MANAGEMENT DISCUSSION AND ANALYSIS

TO OUR SHAREHOLDERS:

This Management's Discussion and Analysis ("MD&A") supplements, but does not form part of, the condensed interim financial statements of Greatbanks Resources Ltd. ("Greatbanks" or the "Company") and the notes thereto for the three months ended October 31, 2018. Consequently, the following discussion and analysis of the financial condition and results of operations for the Company should be read in conjunction with the condensed interim financial statements for the period ended October 31, 2018 and the audited financial statements for the year ended July 31, 2018, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), consistently applied.

Discussion of the Company, its operations and associated risks is further described in the Company's filings, available for viewing at www.sedar.com. A copy of this MD&A will be provided to any applicant upon request.

Forward-looking statements

Certain statements contained in the following MD&A and elsewhere constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements in light of the risks set forth in the Company's filings and herein.

The table below sets forth the significant forward-looking information included in this MD&A:

Forward-Looking Information	Key Assumptions	Most Relevant Risk Factors
Future funding for ongoing operations.	The Company will be able to raise these funds.	Failure to raise these funds will materially impact the Company's ability to continue as a going concern.

MANAGEMENT DISCUSSION AND ANALYSIS

Windy Property

In June 2016, the Company completed the acquisition of a mineral property, the Windy Claims which comprise 1,319.08 hectares and is located in the Cassiar District of the Province of British Columbia. Based on the Company's review of historical data and technical analysis, the Company has concluded that the Windy Claims were worthy of further exploratory work, and recently completed a National Instrument 43-101 compliant technical report.

The Company issued 2,000,000 shares at a fair value of \$0.03 per share for a total of \$60,000. The vendors of the property retain a 2% net smelter royalty.

The claim is located approximately 15 km north of the old town site of Cassiar, British Columbia. The claim lies northwest of the historical Cassiar Asbestos Mine. Access to the claim group is via an all-weather paved road from Highway 37 west to the old town site of Cassiar B.C.

The property is an early stage exploration. It is the opinion of the author that the favorable geological setting and results of the work done to date by previous parties show that the Windy Property has the potential to host economic mineralization.

The suggested work program includes compilation of all the historical geological, geophysical and geochemical data available for the Windy Property, and rendering this data into a digital database in GIS formats for further interpretation. This work will include geo referencing historical survey grids, samples, trenches, geophysical survey locations, and detailed property geological maps.

The fieldwork component will include geophysical surveying, geological mapping, and trenching and sampling as warranted. The intent of this work would be to re-define the relationship of known skarn and investigate any of soil geochemical anomalies with the underlying and exposed bedrock mineralization. A 20-line km geophysics magnetometer over the known mineralization. The expected cost of the program is \$85,165.

During the years ended July 31, 2018 and 2017, the Company assessed the impairment indicators under IFRS 6 pursuant to our policies and impaired the property to \$Nil. Reasons for the impairment are that there was a temporary lapse in title registration and the Company has not yet committed sufficient financial resources to the Windy Property.

Selected annual information

Fiscal Year Ended (Rounded)	July 2018	July 2017	July 2016
	\$	\$	\$
Exploration and evaluation - acquisition costs	-	-	67,000
Exploration and evaluation - expense	10,000	5,000	25,000
Exploration and evaluation - write-down	(10,000)	(97,000)	-

Loss per share	0.01	0.02	0.03
Total assets	130,000	865,000	420,000

The decreased loss for the year ended July 31, 2018 is due to the decrease in stock-based compensation, travel and promotion, investor relations, lithium project costs, and write-down of mineral property offset by the increase in size of the management team that has been put in place to review transactions and resulting in additional management fees and also higher professional fees associated with increase in legal services provided to the Company.

The increased loss for the year ended July 31, 2017 is due to a number of factors including the write down on mineral property; costs incurred in relation to the lithium project and, stock-based compensation and investors relations costs.

Losses were higher in 2018 and 2017 as a result of new management teams commencing efforts to revitalize the Company resulting in higher management fees and travel related costs with the Company's search for new projects, and also regulatory fees associated with the Company's financings. The Company expended \$61,000 on investigating a lithium project that it did not pursue.

MANAGEMENT DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

The decreased loss for the three months ended October 31, 2018 is due to the decrease in management fees, professional fees, travel and promotion, transfer agent and filing fees, office and general expenses offset by the increase in bank, interest and other expenses, investor relations and foreign exchange loss.

Results of operations

For the three months ended October 31, 2018

The comprehensive loss for the period ended October 31, 2018 was \$135,365, which compares to a comprehensive loss of \$176,383 during the same period in 2017.

The main fluctuations in costs are as follows:

	Three Months 2018	Three Months 2017
Management fees (Rounded)	\$ 126,000	\$ 148,000
Variances – decrease	\$ (22,000)	

The decrease in management fees compared to the previous period is due to the change in management.

	Three Months 2018	Three Months 2017
Professional fees (Rounded)	\$ 2,000	\$ 23,000
Variances – decrease	\$ (21,000)	

The decrease in professional fees is a result of lower legal fees compared to the previous period.

	Three Months 2018	Three Months 2017
Travel and promotion (Rounded)	\$ -	\$ 2,000
Variances – decrease	\$ (2,000)	

The decrease in travel costs is associated with no activity made by the Company in searching for new international projects.

MANAGEMENT DISCUSSION AND ANALYSIS

CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is in the business of exploration and evaluation and has no source of operating revenue. Operations are financed through the issuance of capital stock. Capital raised is held in cash in an interest-bearing bank account and in guaranteed investment certificates until such time as it is required to pay operating expenses or exploration and evaluation costs. The Company is not subject to any externally imposed capital restrictions. Its objectives in managing its capital are to safeguard its cash and its ability to continue as a going concern, and to utilize as much of its available capital as possible for exploration activities.

RISK FACTORS

Companies face many and varied kinds of risks. While risk management cannot eliminate the impact of all potential risks, the Company strives to manage such risks to the extent possible and practical. Following is the risk factor most applicable to the Company.

ENVIRONMENTAL

Exploration and development projects are subject to the environmental laws and regulations of the jurisdictions within which the Company is conducting its operations. As such laws are subject to change, the Company carefully monitors proposed and potential changes, and ensures that it is and will be in strict compliance.

Various non-governmental organizations dedicated to environmental protection monitors, amongst others, the mining industry. These organizations have in the past commenced actions with the regulatory agencies or the courts to prevent or delay resource extraction activities.

CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amount and classification of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

The following are the critical judgments and areas involving estimates, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amount recognized in the condensed interim financial statements is the carrying value of mineral property.
