"Westaim" or the "Company" in this Management's Discussion and Analysis ("MD&A") refers to The Westaim Corporation on a consolidated basis. This MD&A, which has been approved by the Board of Directors of Westaim, should be read in conjunction with Westaim's unaudited consolidated financial statements including notes for the three and nine months ended September 30, 2018 and 2017 as set out on pages 43 to 66 of this quarterly report. Financial data in this MD&A has been derived from the unaudited consolidated financial statements for the three and nine months ended September 30, 2018 and 2017 and is intended to enable the reader to assess Westaim's results of operations for the three and nine months ended September 30, 2018 and financial condition as at September 30, 2018. The Company reports its consolidated financial statements using accounting policies consistent with International Financial Reporting Standards ("IFRS"). All currency amounts are in United States dollars ("US\$"), the functional and presentation currency of the Company, except per share data, unless otherwise indicated. Canadian dollars are referenced as C\$. The following commentary is current as of November 8, 2018. Additional information relating to Westaim is available on SEDAR at www.sedar.com. Certain comparative figures have been reclassified to conform to the presentation of the current year, and certain totals, subtotals and percentages may not reconcile due to rounding.

IFRS for Investment Entities

Westaim qualifies as an investment entity under IFRS and uses fair value as the key measure to monitor and evaluate its primary investments. The Company reports its financial results in accordance with IFRS applicable to investment entities.

Functional and Presentation Currency

The US\$ is the functional and presentation currency of the Company. International Accounting Standard 21 "*The Effects of Changes in Foreign Exchange Rates*" describes functional currency as the currency of the primary economic environment in which an entity operates. A significant majority of the Company's revenues and costs are earned and incurred in US\$, respectively.

Non-GAAP Measures

Westaim uses both IFRS and non-generally accepted accounting principles ("non-GAAP") measures to assess performance. The Company cautions readers about non-GAAP measures that do not have a standardized meaning under IFRS and are unlikely to be comparable to similar measures used by other companies. Management believes these measures allow for a more complete understanding of the underlying business. These measures are used to monitor Westaim's results and should not be viewed as a substitute for those determined in accordance with IFRS. Reconciliations of such measures to the most comparable IFRS figures are contained in Section 15, *Non-GAAP Measures* of this MD&A.

Cautionary Statement Regarding the Valuation of Investments in Private Entities

In the absence of an active market for its investments in private entities, fair values for these investments are determined by management using the appropriate valuation methodologies after considering the history and nature of the business, operating results and financial conditions, outlook and prospects, general economic, industry and market conditions, capital market and transaction market conditions, contractual rights relating to the investment, public market comparables, net asset value, discounted cash flow analysis, comparable recent arm's length transactions, private market transaction multiples and, where applicable, other pertinent considerations. The process of valuing investments for which no active market exists is inevitably based on inherent uncertainties and the resulting values may differ from values that would have been used had an active market existed. The amounts at which the Company's investments in private entities could be disposed of may differ from the fair value assigned and the differences could be material.

A. INVESTMENT IN HIIG

At September 30, 2018, the HIIG Partnership owned approximately 75.1% of the common shares of HIIG ("HIIG Shares"). On September 30, 2018, Westaim HIIG Holdings Inc. an incorporated wholly-owned subsidiary, transferred all of its ownership interest in the HIIG Partnership to the Company and was dissolved. No book gain or loss was recorded upon the transfer. Following the transfer, the Company owned approximately 58.5% of the HIIG Partnership, representing an approximate 43.9% indirect ownership interest in HIIG.

Units of the HIIG Partnership cannot be issued without the prior approval of the unitholders and, in connection with any such issuance, the holders of units have pre-emptive rights entitling them to purchase their pro rata share of any units that may be so issued.

(i) Fair Value

The investment in HIIG (through the HIIG Partnership) is accounted for at FVTPL. The fair value of the Company's investment in the HIIG Partnership was determined to be \$162.8 million at September 30, 2018 and \$157.1 million at December 31, 2017.

3. INVESTMENTS (continued)

Management used net asset value as the primary valuation technique to arrive at the fair value of the Company's investment in the HIIG Partnership of \$162.8 million at September 30, 2018. The fair value of the HIIG Partnership at September 30, 2018 was derived from a valuation of the HIIG Shares owned by the HIIG Partnership and other net assets of the HIIG Partnership at September 30, 2018. The carrying values of the HIIG Partnership's other net assets, consisting of monetary assets including cash and accounts receivable less accounts payable and accrued liabilities, approximate their fair values due to the short maturity of these financial instruments. In valuing the HIIG Shares, management determined that using net asset value as the primary valuation technique produced the best indicator of the fair value of the HIIG Shares as at September 30, 2018 and December 31, 2017, given that this is the valuation technique which a market participant would employ.

In valuing the HIIG Shares, using net asset value as the primary valuation technique, fair value was determined to be 1.1x the adjusted book value (or adjusted Stockholders' Equity) of HIIG as at September 30, 2018 and December 31, 2017. The adjusted book value of HIIG as at September 30, 2018 reflected 100% of HIIG stockholders' equity obtained from the unaudited financial statements of HIIG as at and for the nine months ended September 30, 2018 prepared in accordance with United States generally accepted accounting principles ("US GAAP"), adjusted for a reclassification of a stock notes receivable from employees relating to their purchase of HIIG Shares. The adjusted book value contained certain significant judgments and estimates made by management of HIIG including the provision for loss and loss adjustment expenses (LAE), the valuation of goodwill and other intangible assets, and the valuation allowance recorded against deferred income tax assets.

Management considers other secondary valuation methodologies as a way to ensure no significant contradictory evidence exists that would suggest an adjustment to the fair value as determined by the primary valuation methodology used. In order to do this, the Company may also consider valuation techniques including the discounted cash flow method, the review of comparable arm's length transactions involving other specialty property and casualty insurance companies and comparable publicly traded company valuations. For greater certainty, these secondary valuation techniques were not used to arrive at the fair value of the Company's investment in the HIIG Partnership at the end of each reporting period.

The Company recorded unrealized gains of \$2.0 million and \$0.6 million in the three months ended September 30, 2018 and 2017, respectively, and unrealized gains of \$5.7 million and \$4.1 million in the nine months ended September 30, 2018 and 2017, respectively, on its investment in the HIIG Partnership.

(ii) Select Financial Information of HIIG for the three and nine months ended September 30, 2018 and 2017

The Company considers certain financial results of HIIG to be important measures for investors in assessing the Company's financial position and performance. In particular, premium volumes provide a measure of HIIG's growth; "net loss and LAE ratio" (calculated by dividing net loss and loss adjustment expenses by net earned premiums) and "combined ratio" (calculated by dividing the aggregate of net loss and loss adjustment expenses, net policy acquisition expenses and net operating expenses by net earned premiums) provide measures of HIIG's underwriting profitability; net income provides a measure of HIIG's overall profitability; and stockholders' equity is a measure that is generally used by investors to determine the value of insurance companies.

In the first quarter of 2018, the management of HIIG modified the reporting segments of HIIG to better describe its business. Comparative figures have been reclassified to conform to the presentation of the current period. The reporting segments of HIIG are as follows:

- Accident and Health - group medical insurance business written on an excess basis known as stop loss business including both aggregate and specific coverage provided to small and medium size employee groups.
- Commercial – standard lines of business generally written on an admitted basis by most markets known as "Main Street" or "Middle Market" business.
- Excess & Surplus - lines of business primarily General Liability written on a non-admitted basis through wholesale brokers or managing general agents. Some Excess & Surplus business is included in other segments where written in conjunction with admitted lines.
- Specialty – niche business of generally unusual or difficult risks and business specific to certain industries or professions underwritten by underwriters with more specific knowledge and expertise.
- Non-continuing lines - represent lines of business no longer actively underwritten by HIIG.

(Currency amounts in United States dollars unless otherwise indicated)

3. INVESTMENTS (continued)

Gross written premiums - Gross written premiums was \$163.2 million for the three months ended September 30, 2018 compared to \$144.1 million for the three months ended September 30, 2017, an increase of 13.3%, and \$517.2 million for the nine months ended September 30, 2018 compared to \$431.9 million for the nine months ended September 30, 2017, an increase of 19.8%. The increase in gross written premiums in the three and nine months ended September 30, 2018 compared to the same periods in the prior year was driven primarily by growth in the Specialty segment.

Net written premiums - Net written premiums was \$70.6 million for the three months ended September 30, 2018 compared to \$61.7 million for the three months ended September 30, 2017, an increase of 14.7%, and \$221.7 million for the nine months ended September 30, 2018 compared to \$193.7 million for the nine months ended September 30, 2017, an increase of 14.5%, resulting from the growth in the Commercial and Specialty segments.

Net earned premiums - Net earned premiums was \$71.8 million for the three months ended September 30, 2018 compared to \$66.5 million for the three months ended September 30, 2017, an increase of 8.0%, and \$203.2 million for the nine months ended September 30, 2018 compared to \$200.8 million for the nine months ended September 30, 2017, an increase of 1.2%. The increase in net earned premiums for the nine months ended September 30, 2018 was attributed to HIIG's net written premium growth over the past 12 months.

Overall net loss and LAE ratio - The overall net loss and LAE ratio was 70.1% for the three months ended September 30, 2018 compared to 80.5% for the same period in the prior year, and 67.3% for the nine months ended September 30, 2018 compared to 70.8% for the same period in the prior year. The table below provides details of HIIG's adverse prior year loss development of \$0.7 million and \$0.8 million in the three and nine months ended September 30, 2018 compared to \$6.9 million and 8.7 million in each of the three and nine month ended September 30, 2017. In addition, HIIG recorded catastrophe losses primarily in the Specialty segment, net of reinsurance, of \$1.5 million in each of the three and nine months ended September 30, 2018 and \$2.0 million in each of the three and nine months ended September 30, 2017.

Operating results - HIIG recorded net income of \$3.7 million for the three months ended September 30, 2018 compared to \$1.7 million for the three months ended September 30, 2017, and net income of \$17.0 million for the nine months ended September 30, 2018 compared to \$9.2 million for the nine months ended September 30, 2017. The increase for the nine months ended September 30, 2018 over the prior periods was attributed primarily to improved underwriting results, higher investment income, and reduced corporate income tax rates as a result of the U.S. Tax Reform.

Stockholders' equity - HIIG stockholders' equity increased to \$331.5 million at September 30, 2018 from \$318.9 million at December 31, 2017. The increase of \$12.6 million resulted from HIIG's net income for the period of \$17.0 million and a net issue of the shares and settlement of loans from its employees' share purchase plan of \$1.1 million, partially offset by net unrealized losses on HIIG's investment portfolio (net of income taxes) of \$5.5 million.

3. INVESTMENTS (continued)

On June 9, 2017, the Company used part of the proceeds from the Fairfax financing (see discussion in Section 4, *Financing* of this MD&A) to loan C\$30 million to AFHC (the "AFHC Loan") on market terms. The AFHC Loan is denominated in C\$, repayable on demand (with a final repayment date not later than June 9, 2022) and secured by the assets of AFHC. The AFHC Loan carries interest at a rate of 4.5% per annum plus the greater of (i) 3-month LIBOR and (ii) 1%, with the applicable rate adjusted at the beginning of each quarter. Interest is due at the end of each calendar quarter. AFHC made a principal repayment to the Company of C\$20.0 million on December 21, 2017 and C\$1.0 million each on March 7, 2018, May 25, 2018, June 26, 2018 and August 22, 2018 resulting in an outstanding loan of C\$6.0 million and C\$10.0 million at September 30, 2018 and December 31, 2017, respectively. The AFHC Loan is translated into US\$ at rates of exchange at the end of each reporting period and any resulting unrealized foreign exchange gain or loss is included in the consolidated statements of profit (loss) and comprehensive income (loss). At September 30, 2018 and December 31, 2017, the US\$ converted value of the AFHC Loan was \$4.6 million and \$8.0 million, respectively. The Company recorded a foreign exchange gain relating to the AFHC Loan of \$0.2 million and a foreign exchange loss of \$0.3 million in the three and nine months ended September 30, 2018, respectively, and a foreign exchange gain of \$1.0 and \$1.9 million in the three and nine months ended September 30, 2017, respectively. AFHC has used the loan proceeds for investment purposes.

The primary revenue of Arena Finance, through its subsidiaries, consists of interest income, dividend income and/or fees earned on the credit investments that it acquires. The operating results of Arena Finance also include gain (loss) on its investments.

Rights Granted to BP LLC

On August 31, 2015, Arena Finance and Bernard Partners, LLC ("BP LLC"), a limited liability company controlled by certain members of the Arena Group management team, entered into a limited liability company agreement in respect of AFHC (the "AFHC LLC Agreement") setting forth each of Arena Finance's and BP LLC's respective rights and obligations as members of AFHC. Under the AFHC LLC Agreement, BP LLC was issued Class M units which are convertible into Class A units, entitling BP LLC to acquire an equity interest of up to 20% (16.67% on a fully-diluted basis) in AFHC. The Class M units vest equally over 5 years from August 31, 2015 and carry escalating conversion prices which are in excess of the price paid by the Company for its investment in AFHC (through Arena Finance). At September 30, 2018 and December 31, 2017, the fair value of AFHC attributable to the Class M units was \$0.5 million and \$nil, respectively. No AFHC Class M units were converted into Class A units in the three and nine months ended September 30, 2018 and 2017.

Accounting for Arena Finance

The investment in Arena Finance is accounted for at FVTPL and is included in investments in private entities. The fair value of the Company's investment in Arena Finance was determined to be \$160.9 million and \$151.3 million at September 30, 2018 and December 31, 2017, respectively.

Management used net asset value as the primary valuation technique and arrived at the fair value of the Company's investment in Arena Finance of \$160.9 million at September 30, 2018. Using net asset value as the primary valuation technique, management determined that 1.0x the book value, or 100% of the shareholder's equity of Arena Finance at September 30, 2018, less the amount attributable to Class M units, in the amount of \$160.9 million approximated the fair value of the Company's investment in Arena Finance. The Company's investment in Arena Finance was, through its subsidiaries, composed largely of cash and cash equivalents and investments, carried at fair value at September 30, 2018. The net asset valuation technique was also used to determine the fair value of the Company's investment in Arena Finance of \$151.3 million at December 31, 2017.

Management considers other secondary valuation methodologies as a way to ensure no significant contradictory evidence exists that would suggest an adjustment to the fair value as determined by the primary valuation methodology used. In order to do this, the Company may also consider valuation techniques including the review of comparable arm's length transactions involving other specialty finance companies and comparable publicly traded company valuations. For greater certainty, these secondary valuation techniques were not used to arrive at the fair value of the Company's investment in Arena Finance at the end of each reporting period.

The Company recorded unrealized gains of \$4.3 million and \$3.0 million in the three months ended September 30, 2018 and 2017, respectively, and unrealized gains of \$9.6 million and \$7.7 million in the nine months ended September 30, 2018 and 2017, respectively, on its investment in Arena Finance.

Accounting for Arena Origination

The investment in Arena Origination is accounted for at FVTPL and is included in investments in private entities. The fair value of the Company's investment in Arena Origination was determined to be \$35.3 million and \$34.9 million at September 30, 2018 and December 31, 2017, respectively.

Management used net asset value as the primary valuation technique and arrived at the fair value of the Company's investment in Arena Origination of \$35.3 million at September 30, 2018. Using net asset value as the primary valuation technique, management determined that 1.0x the book value, or 100% of the shareholder's equity of Arena Origination at September 30, 2018, less the amount attributable to Class M units, in the amount of \$25.3 million and the fair value of the term loan of \$10 million, totaling \$35.3 million, approximated the fair value of the Company's investment in Arena Origination. The Company's investment in Arena Origination, through AOC, was composed largely of cash and cash equivalents and investments, carried at fair value at September 30, 2018. The net asset valuation technique was also used to determine the fair value of the Company's investment in Arena Origination of \$34.9 million at December 31, 2017.

Management considers other secondary valuation methodologies as a way to ensure no significant contradictory evidence exists that would suggest an adjustment to the fair value as determined by the primary valuation methodology used. In order to do this, the Company may also consider valuation techniques including the review of comparable arm's length transactions involving other specialty finance companies and comparable publicly traded company valuations. For greater certainty, these secondary valuation techniques were not used to arrive at the fair value of the Company's investment in Arena Origination at the end of each reporting period.

The Company recorded an unrealized loss of \$0.6 million and an unrealized gain of \$1.2 million in the three months ended September 30, 2018 and 2017, respectively, and unrealized gains of \$0.4 million and \$1.5 million in the nine months ended September 30, 2018 and 2017, respectively, on its investment in Arena Origination.

3. INVESTMENTS (continued)

Arena Investors generates revenues primarily from Management Fees, Incentive Fees and Asset Servicing Fees. "Management Fees" are the fees generally calculated on Arena Investors' various segregated client accounts and private pooled investment vehicles as a percentage of assets under management ("AUM"). Management fees for separately managed accounts may be based on a percentage of the fair value of invested capital for the account during the ramp-up phase. "Incentive Fees" are the fees generally calculated as a percentage of net profits earned by Arena Investors as of the end of each fiscal year or applicable withdrawal date related to client accounts subject to a "high water mark" and loss carryforward provisions for each measurement date. "Asset Servicing Fees" are the fees generally earned in connection with the management and servicing of the illiquid portion of clients' investment portfolio.

Arena Investors has established a U.S. onshore fund, Arena Special Opportunities Fund, LP ("ASOF LP") and an offshore fund, Arena Special Opportunities Fund (Cayman), LP, as commingled investment vehicles. Arena Investors continues to be in discussions with potential clients for additional capital to invest in its various pools, in accordance with its business strategy.

In connection with the Private Placement (see discussion in Section 4, *Financing* of this MD&A), Fairfax (as hereinafter defined) agreed to invest up to \$500 million in investments sourced by Arena Investors, LP. Fairfax's commitment to invest \$125 million with Arena Investors, LP was triggered by Fairfax purchasing C\$50 million of Preferred Securities (as hereinafter defined) from the Company on June 2, 2017. The agreement for Fairfax to invest an additional \$375 million with Arena Investors, LP was based on Fairfax's purchase of additional tranches of Preferred Securities. As the Company exercised its discretion not to issue additional Preferred Securities, Fairfax is not required to make any further investments with Arena Investors, LP.

As of September 30, 2018, the Arena Group had committed AUM of approximately \$950 million and includes the net assets of Arena Finance and Arena Origination totaling approximately \$197 million. As of December 31, 2017, the Arena Group had committed AUM of approximately \$760 million and included the net assets of Arena Finance and Arena Origination totaling \$187 million.

The Associate Agreements set forth the members' respective rights and obligations, as well as BP LLC's right to participate in distributions of the capital and profits of the Associates. BP LLC's initial profit sharing percentage is 49%, and under the Associate Agreements, BP LLC has the right to earn-in up to 75% equity ownership percentage in the Associates and share up to 75% of the profits of the Associates based on achieving certain AUM and cash flow (measured by the margin of trailing twelve months earnings before interest, income taxes, depreciation and amortization to trailing twelve month revenues) thresholds in accordance with the Associate Agreements.

On December 21, 2017, the Company (through WCA) granted a \$20 million revolving loan facility to the Associates (the "Associates Loan") in order to (i) fund growth initiatives and working capital needs of Arena Investors and (ii) enable WAHII to repay \$4.4 million in advances previously owed to the Company and extinguish the WAHII loan owed to AHFC. See section 9, *Related Party Transactions* of this MD&A for additional information on these loans. The loan facility has a term of 36 months and bears interest at a rate of 5.25% per annum. At September 30, 2018 and December 31, 2017, WAHII had drawn down the loan facility by \$17.5 million and \$14.5 million, respectively. The loan facility is secured by the assets of certain of the Associates.

4. FINANCING

Preferred Securities

On April 3, 2017, the Company announced that it had entered into an agreement pursuant to which Fairfax Financial Holdings Limited, through certain of its subsidiaries (collectively, "Fairfax"), had agreed subject to the execution of definitive documentation to make an investment of up to C\$100 million in Westaim in exchange for the issuance by Westaim of 5% interest bearing notes (the "Preferred Securities") and common share purchase warrants (the "Warrants") (collectively, the "Private Placement").

The Preferred Securities are denominated in C\$, each issuable for a principal amount of C\$10 and carry interest at a rate of 5% per annum. The Preferred Securities are subordinate secured securities that will mature on May 26, 2116 but may be repaid, in whole or in part, by the Company at any time after June 2, 2022 and at any time after June 2, 2020 if the volume-weighted average trading price of Westaim's common shares for any 10 day period prior to the date on which the applicable redemption notice is given is at least C\$5.60.

On June 2, 2017, the Company closed a subscription by Fairfax of C\$50 million of Preferred Securities. The proceeds raised from the Fairfax financing were used by Westaim to make interest bearing loans to the Arena Group. See discussion in Section 3, *Investments* of this MD&A for additional information on these loans. The Company had discretion until January 1, 2018 to require Fairfax to purchase all or part of 5,000,000 additional Preferred Securities, and exercised its discretion not to do so. There were 5,000,000 Preferred Securities outstanding at September 30, 2018 and December 31, 2017.

The Preferred Securities are repayable on demand upon a change of control of Westaim and the liability is recorded at the principal amount in the consolidated statements of financial position. The Preferred Securities liability is translated into US\$ at rates of exchange at the end of each reporting period and any resulting unrealized foreign exchange gain or loss is included in the consolidated statements of profit (loss) and comprehensive income (loss). At September 30, 2018 and December 31, 2017, the US\$ converted amount of the Preferred Securities was \$38.7 million and \$39.9 million, respectively. The Company recorded an unrealized foreign exchange loss of \$0.7 million and an unrealized foreign exchange gain of \$1.2 million relating to the Preferred Securities in the three and nine months ended September 30, 2018, respectively, and unrealized foreign exchange losses of \$1.6 million and \$3.1 million in the three and nine months ended September 30, 2017, respectively. The carrying amount of the Preferred Securities approximated fair value at September 30, 2018.

Interest on the Preferred Securities amounted to \$0.4 million and \$1.4 million in the three and nine months ended September 30, 2018, respectively, and \$0.5 million and \$0.7 million in the three and nine months ended September 30, 2017, respectively. At September 30, 2018, interest of \$0.4 million (December 31, 2017 - \$0.5 million) was accrued in the consolidated statements of financial position.

Transaction costs incurred for the issuance of the Preferred Securities was nominal in the three months ended September 30, 2017 and \$0.5 million in the nine months ended September 30, 2017, and were recorded as an expense in the consolidated statements of profit (loss) and comprehensive income (loss). There were no transactions costs incurred for the three and nine months ended September 30, 2018.

On December 21, 2017, the Company entered into a foreign exchange forward contract to sell US\$ and buy C\$20 million to manage part of the foreign currency exposure arising from the Preferred Securities. The contract has a term to maturity of less than one year and may be renewed at market rates. The Company has not designated this foreign exchange forward contract as an accounting hedge. Unrealized loss on the foreign exchange forward contract at September 30, 2018 was \$0.4 million and was recorded under accounts payable and accrued liabilities in the consolidated statements of financial position (unrealized gain of \$0.1 million at December 31, 2017 was recorded under other assets in the consolidated statements of financial position). An unrealized gain on the foreign exchange contract in the amount of \$0.2 million and an unrealized loss in the amount of \$0.5 million in the three and nine months ended September 30, 2018, respectively (2017 - \$nil) was recorded under foreign exchange in the consolidated statements of profit (loss) and comprehensive income (loss). In connection with foreign exchange forward contracts which the Company may enter into from time to time, the Company has obtained a credit facility under which the Company has pledged cash on deposit of \$2.5 million as security. The security shall remain in effect for the duration of any outstanding foreign exchange forward contracts.

Warrants

In conjunction with the private placement of Preferred Securities, Westaim also issued to Fairfax 28,571,430 Warrants, each exercisable for one Westaim common share at an exercise price of C\$3.50. The Warrants vest proportionately based upon the aggregate percentage of Preferred Securities purchased by Fairfax, with 14,285,715 having vested on June 2, 2017. The remaining 14,285,715 unvested Warrants were cancelled on January 31, 2018. Each vested Warrant is exercisable on or prior to June 2, 2022, but the expiry date will be extended to June 2, 2024 if the volume-weighted average trading price of Westaim's common shares for the 10 day period ending on June 2, 2022 is less than C\$5.60. After June 2, 2020, the Company can also elect to require early exercise of the Warrants if the volume-weighted average trading price of Westaim's common shares for any 10 day period prior to the election is at least C\$5.60.

Variations in the Company's site restoration provision expense from period to period are generally attributed to changes in the discount and inflation rates used to arrive at the site restoration provision. Reimbursements of site restoration costs are recorded when received.

Changes in share-based compensation expense from period to period result from the vesting of RSUs, the issuance of DSUs in lieu of director fees, as well as movement in the Company's share price which affects the per unit valuation of outstanding RSUs and DSUs. Share-based compensation expense in the three and nine months ended September 30, 2018 also included compensation expense for stock options of \$0.6 million (2017 - \$0.6 million) and \$1.8 million (2017 - \$1.4 million), respectively. See Section 8, *Liquidity and Capital Resources* of this MD&A for additional information on the Company's share-based compensation plans.

The Company holds C\$ denominated assets and liabilities and the Company's operating results include foreign exchange gains or losses arising from the revaluation of the Company's C\$ denominated net liabilities into US\$ at period end exchange rates. The Company conducts periodic reviews of the underlying assumptions supporting the provision, taking into consideration the anticipated method and extent of the remediation consistent with regulatory requirements, industry practices, current technology and possible uses of the site. The amount of the provision is the present value of the estimated future restoration costs discounted using interest rates of high quality government bonds in relation to the estimated timing of cash outflows.

Future reimbursements of costs resulting from indemnifications provided to the Company by previous owners of the industrial sites have not been recognized in the Company's consolidated financial statements. Reimbursements are recorded when received.

Arena's investments are performing at or above expectations and Arena had 44 employees as at September 30, 2018.

Following the catastrophe losses experienced by the insurance industry in 2017 and 2018 due to adverse weather conditions in the United States, the Company believes that the industry is at the start of a cycle of increasing insurance rates and improved terms. In addition, with the operational enhancement initiatives undertaken by HIIG, an improved economy, rising interest rates and U.S. Tax Reform, HIIG's financial performance is expected to continue to improve.

The Company is continuing to seek additional investment opportunities to create shareholder value through partnering with other aligned and experienced management teams to build profitable businesses that generate attractive returns over the long term.

10. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

Preparation of the financial statements in conformity with IFRS requires management to make estimates and assumptions, some of which relate to matters that are uncertain. As more information becomes known, these estimates and assumptions could change and thus have a material impact on the Company's financial condition and results of operations in the future. The Company has established detailed policies and control procedures that are intended to ensure that management's judgments and estimates are well controlled, independently reviewed and consistently applied from period to period. Management believes that its estimates for determining the valuation of the Company's assets and liabilities are appropriate.

Management used net asset value as the primary valuation technique in determining the fair value of the Company's investments in private entities at September 30, 2018. Management determined that this valuation technique produced the best indicator of the fair value of the HIIG Partnership, Arena Finance and Arena Origination at September 30, 2018. The significant unobservable inputs used in the valuation of the HIIG Partnership, Arena Finance and Arena Origination at September 30, 2018 were the equity of each of the entities at September 30, 2018 and the multiple applied. For a detailed description of the valuation of the Company's investments in private entities, see note 6 to the Company's audited annual consolidated financial statements for the years ended December 31, 2017 and 2016. Due to the inherent uncertainty of valuation, management's estimated values may differ significantly from the values that would have been used had an active market for the investment existed, and the differences could be material.

The fair value of the vested Warrants is estimated using the Monte Carlo pricing model which contains various assumptions made by management. The amounts computed according to the Monte Carlo pricing model may not be indicative of the actual values realized upon the exercise of the vested Warrants by Fairfax.

Other key estimates include the Company's provision for site restoration, fair value of share-based compensation, and unrecognized deferred tax assets. Details of these items are disclosed in note 10, note 13 and note 15, respectively, to the Company's audited annual consolidated financial statements for the years ended December 31, 2017 and 2016.

11. CRITICAL ACCOUNTING POLICIES AND RECENTLY ADOPTED AND PENDING ACCOUNTING PRONOUNCEMENTS

A description of the Company's accounting policies are disclosed in note 2 to the audited annual consolidated financial statements for the years ended December 31, 2017 and 2016.

(Currency amounts in United States dollars unless otherwise indicated)

11. CRITICAL ACCOUNTING POLICIES AND RECENTLY ADOPTED AND PENDING ACCOUNTING PRONOUNCEMENTS (continued)

A description of the Company's recently adopted and pending accounting pronouncements are as follows:

(a) Adopted in the current period

In November 2009, the International Accounting Standards Board ("IASB") issued IFRS 9 "Financial Instruments" ("IFRS 9") as part of its plan to replace IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 requires financial assets to be measured at either fair value or amortized cost. In July 2014, the IASB issued the final version of IFRS 9 incorporating a new expected loss impairment model and introducing limited amendments to the classification and measurement requirements for financial assets. The Company has determined that the adoption of IFRS 9 did not have a material impact on the Company's consolidated financial statements and all loans receivable and accounts receivable will continue to be measured at amortized cost. IFRS 9 was adopted on January 1, 2018 on a retrospective basis without restatement of comparative periods. Management has reviewed the Company's assets measured at amortized cost and have concluded that the adoption of the new expected credit loss impairment model had a negligible impact on the carrying amount of these assets in the Company's consolidated financial statements as at January 1, 2018 and September 30, 2018.

On May 28, 2014, the IASB issued a standard on the recognition of revenue from contracts with customers, which replaced all existing revenue standards and interpretations. The core principle of the new standard is for entities to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the entity expects to be entitled in exchange for those goods or services. IFRS 15 "Revenue from Contracts with Customers" ("IFRS 15") was adopted on January 1, 2018 and was applied using the modified retrospective approach. The Company completed its assessment of IFRS 15, including an evaluation of the Company's contracts with customers and has determined that the adoption of IFRS 15 did not have a material impact on the Company's consolidated financial statements.

On June 20, 2016, the IASB issued amendments to IFRS 2 "Share-based Payment" ("IFRS 2"), clarifying the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features for withholding tax obligations, and the accounting for modifications of share-based payment transactions from cash-settled to equity-settled. These amendments were adopted on January 1, 2018. The Company completed its assessment of the amendments to IFRS 2 and management has determined that the adoption of the amendments to IFRS 2 did not have a material impact on the Company's consolidated financial statements.

(b) Issued but not yet adopted

On January 13, 2016, the IASB issued IFRS 16 "Leases" ("IFRS 16") which will replace IAS 17 "Leases". IFRS 16 will bring most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. The new standard is effective for periods beginning on or after January 1, 2019 with early adoption permitted if IFRS 15 has also been applied. The Company has identified its leases that are impacted by IFRS 16 and does not expect the adoption of IFRS 16 to have a material impact on its consolidated financial statements. The Company has no plans for early adoption and will adopt the modified retrospective approach.

In June 2017, the IASB published IFRIC 23, "Uncertainty over Income Tax Treatments" ("IFRIC 23") effective for annual periods beginning on or after January 1, 2019. The interpretation requires an entity to assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings and to exercise judgment in determining whether each tax treatment should be considered independently or whether some tax treatments should be considered together. The decision should be based on which approach provides better predictions of the resolution of the uncertainty. An entity also has to consider whether it is probable that the relevant authority will accept each tax treatment, or group of tax treatments, assuming that the taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. The interpretation may be applied on either a fully retrospective basis or a modified retrospective basis without restatement of comparative information. The Company is currently evaluating the impact of IFRIC 23 on its consolidated financial statements.

¹ Principal represents the total funding commitment of a loan which, if applicable, is inclusive of any unfunded portion of the commitment at the end of the reporting period. For each, the Company has provided the current contractual interest rate in effect at December 31, 2017. Interest rates listed are inclusive of PIK, where applicable. PIK is interest paid in kind through an increase in the principal amount of the loan. The internal rate of return for many investments is generally greater than or equal to the total coupon (additional yield resulting from original issue discounts and/or some form of profit sharing, e.g. warrants). In the event that the internal rate of return on the investment is less than the stated rate, the lower rate is noted.

³ Loan to value ("LTV") represents the value of the outstanding loan as a percentage of the estimated fair value of the underlying collateral as of December 31, 2017.

⁴ Given deteriorating operating performance of the Borrower, Arena has retained financial and operational consultants to assess the near and long term viability of the company; one of the principal tasks of the consultants will be to derive a "normalized" EBITDA and associated assessment of Enterprise Value. The company presently has negative TTM EBITDA, therefore there are no reportable LTV or leverage ratios.

¹¹ Investment with no stated coupon rate.

¹² Investment is the remaining profit participation on a repaid loan.

¹ Principal represents the total funding commitment of a loan which, if applicable, is inclusive of any unfunded portion of the commitment at the end of the reporting period. Where a loan is issued at a discount, the cost amount includes the accreted discount as of the end of the reporting period. A loan may also be acquired at a cost lower than the par value of the principal outstanding.

² Some investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR") or Prime which reset daily, monthly, quarterly, or semi-annually and may be subject to a floor. For each, the Company has provided the current contractual interest rate in effect at September 30, 2018. Interest rates listed are inclusive of PIK, where applicable. PIK is interest paid in kind through an increase in the principal amount of the loan. The internal rate of return for many investments is generally greater than or equal to the total coupon (additional yield resulting from original issue discounts and/or some form of profit sharing, e.g. warrants). In the event that the internal rate of return on the investment is less than the stated rate, the lower rate is noted.

³ Loan to value ("LTV") represents the value of the outstanding loan as a percentage of the estimated fair value of the underlying collateral as of September 30, 2018.

⁴ Investment represents owned real estate acquired through lender default.

⁵ Investment was issued at a significant discount in lieu of having a stated coupon rate.

15. NON-GAAP MEASURES

Book value per share

Book value per share is computed as book value divided by the adjusted number of common shares. Management believes book value per share is a useful financial performance measure of the Company as, the relative increase or decrease from period to period in book value per share should approximate over the long term the relative increase or decrease in the intrinsic value of the Company's businesses, in large part because book value reflects the fair value of the Company's primary investments which are accounted for at fair value through profit or loss under IFRS. However, book value is not necessarily equivalent to the net realizable value of the Company's assets per share.

The table below provides the reconciliation of the Company's shareholders' equity at the end of the period, determined on an IFRS basis, to book value, and the number of common shares outstanding at the end of the period to the adjusted number of common shares:

(millions except share and per share data)	September 30, 2018	December 31, 2017	September 30, 2017
Book value (in US\$):			
Shareholders' equity per IFRS	\$ 338.0	\$ 326.0	\$ 318.6
Adjustments:			
RSU liability ¹	7.5	7.2	6.7
Derivative warrant liability ²	6.2	6.7	6.1
Assumed exercise proceeds of in-the-money options ³	18.1	9.2	-
	\$ 369.8	\$ 349.1	\$ 331.4
Number of common shares:			
Number of common shares outstanding	143,186,718	143,186,718	143,186,718
Adjustments for assumed exercise of:			
Outstanding RSUs ¹	3,034,261	3,034,261	3,034,261
In-the-money options ³	7,675,397	3,860,397	-
Adjusted number of common shares	153,896,376	150,081,376	146,220,979
Book value per share - in US\$	\$ 2.40	\$ 2.33	\$ 2.27
Book value per share - in C\$ ⁴	\$ 3.10	\$ 2.92	\$ 2.83
Westaim TSXV closing share price - in C\$	\$ 3.21	\$ 3.11	\$ 2.98

¹ See note 13 to the Company's unaudited consolidated financial statements for the three and nine months ended September 30, 2018 and 2017. Liability related to RSUs converted from C\$ to US\$ at period end exchange rates. RSUs are exercisable for common shares at no cost to the holders. Adjustment made to reflect a reclassification of the RSU liability to shareholders' equity assuming all outstanding RSUs were exercised for common shares.

² See note 9 to the Company's unaudited consolidated financial statements for the three and nine months ended September 30, 2018 and 2017. Derivative warrant liability converted from C\$ to US\$ at period end exchange rates. Adjustment made as the non-cash fair value change in the derivative warrant liability from period to period is not indicative of the change in the intrinsic value of the Company. Vested Warrants not included in the adjusted number of common shares as none of them were in-the-money at September 30, 2018, December 31, 2017 and September 30, 2017.

³ See note 13 to the Company's unaudited consolidated financial statements for the three and nine months ended September 30, 2018 and 2017. Exercise price of options denominated in C\$ and assumed exercise proceeds of in-the-money options at period end converted to US\$ at period end exchange rates. Adjustment made as exercise of in-the-money options would have resulted in an infusion of capital to the Company.

⁴ Book value per share converted from US\$ to C\$ at period end exchange rates. Period end exchange rates: 1.29200 at September 30, 2018, 1.25390 at December 31, 2017 and 1.24700 at September 30, 2017.
