INDIGO EXPLORATION INC.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended June 30, 2018 and 2017

(Unaudited - Expressed in Canadian dollars)

1 ORGANIZATION AND NATURE OF OPERATIONS

Indigo Exploration Inc. (“the Company”) is in the business of the acquisition, exploration and evaluation of mineral properties, and either joint venturing or developing these properties further or disposing of them when the evaluation is completed. The Company is listed for trading on the TSX Venture Exchange under the symbol “IXI”. The Company is in the exploration stage and had interests in properties located in Burkina Faso, West Africa. The Company’s corporate head office is located at Suite 880 – 580 Hornby Street, Vancouver, British Columbia, Canada.

2 GOING CONCERN

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material. At June 30, 2018, the Company had not yet achieved profitable operations, had an accumulated deficit of \$7,730,288 (September 30, 2017 - \$7,649,552) since inception, a working capital deficiency of \$2,075 (September 30, 2017 working capital deficiency of \$75,533), and expects to incur further losses in the development of its business, all of which indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. The Company’s ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to develop the mineral properties and to meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

3 BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements for the year ended September 30, 2017, which have been prepared in accordance with IFRS as issued by the IASB.

The Company uses the same accounting policies and methods of computation as in the annual audited consolidated financial statements for the year ended September 30, 2017.

These financial statements were approved by the board of directors for issue on August 29, 2018.

4 ACCOUNTING STANDARDS

i) NEW ACCOUNTING STANDARDS EFFECTIVE FOR THE FIRST TIME

IAS 7 - Statement of Cash Flows. In January 2016, IASB amended IAS 7, “Statement of Cash Flows”, The amendments require that the following changes in liabilities arising from financing activities are disclosed (to the extent necessary): (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair

values; and (v) other changes. One way to fulfil the new disclosure requirement is to provide a reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities. Finally, the amendments state that changes in liabilities arising from financing activities must be disclosed separately from changes in other assets and liabilities. The adoption of the amendment did not have a material impact on the Company's reporting.

ii) ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

At the date of approval of the condensed interim consolidated financial statements the following standards, which are applicable to the Company, were issued but not yet effective. The following is a brief summary of the new or amended standards.

IFRS 9 - Financial Instruments. In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. IFRS 9 also amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in OCI, and guidance on financial liabilities and derecognition of financial instruments. The mandatory effective date of IFRS 9 for the Company would be the annual period beginning on October 1, 2018 and it is not expected to have a material impact on the Company's reporting.

IFRS 16 - Leases. On January 13, 2016, the IASB published a new standard, IFRS 16, Leases. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Under the new standard, a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is treated similarly to other non-financial assets and depreciated accordingly. The liability accrues interest. This will typically produce a front-loaded expense profile (whereas operating leases under IAS 17 would typically have had straight-line expenses). The mandatory effective date of IFRS 16 for the Company would be the annual period beginning on October 1, 2020. Early adoption is permitted.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

There have been no material revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company's September 30, 2017 annual consolidated financial statements.

6 MINERAL PROPERTIES (Schedule 1)

The Company holds a 100% interest in the Hantoukoura (previously Kodyel) and Lati permits in Burkina Faso, West Africa. Refer to Schedule 1.

During the year ended September 30, 2017, the Kodyel permit area was re-permitted as the Hantoukoura permit of equal size and position as the Kodyel permit. The Minister in charge of Mines in Burkina Faso suspended all activity on the permit in light of the security issues related to border issues between Niger and Burkina Faso. The Minister in charge of Mines in Burkina Faso has confirmed that the length of the suspension period will be added back onto the length of the permit. As at June 30, 2018 the suspension has not been lifted.

The Kodyel and Lati permits expired during the year ended September 30, 2015 and the Company submitted, prior to the expiration date, the documentation required to extend the permits. As at June 30, 2018 the Company has continued to not receive a renewed permit or receive a rejection letter for the Lati permits. During the nine months
