Liquidity

Historically, the Company's sole source of funding has been from loans payable and the issuance of equity securities for cash, primarily through private placements. The Company's access to exploration financing when the financing is not transaction specific is always uncertain. There can be no assurance of continued access to equity or debt funding.

The Company had cash on hand of \$236,798 as at August 31, 2021 compared to \$46,304 as at August 31, 2020. The Company had a working capital of \$129,265 as at August 31 31, 2021 compared to a working capital of \$263,881 as at February 29, 2021.

It is anticipated that the Company will have capital requirements in excess of its currently available resources and will need to seek additional financing. There can be no assurance that the Company will have adequate financing to meet its future capital requirements or that additional financing will be available on terms acceptable to the Company in the future.

Resource Properties

Kirkland Creek Property

The Kirkland Creek property is located 120 kilometers northwest of Whitehorse, Yukon in the Ashihik Lake region. The Kirkland Creek property originally was comprised of 144 claims totaling approximately 7,300 acres. The Company paid the vendor 2,000,000 common shares for a 100% interest in the property. The vendor retained a 3% net smelter royalty ("NSR") on any mineral production from the property. The Company has the right to purchase up to 2% of the 3% NSR for \$1,000,000 per percentage point. The Kirkland Creek property now consists of 40 contiguous claims. The Company is obligated to make pre-production royalty payments of an aggregate of \$25,000 annually to the Vendor – Deborah Moreau, who is the common-law spouse of the CEO of the Company.

Adoption of New Accounting Standards

IFRS 16, Leases

This new standard replaces the existing leasing guidance in IAS 17, Leases.

IFRS 16 distinguishes between leases and service contracts on the basis of whether the customer controls the asset being leased. For those contracts determined to meet the definition of a lease, IFRS 16 requires a lessee to recognize on the balance sheet a lease asset along with the associated lease liability which reflects

Management's Discussion and Analysis

future lease payments, similar to current finance lease accounting. There are limited exceptions for leases with a term of less than 12 months or leases of assets which have a very low value. As a result of the adoption of IFRS 16, operating leases which were previously only recognized on the statement of earnings will be recognized on the balance sheet.

The purpose of the standard is to provide users of the financial statements with a more accurate picture of a company's leased assets and associated liabilities, while also improving the comparability of companies that lease assets to those that purchase them.

The adoption of this standard did not have a material impact on the Company's financial statements
