1. Nature of Operations

Norvista Capital Corporation ("Norvista" or the "Company") and its subsidiaries operate as a publicly traded resource investment company and merchant bank focused on the metals and mining sector. The Company's strategy is to capitalize on the significant asset value contraction that has occurred over the last several years in the resource industry, with particular emphasis on base metal projects. Norvista focuses its efforts on the pursuit of highly prospective exploration projects while balancing exploration risk through investment in small to mid-scale, pre-production, opportunities requiring partial or full completion of feasibility studies. The Company is a publicly listed company that amalgamated under the Canada Business Corporations Act on June 4, 2014. The Company's shares are listed on the TSX Venture Exchange under the symbol "NVV". The Company's head office is located at 141 Adelaide St. W., Suite 1660, Toronto, Ontario, M5H 3L5.

2. Significant Accounting Policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS issued and outstanding as of November 28, 2018, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2017, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2018 could result in restatement of these unaudited condensed consolidated interim financial statements.

Accounting policies adoptions and changes

IFRS 2 – Share-based Payment ("IFRS 2")

IFRS 2 was amended by the IASB in June 2016 to clarify the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features and the accounting for modifications of share-based payment transactions from cash-settled to equity-settled. On January 1, 2018, the Company adopted this amendment and has determined that the adoption of this new amendment does not have a significant impact on its financial statements.

IAS 40 – Transfers of Investment Property ("IAS 40")

IAS 40 was amended to clarify that an investment property shall be transferred to, or from, investment property when, and only when, there is evidence of a change in use. On January 1, 2018, the Company adopted IAS 40 and has determined that the adoption of this new amendment does not have a significant impact on its financial statements.

2. Significant Accounting Policies (continued)

Accounting policies adoptions and changes (continued)

IFRS 15 - Revenue From Contracts With Customers ("IFRS 15")

IFRS 15 proposes to replace IAS 18 - Revenue, IAS 11 - Construction contracts, and some revenue-related interpretations. The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. On January 1, 2018, the Company adopted IFRS 15 and has determined that the adoption of this new standard does not have a significant impact on its financial statements.

IFRS 9 Financial Instruments ("IFRS 9")

On July 24, 2014, the IASB issued the completed IFRS 9, Financial Instruments, (IFRS 9 (2014)) to come into effect on January 1, 2018 with early adoption permitted.

IFRS 9 (2014) includes finalized guidance on the classification and measurement of financial assets. Under IFRS 9, financial assets are classified and measured either at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 largely retains the existing requirements in IAS 39 Financial Instruments: recognition and measurement, for the classification and measurement of financial liabilities.

The Company adopted IFRS 9 in its consolidated financial statements on January 1, 2018. Due to the nature of its financial instruments, the adoption of IFRS 9 had no impact on the opening accumulated deficit balance on January 1, 2018. The impact on the classification and measurement of its financial instruments is set out below.

All financial assets not classified at amortized cost or FVOCI are measured at FVTPL. On initial recognition, the Company can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated at FVTPL:

- It is held within a business model whose objective is to hold the financial asset to collect the contractual cash flows associated with the financial asset instead of selling the financial asset for a profit or loss;
- Its contractual terms give rise to cash flows that are solely payments of principal and interest.

All financial instruments are initially recognized at fair value on the consolidated statement of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at FVTPL are measured at fair value with changes in those fair values recognized in the consolidated statement of loss and comprehensive loss for the year. Financial assets classified at amortized cost and financial liabilities are measured at amortized cost using the effective interest method.

IFRS 9 Financial Instruments ("IFRS 9") (continued)

The following table summarizes the classification and measurement changes under IFRS 9 for each financial instrument:

Classification	IAS 39	IFRS 9
Cash and cash equivalents	Loans and receivables (amortized cost)	Amortized cost
Due from broker	Loans and receivables (amortized cost)	Amortized cost
Amounts receivable	Loans and receivables (amortized cost)	Amortized cost
Public investments	FVTPL	FVTPL
Non-public investments	FVTPL	FVTPL
Restricted cash	Loans and receivables (amortized cost)	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities (amortized cost)	Amortized cost

The original carrying value of the Company's financial instruments under IAS 39 has not changed under IFRS 9.

Recent accounting pronouncements

IFRS 16 – Leases ("IFRS 16") was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019.

IFRIC 23 – Uncertainty Over Income Tax Treatments ("IFRIC 23") was issued in June 2017 and clarifies the accounting for uncertainties in income taxes. The interpretation committee concluded that an entity shall consider whether it is probable that a taxation authority will accept an uncertain tax treatment. If an entity concludes it is probable that the taxation authority will accept an uncertain tax treatment, then the entity shall determine taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. If an entity concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the entity shall reflect the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates. IFRIC 23 is effective for annual periods beginning on or after January 1, 2019.

6. Norvista Capital I Limited Partnership

On March 14, 2016, a partnership was formed under the name of Norvista Capital I Limited Partnership (the "LP"). A wholly owned subsidiary of Norvista, Norvista Capital General Partner I Ltd., serves as the "General Partner" of the LP and the Company serves as the manager of the LP and provides investment management services to the LP and is responsible for the day-to-day business of the LP. The LP has been created by the Company to avoid concentrated equity ownership in Norvista while accommodating institutional investors who want to make private equity investments in the junior resource space and have such investments sourced, structured and managed by Norvista. As at December 31, 2017 and September 30, 2018, the General Partner had no partnership units in the LP.

The General Partner is entitled to 0.01% of the net income or net loss of the LP and the LP pays the General Partner an annual management fee equal to 2% of their net asset value, calculated and paid monthly in arrears. During the three and nine months ended September 30, 2018, the General Partner recorded a management fee of \$12,458 and \$38,592, respectively (three and nine months ended September 30, 2017 - \$17,034 and \$52,992, respectively). As at September 30, 2018, the Company had a \$14,077 (December 31, 2017 - \$18,621) management fee receivable from the LP which was included in the amounts receivable in the unaudited condensed consolidated interim statements of financial position as at September 30, 2018.

On or before the dissolution of the LP or implementation of one of the liquidity alternatives, an incentive bonus will be payable by the LP to the General Partner calculated as 15% of the amount by which the increase in the Net Asset Value from formation until dissolution of the LP exceeds a threshold increase of 10% per annum compounded annually, excluding the effect of distributions to the LP, if any. The one-time performance fee, if any, will be paid within 10 calendar days of the dissolution date of the LP.

The Company accounts for its investment in the LP using a nominal value of \$nil as it does not own any partnership units and is only able to recover up to 0.01% of the net income of the LP.

7. Investment in mineral property interest

On May 3, 2018, the Company signed an agreement ("Agreement") to purchase from Rockcliff its interest in the Talbot Option Agreement and the Talbot Property. Rockcliff will assign its interest to Norvista for total cash consideration of \$3.0 million and an additional 1/2% Net Smelter Royalty ("NSR") on the nearby Tower Copper Property that is slated for production in 2020. In the event that Norvista secures at least a 90% interest in the Talbot Property, Rockcliff will receive a 2% NSR on the Talbot Property.

Highlights of Rockcliff assigning its option agreement are:

- \$50,000 cash on signing (\$25,000 paid by Norvista and \$25,000 paid by LP);
- \$150,000 in 3 months from signing payable at the discretion of Norvista (\$75,000 paid by Norvista and \$75,000 paid by LP);
- Norvista is obligated to spend \$206,000 to satisfy the remainder of the fifth-year expenditure requirement under the Talbot Agreement;
- \$1,000,000 cash on commencement of the Tower mine construction (estimated to be July 2019);
- \$900,000 cash 3 months after commencement of commercial production (estimated to be October 2020);
- \$900,000 cash 6 months after commencement of commercial production;
- additional 1/2% NSR on Tower Copper Property (Rockcliff will then own a total of 2% NSR on Tower Property). Norvista can purchase 1% NSR for \$2.0 million and has right of first refusal on the remaining 1% NSR;
- On or before July 1, 2019, Norvista must elect to either spend \$2,270,000 to earn a 51% interest under the Talbot Option Agreement, or return the property and the agreement back to Rockcliff and the additional 1/2% NSR on the Tower Property is forfeited; and
- 2% NSR on Talbot Property if Norvista acquires at least a 90% interest in the Talbot Property. Norvista can purchase 1% NSR for \$2.0 million and has right of first refusal on the remaining 1% NSR.

Norvista and the LP are each satisfying 50% of the above payment obligations.
