## Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

### Note 1. The Company

#### *Organization*

Canada Goose Holdings Inc. and its subsidiaries (the "Company") design, manufacture, and sell performance luxury apparel for men, women, youth, children, and babies. The Company's product offerings include various styles of parkas, lightweight down jackets, rainwear, windwear, apparel, fleece, footwear, and accessories for the fall, winter, and spring seasons. The Company's head office is located at 100 Queens Quay East, Toronto, Canada, M5E 1V3. The use of the terms "Canada Goose", "we", and "our" throughout these notes to the condensed consolidated interim financial statements ("Interim Financial Statements") refer to the Company.

Canada Goose is a public company listed on the Toronto Stock Exchange and the New York Stock Exchange under the trading symbol "GOOS". The principal shareholders of the Company are investment funds advised by Bain Capital LP and its affiliates ("Bain Capital"), and DTR LLC ("DTR"), an entity indirectly controlled by the Chairman and Chief Executive Officer of the Company. The principal shareholders hold multiple voting shares representing 50.1% of the total shares outstanding as at October 1, 2023, or 90.9% of the combined voting power of the total voting shares outstanding. Subordinate voting shares that trade on public markets represent 49.9% of the total shares outstanding as at October 1, 2023, or 9.1% of the combined voting power of the total voting shares outstanding.

#### *Statement of compliance*

The Interim Financial Statements are prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Certain information, which is considered material to the understanding of the Interim Financial Statements and is normally included in the audited annual consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB, is not provided in these notes. These Interim Financial Statements should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended April 2, 2023.

The Interim Financial Statements were authorized for issuance in accordance with a resolution of the Company's Board of Directors on October 31, 2023.

#### *Fiscal year*

The Company's fiscal year is a 52 or 53-week reporting cycle with the fiscal year ending on the Sunday closest to March 31. Each fiscal quarter is 13 weeks for a 52-week fiscal year. Fiscal 2024 is a 52-week fiscal year.

#### *Operating segments*

The Company classifies its business in three operating and reportable segments: Direct-to-Consumer ("DTC"), Wholesale, and Other. The DTC segment comprises sales through country-specific e-Commerce platforms available across numerous markets, which includes the newly launched recommerce platform Canada Goose Generations, currently available in the United States and Canada, and our Company-owned retail stores located in luxury shopping locations.

The Wholesale segment comprises sales made to a mix of retailers and international distributors, who are partners that have exclusive rights to an entire market. The Wholesale segment includes the introduction of travel retail with the opening of a location in Frankfurt, Germany this quarter.

## Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

The Other segment comprises sales and costs that do not occur through the DTC or Wholesale segments, such as sales to employees, friends and family sales, and selling, general, and administrative (“SG&A”) expenses. The Other segment includes the cost of marketing expenditures to build brand awareness across all segments, management overhead costs in support of manufacturing operations, other corporate costs, and foreign exchange gains and losses not specifically associated with DTC or Wholesale segment operations.

### *Seasonality*

Our business is seasonal, and we have historically realized a significant portion of our Wholesale revenue and operating income in the second and third quarters of the fiscal year and DTC revenue and operating income in the third and fourth quarters of the fiscal year. Thus, lower-than-expected revenue in these periods could have an adverse impact on our annual operating results.

Cash flows from operating activities are typically highest in the third and fourth quarters of the fiscal year due to revenue from the DTC segment and the collection of trade receivables from Wholesale revenue earlier in the year. Working capital requirements typically increase as inventory builds. Borrowings have historically increased in the first and second quarters and been repaid in the third quarter of the fiscal year.

## **Note 2. Material accounting policy information and critical accounting estimates and judgments**

### *Basis of presentation*

The accounting policies and critical accounting estimates and judgments as disclosed in the Company's audited annual financial statements for the year ended April 2, 2023 have been applied consistently in the preparation of these Interim Financial Statements except as noted below. The Interim Financial Statements are presented in Canadian dollars, the Company's functional and presentation currency.

Certain comparative figures have been reclassified to conform with the current year presentation, where foreign exchange gains and losses related to the outstanding principal balance on the Term Loan, net of hedging, are reflected in the presentation of net interest, finance and other costs as outlined below (see “*Note 10. Borrowings*” for details and definitions); previously this was presented in SG&A expenses. This change was made to present all financing costs related to the Term Loan within the same financial statement caption in the consolidated interim statements of income (loss). For the second and two quarters ended October 2, 2022, we reclassified foreign exchange gains of \$16.8m and \$15.3m, respectively. This reclassification did not impact net loss, loss per share, or the consolidated interim statement of financial position in the comparative quarter.

In the prior year, management identified an immaterial reclassification in the interim statement of cash flows and related note disclosure for the second and two quarters ended October 2, 2022 decreasing cash outflows from investing activities and increasing cash outflows from operating activities of \$7.0m due to translation of foreign currency. Certain comparative figures have been reclassified in the interim statement of cash flows and related note disclosure related to this reclassification. The reclassification has been appropriately reflected in the interim statement of cash flows and related note disclosure for the second and two quarters ended October 1, 2023.

## Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

### *Principles of consolidation*

The Interim Financial Statements include the accounts of the Company and its subsidiaries and those investments over which the Company has control. All intercompany transactions and balances have been eliminated.

### *Standards issued and not yet adopted*

Certain new standards, amendments, and interpretations to existing IFRS standards have been published but are not yet effective and have not been adopted early by the Company. Management anticipates that pronouncements will be adopted in the Company's accounting policy for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments, and interpretations is provided below.

In January 2020, the IASB issued an amendment to IAS 1, *Presentation of Financial Statements* to clarify its requirements for the presentation of liabilities in the statement of financial position. The limited scope amendment affected only the presentation of liabilities in the statement of financial position and not the amount or timing of its recognition. The amendment clarified that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period and specified that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. It also introduced a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. On October 31, 2022, the IASB issued Non-Current Liabilities with Covenants (Amendments to IAS 1). These amendments specify that covenants to be complied with after the reporting date do not affect the classification of debt as current or non-current at the reporting date. These amendments are effective for annual reporting periods beginning on or after January 1, 2024. Earlier application is permitted. The Company is assessing the potential impact of the amendment.

### *Standards issued and adopted*

In February 2021, the IASB issued narrow-scope amendments to IAS 1, *Presentation of Financial Statements*, IFRS Practice Statement 2, *Making Materiality Judgements* and IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*. The amendments require the disclosure of material accounting policy information rather than disclosing significant accounting policies and clarified how to distinguish changes in accounting policies from changes in accounting estimates. Beginning April 3, 2023, the Company adopted the amendments. The adoption of the amendments did not have a material impact on the Interim Financial Statements.

In May 2023, the IASB issued International Tax Reform, Pillar Two Model Rules, Amendments to IAS 12, *Income Taxes* (the "Amendments"). The Amendments provide the Company with an exception from recognition and disclosure requirements for deferred tax assets and liabilities arising from the Organization for Economic Co-operation and Development ("OECD") Pillar Two international tax reform. Upon issuance of the Amendments, the temporary exception has been adopted by the Company as at July 2, 2023. The disclosure requirements for current tax expense and the disclosures for enacted legislation but not yet effective are required for annual reporting periods beginning on or after January 1, 2023, but are not required for any interim period ending on or before December 31, 2023.

### Note 3. Segment information

The Company has three reportable operating segments: DTC, Wholesale, and Other. The Company measures each reportable operating segment's performance based on revenue and segment operating income (loss), which is the profit metric utilized by the Company's chief operating decision maker, the Chairman and Chief Executive Officer, for assessing the performance of operating segments. Our operating segments are not reliant on any single external customer.

The Company does not report total assets or total liabilities based on its reportable operating segments.

**Note 15. Financial risk management objectives and policies**

The Company's primary risk management objective is to protect the Company's assets and cash flow, in order to increase the Company's enterprise value.

The Company is exposed to capital management risk, liquidity risk, credit risk, market risk, foreign exchange risk, and interest rate risk. The Company's senior management and Board of Directors oversee the management of these risks. The Board of Directors reviews and agrees upon policies for managing each of these risks which are summarized below.

## Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

### Capital management

The Company manages its capital and capital structure with the objectives of safeguarding sufficient net working capital over the annual operating cycle and providing sufficient financial resources to grow operations to meet long-term consumer demand. The Board of Directors of the Company monitors the Company's capital management on a regular basis. The Company will continually assess the adequacy of the Company's capital structure and capacity and make adjustments within the context of the Company's strategy, economic conditions, and risk characteristics of the business.

### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to satisfy the requirements for business operations, capital expenditures, debt service and general corporate purposes, under normal and stressed conditions. The primary source of liquidity is funds generated by operating activities; the Company also relies on the Mainland China Facilities, the Japan Facility and Revolving Facility as sources of funds for short term working capital needs. The Company continuously reviews both actual and forecasted cash flows to ensure that the Company has appropriate capital capacity.

The following table summarizes the amount of contractual undiscounted future cash flow requirements as at October 1, 2023:

Contractual obligations by fiscal year (in millions of Canadian dollars)	Q3 to Q4 2024	2025	2026	2027	2028	2029	Thereafter	Total

### *Letter of guarantee facility*

On April 14, 2020, Canada Goose Inc. entered into a letter of guarantee facility in the amount of \$10.0m. Letters of guarantee are available for terms of up to twelve months and will be charged a fee equal to 1.0% per annum calculated against the face amount and over the term of the guarantee. Amounts issued on the facility will be used to finance working capital requirements of Canada Goose Inc. through letters of guarantee, standby letters of credit, performance bonds, counter guarantees, counter standby letters of credit, or similar credits. The Company immediately reimburses the issuing bank for amounts drawn on issued letters of guarantees. At October 1, 2023, the Company had \$6.8m outstanding.

In addition, a subsidiary of the Company in Mainland China entered into letters of guarantee and as at October 1, 2023 the amount outstanding was \$8.9m. Amounts will be used to support retail operations of such subsidiaries through letters of guarantee, standby letters of credit, performance bonds, counter guarantees, counter standby letters of credit, or similar credits.

### **Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Credit risk arises from the possibility that certain parties will be unable to discharge their obligations. The Company manages its credit risk through a combination of third party credit insurance and internal house risk. Credit insurance is provided by a third party for customers and is subject to continuous monitoring of the credit worthiness of the Company's customers. Insurance covers a specific amount of revenue, which may be less than the Company's total revenue with a specific customer. The Company has an agreement with a third party who has insured the risk of loss for up to 90% of trade accounts receivable from certain designated customers subject to a total deductible of \$0.1m, to a maximum of \$30.0m per year. As at October 1, 2023, trade accounts receivable totalling approximately \$77.5m (October 2, 2022 - \$93.3m, April 2, 2023 - \$10.3m) were insured subject to the policy cap. Complementary to the third party insurance, the Company establishes payment terms with customers to mitigate credit risk and continues to closely monitor its trade accounts receivable credit risk exposure.

Within CG Japan, the Company has an agreement with a third party who has insured the risk of loss for up to 45% of trade accounts receivable for certain designated customers for a maximum of JPY450.0m per annum subject to a deductible of 10% and applicable only to accounts with receivables over JPY100k. As at October 1, 2023, trade accounts receivable totalling approximately \$4.1m (JPY450.0m) were insured subject to the policy cap (October 2, 2022 - \$4.3m (JPY450.0m), April 2, 2023 - \$0.7m (JPY72.8m)).

### *Trade accounts receivable factoring program*

A subsidiary of the Company in Europe has an agreement to factor, on a limited recourse basis, certain of its trade accounts receivable up to a limit of EUR20.0m in exchange for advanced funding equal to 100% of the principal value of the invoice.

## Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

For the two quarters ended October 1, 2023, the Company received cash proceeds from the sale of trade accounts receivable with carrying values of \$25.9m which were derecognized from the Company's statement of financial position (two quarters ended October 2, 2022 - \$20.0m). Fees of \$0.2m were incurred during the two quarters ended October 1, 2023 (two quarters ended October 2, 2022 - \$0.1m) and included in net interest, finance and other costs in the interim statements of income (loss). As at October 1, 2023, the outstanding amount of trade accounts receivable derecognized from the Company's statement of financial position, but which the Company continued to service, was \$12.2m (October 2, 2022 - \$13.5m, April 2, 2023 - \$1.1m).

### **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise foreign exchange risk and interest rate risk.

### **Foreign exchange risk**

#### *Foreign exchange risk in operating cash flows*

The Company's Interim Financial Statements are expressed in Canadian dollars, but a substantial portion of the Company's revenues, purchases, and expenses are denominated in other currencies, principally U.S. dollars, euros, British pounds sterling, Swiss francs, Chinese yuan, Hong Kong dollars and Japanese yen. The Company has entered into forward foreign exchange contracts to reduce the foreign exchange risk associated with revenues, purchases, and expenses denominated in these currencies. Certain forward foreign exchange contracts were designated at inception and accounted for as cash flow hedges. During the fourth quarter of fiscal 2023, the Company executed the operating cash flow hedge program for the fiscal year ending March 31, 2024.

Revenues and expenses of all foreign operations are translated into Canadian dollars at the foreign currency exchange rates that approximate the rates in effect at the dates when such items are recognized. As a result, we are exposed to foreign currency translation gains and losses. Appreciating foreign currencies relative to the Canadian dollar, to the extent they are not hedged, will positively impact operating income and net income by increasing our revenue, while depreciating foreign currencies relative to the Canadian dollar will have the opposite impact.

The Company recognized the following unrealized losses and gains in the fair value of derivatives designated as cash flow hedges in other comprehensive income:

(in millions of Canadian dollars)	Second quarter ended				Two quarters ended

### Foreign exchange risk on borrowings

The Company enters into derivative transactions to hedge a portion of its exposure to interest rate risk and foreign currency exchange risk related to principal and interest payments on the Term Loan denominated in U.S. dollars (see "Note 10. Borrowings"). The Company also entered into a five-year forward exchange contract by selling \$368.5m and receiving USD270.0m as measured on the trade date, to fix the foreign exchange risk on a portion of the Term Loan borrowings.

The Company recognized the following unrealized gains in the fair value of derivatives designated as hedging instruments in other comprehensive income:

(in millions of Canadian dollars)	Second quarter ended				Two quarters ended			
	October 1, 2023		October 2, 2022		October 1, 2023		October 2, 2022

The Company reclassified the following gains and losses from other comprehensive income on derivatives designated as hedging instruments to net interest, finance and other costs:

(in millions of Canadian dollars)	Second quarter ended		Two quarters ended	
	October 1, 2023	October 2, 2022	October 1, 2023	October 2, 2022

Swaps designated as cash flow hedges	(0.4)	0.2	(0.9)	0.4

For the second and two quarters ended October 1, 2023, unrealized gains of \$8.0m and \$2.4m, respectively (second and two quarters ended October 2, 2022 - unrealized gains of \$11.0m and \$23.4m, respectively) in the fair value of the long-dated forward exchange contract related to a portion of the Term Loan balance were recognized in net interest, finance and other costs in the interim statements of income (loss).

### Interest rate risk

The Company is exposed to interest rate risk related to the effect of interest rate changes on the borrowings outstanding under the Mainland China Facilities, Japan Facility, the Revolving Facility, and the Term Loan, which currently bear interest rates at 3.07%, 0.35%, 5.89%, and 8.93%, respectively.

Interest rate risk on the Term Loan is partially mitigated by interest rate swap hedges. The Company has entered into five-year interest rate swap agreements terminating December 31, 2025 to pay fixed interest rates and receive floating interest rates on notional debt of USD270.0m. Effective June 30, 2023, the floating interest benchmark reference rate contained within the swap agreements were amended from LIBOR to SOFR and the average fixed rates were reduced from 1.97% to 1.76%. These swap agreements fix the interest rate on the USD300.0m Term Loan. Following the amendment, the interest rate swaps continue to be designated and accounted for as cash flow hedges.

**Notes to the Condensed Consolidated Interim Financial Statements  
(unaudited)**

Based on the weighted average amount of outstanding borrowings, a 1.00% increase in the average interest rate during the two quarters ended October 1, 2023 would have increased interest expense on the Mainland China Facilities, Japan Facility, the Revolving Facility, and the Term Loan before hedging, by \$0.1m, \$0.1m, \$0.2m, and \$2.0m, respectively (two quarters ended October 2, 2022 - less than \$0.1m, \$0.1m, \$0.1m, and \$1.9m, respectively).
