MANAGEMENT'S RESPONSIBILITY

To the Shareholders of Goldhills Holding Ltd. (the "Company"):

Management is responsible for the preparation and presentation of the accompanying condensed consolidated interim financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards. This responsibility includes selecting appropriate accounting principles and methods and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the condensed consolidated interim financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of condensed consolidated interim financial statements.

The Board of Directors and the Audit Committee are composed primarily of Directors who are neither management nor employees of the Company. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities. The Board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Audit Committee has the responsibility of meeting with management, and external auditors to discuss the internal controls over the financial reporting process, auditing matters and financial reporting issues. The Audit Committee is also responsible for recommending the appointment of the external auditors to the Board.

We draw attention to Note 1 in the condensed consolidated interim financial statements which indicates the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

December 19, 2025

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instruments 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an auditor.

The accompanied unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed consolidated interim financial statements in accordance with the standards by the Chartered Professional Accountants of Canada for a review of the interim financial statements by an entity's auditor.

GOLDHILLS HOLDING LTD.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED OCTOBER 31, 2025 AND 2024

Expressed in Canadian Dollars

1) Nature of Operations and Going Concern

Goldhills Holding Ltd. (the “Company”) was incorporated in the Province of British Columbia on December 20, 1996. On September 28, 2019, the Company changed its name from Greatbanks Resources Ltd. to Goldhills Holding Ltd. and its trading symbol on the TSX Venture Exchange (“TSX-V”) is (“GHL”). The Company is in the exploration stage. The Company’s registered and records office is at 400 - 837 West Hastings Street, Vancouver, British Columbia, V6C 3N6.

On February 3, 2021, the Company began trading on the OTCQB under the symbol of “GODZF”.

On April 25, 2022, the Company acquired Sun & Sand Mining & Metals Guinea SA (“Sun & Sand”), a corporation based in Guinea, West Africa. The Company acquired 100% of the issued and outstanding shares of Sun and Sand, including all of the existing assets of Sun and Sand. During fiscal 2025, the Company surrendered its ownership of Sun & Sand (Note 10).

These condensed consolidated interim financial statements have been prepared on the basis of the accounting principles applicable to a going concern, which assumes the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The business of mining and exploration involves a high degree of risk and there can be no assurance that future exploration programs will result in profitable mining operations. The recoverability of mineral property expenditures is dependent upon several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of exploration and evaluation assets.

Consistent with other companies in the mineral exploration sector, the Company has incurred operating losses since inception, has no source of revenue, is unable to self-finance operations and has significant cash requirements to meet its overheads and maintain its mineral interests. The Company needs to raise equity financing in the short-term to continue its operations. These conditions indicate a material uncertainty exists that may cast significant doubt upon the Company’s ability to continue as a going concern.

For the Company to continue to operate as a going concern it needs the ongoing financial support of its related parties and vendors and the Company must continue to obtain additional financing to maintain operations; although the Company has been successful in the past at raising funds, there can be no assurance that this will continue in the future.

If the going concern assumption were not appropriate for these financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the financial position classifications used and such adjustments could be material.

2) Basis of Preparation

Statement of Compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and pronouncements of the IFRS Interpretations Committee (“IFRICs”) as issued by the International Accounting Standards Board (“IASB”), in compliance with International Accounting Standards (“IAS”) 34 Interim Financial Reporting, and effective for the period ended October 31, 2025. These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on December 19, 2025.

These condensed consolidated interim financial statements have been prepared under the historical cost convention except for amounts recorded at fair value as set out in the accounting policies in Note 3.

2) Basis of Preparation (continued)

Statement of Compliance (continued)

The preparation of condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods (see Note 4).

Basis of Consolidation

The condensed consolidated interim financial statements included the accounts of the Company and its wholly owned subsidiary, Sun & Sand Mining & Metals Guinea SA. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Inter-company balances and transactions, and any unrealized gains and losses arising from inter-company transactions, are eliminated on consolidation. The financial statements of Sun & Sand are no longer consolidated.

3) Material Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these condensed consolidated interim financial statements. The Company's material accounting policies are outlined below:

a) Presentation and Functional Currency

The condensed consolidated interim financial statements are presented in Canadian dollars. The functional and presentation currency of the Company is the Canadian dollar.

Transactions in currencies other than the Canadian dollar are recorded at exchange rates prevailing on the dates of the transactions and at the end of each reporting period, the monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the statement of financial position date while non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions.

b) Share-Based Payments

Where equity-settled share options are awarded to employees, the fair value of the options at the date of grant is charged to the consolidated statement of loss and comprehensive loss over the vesting period. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. Non-vesting conditions and market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether these vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition or where a non-vesting condition is not satisfied.

3) Material Accounting Policies (continued)

b) Share-Based Payments (continued)

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the consolidated statement of loss and comprehensive loss over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in the consolidated statement of loss and comprehensive loss over the vesting period, which is the period during which all the vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in the consolidated statement of loss and comprehensive loss. Options or warrants granted related to the issuance of shares are recorded as a reduction of share capital.

When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a valuation model. Otherwise, share-based payments are measured at the fair value of the goods or services received.

All equity-settled share-based payments are reflected in share-based payment reserve, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in share-based payment reserve is credited to share capital, adjusted for any consideration paid.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to the employee on the cancellation is accounted for as the repurchase of an equity interest except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

The Company grants stock options to buy common shares of the Company to directors, officers, employees and service providers. The Company recognizes share-based compensation expense based on the estimated fair value of the options. A fair value measurement is made for each vesting instalment within each option grant and is determined using the Black-Scholes Option-Pricing Model. The fair value of the options is recognized over the vesting period of the options granted as both share-based compensation expense and reserves. This includes a forfeiture estimate, which is revised for actual forfeitures in subsequent periods. The reserves account is subsequently reduced if the options are exercised, and the amount initially recorded is then credited to capital share. In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at the fair value of the share-based payment. Otherwise, share based payments are measured at the fair value of the goods or services received.

3) Material Accounting Policies (continued)**c) Income Taxes**

Income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive loss/income.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting year the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

d) Loss Per Share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted earnings per share is computed similar to basic earnings per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options and warrants were exercised and that the proceeds from such exercises were used to acquire common stock at the average market price during the reporting periods.

e) Financial InstrumentsClassification

The Company classifies its financial instruments in the following categories: at fair value through profit or loss ("FVTPL"), at fair value through other comprehensive loss ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has opted to measure them at FVTPL.

The following table shows the classification under IFRS 9:

| Financial assets/liabilities | IFRS 9 Classification |
|-------------------------------------|------------------------------|
| Cash | FVTPL |
| Reclamation bond | FVTPL |
| Trade and other payables | Amortized cost |
| Loan payable | Amortized cost |

3) Material Accounting Policies (continued)

e) Financial Instruments (continued)

Measurement

Financial assets at FVTOCI

Elected investments in equity investments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses recognized in other comprehensive loss.

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transactions costs expensed in the consolidated statements of loss and comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are recorded in the consolidated statements of loss and comprehensive loss in the period in which they arise.

Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the consolidated statements of loss and comprehensive loss. However, gains and losses on derecognition of financial assets classified as FVTOCI remain within accumulated other comprehensive loss.

Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired. Generally, the difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the consolidated statements of loss and comprehensive loss.

f) Provisions

Provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount receivable can be measured reliably.

3) Material Accounting Policies (continued)

g) Exploration and Evaluation Assets

Exploration and evaluation assets include the costs of acquiring licenses, costs associated with exploration and evaluation activity, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. Exploration and evaluation expenditures are capitalized. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss.

Government tax credits received are recorded as a reduction to the cumulative costs incurred and capitalized on the related property.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property, plant and equipment.

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

4) Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Company's accounting policies, which are described in Note 3, management is required to make judgments, estimates and assumptions about the carrying amount and classification of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

The following are the critical judgments and areas involving estimates, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amount recognized in the financial statements.

a) Going Concern

The preparation of these condensed consolidated interim financial statements requires management to make judgments regarding the ability of the Company to continue as a going concern as disclosed in Note 1.

b) Business Combinations

Judgment is required to determine if the Company's acquisitions represent a business combination or an asset acquisition. For acquisitions accounted as a business combination, goodwill is recognized on the transaction and acquisition costs are expensed. The cost of the business combination is measured as the aggregate of the fair values (at the date of exchange) of assets acquired and liabilities incurred or assumed. For acquisitions representing an asset acquisition, no goodwill is recognized on the transaction and acquisition costs are capitalized to the assets purchased. An allocation of the purchase price to the individual identifiable assets acquired, including intangible assets, and liabilities assumed based on their fair values at the date of purchase is required. The fair values of the net assets acquired is calculated using

4) Critical Accounting Judgements and Key Sources of Estimation Uncertainty (continued)**b) Business Combinations (continued)**

significant estimates and judgments. If estimates or judgments differed, this could result in a materially different allocation of net assets on the consolidated statement of financial position. During the year ended July 31, 2022, management concluded that the Company's acquisition of Sun and Sand did not represent a business, as the assets acquired were not an integrated set of activities with inputs, processes and outputs (Note 9). Accordingly, the acquisition of Sun and Sand was accounted for as an asset acquisition.

c) Share-Based Payment Transactions

The Company measures the cost of equity-settled transactions by reference to the fair value of the equity instruments such as stock options and compensatory warrants at the date they are granted. Estimating the fair value for granted stock options and compensatory warrants requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate model including the expected life of the option or warrant, volatility, dividend yield, and rate of forfeitures and making assumptions about them. The assumptions and model used for estimating the fair value for share-based payment transactions are disclosed in Note 10.

d) Rehabilitation Provisions

Rehabilitation provisions have been assessed based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period. Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs which will reflect the market conditions at the time the rehabilitation costs are actually incurred.

e) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period the new information becomes available.

f) Recovery of Deferred Tax Assets

Judgment is required in determining whether deferred tax assets are recognized on the consolidated statements of financial position. Deferred tax assets, including those arising from unutilized tax losses require management to assess the likelihood that the Company will generate taxable earnings in future years, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the reporting date could be impacted. Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future years.

5) Future Accounting Pronouncements

IFRS 18 - Presentation and Disclosure of Financial Statements

The standard replaces IAS 1 Presentation of Financial Statements and includes requirements for the presentation and disclosure of information in financial statements, such as the presentation of subtotals within the statement of operations and the disclosure of management-defined performance measures within the financial statement. This standard is effective for periods beginning on or after January 1, 2027 with earlier application permitted. Management is still evaluating the impact of this standard on its financial statements.

There are no other accounting standards or amendments that are not yet effective that would be expected to have material impact on the Company's financial statements.

6) Financial Instruments and Risk Management

a) Financial Instrument Classification and Measurement

Financial instruments of the Company carried on the Consolidated Statements of Financial Position are carried at FVTPL and amortized cost. There are no significant differences between the carrying value of financial instruments and their estimated fair values as at October 31, 2025 due to the immediate or short-term maturities of the financial instruments.

Fair values of financial assets and liabilities

The Company's financial instruments include cash, reclamation bond, trade and other payables, and loan payable. Trade and other payables and loan payable approximate their fair value due to their short-term nature. The fair values of cash and reclamation bond are determined using level 1 inputs.

Level 1: Fair value measurements are those derived from quoted prices (unadjusted) in the active market for identical assets or liabilities.

Level 2: Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices).

Level 3: Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data.

b) Market Risk

Market risk is the risk that changes in market prices will affect the Company's earnings or the value of its financial instruments. Market risk is comprised of commodity price risk and interest rate risk. The objective of market risk management is to manage and control exposures within acceptable limits, while maximizing returns. The Company is not exposed to significant market risk.

c) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank accounts. The Company's bank accounts are held with major banks in Canada. Accordingly, the Company believes it is not exposed to significant credit risk.

6) Financial Instruments and Risk Management (continued)

d) Currency Risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. To manage this risk the Company maintains only the minimum amount of foreign cash required. The Company is not exposed to significant foreign currency risk.

e) Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. As the Company has no significant source of cash flows. Liquidity risk is assessed as high.

The following table summarizes the Company's significant remaining contractual maturities for financial liabilities as at October 31, 2025 and July 31, 2025:

| | 3 months | 3 and 12 months | Over 12 months | Total |
|--------------------------|------------|-----------------|----------------|------------|
| October 31, 2025 | | | | |
| Trade and other payables | \$ 522,359 | \$ - | \$ - | \$ 522,359 |
| Loan payable | \$ 20,049 | \$ - | \$ - | \$ 20,049 |
| | | | | |
| | 3 months | 3 and 12 months | Over 12 months | Total |
| July 31, 2025 | | | | |
| Trade and other payables | \$ 548,619 | \$ - | \$ - | \$ 548,619 |

7) Loan Payable

On October 16, 2025, the Company entered into a loan agreement with a principal of \$20,000 from a related party. The loan bears interests at the rate of 6%, unsecured, and is payable within one year. As at October 31, 2025, the balance outstanding including accrued interest is \$20,049 (July 31, 2025 - \$Nil). During the three months ended October 31, 2025, the Company recorded interest expense of \$49 (2025 - \$Nil) on this loan.

8) Related Party Transactions

Related party transactions and balances at October 31, 2025 and 2024 and for the periods then ended not disclosed elsewhere in the financial statements are as follows:

| Name and Principal Position | | Remuneration of Fees ⁽¹⁾ | Included in Accounts Payable |
|--|------|-------------------------------------|------------------------------|
| | | \$ | \$ |
| A company controlled by the current CEO and director - | 2025 | - | 121,663 |
| Management fees | 2024 | - | 1,606 |
| A company controlled by the current CFO - | 2025 | 9,000 | 48,200 |
| Management fees | 2024 | 9,000 | 50,400 |
| Former director of the Company - | 2025 | - | 215,057 |
| Management fees | 2024 | - | 215,057 |

⁽¹⁾ Amounts disclosed were paid or accrued to the related parties during the periods ended October 31, 2025 and 2024. The amounts are due on demand, unsecured and non-interest bearing.

8) Related Party Transactions (continued)

During the three months ended October 31, 2025, aggregate remuneration of \$9,000 (2024 - \$9,000) was paid or accrued to key management personnel.

As at October 31, 2025, \$384,920 (July 31, 2025 - \$382,417) is included in trade and other payables owing to current directors and officers of the Company for management fees.

On October 16, 2025, the Company entered into a loan agreement with a principal of \$20,000 from a related party. The loan interests at the rate of 6%, unsecured, and is payable within one year (Note 7).

A director of the Company subscribed for 1,000,000 common shares in the private placements completed on May 17, 2024 (Note 10).

On August 19, 2024, the Company issued 1,583,333 common shares at fair value of \$142,498 to settle the amount of \$95,000 due to the CEO, shareholder and director of the Company (Note 10). The Company recognized \$47,500 loss on the settlement in the consolidated statements of loss and comprehensive loss for the year ended July 31, 2025.

9) Exploration and Evaluation Assets

The continuity of the Company's exploration and evaluation assets is as follows:

| | Siguirí | Lennac Lake | Total |
|---|--------------|------------------|------------------|
| Acquisition costs: | | | |
| Balance, July 31, 2024 | \$ 4,235,903 | \$ 14,380 | \$ 4,250,283 |
| Addition | - | 20,500 | 20,500 |
| Balance, at October 31, 2025 and July 31, 2025 | \$ 4,235,903 | \$ 34,880 | \$ 4,270,783 |
| Exploration costs: | | | |
| Balance, at July 31, 2024 | \$ 75,676 | \$ 66,569 | \$ 142,245 |
| Geologist | - | 8,634 | 8,634 |
| Mining tax credit | - | (20,077) | (20,077) |
| Balance, at October 31, 2025 and July 31, 2025 | \$ 75,676 | \$ 55,126 | \$ 130,802 |
| Impairment: | | | |
| Balance, at July 31, 2024 | (4,311,578) | - | (4,311,578) |
| Charge for the period | (1) | - | (1) |
| Balance, at October 31, 2025 and July 31, 2025 | (4,311,579) | - | (4,311,579) |
| Total exploration and evaluation assets, at October 31, 2025 and July 31, 2025 | \$ - | \$ 90,006 | \$ 90,006 |

Siguirí Property

On April 25, 2022, the Company completed its acquisition of Sun & Sand, a corporation based in Guinea, West Africa, that holds a 100% interest in the Siguirí Property, a gold exploration property consisting of two contiguous blocks covering a total area of 175 square kilometres located in Siguirí.

In connection with the transaction, the Company acquired all of the issued and outstanding shares of Sun & Sand. On closing, the Company issued a total of 18,142,838 common shares at a fair value of \$4,172,853. The Company incurred \$63,050 of costs related to the Transaction. Upon completion of the Transaction, Sun and Sand became a wholly owned subsidiary of the Company.

9) Exploration and Evaluation Assets (continued)**Siguiri Property (continued)**

The Company has accounted for the purchase of Sun & Sand as an asset acquisition as it did not meet the definition of a business under IFRS 3, "Business Combinations". The following table summarizes the total consideration, the fair value of the identifiable assets acquired and liabilities assumed as of the date of the acquisition:

| | |
|---|---------------------|
| Fair value of common shares issued (18,142,838 shares*) (Note 10) | \$ 4,172,853 |
| Cash | 63,050 |
| Total consideration paid | \$ 4,235,903 |
| Allocated as follow: | |
| Exploration and evaluation asset | \$ 4,235,903 |

*The fair value of 18,142,838 common shares issued was determined to be \$0.23 per share using the market price at acquisition date.

*In November 2022, 12,742,838 of the 18,142,838 common shares issued under the Transaction were returned to treasury for cancellation

*On May 30, 2023, the remaining 5,400,000 common shares issued under the Transaction were returned to treasury for cancellation.

The Company had issues with obtaining access to the Siguiri Gold Property to conduct the necessary exploration to maintain its license. As a result, its license was not in good standing as at September 2022. Given the current status of the license claims, the Company recognized an impairment of \$4,311,578 for the year ended July 31, 2022 and \$1 for the year ended July 31, 2024. The Company no longer owns Sun and Sand.

Lennac Lake Property

On May 2, 2024, the Company entered a mineral property option agreement with the optionors, Donald MacIntyre and Victor Parsons ("the Optionors"). This agreement grants the Company the option to acquire a 100% interest in the Lennac Lake property, comprising three contiguous mineral claims located in the Omineca mining division of British Columbia. In order to exercise the option, the Company must make cash payments of \$100,000 to the optionors over a three-year period. The payments are scheduled as follows: \$10,000 upon signing (paid), \$20,000 by the first anniversary (paid), \$30,000 by the second anniversary and \$40,000 by the third anniversary of the agreement.

The Company is also obligated to incur expenditures totaling at least \$370,000 by specific milestones: \$75,000 by the first anniversary (met), an additional \$100,000 by the second anniversary and an additional \$200,000 by the third anniversary. Upon commencement of commercial production, The Company will pay the optionors an annual payment in lieu of a net smelter return royalty, beginning in the year of commercial production of \$40,000 per annum.

In addition, the Company incurred \$4,380 to stake six additional claims expanding the Lennac Lake project.

At October 31, 2025, the Company has posted refundable performance bonds of \$37,700 (July 31, 2025 - \$37,700) for security of drilling activity requirements for the property.

10) Share Capital

a) Authorized

The Company is authorized to issue 100,000,000 common shares without par value.

The holders of common shares are entitled to receive dividends which are declared from time to time and are entitled to one vote per share at meetings of the Company. All shares are ranked equally with regards to the Company's residual assets.

On August 19, 2024, the Company issued 1,583,333 common shares at fair value of \$142,498 to settle the amount of \$95,000 due to the CEO, shareholder and director of the Company (Note 10). The Company recognized \$47,500 loss on the settlement in the consolidated statements of loss and comprehensive loss for the year ended July 31, 2025.

On May 17, 2024, the Company closed a private placement of 6,700,000 common shares at a price of \$0.05 for total proceeds of \$335,000.

During fiscal 2023, 18,142,838 common shares issued to acquire Sun and Sand have been returned to treasury for cancellation. The shares were returned to treasury as the Company did not have full access to the Siguiri Gold Property and the renewal of the license was affected by the lack of access. During fiscal 2025, the Company surrendered its ownership of Sun & Sand.

b) Summary of Stock Option Activity

The Company has a stock option plan whereby the maximum number of shares reserved for issue under the plan shall not exceed 10% of the outstanding common shares of the Company, as at the date of the grant, both in aggregate and in any one-year period. The maximum number of common shares reserved for issue to any one person other than employees conducting investor relations activities and any consultants under the plan cannot exceed 5% of the issued and outstanding number of common shares at the date of the grant, both in aggregate and in any one-year period.

The number of options granted to all persons who are consultants or employed to perform investor relations activities shall not exceed 2% of the then issued and outstanding shares of the Company. Options may be granted for a maximum term of five years from the date of the grant, are non-transferable and expire within 90 days of termination of employment or holding office as director or officer of the Company.

The stock option activities during the three months ended October 31, 2025 and year ended July 31, 2025 is summarized as follows:

| STOCK OPTION ACTIVITY | October 31, 2025 | Exercise Price | July 31, 2025 | Exercise Price |
|------------------------------|---------------------|-------------------|------------------|-------------------|
| Balance, beginning of period | 925,580 | \$ 0.25 | 1,801,160 | \$ 0.25 |
| Forfeited | - | 0.25 | (875,580) | 0.25 |
| Balance, end of period | 925,580 | \$ 0.25 | 925,580 | \$ 0.25 |

The following summarizes information about stock options outstanding and exercisable at October 31, 2025:

| EXPIRY DATE | Options outstanding and exercisable | Exercise price | Weighted average remaining contractual life, in years |
|----------------|---|----------------|--|
| April 29, 2027 | 925,580 | \$ 0.25 | 1.50 |
| | 925,580 | | |

10) Share Capital (continued)

c) Summary of Share Purchase Warrant Activity

The Company has no outstanding warrants as at October 31, 2025 and July 31, 2025.

d) Reserves

The share-based and warrant payment reserves record items recognized as share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

11) Capital Disclosure

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is in the business of mineral exploration and has no source of operating revenue. Operations are financed through the issuance of capital stock. Capital raised is held in cash in an interest-bearing bank account until such time as it is required to pay operating expenses or mineral property costs. The Company is not subject to any externally imposed capital restrictions. Its objectives in managing its capital are to safeguard its cash and its ability to continue as a going concern, and to utilize as much of its available capital as possible for exploration activities. The Company is not subject to any externally imposed capital requirements and the Company's objectives have not changed during the period ended October 31, 2025.
