

## **Organigram Trailblazer Torch Vape Cartridges Among First ‘Cannabis 2.0’ Products Company Distributes to Market**

### **First wave of Company’s vaporizer offerings shipped in accordance with allowable timelines**

MONCTON, New Brunswick--(BUSINESS WIRE)--December 23, 2019--Organigram Holdings Inc. (NASDAQ:OGI) (TSX:OGI), the parent company of Organigram Inc. (the “Company” or “Organigram”), a leading licensed producer of cannabis, is pleased to announce the first of its ‘Cannabis 2.0’ products have been released, including Trailblazer Spark, Flicker and Glow 510-thread Torch vape cartridges.

Shipments of the custom-designed cartridges were sent to Manitoba, Saskatchewan, Ontario, New Brunswick and Nova Scotia, starting December 17, from the Company’s Moncton production campus.

The first release from Organigram’s suite of vaporizer offerings affirms the Company’s commitment to supporting Canadians’ access to a variety of regulated recreational cannabis products.

“As a company, bringing the next-generation of cannabis products to market without delay was important to us. We are proud to support access to tested, quality derivative-based products that we expect to help strengthen the regulated market and benefit those who prefer those product types over others,” said Greg Engel, CEO, Organigram. “Being one of the first licensed producers in the country ready to provide vape products, following the expiration of Health Canada’s 60-day notification period, illustrates that degree of focus and commitment. It speaks to an extraordinary effort by our internal teams who helped bring the Trailblazer Torch to market.”

The cartridges, filled with CO<sub>2</sub>-extracted cannabis concentrate oil and botanical terpenes, are custom-engineered with borosilicate glass and stainless-steel components, designed to accommodate a standard 510-thread battery. With three distinct offerings, Spark (sativa-dominant), Flicker (hybrid) and Glow (indica-dominant), inspired by dried flower and pre-roll products under the Company’s Trailblazer-branded product lineup.

The release is the first of the Company’s planned and staggered rollout of vaporizable products, including Edison + Feather ready-to-go distillate pens and Edison + PAX ERA® distillate cartridges. Launches of both products are set to occur in markets across Canada through January. Certain provinces have announced delays or other restrictions on the launch of vaporizable products in their markets including Newfoundland & Labrador, Quebec and Alberta and the Company is adjusting its distribution schedules accordingly.

The Company’s next-generation product portfolio includes high-quality infused chocolate and a dissolvable powdered beverage product, designed using nanotechnology for faster onset of cannabinoids (when compared to traditional edible products). Planned releases of Organigram’s edible products are anticipated through calendar Q1 and Q2 of 2020.

#### **About Organigram Holdings Inc.**

Organigram Holdings Inc. is a NASDAQ Global Select and TSX listed company whose wholly owned subsidiary, Organigram Inc., is a licensed producer of cannabis and cannabis-derived products in Canada.
