TRUE GRIT RESOURCES (“TGL.H”) INITIALIZES A WORK PROGRAM ON OUR LARGE PROSPECTIVE GOLD PROPERTY CLOSE TO SOKOMAN IRON CORPORATION’S MOOSEHEAD HIGH GRADE GOLD PROJECT IN NEWFOUNDLAND

November 16, 2018 True Grit has initialized a work program on the property 6.7 km southeast of Sokomans Iron Corp’s flag ship Moosehead high grade gold project in Newfoundland. The property is 2 km’s long by 2 km’s wide and roughly on trend with the gold-mineralized mesothermal orogenic quartz vein system that is Sokoman’s exploration diamond drilling program.

Based on Sokomans (SIC:TSX) news release today, True Grit has commissioned a LWIR (long wave infra red) to help identify anomalous targets.

About True Grit

True Grit is engaged in the business of acquiring, exploring and developing highly prospective mineral properties in North America. True Grit’s portfolio includes Lithium, Cobalt and Gold.

TRUE GRIT RESOURCES LTD.
Byron Coulthard
President

This release includes certain statements that may be deemed to be "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. All statements in this release, other than statements of historical facts, that address future production, reserve potential, exploration and development activities and events or developments that the Company expects, are forward-looking statements. Although management believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance, and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploration and development successes, continued availability of capital and financing, and general economic, market or business conditions.
