The "Company" in this Management's Discussion and Analysis ("MD&A") refers to The Westaim Corporation ("Westaim") on a consolidated basis. This MD&A, which has been approved by the Board of Directors of Westaim, should be read in conjunction with the Company's audited consolidated financial statements including notes for the years ended December 31, 2021 and 2020 as set out on pages 43 to 66 of this annual report. Financial data in this MD&A has been derived from the audited consolidated financial statements for the years ended December 31, 2021 and 2020 and is intended to enable the reader to assess the Company's results of operations for the three months and year ended December 31, 2021 and financial condition as at December 31, 2021. The Company reports its consolidated financial statements using generally accepted accounting principles ("GAAP") and accounting policies consistent with International Financial Reporting Standards ("IFRS"). All currency amounts are in United States dollars ("US\$"), the functional and presentation currency of the Company, unless otherwise indicated. Canadian dollars are referenced as C\$. The following commentary is current as of April 13, 2022. Additional information relating to the Company is available on the System for Electronic Document Analysis and Retrieval ("SEDAR") at [www.sedar.com](http://www.sedar.com). Certain comparative figures have been reclassified to conform to the presentation of the current year, and certain totals, subtotals and percentages may not reconcile due to rounding.

**IFRS for Investment Entities**

The Company qualifies as an investment entity under IFRS and uses fair value as the key measure to monitor and evaluate its primary investments. The Company reports its financial results in accordance with IFRS applicable to investment entities.

**Functional and Presentation Currency**

The US\$ is the functional and presentation currency of the Company. International Accounting Standard 21 "*The Effects of Changes in Foreign Exchange Rates*" describes functional currency as the currency of the primary economic environment in which an entity operates. A significant majority of the Company's revenues and costs are earned and incurred in US\$, respectively.

**Non-GAAP Measures**

The Company uses both IFRS and non-generally accepted accounting principles ("non-GAAP") measures to assess performance. The Company cautions readers about non-GAAP measures that do not have a standardized meaning under IFRS and are unlikely to be comparable to similar measures used by other companies. Management believes these measures allow for a more complete understanding of the underlying business. These measures are used to monitor the Company's results and should not be viewed as a substitute for those determined in accordance with IFRS. Reconciliations of such measures to the most comparable IFRS figures are contained in Section 15, *Non-GAAP Measures* of this MD&A.

**Cautionary Statement Regarding the Valuation of Investments in Private Entities**

In the absence of an active market for its investments in private entities, fair values for these investments are determined by management using the appropriate valuation methodologies after considering the history and nature of the business, operating results and financial conditions, outlook and prospects, general economic, industry and market conditions, capital market and transaction market conditions, contractual rights relating to the investment, public market comparables, net asset value, discounted cash flow analysis, comparable recent arm's length transactions, private market transaction multiples and, where applicable, other pertinent considerations. The process of valuing investments for which no active market exists is inevitably based on inherent uncertainties and the resulting values may differ from values that would have been used had an active market existed. The amounts at which the Company's investments in private entities could be disposed of may differ from the fair value assigned and the differences could be material.

The Company conducts periodic reviews of the underlying assumptions supporting the provision, taking into consideration the anticipated method and extent of the remediation consistent with regulatory requirements, industry practices, current technology and possible uses of the site. Westaim had 142,686,718 and 143,186,718 Common Shares outstanding at December 31, 2021 and 2020, respectively. In the year ended December 31, 2021, Westaim cancelled 500,000 Common Shares that it had acquired at a cost of \$1.1 through a normal course issuer bid ("NCIB"). The TSXV accepted NCIB provides that Westaim may, during the 12-month period commencing October 1, 2021 and ending September 30, 2022, purchase up to 11,208,044 Common Shares in total, representing approximately 10% of Westaim's public float as of September 23, 2021. The NCIB is restricted in that no more than 2,863,734 Common Shares within a 30 day period maybe purchased within the market. Westaim is conducting the NCIB because it believes the Common Shares currently trade in a price range that represents an attractive investment and a desirable use of a portion of its corporate funds.

However, each of the Incentive Plan and the Option Plan provide that under no circumstances shall there be Common Shares issuable under such plan, together with all other security-based compensation arrangements of Westaim, which exceed 10% of the aggregate number of Common Shares outstanding. **10. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS (continued)**

Management used net asset value as the primary valuation technique in determining the fair value of the Company's investments in private entities at December 31, 2021. Management determined that this valuation technique produced the best indicator of the fair value of the investments in Skyward Specialty and the Arena FINCOs at December 31, 2021. The significant unobservable inputs used in the valuation of Skyward Specialty and the Arena FINCOs at December 31, 2021 were the equity of each of the entities at December 31, 2021 and the multiple applied. For a detailed description of the valuation of the Company's investments in private entities, see Note 4 to the Company's audited annual consolidated financial statements for the years ended December 31, 2021 and 2020. Due to the inherent uncertainty of valuation, management's estimated values may differ significantly from the values that would have been used had an active market for the investment existed, and the differences could be material.

The fair value of the vested Warrants is estimated using the Monte Carlo pricing model which contains various assumptions made by management. The amounts computed according to the Monte Carlo pricing model may not be indicative of the actual values realized upon the exercise of the vested Warrants by Fairfax.

Other key estimates include the Company's provision for site restoration, fair value of share-based compensation, and unrecognized deferred tax assets. Details of these items are disclosed in Note 9, Note 12 and Note 14, respectively, to the Company's audited annual consolidated financial statements for the years ended December 31, 2021 and 2020.

**11. CRITICAL ACCOUNTING POLICIES AND RECENTLY ADOPTED AND PENDING ACCOUNTING PRONOUNCEMENTS**

A description of the Company's accounting policies is disclosed in Note 2 to the audited annual consolidated financial statements for the years ended December 31, 2021 and 2020.

At December 31, 2021, there were no new pronouncements that impacted the Company.

**12. QUARTERLY FINANCIAL INFORMATION**

	Q4 2021	Q3 2021	Q2 2021	Q1 2021	Q4 2020	Q3 2020	Q2 2020	Q1 2020
Revenue	\$ 0.6	\$ 0.6	\$ 0.6	\$ 0.6	\$ 0.6	\$ 0.5	\$ 0.5	\$ 23.3
Increase (decrease) in unrealized value of investments, less dividends	6.2	3.2	9.9	12.1	(10.5)	3.5	3.2	(47.1)
Net recovery of expenses (expenses)	0.1	(2.2)	0.4	(3.6)	(4.6)	(3.4)	(3.7)	3.3

The Company's quarterly financial results do not follow any special trends and are not generally subject to seasonal variation but are instead impacted by general market and economic conditions, regulatory risks and foreign exchange fluctuations. In addition, the value of the derivative warrant liability, site restoration obligations and share-based compensation are impacted by fluctuations in the trading price of the Company's shares, discount rates, and foreign exchange fluctuations.

**13. RISKS**

The Company is subject to a number of risks which could affect its business, prospects, financial condition, results of operations and cash flows, including risks relating to lack of significant revenues, regulatory risks, foreign exchange risks and risks relating to the businesses of Skyward Specialty, the Arena FINCOs and Arena Investors. <sup>1</sup> Principal represents the total funding commitment of a loan which, if applicable, is inclusive of any unfunded portion of the commitment at the end of the reporting period. Where a loan is issued at a discount, the cost amount includes the accreted discount as of the end of the reporting period. A loan may also be acquired at a cost lower than the par value of the principal outstanding.

<sup>2</sup> Some investments bear interest at a rate that may be determined by reference to LIBOR or Prime which reset daily, monthly, quarterly, or semi-annually and may be subject to a floor. For each, the Company has provided the current contractual interest rate in effect at December 31, 2021. Interest rates listed are inclusive of PIK, where applicable. PIK is interest paid in kind through an increase in the principal amount of the loan. The internal rate of return for many investments is generally greater than or equal to the total coupon (additional yield resulting from original issue discounts and/or some form of profit sharing, e.g. warrants). In the event that the internal rate of return on the investment is less than the stated rate, the lower rate is noted.

<sup>3</sup> Loan to value ("LTV") represents the value of the outstanding loan as a percentage of the estimated fair value of the underlying collateral as of December 31, 2021.

<sup>4</sup> Investment is not a loan. Metric is not applicable.

<sup>5</sup> Denotes subordinate position within the structure.

<sup>6</sup> Interest not accrued on loans purchased as non-performing.

<sup>7</sup> Investment represents a credit pool purchase with no stated interest rate.

<sup>8</sup> Investment is a maturity default past its maturity date and has an uncertain holding period as of December 31, 2021.

<sup>9</sup> Investment represents owned real estate. Metric is not available.

<sup>10</sup> Investment represents an unsecured credit pool purchase with no stated interest rate.

<sup>11</sup> This investment represents a claim against proceeds subject to a litigation result whereby the FINCOs are not accruing interest.

<sup>12</sup> Investment with no stated coupon rate.

<sup>13</sup> Investment is a preferred equity investment.

<sup>14</sup> Investment is an equity interest in an operating company. Stated coupon and LTV are not applicable.

<sup>15</sup> Investment is a warrant to purchase an equity interest in an operating company. Stated coupon and LTV are not applicable.

<sup>16</sup> Investment is in maturity default where the Company and its partners acquired the borrower in bankruptcy. LTV is not applicable.

<sup>1</sup> Principal represents the total funding commitment of a loan which, if applicable, is inclusive of any unfunded portion of the commitment at the end of the reporting period. Where a loan is issued at a discount, the cost amount includes the accreted discount as of the end of the reporting period. A loan may also be acquired at a cost lower than the par value of the principal outstanding.

<sup>2</sup> Some investments bear interest at a rate that may be determined by reference to LIBOR or Prime which reset daily, monthly, quarterly, or semi-annually and may be subject to a floor. For each, the Company has provided the current contractual interest rate in effect at December 31, 2020. Interest rates listed are inclusive of PIK, where applicable. PIK is interest paid in kind through an increase in the principal amount of the loan. The internal rate of return for many investments is generally greater than or equal to the total coupon (additional yield resulting from original issue discounts and/or some form of profit sharing, e.g. warrants). In the event that the internal rate of return on the investment is less than the stated rate, the lower rate is noted.

<sup>3</sup> Loan to value ("LTV") represents the value of the outstanding loan as a percentage of the estimated fair value of the underlying collateral as of December 31, 2020.

<sup>4</sup> Investment is not a loan. Metric is not applicable.

<sup>5</sup> Denotes subordinate position within the structure.

<sup>6</sup> Investment represents an unsecured credit pool purchase with no stated interest rate.

<sup>7</sup> Investment is a maturity default where the Arena FINCOs and its partners acquired the borrower in bankruptcy.

<sup>8</sup> Investment with no stated coupon rate.

<sup>9</sup> Investment represents a credit pool purchase with no stated interest rate.

<sup>10</sup> Interest not accrued on loans purchased as non-performing.

**15. NON-GAAP MEASURES**

(a) Book value per share

Book value per share is computed as book value divided by the adjusted number of Common Shares. Management believes book value per share is a useful financial performance measure of the Company as, the relative increase or decrease from period to period in book value per share should approximate over the long term the relative increase or decrease in the intrinsic value of the Company's businesses, in large part because book value reflects the fair value of the Company's primary investments which are accounted for at fair value through profit or loss under IFRS. However, book value is not necessarily equivalent to the net realizable value of the Company's assets per share.

The table below provides the reconciliation of the Company's shareholders' equity at the end of the period, determined on an IFRS basis, to book value, and the number of Common Shares outstanding at the end of the period to the adjusted number of Common Shares:

	December 31, 2021	December 31, 2020
Book value:		
Shareholders' equity per IFRS	\$ 347.7	\$ 320.5
Adjustments:		
RSU liability <sup>1</sup>	5.9	5.9
Derivative warrant liability <sup>2</sup>	0.2	1.0
	<u>\$ 353.8</u>	<u>\$ 327.4</u>
Number of Common Shares:		
Number of Common Shares outstanding	142,686,718	143,186,718
Adjustments for assumed exercise of:		
Outstanding RSUs <sup>1</sup>	2,975,198	3,034,261
Adjusted number of Common Shares <sup>3</sup>	<u>145,661,916</u>	<u>146,220,979</u>
Book value per share - in US\$	\$ 2.43	\$ 2.24
Book value per share - in C\$ <sup>4</sup>	\$ 3.07	\$ 2.85
Westaim TSXV closing share price - in C\$	\$ 2.50	\$ 2.49

<sup>1</sup> See Note 12 to the Company's audited consolidated financial statements for the years ended December 31, 2021 and 2020. Liability related to RSUs converted from C\$ to US\$ at period end exchange rates. RSUs are exercisable for Common Shares or cash at no cost to the holders. Adjustment made to reflect a reclassification of the RSU liability to shareholders' equity assuming all outstanding RSUs were exercised for Common Shares.

<sup>2</sup> See Note 8 to the Company's audited consolidated financial statements for the years ended December 31, 2021 and 2020. Derivative warrant liability converted from C\$ to US\$ at period end exchange rates. Adjustment made as the non-cash fair value change in the derivative warrant liability from period to period is not indicative of the change in the intrinsic value of the Company. Vested Warrants were not included in the adjusted number of Common Shares as none of them were in-the-money at December 31, 2021 and 2020.

<sup>3</sup> See Note 12 to the Company's audited consolidated financial statements for the years ended December 31, 2021 and 2020. No adjustments were made for options at December 31, 2021 and 2020 since they were not in-the money. The exercise of in-the-money options would have resulted in an infusion of capital to the Company.

<sup>4</sup> Book value per share converted from US\$ to C\$ at period end exchange rates. Period end exchange rates: 1.26410 at December 31, 2021 and 1.27395 at December 31, 2020.

(b) Net returns on the Arena FINCOs investment portfolios

Net Return on the Arena FINCOs investment portfolios is the aggregate of investment income, net of gains (losses) on investments less interest expense, management, asset servicing and incentive fees, and other operating expenses of the Arena FINCOs divided by average carrying values for the Arena FINCOs, for the period.

(c) Adjusted profit and comprehensive income, and adjusted earnings per share – diluted, excluding unusual items

Adjusted profit and comprehensive income excluding unusual items is computed as the GAAP profit (loss) and comprehensive income (loss) less the net impact of unusual items. Management has presented "adjusted profit and comprehensive income excluding unusual items" and "adjusted earnings (loss) per share – diluted" to reflect the Company's share of the results of the regular operations of the Company's investments.

Adjusted earnings (loss) per share – diluted, excluding unusual items is computed as the adjusted profit and comprehensive income excluding unusual items on a diluted basis divided by the weighted average number of Common Shares outstanding on a diluted basis.
