

WESTBRIDGE ENERGY CORPORATION

CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian dollars)

FOR THE YEAR ENDED DECEMBER 31, 2019

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Westbridge Energy Corporation

Opinion

We have audited the accompanying consolidated financial statements of Westbridge Energy Corporation (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2019 and 2018, and the consolidated statements of loss and comprehensive loss, cash flows, and changes in shareholders' deficiency for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2019 and 2018, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 of the consolidated financial statements, which indicates that the Company's current liabilities exceeded its current assets by \$629,134. The Company will require additional financing in order to maintain operations and meet its commitments. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. As stated in Note 2, these events and conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Stephen Hawkshaw.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements
(Expressed in Canadian Dollars)
For the year ended December 31, 2019

1. CORPORATE INFORMATION

Westbridge Energy Corporation (the "Company") is incorporated under the laws of British Columbia and its principal business activity is the acquisition and development of oil and gas properties. The Company was incorporated on February 9, 1956.

On April 9, 2019, the Company's common share listing was transferred to the NEX, a separate board of the TSX Venture Exchange ("TSX.V"), for failing to meet all of the Tier 2 Maintenance Requirements ("TMR"). NEX is a separate board of the TSX.V for companies previously listed on the TSX.V or the Toronto Stock Exchange which have failed to maintain compliance with on-going financial listing standards of those markets. NEX has been designed to provide a forum for the trading of publicly listed companies without businesses while they seek and undertake transactions in furtherance of a qualifying business acquisition and their reactivation on the TSX.V or the Toronto Stock Exchange.

The address of the Company's corporate office and principal place of business is Suite 615 - 800 West Pender Street, Vancouver, British Columbia, V6C 2V6.

2. BASIS OF OPERATIONS AND GOING CONCERN

(a) Statement of Compliance

These Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the International Financial Reporting Interpretations Committee ("IFRIC"), effective for the Company's reporting year ended December 31, 2019.

These Financial Statements were authorized for issue on June 10, 2020 by the board of directors.

(b) Basis of Presentation and Measurement

These consolidated financial statements are presented in Canadian dollars.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

2. BASIS OF OPERATIONS AND GOING CONCERN (cont'd...)

(c) Going Concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its current obligations and continue its operations over the next year.

At December 31, 2019, the Company had not yet achieved profitable operations and expects to incur further losses in the development of its business and had a working capital deficiency of \$629,134. The Company will require additional financing in order to maintain operations and meet its commitments. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. The Company does not have sufficient working capital to maintain administrative operations for the next fiscal year, and, if management is unable to complete the required expenditures necessary to maintain its interest in the exploration and evaluation projects, the projects may be abandoned. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

Subsequent to December 31, 2019, there was a global outbreak of COVID-19. The actual and threatened spread of the virus globally has had a material adverse effect on the regional economies in which the Company operates and could continue to result in negative impacts on the stock market, including trading prices of the Company's shares, and the ability to raise capital and could impact the Company's operations.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Portrush Petroleum USA a company incorporated in the USA, from the date control was acquired. Control exists when the Company possesses power over an investee, has exposure to variable returns from the investee and has the ability to use its power over the investee to affect its returns. All significant inter-company transactions and balances have been eliminated on consolidation.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(b) Exploration and evaluation assets

Exploration and evaluation expenditures include costs associated with the acquisition of a license interest, directly attributable general and administrative costs, expenditures incurred in the process of determining oil and gas exploration targets, and exploration drilling costs. All exploration expenditures are capitalized on a license-by-license basis within intangible exploration and evaluation assets. Costs are held un-depleted until such time as the exploration phases on the license area are complete or commercially viable reserves have been discovered and extraction of those reserves is determined to be technically feasible.

If commercial reserves are established and technical feasibility for extraction demonstrated, then the related capitalized intangible exploration costs are transferred into a single field cost center within "oil and gas interests" subsequent to determining that the assets are not impaired (see "Impairment" below). Where results of exploration drilling indicate the presence of hydrocarbons which are ultimately not considered commercially viable, all related costs are recognized in profit or loss.

Net proceeds from any disposal of an intangible exploration and evaluation asset are initially credited against the previously capitalized costs. Any surplus proceeds are recorded as a gain in the statement of comprehensive loss. Costs incurred prior to obtaining the legal rights to explore an area are recognized in profit or loss as incurred.

(c) Impairment of long-lived assets

At the end of each reporting period, the Company's assets are reviewed to determine whether there is any indication that those assets may be impaired. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(d) Decommissioning Provisions

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of oil and gas interests, when those obligations result from the acquisition, construction, development or normal operation of the assets. The net present value of future rehabilitation cost estimates arising from the decommissioning of plant and other site preparation work is capitalized to the production assets along with a corresponding increase in the rehabilitation provision in the period incurred. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value.

The Company's estimates of reclamation costs could change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. These changes are recorded directly to oil and gas interests with a corresponding entry to the rehabilitation provision. The Company's estimates are reviewed annually for changes in regulatory requirements, discount rates, effects of inflation and changes in estimates.

Changes in the net present value, excluding changes in the Company's estimates of reclamation costs, are charged to profit and loss for the period.

(e) Income taxes

Income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive loss/income.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting not taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(f) Stock-based compensation

The Company uses the fair value-based method for stock-based compensation and therefore all awards to employees will be recorded at fair value on the date of the grant and expensed over the period of vesting. The Company uses the Black-Scholes option pricing model to estimate the fair value of each stock option at the date of grant. Any consideration paid by the option holders to purchase shares is credited to capital stock.

Stock-based compensation arrangements in which the Company receives goods or services as consideration for its own equity instruments, or when stock options are granted to non-employees, are accounted for as equity settled share based payment transactions and measured at the fair value of goods or services received. If the fair value of the goods or services received cannot be estimated reliably, the share based payment transaction is measured at the fair value of the equity instruments granted.

(g) Capital stock

Proceeds from the exercise of stock options and warrants are recorded as capital stock at the amount for which the stock option and warrant enabled the holder to purchase shares of the Company. Capital stock issued for non-monetary consideration is recorded at fair value based on the quoted market price on the date of issuance. Share issue costs, which include commissions and professional and regulatory fees are charged directly to capital stock.

(h) Basic and diluted loss per share

The Company computes the dilutive effect of options, warrants and similar instruments. The dilutive effect on loss per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the year.

Basic loss per share is calculated using the weighted-average number of common shares outstanding during the year. This calculation proved to be anti-dilutive for the years presented.

(i) Foreign currency translation

The functional currency of the parent company is the Canadian dollar and the functional currency of Portrush Petroleum USA is the US dollar.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(i) Foreign currency translation (cont'd...)

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate in effect at the date of the statement of financial position. Non-monetary assets and liabilities, expenses and other income arising from foreign currency transactions are translated at the exchange rate in effect at the date of the transaction except for Portrush which translates non-monetary assets at the exchange rate at period end. Exchange gains or losses in the parent company arising from the translation are included in profit or loss for the year. Exchange gains and losses in Portrush are recognized in other comprehensive loss and accumulate as a separate component of equity.

(j) Financial instruments

(i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Financial assets/liabilities	Classification IFRS 9
Cash	FVTPL
Receivables	Amortized cost
Accounts payable and accrued liabilities	Amortized cost

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(j) Financial instruments (cont'd...)

(ii) Measurement

Financial assets and liabilities at amortized cost.

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the consolidated statements of loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the consolidated statements of loss in the period in which they arise.

(iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the consolidated statements of loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

(iv) Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the consolidated statements of loss.

(k) **New accounting policies**

Accounting standards issued but not yet effective

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or IFRIC that are mandatory for accounting periods noted below. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

(k) New accounting policies (cont'd...)

IAS 16 Leases

IFRS 16 was issued in January 2016 and specifies how an IFRS reporter will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17.

This standard is effective for reporting periods beginning on or after January 1, 2019. The adoption of IFRS 16 did not have a significant impact on its consolidated financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements are discussed below:

i) Decommissioning Provisions

Rehabilitation provisions have been created based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period. Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs which will reflect the market conditions at the time the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently estimated.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (cont'd...)

ii) Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of tax losses also depends on the ability of the Company to satisfy certain tests at the time the losses are recouped.

5. DECOMMISSIONING PROVISIONS

The decommissioning provision at December 31, 2019 and December 31, 2018 of \$17,311 represents undiscounted amount of cash flows, required over the estimated reserve life of the underlying assets, to settle the obligations on the Company's Michigan wells (Note 6). The obligation is fully accreted to its undiscounted value.

6. EXPLORATION AND EVALUATION ASSETS

The Company held interests in the following exploration and evaluation projects but all costs were written-off in previous fiscal years.

Namibia

Concessions 1910A Relinquished, 1911A Relinquished, 1912B and 2011A Relinquished

Pursuant to the petroleum agreement with the Government of Namibia, minimum exploration expenditures of US\$4,000,000 were required to be incurred on the concessions by June 2017. The Company's GIC, held by a Canadian bank in the amount of \$272,000 (US \$200,000) represents a performance bond held as a guarantee pursuant to the agreement. During the year ended December 31, 2018, the Company considered the bond uncollectible and charged \$272,000 to operations.

WESTBRIDGE ENERGY CORPORATION

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

7. RELATED PARTY TRANSACTIONS

The following amounts due to related parties are included in accounts payable and accrued liabilities:

	December 31, 2019	December 31, 2018
Officers, directors or companies controlled by directors of the Company	\$ 262,925	\$ 251,584

Amounts paid to related parties are non-interest-bearing, unsecured and have no specific terms of repayment.

The Company incurred the following transactions with key management personnel comprised of officers, directors or companies controlled by directors:

	For the year ended December 31	
	2019	2018
Consulting and administration	\$ 30,000	\$ 30,000
Management fees	-	30,000
	\$ 30,000	\$ 60,000

8. CAPITAL STOCK AND CONTRIBUTED SURPLUS

- a) Authorized: Unlimited number of common shares without par value.
- b) Private placements

There were no private placement financings completed during the years ended December 31, 2019 and December 31, 2018.

- c) Stock options

The Company has a stock option plan whereby, from time to time, at the discretion of the Board of Directors, stock options are granted to directors, officers and certain consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. The exercise price of each option is based on the market price of the Company's common stock at the date of the grant less an applicable discount. The options can be granted for a maximum term of 5 years and vest at the discretion of the Board of Directors.

No stock options were granted during the years ended December 31, 2019 and December 31, 2018.

Exercised	(1,300,000)	0.05
Outstanding, December 31, 2019	-	\$ -

9. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

The Company's financial instruments consist of cash, receivables, and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

The carrying value of receivables and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

The Company discloses the inputs used in making fair value measurements, including their classification within a hierarchy that prioritizes their significance. The three levels of inputs are: Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities; Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and Level 3 – inputs that are not based on observable market data.

For the year ended December 31, 2019

9. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

(cont'd...)

Financial instruments measured at fair value on the statement of financial position are summarized in levels of fair value hierarchy as follows:

Assets	Level 1	Level 2	Level 3	Total
Cash	\$ 8,519	\$ -	\$ -	\$ 8,519

The Company has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. Management, the Board of Directors and the Audit Committee monitor risk management activities and review the adequacy of such activities.

(a) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's cash is primarily held in large Canadian financial institutions. The Company does not have any asset-backed commercial paper. The Company's receivables consist of government sales tax receivable due from the Federal Government of Canada. Management believes that the credit risk concentration with respect to financial instruments included in receivables is minimal.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. The Company is exposed to liquidity risk and has a going concern issue (Note 2).

(c) Market risk

Market Risk is the risk of loss that may arise from changes in market factors such as foreign exchange rates, interest rates, and commodity and equity prices.

- (i) Cash held in foreign currencies other than the Canadian dollar is subject to currency risk. The Company is exposed to currency risk by incurring certain expenditures in currencies other than the Canadian dollar.

The Company does not use derivative instruments or foreign exchange contracts to hedge against gains or losses arising from foreign exchange fluctuations. A 10% change in exchange rates to the US dollar would result in a \$21,000 effect to profit and loss.

For the year ended December 31, 2019

9. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

(cont'd...)

(c) Market risk (cont'd...)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest-bearing financial instruments are comprised of cash which bears interest at variable rates. The Company considers its interest rate risk as minimal and insignificant.

(iii) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. The ability of the Company to explore its oil and properties and the future profitability of the Company are directly related to the market price of oil and gas. The Company monitors oil and gas prices to determine the appropriate course of action to be taken by the Company.

Capital Management

The Company's objectives when managing capital are:

- to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The Company considers the items included in shareholders' deficiency as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through public and/or private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements. There has been no changes to the Company's approach to capital management for the years presented.

10. SEGMENTED INFORMATION

The Company's operations are in the oil and gas industry and are located in the USA.

WESTBRIDGE ENERGY CORPORATION

(Expressed in Canadian Dollars)

For the year ended December 31, 2019

11. INCOME TAXES

A reconciliation of current income taxes at statutory rates with the reported taxes is as follows:

	2019	2018
Loss for the year	\$ (56,035)	\$ (370,376)
Expected income tax recovery	(15,000)	(100,000)
Non-deductible items for income tax purposes	-	-
Impact of differing tax rates and other items	-	(1,000)
Adjustment to prior year provision versus statutory returns	(745,000)	3,000
Changes in provision to actual differences	760,000	98,000
Actual income tax recovery	\$ -	\$ -

The tax effects of temporary differences that give rise to significant components of deferred tax assets and liabilities are as follows:

	2019	2018
Deferred tax assets:		
Capital losses available for future periods	\$ 1,020,000	\$ 200,000
Exploration and evaluation assets	1,838,000	1,845,000
Decommissioning provision	5,000	5,000
Operating losses available for future periods	1,584,000	1,637,000
Unrecognized deferred tax asset	\$ 4,447,000	\$ 3,687,000

The Company's deferred tax assets expire as follows:

	2019	Expiry date range	2018
Financing fees	\$1,000	2038 to 2041	\$1,000
Allowable capital losses	3,776,000	Not Applicable	741,000
Non-capital losses	5,865,000	2026 to 2039	5,784,000
Exploration and evaluation assets	6,808,000	Not Applicable	6,765,000
