1.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,093.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.62% of its value. This equals \$16 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.59%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.62%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.0%	January 31, 2024	Your investment would rise to \$1,110
Worst return	-9.4%	June 30, 2022	Your investment would drop to \$906

Average return

The annual compound return of Series F of the fund since inception was 2.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,144.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.60% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.57%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.60%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.0%	January 31, 2024	Your investment would rise to \$1,110
Worst return	-9.4%	June 30, 2022	Your investment would drop to \$906

Average return

The annual compound return of Series F6 of the fund since inception was 2.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,139.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.60% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.57%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.60%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

Management expense ratio (MER):	Fees and expenses are negotiated and paid directly by each Series I investor		
Distributions:	Annually in December (any net income and any net capital gains)		
Minimum investment:	Determined on a contractual basis		

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide moderate potential for growth by investing primarily, directly or indirectly, in U.S. equities and fixed income securities. The fund employs a strategic asset allocation strategy and may invest up to 100% of the fund's assets in U.S. dollar securities of underlying funds, with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.1%	January 31, 2024	Your investment would rise to \$1,111
Worst return	-9.3%	June 30, 2022	Your investment would drop to \$907

Average return

The annual compound return of Series I of the fund since inception was 3.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,165.

Who is this fund for?

Consider this fund if:

- You want a conservative U.S. dollar investment with the potential for some capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.03% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.03%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.35%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.72% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.69%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.72%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.0%	January 31, 2024	Your investment would rise to \$1,100
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Advisor Series of the fund since inception was 0.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,009.

Who is this fund for?

Consider this fund if:

- you want a conservative U.S. dollar investment with the potential for limited capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.73% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.70%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.73%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide some potential for growth by investing primarily, directly or indirectly, in U.S. equities and fixed income securities. The fund employs a strategic asset allocation strategy and may invest up to 100% of the fund's assets in U.S. dollar securities of underlying funds, with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series T6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.0%	January 31, 2024	Your investment would rise to \$1,100
Worst return	-8.5%	June 30, 2022	Your investment would drop to \$915

Average return

The annual compound return of Series T6 of the fund since inception was 0.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,009.

Who is this fund for?

Consider this fund if:

- you want a conservative U.S. dollar investment with the potential for limited capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series T6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. Ask about the pros and cons of each option.

No Load. - You pay no sales or redemption charges if you buy, redeem or switch this series of the fund through BMO Investments Inc.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series T6 expenses of the fund were 1.73% of its value. This equals \$17 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series T6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.70%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	1.73%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F6 units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F6 of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F6 units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.2%	January 31, 2024	Your investment would rise to \$1,102
Worst return	-8.3%	June 30, 2022	Your investment would drop to \$917

Average return

The annual compound return of Series F6 of the fund since inception was 1.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,058.

Who is this fund for?

Consider this fund if:

- you want a conservative U.S. dollar investment with the potential for limited capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

Series F6 units are suitable for investors holding securities outside of a BMO registered plan and wishing to receive monthly distributions.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F6 units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F6 units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F6 expenses of the fund were 0.60% of its value. This equals \$6 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F6 units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.57%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.60%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F6 fees	Series F6 units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F6 units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

What does the fund invest in?

This fund's objective is to preserve the value of your investment and provide some potential for growth by investing primarily, directly or indirectly, in U.S. equities and fixed income securities. The fund employs a strategic asset allocation strategy and may invest up to 100% of the fund's assets in U.S. dollar securities of underlying funds, with such funds expected to be predominantly or exclusively funds that are managed by us or one of our affiliates or associates.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I units of the fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I of the fund has performed in each of the past 4 years. The series dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I units of the fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.4%	January 31, 2024	Your investment would rise to \$1,104
Worst return	-8.1%	June 30, 2022	Your investment would drop to \$919

Average return

The annual compound return of Series I of the fund since inception was 1.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,088.

Who is this fund for?

Consider this fund if:

- you want a conservative U.S. dollar investment with the potential for limited capital appreciation
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.03% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.03%
Fund expenses	0.03%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.35%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.3%	January 31, 2024	Your investment would rise to \$1,013
Worst return	1.0%	December 31, 2024	Your investment would rise to \$1,010

Average return

The annual compound return of Series A of the fund since inception was 4.3% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,082.

Who is this fund for?**Consider this fund if:**

- you are looking for income
- you want exposure to a diversified short-term bond portfolio
- are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 0.81% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	0.74%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.81%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 0.79% of its value. This equals \$8 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	0.72%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.79%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

Management expense ratio (MER):	0.17%		

What does the fund invest in?

This fund's objective is to provide a return that is similar to the return of one or more exchange traded funds that invest primarily in a variety of fixed income securities with a remaining effective term to maturity of one year or less. This fund invests primarily, directly or indirectly, in short-term fixed income securities by investing all or a portion of its assets in one or more exchange traded funds, by investing directly in the underlying securities held by the exchange traded funds and/or by using derivatives to provide the fund with a return determined by reference to the exchange traded funds. The fund is currently invested in BMO Ultra Short-Term Bond ETF

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past calendar year. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in the past 1 year. The series did not drop in value during the year. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past calendar year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	1.5%	January 31, 2024	Your investment would rise to \$1,015
Worst return	1.1%	December 31, 2024	Your investment would rise to \$1,011

Average return

The annual compound return of Series F of the fund since inception was 4.9% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,094.

Who is this fund for?**Consider this fund if:**

- you are looking for income
- you want exposure to a diversified short-term bond portfolio
- are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.24% of its value. This equals \$2 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.17%
Trading expense ratio (TER) These are the fund's trading costs.	0.07%
Fund expenses	0.24%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.3%	January 31, 2024	Your investment would rise to \$1,153
Worst return	-14.5%	June 30, 2022	Your investment would drop to \$855

Average return

The annual compound return of Series A of the fund since inception was 9.2% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,210.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a fund that invests in companies that promote a gender diverse leadership environment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 1.46% of its value. This equals \$15 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Series A units of the fund.	1.44%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.46%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.3%	January 31, 2024	Your investment would rise to \$1,153
Worst return	-14.5%	June 30, 2022	Your investment would drop to \$855

Average return

The annual compound return of Advisor Series of the fund since inception was 9.8% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,322.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a fund that invests in companies that promote a gender diverse leadership environment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option has been discontinued for new purchases, except for switches from existing securities acquired on the DSC option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 1.46% of its value. This equals \$15 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	1.44%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	1.46%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Low Load Trailing Commission - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Total percentage of top 10 investments 38.9%

Total number of investments: 41

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 8 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series F of the fund has performed in each of the past 8 years. The series dropped in value in 2 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 8 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.6%	January 31, 2024	Your investment would rise to \$1,156
Worst return	-14.3%	June 30, 2022	Your investment would drop to \$857

Average return

The annual compound return of Series F of the fund since inception was 10.4% as of April 30, 2025. If you had invested \$1,000 in this series since inception, your investment would now be worth \$2,439.

Who is this fund for?**Consider this fund if:**

- you want to diversify your portfolio with a fund that invests in companies that promote a gender diverse leadership environment
- you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Instead of paying a sales charge on each transaction, you pay an annual fee to your representative's firm based on the value of your assets. You pay no sales charges when you buy Series F units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series F expenses of the fund were 0.37% of its value. This equals \$4 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee and operating expenses for Series F units of the fund.	0.35%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.37%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.
Series F fees	Series F units are for investors who are enrolled in a flat fee account or their representative's firm sponsored wrap program. You can only buy Series F units through your representative if their firm has entered into an F Series Agreement with BMO Investments Inc. and only with the prior approval of BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy, redeem or switch Series I units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.02% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission) and operating expenses. This series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund expenses	0.02%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.40%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series A of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.3%	January 31, 2015	Your investment would rise to \$1,103
Worst return	-6.1%	April 30, 2015	Your investment would drop to \$939

Average return

The annual compound return of Series A of the fund was 0.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,072.

Who is this fund for?**Consider this fund if:**

- you are looking to diversify your portfolio geographically with a core world bond fund
- you want high potential for interest income and some potential for capital gains
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You pay no sales or redemption charges to BMO Investments Inc. if you buy or redeem Series A units of the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series A expenses of the fund were 2.12% of its value. This equals \$21 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Series A units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.	2.12%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	2.12%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

No load trailing commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	None. However, you may have to pay a switch fee of up to 2% of the amount you switch if you invest through a representative at a firm other than BMO Investments Inc.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

Date series started:	June 1, 2012	Portfolio manager(s):	Columbia Threadneedle Management Limited
Total value of fund on March 31, 2025:	\$197.0 Million	Distributions:	Monthly (any net income and/or return of capital) and in December (any net capital gains)
Management expense ratio (MER)*:	2.10%	Minimum investment:	\$500 initial, \$50 additional

*The management fee and/or the fixed administration fee of this series will be or was reduced. The adjusted MER is 1.41% and represents what the MER would have been had the change(s) been in effect during the full financial year.

What does the fund invest in?

This fund's objectives are to provide a high level of interest income and to provide some opportunity for growth in the value of your investment. The fund invests primarily in bonds and debentures that mature in more than one year and are issued by governments and corporations around the world and supranational agencies like the World Bank.

The charts below give you a snapshot of the fund's investments on March 31, 2025. The fund's investments will change.

Investment mix (March 31, 2025)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series units of the fund have performed over the past 10 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Advisor Series of the fund has performed in each of the past 10 years. The series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series units of the fund in a 3-month period over the past 10 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.3%	January 31, 2015	Your investment would rise to \$1,103
Worst return	-6.1%	April 30, 2015	Your investment would drop to \$939

Average return

The annual compound return of Advisor Series of the fund was 0.7% over the past 10 years as of April 30, 2025. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$1,072.

Who is this fund for?**Consider this fund if:**

- you are looking to diversify your portfolio geographically with a core world bond fund
- you want high potential for interest income and some potential for capital gains
- you are comfortable with low investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment over the short-term).

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is only one sales charge option. The DSC option and the Low Load option have been discontinued for new purchases, except for switches from existing securities acquired under the respective options.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Sales Charge	• 0-5% of the amount you invest.	• \$0 to \$50 for every \$1,000 you buy.	• The sales charge is negotiable between you and your representative's firm. • The sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission at the time you purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Advisor Series expenses of the fund were 2.10% of its value. This equals \$21 for every \$1,000 invested.

		Annual rate (as a % of the series' value)
Management expense ratio (MER)		
This is the total of the management fee (which includes trailing commission), a fixed administration fee and operating expenses for Advisor Series units of the fund. BMO Investments Inc. waived some of this series' expenses. If they had not done so, the MER would have been higher.		2.10%
Trading expense ratio (TER)		
These are the fund's trading costs.		0.00%
Fund expenses		2.10%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

DSC Trailing Commission - 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - 0.50% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Switch fee	You and your representative can negotiate this fee. Currently the fee is up to 2% of the amount you switch.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2024, the Series I expenses of the fund were 0.00% of its value. This equals \$0 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER) Certain operating expenses were charged for this series of the fund but were absorbed by BMO Investments Inc. because this series of the fund does not pay management fees or operating expenses. These fees and expenses are negotiated and paid directly by each Series I investor.	0.00%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.00%

More about the trailing commission

No trailing commission is paid to your representative's firm in respect of this series of the fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	0% to 2% of the amount that you redeem or switch if you buy or switch and then redeem or switch units of the fund within 30 days of purchasing or switching them. This penalty will be paid directly to the fund.
Series I fees	Series I units are for institutional investors, for use within managed asset programs or structured products, who negotiate and pay separate fees to BMO Investments Inc. The maximum annual management fee and expenses payable by a Series I investor will not be greater than 1.75%, the management fee payable in respect of Advisor Series units of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
