About Enablence Technologies Inc.

Enablence is a publicly traded company that designs, manufactures and sells optical components and subsystems to a global customer base. It utilizes its patented technologies, including planar lightwave circuit ("PLC") intellectual property, in the production of an array of photonic components and broadband subsystems that deliver a key portion of the infrastructure for current and next-generation telecommunication systems. The Company's product lines address all three segments of optical networks: access - connecting homes and businesses to the network; metro - communication rings within large cities; and long-haul - linking cities and continents.
