THE COMPANY

Cosigo Resources Ltd. was incorporated on December 21, 1987 in the Province of Alberta and was subsequently continued in the Province of British Columbia in July 2007 and is engaged in the business of acquisition and exploration of mineral properties.

BUSINESS OVERVIEW

The principal business of Cosigo is the acquisition of interests in mineral applications and in mineral exploration licenses in Colombia and Brazil, South America. The Company has title to an area of approximately 10,000 hectares in the Taraira North, Vaupes Province of Colombia and has focused its efforts on an area referred to as the Machado Project. Exploration has been carried out on the Machado Project including the construction of a thirty- person base camp, mobilization of two leased light-weight reverse circulation percussion drills and completion of a network of access trails. Work has also included 1:10,000 scale geological mapping and a 6,798 sample MMI (Mobile Metal Ions) grid-based soil sampling program. A drill program, totaling 1,168m of drilling in 20 drill holes, was carried out in the summer of 2013. The drill program targeted areas highlighted by MMI sampling and geological mapping and successfully showed that the Machado project is underlain by several zones of strata-bound gold mineralization.

Cosigo will continue to test and evaluate areas along the strike of known mineralization and surrounding the areas of known mineralization in the Taraira North area. A key component of this work will be drilling to test known showings and their down-dip extensions.

In addition to the Machado Project the Company has title to the Damian Project.

During the year 2015, the Taraira South CN Project mineral title began process of revocation in 2015 as a new National Park overlapped the property. The possibility of getting the mineral title back is remote.

The Company currently owns 13.26% of the issued common shares of DHK Diamonds Inc., a private company which was formed to own and explore mineral properties in the Northwest Territories, Canada. DHK has entered into a joint exploration program on its properties with a third party who is the operator of the program. The investment in DHK Diamonds Inc. was considered impaired and the cost of the investment was charged to income in a prior year.

SUMMARY OF QUARTERLY RESULTS

	2021		2020				2019	
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
Revenue	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Net comprehensive loss	(\$6,661)	(\$20,301)	(\$34,161)	(\$46,416)	(\$20,370)	(\$28,737)	(\$18,622)	(\$22,967)

The loss of \$6,661 in Q2 of 2021 was mainly due to administrative fees as the Company was not engaged in any geological or exploration work in the quarter. Losses in previous quarters also reflect management and administrative fees. Any variances in the amounts expensed in each quarter reflect the amount of time spent administrating the Company's business activities in that quarter.

LIQUIDITY AND CAPITAL RESOURCES

Cosigo had a working capital deficit of \$480,411 as at June 30, 2021. The Company does not have any revenues and relies solely on outside funding for its continued financial liquidity. Management is currently working towards its application for full revocation of its Cease Trade Order so it can access capital markets again.

Management cautions that the Company's ability to raise additional funding is not certain. Additional funds will be required to pursue the Company's current business plans and an inability to raise additional funds would adversely impact the future assessment of the Company as a going concern.

The Company has no capital commitments as of June 30, 2021.
