1. DESCRIPTION OF BUSINESS

Questor Technology Inc., incorporated in Canada under the Business Companies Act (Alberta) is an environmental emissions reduction technology company founded in 1994, with global operations. The Company is focused on clean air technologies that safely and cost effectively improve air quality, support energy efficiency and greenhouse gas emission reductions. The Company designs, manufactures and services high efficiency clean combustion systems that destroy harmful pollutants, including Methane, Hydrogen Sulfide gas, Volatile Organic Hydrocarbons, Hazardous Air Pollutants and BTEX (Benzene, Toluene, Ethylbenzene and Xylene) gases within waste gas streams at 99.99 percent efficiency. This enables its clients to meet emission regulations, reduce greenhouse gas emissions, address community concerns and improve safety at industrial sites. The Company also has proprietary heat to power generation technology and is currently targeting new markets including landfill biogas, syngas, waste engine exhaust, geothermal and solar, cement plant waste heat in addition to a wide variety of oil and gas projects. The Company is also doing research and development on data solutions to deliver an integrated system that amalgamates all of the emission detection data available and demonstrates how Questor's clean combustion and power generation technologies can be used to help clients achieve zero emission targets.

The Company's common shares are traded on the TSX Venture Exchange under the symbol "QST". The address of the Company's corporate and registered office is 2240, 140 – 4th Avenue S.W. Calgary, Alberta, Canada, T2P 3N3.

2. BASIS OF PREPARATION

(a) Statement of compliance

These unaudited interim condensed consolidated financial statements (the "financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These financial statements are condensed as they do not include all of the information required by IFRS for annual financial statements and therefore should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2022. All financial information is reported in Canadian dollars, unless otherwise noted. These financial statements were authorized for issue by the Company's Board of Directors on August 23, 2023.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments that have been measured at fair value.

(c) Accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the consolidated financial statements as of and for the year ended December 31, 2022. There are standards and interpretations that are issued, but not yet effective, however the Company does not expect them to have any significant impact on the Company's financial statements in the future periods.

(d) Significant accounting estimates and judgements

The preparation of the interim condensed consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the reported assets, liabilities, revenues, expenses and the disclosure of contingencies. Actual results may differ significantly from these estimates. A description of the significant accounting judgements, estimates and assumptions are set out in annual audited financial statements for the year ended December 31, 2022.

IFRS Impairment Assessment of Non-Financial Assets

At June 30, 2023, the Company performed its assessment of potential impairment indicators for its non-financial assets which include property and equipment, intangible and right-of-use assets and noted the Company's net asset value was greater than its market capitalization. The Company performed an impairment test for its one cash generating unit. No impairment was recognized in the second quarter of 2023 as the estimated recoverable amount exceeded the carrying value of the non-financial assets.

12. FINANCIAL RISK MANAGEMENT

The Company's financial instruments consist of cash and cash equivalents, investments, trade, contract assets and other receivables, trade payables, accrued liabilities and provisions, and a repayable government grant. The Company did not hold any derivative financial instruments during the period.

Fair values

The carrying amounts of the current financial assets and current financial liabilities recognized in the Company's consolidated financial statements at the end of each reporting period approximate their fair value due to their short period to maturity except for the repayable government grant. Judgment is required in interpreting market data to develop the estimates of fair value. These estimates are not necessarily indicative of the amounts we could realize in current markets. The fair value of the government grant is determined based on market-based prices and is classified as Level 2 on the fair value hierarchy.

Credit risk

Credit risk arises from the potential that one or more counterparties fail to meet their obligations. A substantial amount of the Company's trade and contract receivables, which relate to the Company's revenues, are with customers in the oil and gas industry and are subject to normal industry credit risks. The Company mitigates this risk through its credit policies and practices including the use of credit limits and approvals, and by monitoring the financial condition of its customers. Payment terms with customers vary by contract. Standard payment terms are 30 days from the invoice date.

The Company is also exposed to the risk of dependence on a few customers for a significant amount of the Company's revenue. The Company notes that equipment sales revenue which comprises a significant portion of total revenue, generally relates to a small number of customers each year but these customers change each year. The Company bills and collects equipment revenue throughout the contract which reduces collection risk. There is a concentration of rental and related service repair revenue. For the three months and six months ended June 30, 2023, there were three customers who comprised 80 percent and two customers who comprised 74 percent of total rental, service and repair revenue respectively (for the three and six months ended June 30, 2022 – 72 percent and 77 percent respectively).

Liquidity risk

The Company has positive net working capital as of June 30, 2023 of \$13,985,142 (December 31, 2022 - \$15,005,682).

Foreign currency risk

The Company is exposed to foreign exchange risk associated with foreign operations where assets, liabilities, revenue and costs are denominated in US dollars. The impact of this exposure is recorded as a cumulative translation adjustment in other comprehensive income.

The Company is also exposed to the impact of foreign currency fluctuations in its Canadian operations on sales and purchases of products and services from vendors primarily in the United States which resulted in a foreign exchange loss of \$104,733 and \$109,932 for the three and six months ended June 30, 2023 respectively (for the three and six months ended June 30, 2022 – gain of \$115,319 and 74,356 respectively). The Company mitigates some of the foreign currency risk by keeping a US dollar bank account to receive US payments and fund US dollar purchases.

13. COMMITMENTS AND CONTINGENCIES

The Company has lease commitments for premises and storage facilities as disclosed in note 22 of the 2023 annual financial statements. As at June 30, 2023, the Company has entered into purchase commitments for materials required to build the 1500kw prototype unit for its waste heat to power research and development project in the amount of \$617,541.

During the six months ended June 30, 2023, the Company continued to pursue its claim against Emissions RX related to infringement on the Company's intellectual property. From time to time, the Company is also subject to other legal proceedings, settlements, investigations, claims and actions arising from the normal course of business. While the final outcome of such actions and proceedings cannot be predicted with certainty, the Company believes that the resolution of such matters will not have a material impact on the Company's financial position or results of operations as at June 30, 2023.

14. RELATED PARTY TRANSACTIONS

The Company defines key management personnel as being the Board of Directors, Chief Executive Officer, Chief Financial Officer and VP Global Operations and Customer Experience. In addition to their salaries, benefits and directors' fees, the Company also provides non-cash benefits including participation in the Company's stock option, restricted performance and deferred share unit plans. There were no other related party transactions during the three months ended June 30, 2023 and 2022.
