

ICONIC RECEIVES FINAL OPTION PAYMENT OF \$2MM USD FOR ITS BONNIE CLAIRE LITHIUM PROJECT

Vancouver, British Columbia – December 15, 2021 – Iconic Minerals Ltd. (the "Company" or "Iconic") (TSX-V: ICM) (OTC: BVTEF) (FSE: YQGB) is pleased to announce that the Company has received the third and final option payment of \$2MM USD from Nevada Lithium Resources Inc. ("Nevada Lithium"). With this payment, Nevada Lithium has fully earned its option for an aggregate 50% ownership in the Bonnie Claire Project.

"We are pleased to announce the receipt of the third option payment from Nevada Lithium and look forward to working in our Joint Venture Agreement on the Bonnie Claire Lithium Project to confirm what we believe to be one of the largest world class lithium deposits" said Iconic CEO, Richard Kern.

Bonnie Claire Property

The Bonnie Claire Property is located within Sarcobatus Valley, which is approximately 30 km (19 miles) long and 20 km (12 miles) wide. Quartz-rich volcanic tuffs containing anomalous amounts of lithium occur within and adjacent to the valley. Drill results from the salt flat have included lithium values as high as 2550 ppm Li and a 1560 foot (roughly 475 meter) vertical intercept that averaged 1153 ppm Li. The current 43-101 resource from the PEA report for borehole mineable portion of the resource is 3,407 million tonnes grading 1,013 ppm Li or 18,372 million kilograms of lithium carbonate equivalent. (though this is a resource, not a reserve, and has not yet proven economic viability). The gravity low within the valley is 20 km (12 miles) long, and the current estimates of depth to basement rocks range from 600 to 1,200 meters (2,000 to 4,000 feet). The current claim block covers an area of 74 km² (28.6 mi²) with potential for brine systems and further sediment resources.

On behalf of the Board of Directors

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, statements with respect to the Option, the Joint Venture, the amount of the Offering, the expected use of proceeds from the Offering and the future business plans and exploration activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: "will", "believes", "expects", "anticipates", "intends", "estimates", "plans", "may", "should", "potential", "scheduled" or variations of such words and phrases and similar expressions, which, by their nature, refer to future events or results that may, could, would, might or will occur or be taken or achieved. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, that investor interest will be sufficient to close the Offering, that market fundamentals will result in sustained precious metals demand and prices, the receipt of any necessary permits, licenses and regulatory approvals required for the Option Agreement and the future development of the Company's projects in a timely manner.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information. Such risks and other factors include, among others, operating and technical difficulties in connection with mineral exploration and development activities, actual results of exploration activities, including on the Bonnie Claire Property, requirements for additional capital, future prices of lithium and gold, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in future financings, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals, permits or financing or in the completion of development or construction activities, risks relating to epidemics or pandemics such as COVID-19, including the impact of COVID-19 on the business, financial condition and exploration and development activities of the Company, changes in laws, regulations and policies affecting mining operations, title disputes, the inability of the Company to obtain any necessary permits, consents, approvals or authorizations, including of the TSX Venture Exchange in respect of the Option Agreement and the Offering, the timing and possible outcome of any pending litigation, environmental issues and liabilities, and risks related to joint venture operations, and other risks and uncertainties disclosed in the Company's latest interim Management's Discussion and Analysis and filed with the Canadian Securities Authorities. All of the Company's Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Company's mineral properties.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
