NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**1) NATURE OF OPERATIONS AND GOING CONCERN**

Emergent Metals Corp. (formerly Emgold Mining Corporation) (“Emergent” or the “Company”) was incorporated under the British Columbia Corporations Act on 17 March 1989. The Company’s principal business office is located at c/o Capiche Legal LLP, 620 – 111 Melville Street, Vancouver, BC, V6E 3V9. The Company’s shares trade on the TSX Venture Exchange under the symbol EMR, on the OTC Market as EGMCF, and on the Frankfurt and Berlin Stock Exchanges under the symbol EML.

Emergent is engaged in the acquisition, exploration, and divestiture of mineral property interests, with the objective of generating shareholder value. Transactions may include asset purchases or sales, joint ventures, options, royalties, or other structures appropriate to the specific asset.

These interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes the Company will continue operations for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. The Company has incurred cumulative losses, has negative operating cash flows, and is unable to fully finance its planned operations for the 2025 fiscal year without additional funding. The Company’s ability to continue as a going concern is dependent upon its capacity to raise additional financing, generate proceeds from asset transactions, or otherwise obtain sufficient working capital. There can be no assurance that such financing or transactions will be available in the future.

As a result, there is a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. If the going concern assumption were not appropriate, adjustments would be required to the carrying amounts of assets and liabilities, the reported expenses, and the classification of balances in the consolidated statement of financial position. Such adjustments could be material.

As at 30 September 2025 and 31 December 2024, the Company had the following negative indicators.

Rounded to 000’s	30 Sep 2025	31 Dec 2024
Working capital (deficiency)	\$ (1,172,000)	\$ (2,121,000)
Accumulated deficit	\$ 57,632,000	\$ 57,749,000

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**2) BASIS OF PREPARATION – STATEMENT OF COMPLIANCE****a) Statement of compliance**

These financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of the interim financial statements, including International Accounting Standard 34, Interim Financial Reporting. As a result, they do not conform in all respects with the disclosure requirements for annual financial statements under IFRS and should be read in conjunction with the Company's audited consolidated financial statements for the year ended 31 December 2024 [SEDAR+](#).

b) Basis of measurement

The interim condensed consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, the interim condensed consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

3) SUMMARY OF MATERIAL ACCOUNTING POLICIES

The accounting policies, sources of estimation uncertainty, critical accounting judgements and methods of computation followed in preparing these financial statements are the same as those followed in preparing the most recent audited annual consolidated financial statements with the following exceptions. For a complete summary of significant accounting policies, please refer to the Company's audited annual consolidated financial statements for the year ended 31 December 2024 [SEDAR+](#).

a) Foreign Currencies

Effective 01 January 2025, the functional currency of Emergent Metals Corp., the parent company, changed from United States dollars (USD) to Canadian dollars (CAD). This change in functional currency does not represent a change in accounting policy under IAS 8 but it rather reflects the application of existing policies to an evolving set of facts and circumstances. Accordingly, prior period balances have not been restated. The presentation currency for these financial statements remains USD.

EMERGENT METALS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As a result of this change in functional currency, certain warrants previously classified as derivative financial liabilities no longer meet the definition of a financial liability under IAS 32 - specifically, the “fixed-for-fixed” condition is now met because both the exercise price and the underlying shares are denominated in the Company’s new functional currency, CAD.

Accordingly, these warrants were reclassified from a liability to equity effective 01 January 2025. The fair value of the warrants as at 31 December 2024, previously measured using the Black-Scholes option pricing model, was transferred to contributed surplus on the statement of financial position. No further fair value remeasurement will be made in subsequent periods.

For unit offerings completed after the change in functional currency, the Company allocates proceeds between shares and warrants using the residual method, whereby the fair value of the shares is measured directly, and the residual amount is attributed to the warrants. The Company considers this method appropriate under IFRS 2, and IAS 32 given the warrants now meet the criteria for equity classification.

This change in allocation method does not represent a change in accounting policy under IAS 8, rather it reflects the application of existing policies to a new set of facts and circumstances arising from the change in functional currency. Accordingly, prior period balances have not been restated. Transactions entered into by the Company in a currency other than the functional currency are recorded at the rates ruling when the transactions occur, except for depreciation and depletion which are translated at the rates of exchange applicable to the related assets, with any gains or losses recognized in the Consolidated Statements of Comprehensive Loss.

Foreign currency monetary assets and liabilities are translated at current rates on the reporting date with the resulting gain or loss recognized in the Consolidated Statements of Comprehensive Loss. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are recognized immediately in Consolidated Statements of Comprehensive Loss. Non-monetary assets and liabilities are translated using historical exchange rates. Non-monetary assets and liabilities measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**b) Going Concern Assessment**

Management exercises significant judgment in determining whether the going concern assumption remains appropriate, particularly in light of the Company's exploration-stage status, history of operating losses, and reliance on equity financings or asset transactions for funding.

In forming its judgment, management considers the Company's expected ability to generate cash inflows through sales of marketable securities, potential option or joint venture agreements, equity financings, or the divestiture of mineral property interests under its acquisition and divestiture model. The timing and success of such transactions are inherently uncertain and influenced by external factors such as commodity prices, investor sentiment, and capital market conditions.

While the Company has a demonstrated history of raising capital and managing its liquidity proactively, the continued ability to access financing remains a key assumption underlying the going concern basis of preparation.

4) AMOUNTS RECEIVABLE

The Company's receivables are comprised of goods and services tax from government taxation authority, and other receivables as follows:

Table 1 Amounts receivable

Amounts receivable rounded 000'S	30 Sep 2025	31 Dec 2024
Goods and service tax	\$ 61,000	\$ 105,000

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- 18 patented claims are subject to a 1.75% NSR royalty (capped at \$2,000,000) and a \$0.50 per metric tonne royalty for decorative stone shipped or sold from the property (capped at \$500,000)

On 01 March 2024, the Company entered into an option agreement for purchase or sale of the New York Canyon Property to Ivanhoe Electric (“IE”). Emergent granted IE the option (“Option”) to acquire 100% of the property. The term of the Option (the “Option Term”) was approximately 18 months ending on 01 August 2025. In consideration for the Option, IE was to pay Emergent \$300,000 (paid) upon signing of the Agreement (the “Option Payment”). Should IE elect to exercise its Option to purchase the property, the purchase price was to be \$2.0 million (the “Purchase Price”) which includes the Option Payment of \$300,000 and remaining purchase price of \$1,700,000 (the “Remaining Purchase Price”). A total of \$700,000 of the Remaining Purchase Price was to be paid in cash (the “Cash Payment”). A total of \$1.0 million of the Remaining Purchase Price was to be paid in common stock of IE (the Share Payment”), to be issued at the higher of (1) the IE 19 September 2023, follow-on public offering price of \$13.50 per share or (2) the 30-day volume weighted average price determined on the date of exercise notice, but subject to stock exchange rules as well as a possible cash top-up in certain circumstances based on IE’s future share price.

On closing of the exercise of the Option, Emergent was to reserve a 1% Net Smelter Royalty (the “Production Royalty”) on claims within the property that are not already encumbered with a royalty of 1% or greater from previous owners. However, IE would have the right prior to the commencement of commercial production, to buy-out the Production Royalty for a purchase price of US\$2.0 million in cash and/or IE shares (the “Royalty Buyout”). IE was also retain a first right of refusal to acquire the Production Royalty in the event that Emergent wishes to sell, assign, or transfer the Production Royalty to an unaffiliated third party. The transaction was to occur between IE’s subsidiary Ivanhoe Electric Nevada Holdings Inc. and Emergent’s subsidiary Golden Arrow Mining Corporation (“GMAC”).

In September 2024, due to an increase in annual claim maintenance fees from \$165 per unpatented claims per year to \$200 per unpatented claims per year, IE and the Company agreed to reduce the size of the unpatented claim package at New York Canyon from 792 unpatented claims and 21 patented

13) CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital.

Management reviews its capital management approach on an on-going basis and believes that this approach is reasonable and appropriate relative to the size of the Company.

The Company is in the business of mineral exploration and has no source of operating revenue.

Operations are financed through the issuance of capital stock or liability instruments, or through the sale of equipment. Capital raised is held in cash in an interest-bearing bank account until such time as it is required to pay operating expenses or resource property costs. The Company is not subject to any externally imposed capital restrictions. Its objectives in managing its capital are to safeguard its cash and its ability to continue as a going concern, and to utilize as much of its available capital as possible for exploration activities. The Company's objectives have not changed during the period ended 30 September 2025.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**14) SUBSEQUENT EVENTS**

On 20 October 2025 the Company announced the appointment of two new independent directors to Board of Director Joseph Mullin and Michael Leahy. To facilitate this Vincent Garibaldi and Grant T. Smith resigned as directors. Mr. Smith remains CFO.

On 23 October 2025, the Company completed its sale of 27 claims at New York Canyon to Lahontan Gold.

On 14 November 2025, The Company announced its intention to complete a non-brokered private placement (the "Offering") for up to 10,000,000 units (the "Units") at a price of CDN\$0.05 per unit for gross proceeds of up to CDN\$500,000. Each unit will consist of one common share in the capital of the Company (a "Share") and one whole transferable common share purchase warrant (a "Warrant"). Each whole Warrant will be exercisable to acquire one Share at an exercise price of CDN\$0.10 per Share for a period of 24 months from the date of issuance. Certain insiders of the Company may acquire Units in the Offering. Any participation by insiders in the Private Placement would constitute a "related party transaction" as defined under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). However, the Company expects such participation would be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the fair market value of the Units subscribed for by the insiders, nor the consideration for the Units paid by such insiders, would exceed 25% of the Company's market capitalization. Emergent intends to use the net proceeds of the Offering for general working capital purposes. The Company may pay finder's fees on a portion of the Offering, subject to compliance with the policies of the TSX Venture Exchange and applicable securities legislation. Closing of the Offering is subject to approval of the TSX Venture Exchange. The securities issued under the Offering, and any Shares that may be issuable on exercise of any such securities, will be subject to a statutory hold period expiring four months and one day from the date of issuance of such securities. In addition, Emergent announced the resignation of Joseph Mullin as a director of the Company, effective November 19, 2025. Mr. Mullin resigned in order to accept a position with the US government. He was scheduled for election as a director at Emergent's Annual General Meeting, scheduled for December 11, 2025. He will no longer be eligible for appointment at that meeting.
