NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(unaudited, expressed in Canadian dollars)

For the nine months ended July 31, 2025 and 2024

1. NATURE OF OPERATIONS AND GOING CONCERN

Roscan Gold Corporation (the “Company”) is an exploration stage company involved in the business of acquiring, exploring and developing gold properties in West Africa. The Company’s properties are located in Mali. The Company’s shares are listed on the TSX Venture Exchange under the trading symbol “ROS” and on the Frankfurt Stock Exchange under the trading symbol “2OJ”. On January 3, 2022, the Company’s common shares commenced trading on the United States OTCQB Venture Market under the symbol “RCGCF”. The address of the Company’s head office and registered office is 217 Queen Street West, Suite 401, Toronto, ON, M5V 0R2.

New Mining Code

In August 2023, Mali’s interim government adopted a new mining code and as part of their review of the mining sector, suspended the issuance and renewals of permits and exploration licenses.

Following approval of the Implementation Decree by the Council of Ministers and the President, the new mining code is now functional. Subsequently a number of agreements have been publicly announced by the government and operating mining companies.

On March 10th, 2025, the Mali Government announced the partial lifting of the suspension on processing applications related to mining titles. The Company sees this a major de-risking event for the Kandiole Gold Project. The Company has resumed discussions aimed at reaching an agreement with the authorities and the receipt of the mining permit.

Mali Coup

In August 2020 and again in May 2021, a coup was staged by Mali’s military resulting in the dissolution of the Malian government. Mali is currently being governed by a transitional government. The Company’s exploration activities have not been disrupted. It should be noted that the Mali capital, Bamako, the centre of the political transition, is over 600 kilometres from its exploration site.

The Company’s Malian properties may potentially expose the Company to risks and different considerations not normally associated with companies or exploration activities in North America. The Company’s ability to retain its properties, raise and deploy capital may be adversely affected by changes in governing regimes, policies, laws and regulations, all of which are beyond the Company’s control.

Going Concern

The business of exploration, development and mining of minerals involves a high degree of risk and there can be no assurances that future exploration activities will result in the discovery of economically recoverable mineral deposits. The success and continuation of the Company as a going concern is dependent upon the Company’s ability to arrange financing, which in part, depends on prevailing market conditions, acquiring or discovering economically viable mineral properties, exploration success, and securing title and beneficial interest in its properties.

Further funds will be required for the Company to continue as a going concern, fulfil its obligations and fund its activities. The Company does not produce revenues from its exploration activities or have a regular source of cash flow. There can be no assurance that the Company will be able to obtain sufficient financing in the future or at favourable terms.

As of July 31, 2025, the Company had working capital deficiency of \$ 2,340,320 (October 31, 2024 - \$1,545,342 deficiency), incurred loss for the current nine-month period of \$1,983,425 (2024 - \$2,319,661 loss), and, had an accumulated deficit of \$89,308,200 (October 31, 2024 - \$87,324,775 deficiency). On December 2, 2022, the Company raised additional net proceeds of \$4,880,000 from the sale of a 1.0% net smelter return royalty (“NSR”) to Osisko Gold Royalties Ltd. (“Osisko”). Upon receipt of an exploitation licence issued by the Malian government, the Company has the right to compel Osisko to acquire an additional 1% NSR by paying an additional \$5 million (note 12).

For the nine months ended July 31, 2025 and 2024

1. NATURE OF OPERATIONS AND GOING CONCERN (continued)

Going Concern (continued)

To further enhance the Company's working capital, the Company closed a non-brokered private placement on October 4, 2024 through the issuance of an aggregate of CAD\$1,300,000 principal amount secured subordinate promissory notes for gross proceeds of CAD\$1,300,000. The placement constituted a related party transaction within the meaning of TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 as insiders of the Company subscribed an aggregate of \$700,000 principal amount of promissory notes pursuant to the placement (note 8). In addition, on October 15, 2024, the Company completed a non-brokered private placement through the issuance 20,000,000 common shares in the capital of the Company at a price of \$0.10 per Common Share, for gross proceeds of \$2,000,000 (note 9). Furthermore, on June 23, 2025, the Company completed another fully subscribed non-brokered private placement through the issuance 10,000,000 common shares in the capital of the Company at a price of \$0.10 per Common Share, for gross proceeds of \$1,000,000 (Note 9). Gross proceeds raised from above private placements will be used for exploration and development of the Kandiolé Project and for working capital and general corporate purposes.

These unaudited condensed interim consolidated financial statements have been prepared using accounting principles applicable to a going concern, which assume that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. However, due to uncertainties surrounding a number of factors, such as, but not limited to, the ability to raise additional funds, ability to acquire mineral properties, exploration results, prices of underlying commodities, investor sentiment and financial market conditions, it is not possible to predict if this assumption will prove to be accurate. These factors indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

These consolidated financial statements do not include the necessary adjustments to reflect the recoverability and classification of recorded assets and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of condensed interim consolidated financial statements, including Internal Accounting Standards ("IAS") 34, Internal Financial Reporting, and their interpretations issued by the IFRS Interpretations Committee ("IFRIC") which have been consistently applied. The accounting policies used in these condensed interim consolidated financial statements are consistent with those disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2024.

These consolidated financial statements for the nine-month period ended July 31, 2025, were approved and authorized for issue by the Company's board of directors on September 29, 2025.

Basis of Consolidation and Presentation

These consolidated financial statements include the accounts of the Company and its wholly owned Malian subsidiaries, Roscan Gold Mali SARL and Komet Mali SARL. All significant inter-company transactions and balances have been eliminated on consolidation.

These consolidated financial statements are prepared on the historical cost basis, except for financial instruments classified as fair value through profit and loss. These consolidated financial statements are presented in Canadian dollars,

which is the Company's functional currency. The functional currency of the Company's two Malian subsidiaries is the Canadian dollar.

These unaudited interim consolidated financial statements do not include all of the disclosure required in annual financial statements and should be read in conjunction with the Company's 2024 audited annual consolidated financial statements. These consolidated financial statements are not necessarily indicative of the results that may be anticipated for the entire fiscal year.

3. ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements, in conformity with IFRS, requires the Company's management to make certain estimates and judgements that they consider reasonable and realistic. These estimates and judgements are based on historical experience, future expectations, economic conditions and other factors. Despite regular reviews, changes in circumstances and assumptions may result in changes in these estimates and judgements, which could materially impact the reported amount of the Company's assets, liabilities, equity or earnings. By their nature, estimates and judgements are subject to measurement uncertainty and actual results could vary from estimates.

Significant estimates relate to:

- measurement of share-based payments and warrant valuations;
- measurement of shares issued to acquire mineral properties;
- recognition and measurement of convertible debentures;
- establishment of provisions; and,
- recognition of deferred tax assets.

Significant judgements relate to:

- ability to continue as a going concern;
- presentation of the components of the convertible debentures;
- functional currency of the Company and its subsidiaries;
- ability to retain exploration and evaluation permits; and,
- exploration and evaluation accounting policy.

4. MATERIAL ACCOUNTING POLICIES

The Company's material accounting policies, as described in Note 4 of the Company's audited consolidated financial statements for the year ended October 31, 2024, have been applied consistently to all periods presented in these financial statements, unless otherwise noted.

5. NEW STANDARDS AND INTERPRETATIONS ISSUED

For the nine-month period ended July 31, 2025, the Company has adopted following accounting standards.

Amendments to IAS 1 – Presentation of Financial Statement: The amendment clarifies that the classification of liabilities as current or non-current depends on the rights existing at the end of the reporting period as opposed to management's intentions or expectations of exercising the right to defer settlement of the liability. The amendments further clarify that settlement of a liability refers to the transfer of cash, equity instruments, other assets or services to the counterparty. The amendments are effective for annual periods beginning on or after January 1, 2024, and are to

5. NEW STANDARDS AND INTERPRETATIONS ISSUED (continued)

be applied retrospectively, with early adoption permitted. As the Company does not have any non-current liabilities, this change had no impact on the financial statements.

Amendments to IAS 7 and IFRS 7: Effective on January 1, 2024, the amendment address the disclosure requirements to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk. This change had no impact on the financial statements.

Future standards not yet adopted: In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements to improve reporting of financial performance. The new standards replace IAS 1 Presentation of Financial Statements. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required, and early adoption is permitted. The Company is currently evaluating the impacts of adopting this amendment on its financial statements.

6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern; and, to have sufficient capital to fund the exploration and development of its mineral properties and the acquisition of other mineral properties for the benefit of its shareholders.

The Company considers its capital structure to consist of convertible debentures and shareholder equity (deficiency), comprising of issued common shares, promissory notes, convertible debentures, contributed surplus and deficit. In order to maintain its capital structure, the Company is dependent on equity funding and loans from related parties and investors. Funding through equity instruments is comprised of common shares, warrants and incentive stock options. Funding through debt instruments is comprised of fixed-term loans and convertible debentures. The Board of Directors does not establish quantitative targets on its capital criteria for management, however, it relies on management to review its capital management methods and requirements on an ongoing basis and make adjustments accordingly, to sustain future development of the business.

There were no changes in the Company's management of its capital during the current nine -month period. The Company is not subject to any externally imposed capital requirements.

8. CONVERTIBLE DEBENTURES

1) On March 11, 2024, the Company closed the initial tranche of a non-brokered private placement through the issuance of an aggregate of CAD\$1,000,000 principal amount secured subordinate promissory notes for gross proceeds of CAD\$1,000,000. The promissory notes bear interest at 12% per annum from the date of issuance and shall mature on September 11, 2024. The notes are convertible, in whole or in part, into common shares in the capital of the Company at a conversion price equal to CAD\$0.11 per Common Share. The notes holders shall receive accrued and unpaid interest on the note, up to, but excluding, the earlier date of conversion and the maturity date.

On September 11, 2024, the Company received approval from the TSX Venture Exchange to extend the maturity date of its outstanding secured subordinate promissory notes in the aggregate of \$1,000,000. The maturity date of the notes has been extended to September 11, 2025. All other terms and conditions of the notes shall remain unchanged.

In accordance with IFRS9, the Company has classified the convertible promissory notes into its liability and equity components in the Company's consolidated financial statement by the fair value method using an effective interest rate of 14.5% when valuing the liability first. In addition, under IFRS 9, extending the maturity of a convertible debenture is considered a modification if the terms of the original agreement are changed. A debt modification is considered substantial if the present value of the cash flows under the new terms is at least 10% different from the present value of the remaining cash flows under the original terms. Since the difference of \$29,432 is less than the 10% threshold, the modification of the maturity date is not considered substantial. The Company continues to account for the debt as a liability at its modified carrying amount of \$970,568 as of the modification date under the new term.

As of July 31, 2025, the promissory notes have not been converted and are still outstanding. The carrying value of the convertible debenture would have been accreted up to its face value over the term to maturity if had not been extended.

2) On October 4, 2024, the Company closed its non-brokered private placement with a Company director for a CAD\$300,000 principal amount secured subordinate promissory note for gross proceeds of CAD\$300,000. The notes bear interest at 12% per annum from the date of issuance and matures on September 11, 2025. The notes are convertible, in whole or in part, into common shares in the capital of the Company at a conversion price equal to CAD\$0.11 per Common Share. The notes holders shall receive accrued and unpaid interest on the note, up to, but excluding, the earlier date of conversion and the maturity date.

In accordance with IFRS9, the Company has classified the convertible promissory notes into its liability and equity components in the Company's consolidated financial statement by the fair value method using an effective interest rate of 13.5% when valuing the liability first. As of July 31, 2025, the promissory notes have not been converted and are still outstanding.

RSUs and PSUs to its directors, officers, employees and consultants based on the Company's share price at the grant date of grant.

Under the terms of the Company's stock option and RSU/PSU/DSU plans (the "Plans"), the Company is authorized to issue up to a maximum of 10% of the issued common shares with an exercise period that is not to exceed ten years. The term, exercise price and vesting conditions of the options, RSUs, PSUs and DSUs are fixed by the Board of Directors at the time of grant. All issued stock options were granted in accordance with the terms of the Plan.

The number of shares reserved for issuance under the Plans, in aggregate, are not to exceed 10% of the Company's issued and outstanding common shares at time of issuance. On July 31, 2025, the Company had 19,566,471 (October 31, 2024 – 7,622,341) common shares available for future grants under the Plans.

Dabia South

On July 2, 2020, the Company purchased Komet Mali SARL, which holds the Dabia South permit.

Option Agreements - Exercised

During fiscal 2021, the Company completed its option agreement obligations to acquire the Kandiole North, Kandiole West, Mankouke, Mankouke West, Moussala, Niala and Segando South permits, of which six of these seven permits have been transferred to the Company with the transfer of the Mankouke West permit pending. By February 2023, the Company completed its option agreement obligations to acquire the Segondo West permit and the transfer of the permit is currently pending.

A) Kandiole North – permit transferred

In November 2022, Kandiole North (40 sq. kms.) and Mankouke (17 sq. kms.) were merged into one permit with no change in the total area, resulting in Kandiole North becoming the surviving permit.

Kandiole North

The Company acquired Kandiole North pursuant to an option agreement (dated June 4, 2018, with an effective date of November 3, 2017) with Touba Mining Junior SARL (“Touba”). Touba retained a 5% net profit interest (“NPI”) and a 2% net smelter return royalty (“NSR”) on all ore mined from the property. The Company has the right to purchase

one-half of the NSR (equivalent to a 1% NSR) for \$1,000,000. Touba assigned its option rights under its agreement with Ouani-Or SARL to the Company.

Mankouke

The Company acquired Mankouke pursuant to an option agreement (dated June 22, 2018) with Minex SARL ("Minex"). Minex retained a 3% NSR on all ore mined from the property. The Company has the right to purchase two-thirds of the NSR (equivalent to a 2% NSR) for US\$1,000,000.

B) Kandiole West – permit transferred

The Company acquired Kandiole West pursuant to an option agreement (dated June 4, 2018, with an effective date of November 3, 2017) with Touba. Touba retained a 5% NPI and a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for \$1,000,000. Touba assigned its option rights under its agreement with Kara Mining SARL to the Company.

C) Mankouke West – transfer of permit is pending

The Company acquired Mankouke West pursuant to an option agreement (dated March 22, 2021) with Touba. Touba retained a 1% NSR on all ore mined from the property. The Company has the right to purchase the entire NSR for CDN \$1 million.

D) Moussala North and Segando South – permits transferred

The Company acquired Moussala North and Segando South pursuant to option agreements (each dated March 31, 2018) with K.L. Mining and K.A Gold Mining (collectively, the "Optionor"). The Optionor retained a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for US\$1,200,000.

E) Niala – permit transferred

The Company acquired Niala pursuant to an option agreement (dated April 27, 2018) with SOLF SARL ("SOLF"). SOLF retained a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for \$500,000.

F) Segondo West Option Agreement – transfer of permit is pending

The Company has completed its option agreement obligations as follows:

- (a) Paid SO.FI.SI Mining SARL ("SO.FI.SI") an aggregate of 65,000,000 CFA francs (CDN \$144,171), as follows:
 - 10,000,000 FCFA (CDN \$23,410) on signing (paid);
 - 20,000,000 FCFA (CDN \$43,985) by February 5, 2022 (paid); and,

Option Agreements – Exercise pending

Subject to the Company completing its option agreement obligations, the Company has the right to acquire a 100% interest in the two privately held gold prospective permits, as further described below.

A) Bantanko East Option Agreement – effective April 7, 2021

To exercise the option the Company shall:

- (a) pay Harmattan Consulting SARL (“Harmattan”), an aggregate of 115,000,000 CFA francs (approximately CDN \$259,480), as follows:
 - 20,000,000 FCFA (CDN \$45,622) on signing (paid);
 - 27,500,000 FCFA (CDN \$57,184) by April 7, 2022 (paid);
 - 30,000,000 FCFA (CDN \$66,315) by April 7, 2023 (paid on May 11, 2023, as agreed by Harmattan); and
 - 37,500,000 FCFA (approximately CDN \$90,360), upon the submission of the documentation to transfer the permit to the Company.
- (b) issue to Harmattan an aggregate of 115,000,000 CFA Francs (approximately CDN \$260,780) in common shares of the Company based on the closing market price preceding the share issuance date, as follows:
 - 20,000,000 FCFA (CDN \$46,273) of shares on signing (90,731 shares issued);
 - 27,500,000 FCFA (CDN \$56,898) of shares by April 7, 2022 (167,347 shares issued);
 - 30,000,000 FCFA (CDN \$67,248) of shares by April 7, 2023 (353,937 shares issued);
 - 37,500,000 FCFA (approximately CDN \$90,360) of shares upon the submission of the documentation to transfer of the permit to the Company (approximately 903,600 shares).
- (c) incur an aggregate of 191,000,000 CFA francs (approximately CDN \$427,900) in exploration expenditures over the option period, as follows:
 - 44,000,000 FCFA by April 7, 2022 (completed); and,
 - 147,000,000 FCFA by April 7, 2023 (completed).

Note: Future commitments are based on July 31, 2025: exchange rates of 415 FCFA: \$1 for Canadian denominated amounts; and a closing share price of CDN \$0.10.

In conjunction with the property being placed into production, the Company shall incorporate an operating company and issue to Harmattan, within 30 days of the date of commencement of production, US \$1,000,000 in common shares of the operating company.

If a bankable feasibility study is prepared by the Company and the study reveals proven gold reserves equivalent to more than 1,000,000 oz, the Company shall provide: (i) Harmattan with the results of the study; and, (ii) issue to Harmattan, within thirty (30) days of receipt of such study, US\$1,000,000 in common shares of the Company. Harmattan retains a two percent (2%) NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for US \$1,000,000.

12. SALE OF NET SMELTER RETURN ROYALTY

On December 2, 2022, the Company entered into a royalty financing agreement (the “Royalty Agreement”) with Osisko Gold Royalties Ltd. (“Osisko”), whereby Osisko paid the Company \$5 million to acquire an initial 1.0% net smelter return royalty (“NSR”) in the properties that comprise the Company’s Kandiole Project. In addition, Osisko retains the option to acquire an additional 1% NSR (the “Additional Royalty”) in the Kandiole Project properties, at any time, by paying another \$5 million. The Company has the right to compel Osisko to acquire the Additional Royalty upon receipt of an exploitation licence issued by the Malian government in accordance with its mining codes or laws.

Osisko retains a right of first offer (“ROFO”) and a right of first refusal (“ROFR”) pertaining to the sale of future royalties on current Kandiole Project properties and on properties that are subsequently acquired that are contiguous or complementary. As well, Osisko holds a ROFO and ROFR on the sale of streaming interests and on the Company’s buyback rights on pre-existing royalties attached to the Kandiole Project properties. To secure its obligations under the Royalty Agreement, the Company pledged its shareholdings in its subsidiaries, Roscan Gold Mali SARL and Komet Mali SARL. The Company incurred advisory fees of \$120,000.

13. RELATED PARTY TRANSACTIONS AND BALANCES

A summary of the compensation of key management (directors/officers) of the Company is included in the table below. Key management are those persons having authority and responsibility for planning, directing and controlling activities, directly or indirectly, of the Company.

14. COMMITMENTS AND CONTINGENCIES

The Company currently has management services agreements with two Company officers that contain the provision of termination and change of control benefits. The first agreement provides that in the event that the officer's service are terminated by the Company, other than for cause, or there is a change in control of the Company that the officer shall be entitled to a lump sum payment amount equal to (2) years of base remuneration, plus any unpaid bonus plus the average of the bonus paid to the officer over the previous (2) years, but prior to the third year of service. The second agreement provides that if the officer's services are terminated by the Company, other than for cause, or there is a change in control of the Company that the officer shall be entitled to a lump sum payment amount equal to one (1) year of base remuneration. The Company has an agreement with a consultant, which provides that if the consultants services are terminated by the Company, other than for cause, or there is a change in control of the Company that the consultant shall be entitled to a lump sum payment amount equal to two (2) years of base remuneration plus one (1) month of current compensation for each year of service, effective April 1, 2019. As a triggering event has not taken place, the contingent payments of \$1,121,500 (October 31, 2024 - \$1,115,267) have not been reflected in these consolidated financial statements.

15. LOSS PER SHARE

Loss per share is calculated using the weighted average number of shares outstanding for the period. For the purposes of calculating the basic and diluted loss per share the effect of the potentially dilutive options, warrants, RSUs, PSUs and convertible debentures were not included in the calculation for the nine-month period ended July 31, 2025 and 2024, as the result would be anti-dilutive.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair Value

The carrying value of cash, accounts payable and accrued liabilities, convertible debentures and loans due to related parties approximates fair value due to the relative short-term maturity of these financial instruments. Fair value represents the amount that would be exchanged in an arms-length transaction between willing parties and is best evidenced by a quoted market price if one exists.

IFRS 7 establishes a fair value hierarchy that prioritizes the valuation techniques for each financial instrument measured at fair value. Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgement.

The methods and assumptions used to develop fair value measurements are: Level 1 - includes quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - includes inputs, other than quoted prices included in Level 1, that are observable for an asset or liability, either directly (i.e. as process) or indirectly (i.e. derived from process); and, Level 3 - includes inputs that are not based on observable data.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Risk Management

The primary objectives of the Company's financial risk management procedures are to ensure that the outcome of activities involving elements of risk are consistent with the Company's objectives and risk tolerance, while maintaining an appropriate risk/reward balance and protecting the Company's financial position, from events that have the potential to materially impair its financial strength. These activities include the preservation of its capital by minimizing risk related to its cash.

The Company does not trade financial instruments for speculative purposes and does not have a risk management committee or written risk management policies. The Company's financial instruments are exposed to the risks described below:

Credit Risk

Credit risk is the risk of financial loss to the Company, if one party to a financial instrument fails to discharge or meet their obligations. Financial instruments that potentially expose the Company to this risk relate to its cash, which is primarily held at a Canadian banking institution and sales tax receivables due from the Canadian government.

Currency Risk

The Company's operates in Canada and Mali and has potential future commitments in Mali that are denominated in the West African CFA franc (FCFA), the Euro (EUR) and the United States dollar (USD), giving rise to market risks from changes in foreign exchange rates. The Company monitors foreign exchange rates on an as needed basis. As at July 31, 2025, a 10% change in the USD or the EUR exchange rate would impact the Company's loss by approximately \$37,020 (October 31, 2024 - \$51,800) and \$217,910 (October 31, 2024 - \$143,300), respectively.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in interest rates. The Company's excess cash is invested in financial instruments that provide safety and flexibility for early redemption. The Company's excess cash is subject to interest rate risk resulting from fluctuations in prime rates. The Company is exposed to interest rate price risk as all convertible debentures bear interest at a fixed rate.

Liquidity Risk

Liquidity risk management requires maintaining sufficient cash, liquid investments or credit facilities to meet the Company's operating expenditures and commitments, as they come due. The Company manages liquidity risk through the management of its capital structure as described in Note 6. The Company does not have any income from operations or a regular source of income and is highly dependent on its working capital and equity and debt funding to support its exploration and corporate activities. There can be no assurance that the Company will be successful in its fund-raising activities.

As at July 31, 2025, the Company had cash of \$949,374 (October 31, 2024 - \$1,281,773) to settle current liabilities of \$3,479,586 (October 31, 2024 - \$2,872,189). The Company will require additional capital to fully fund its 2025 and beyond exploration activities.

17. SUBSEQUENT EVENTS

On September 11, 2025, the Company announced that, further to its press release of March 11, 2024, September 6, 2024 and September 11, 2024, it intends to extend the maturity date of its outstanding secured subordinate promissory notes in the aggregate of \$1,300,000 (the "Notes"). The Company intends to extend the maturity date from September 11, 2025 to September 11, 2026 (the "Proposed Amendment"). All other terms and conditions of the Notes shall remain unchanged.

The Proposed Amendment is considered a related party transaction within the meaning of TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions ("MI 61-101") as insiders of the Company hold an aggregate of \$700,000 principal amount of Notes.

On September 22, 2025, the Company announced that it has received formal approval from the Council of Ministers of Mali for the renewal of its key exploration permits. The Company considers this to be a positive development as it paves the way for the issuance of the exploitation permit. The Company believes that the renewal underscores the Government of Mali's continued support for responsible mineral exploration and development and that it provides the Company with a solid foundation to advance its Kandiole Gold Project in the region.
