

American Lithium Announces CEO Appointment

VANCOUVER, BRITISH COLUMBIA, February 03, 2026 – American Lithium Corp. (“American Lithium” or the “Company”) (TSX-V:LI | OTCQX:AMLIF | Frankfurt:5LA1) is pleased to announce that Mr. Alex Tsakumis has been appointed Chief Executive Officer (“CEO”) effective January 29, 2026. Mr. Tsakumis was the Interim CEO of the Company since September 1, 2024, and a member of the board of directors (the “Board”) since 2021.

Mr. Tsakumis is a public markets specialist with over 30 years of experience in the mineral resource industry, with a background in corporate governance, communications, finance, and mergers and acquisitions. He has held senior roles at Prime Mining Corp., Alio Gold/Timmins Gold, and Orko Silver, and maintains strong relationships within the investment banking and institutional investment community.

During his tenure as Interim CEO, the Company achieved several key milestones including completing an oversubscribed financing, enacting stronger corporate governance, streamlining operating and corporate costs, optimizing processing flow sheets in Peru, securing additional private water rights in Nevada, and seeing the final resolution of its disputed Peruvian assets.

Andrew Bowering, Executive Chairman commented, “Since assuming the Interim CEO role, Alex has demonstrated leadership and delivered meaningful progress while guiding the Company through a period of transition.”

Additionally, effective January 27, 2026, the Company’s Board have approved the cancellation of an aggregate of 1,835,800 stock options granted under the Company’s Omnibus Incentive Plan, previously announced on February 16, 2022, and February 2, 2023 (the “Cancelled Options”). The Cancelled Options were granted to certain officers and directors of the Company at an exercise price of \$3.63 and \$4.85 per common share (expiry date of February 16, 2027, and February 2, 2028, respectively).

About American Lithium

American Lithium is developing two of the world’s largest, advanced-stage lithium projects, along with the largest undeveloped uranium project in Latin America. They include the TLC claystone lithium project in Nevada and the Falchani hard-rock lithium project in southern Peru, which also hosts a globally significant cesium resource, as well as the Macusani uranium located in the same region. All three projects have completed robust preliminary economic assessments, exhibit significant expansion potential and enjoy strong community support.

Cautionary Statement Regarding Forward Looking Information

This news release contains certain forward-looking information and forward-looking statements (collectively "forward-looking statements") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, are forward-looking statements. Forward-looking statements in this news release include, but are not limited to, statements regarding the business plans, expectations and objectives of American Lithium. Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend", "indicate", "scheduled", "target", "goal", "potential", "subject", "efforts", "option" and similar words, or the negative connotations thereof, referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management and are not, and cannot be, a guarantee of future results or events. Although American Lithium believes that the current opinions and expectations reflected in such forward-looking statements are reasonable based on information available at the time, undue reliance should not be placed on forward-looking statements since American Lithium can provide no assurance that such opinions and expectations will prove to be correct. All forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including risks, uncertainties and assumptions related to: American Lithium's ability to achieve its stated goals; which could have a material adverse impact on many aspects of American Lithium's businesses including but not limited to: the ability to access mineral properties for indeterminate amounts of time, the health of the employees or consultants resulting in delays or diminished capacity, social or political instability in Peru which in turn could impact American Lithium's ability to maintain the continuity of its business operating requirements, may result in the reduced availability or failures of various local administration and critical infrastructure, reduced demand for the American Lithium's potential products, availability of materials, global travel restrictions, and the availability of insurance and the associated costs; the ongoing ability to work cooperatively with stakeholders, including but not limited to local communities and all levels of government; the potential for delays in exploration or development activities; the interpretation of drill results, the geology, grade and continuity of mineral deposits; the possibility that any future exploration, development or mining results will not be consistent with our expectations; risks that permits will not be obtained as planned or delays in obtaining permits; mining and development risks, including risks related to accidents, equipment breakdowns, labour disputes (including work stoppages, strikes and loss of personnel) or other unanticipated difficulties with or interruptions in exploration and development; risks related to commodity price and foreign exchange rate fluctuations; risks related to foreign operations; the cyclical nature of the industry in which American Lithium operates; risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals; risks related to environmental regulation and liability; political and regulatory risks associated with mining and exploration; risks related to the uncertain global economic environment and the effects upon the global market generally, any of which could continue to negatively affect global financial markets, including the trading price of American Lithium's shares and could negatively affect American Lithium's ability to raise capital and may also result in additional and unknown risks or liabilities to American Lithium. Other risks and uncertainties related to prospects, properties and business strategy of American Lithium are identified in the "Risk Factors" section of American Lithium's Management's

Discussion and Analysis filed on January 28, 2026 and in recent securities filings available at www.sedarplus.ca. Actual events or results may differ materially from those projected in the forward-looking statements. American Lithium undertakes no obligation to update forward-looking statements except as required by applicable securities laws. Investors should not place undue reliance on forward-looking statements.
