1. NATURE OF OPERATIONS AND GOING CONCERN

Group Ten Metals Inc. (the “**Company**”), was incorporated on April 28, 2006, under the laws of British Columbia, Canada. The Company’s principal business activities include the acquisition and exploration of mineral properties.

The Company’s registered office is 904-409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company’s current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company’s mineral properties does not reflect current or future value.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at September 30, 2019, the Company had working capital of \$434,113 (March 31, 2019: working capital deficiency of \$318,837), an accumulated deficit of \$14,517,173 (March 31, 2019: \$12,774,178) and a net loss of \$1,791,489 for the six months ended September 30, 2019 (2018: \$1,643,717). As at September 30, 2019, the Company’s current assets consisting of cash, receivables and prepaid expenses totaled \$672,790 (March 31, 2019: \$90,484). In addition, the Company’s current liabilities included a flow-through premium liability of \$25,472 (March 31, 2019: \$51,348) which is a non-cash item. Also, subsequent to September 30, 2019, the Company completed a private placement for gross proceeds of \$2,472,000 (see Note 12). The Company also has the right to accelerate the exercise of certain of its outstanding warrants that could bring in up to \$2,467,306 in proceeds to the Company ahead of the warrants’ February 27, 2020 expiry dates.

As at September 30, 2019, the Company may not have sufficient working capital to meet its administrative overheads and continue with its exploration programs. The Company has relied mainly upon the issuance of share capital to finance its activities. Future capital requirements will depend on many factors including the Company’s ability to execute its business plan. To finance future activities, the Company will be required to enter into joint venture agreements and/or issue share capital, through private placements and the exercise of options and warrants, and is actively seeking additional equity financing. There can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company and, therefore, a material uncertainty exists that may cast significant doubt over the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting* (“**IAS 34**”) as issued by the International Accounting Standards Board (“**IASB**”) using accounting principles consistent with International Financial Reporting Standards (“**IFRS**”) as issued by the IASB and include the accounts of the Company and its wholly-owned subsidiaries Yankee Girl Resources Corp., incorporated in British Columbia, Canada, Group Ten (USA) Inc., incorporated in Delaware, USA, Group Ten (Alaska) Inc., incorporated in Alaska, USA and 1161932 B.C. c) Duke Island (Alaska, United States)

The Company owns a 100% interest in 31 unpatented mineral claims located on Duke Island, Alaska. Pursuant to an agreement dated August 28, 2015, the only remaining commitment for the Company is a requirement for geological and/or geophysical work from a specified vendor which may be completed on any of the Company's properties. The claims are subject to a 1% NSR.

3. EXPLORATION AND EVALUATION ASSETS (continued)

e) Black Lake (Ontario, Canada) (continued)

- b. entered into an option agreement to earn an undivided 100% interest in mineral claims covering 441 hectares. On April 18, 2017, the option agreement was amended to remove \$1.25 million of work commitments that were a component of the original agreement. As consideration for the removal of the work requirement, the Company agreed to issue 100,000 additional common shares per year in each of 2017, 2018 and 2019. On March 11, 2019, the Company completed its final obligation per the option agreement, as amended, via the issuance of 128,571 common shares. f) Yankee Dundee / Ronoke / Warkentin (British Columbia, Canada)

Yankee Dundee consists of 26 Crown-granted mineral claims located in the Nelson Mining District near Ymir, British Columbia.

On June 25, 2013, the Company closed the sale of its interests and obligations in the properties to Armex Mining Corp. (“**Armex**”) in exchange for advance royalty payments, royalty payments, and production payments. Due to uncertainty surrounding completion of the transaction, the Company did not initially recognize the transaction as a sale.

Ronoke and Warkentin are also located in the Nelson Mining District. Subsequent to the sale agreement, all non-core Ronoke claims were allowed to lapse. Additionally, non-core Warkentin claims were allowed to lapse and the property now consists of nil mineral claims (2015 - 9 mineral claims).

The remaining terms of the agreement are as follows:

- (i) Armex is to pay remaining advance royalty payments of:
- \$50,000 on or before August 28, 2015 (unpaid); and
 - \$50,000 on or before August 28, 2016 (unpaid) and annually thereafter until the commencement of commercial production.
- (ii) Armex is to pay production and additional payments of:
- \$250,000 upon the commencement of commercial production;
 - \$250,000 upon the first anniversary of commencement of commercial production; and
 - additional production payments aggregating \$1,000,000 payable from 30% of net revenues as defined in the agreement.

Armex has the right to satisfy the production and additional payments by paying the aggregate sum of \$1,250,000 any time during the first year of commercial production.

Armex will also assume all obligations per existing underlying option agreements with respect to the Yankee Dundee claims which consist of a 1% NSR upon commencement of commercial production until the recovery of the lesser of aggregate expenditures incurred and \$5,000,000, after such time, the NSR will increase to 2.5%. At any time up to the commencement of commercial production, an option is available to purchase 1.5% of the NSR for \$500,000 and the remaining 1% for \$500,000.

3. EXPLORATION AND EVALUATION ASSETS (continued)

f) Yankee Dundee / Ronoke / Warkentin (British Columbia, Canada) (continued)

The Company will also be entitled to a 2.5% NSR upon commencement of commercial production, with Armex holding the right to repurchase the royalty at any time on the basis of \$1,000,000 for each 1%. In addition, the Company retains back-in rights pursuant to the agreement by which it can re-acquire the property in the event specific production milestones are not met.

Armex disputes the overdue advance royalty payments that were payable on or before August 28, 2015, 2016, 2017 and 2018. As the Company believes that the financial situation of Armex has deteriorated to an extent that precludes it from completing the sale agreement, the capitalized costs relating to Yankee Dundee have been reduced to \$Nil.

g) Outpost/Pacer (Yukon Territory, Canada)

In May 2018, the Company completed an option agreement with an arms-length party whereby the Company can earn a 100% interest in the Outpost and Pacer properties which consist of three claim blocks in the Yukon Territory, totaling approximately 25km². In consideration, the Company has agreed to:

- Complete \$30,000 of work expenditures (satisfied), make a cash payment of \$20,000 (paid on August 29, 2019) and issue 400,000 common shares of the Company on or before the first anniversary of signing (issued May 30, 2019); and
- Complete an additional \$105,000 of work expenditures (partially satisfied) and issue 500,000 common shares of the Company on or before the second anniversary of the acceptance of this agreement.

The claims will be subject to a 2% NSR and the Company will have the option to buy down the NSR to 1%.

h) Ellen (Yukon Territory, Canada)
