1. NATURE AND CONTINUANCE OF OPERATIONS

Duckhorn Ventures Ltd. (the “Company” or “Duckhorn”) was incorporated under the British Columbia Business Corporations Act on March 25, 2019. The head office and records and registered office is located at 1600 – 609 Granville Street, Vancouver, British Columbia V7Y 1C3. The Company is currently managing its investment portfolio and is investigating and evaluating business opportunities to either acquire or in which to participate.

In March 2019, the Company received \$25,000 in consideration of the issuance of 5,000,000 common shares of the Company. On May 29, 2019, ECC Diversified Inc. (“ECC”) completed a strategic reorganization of its assets by way of a plan of arrangement (the “Arrangement”) in which it spun out Duckhorn and other investee subsidiaries. The Arrangement was approved by the shareholders of ECC on May 17, 2019 and the Supreme Court of British Columbia issued its final order approving the Arrangement on May 28, 2019. Pursuant to the terms of the Arrangement, ECC distributed to each shareholder of ECC, as of April 17, 2019, one common share in the capital of Duckhorn for every common share in the capital of ECC held. As a result, 19,930,500 common shares of the Company were issued (Note 8).

In August 2019, the Company entered into a non-binding letter of intent (the “LOI”) with Enosi Pharmaceuticals Corp. (“Enosi”) with respect to the proposed acquisition by the Company of all the issued and outstanding equity securities of Enosi, and pursuant to which the Company loaned \$200,000 to Enosi. In January 2020, the parties mutually agreed to terminate the LOI and the Company converted the loan into an equity interest in Enosi. See Note 6 for details of this transaction.

The Company incurred a net loss and comprehensive loss of \$127,785 for the period ended September 30, 2020. As at September 30, 2020, the Company has an accumulated deficit of \$363,507 and a working capital deficiency of \$232,162. Continuing business as a going concern is dependent upon the ability of the Company to obtain additional debt or equity financing, both of which are uncertain. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern.

These financial statements have been prepared in accordance with IFRS with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than a process of forced liquidation. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or results of operations at this time.

2. BASIS OF PRESENTATION

Statement of Compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting. Accordingly, these condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the most recent audited annual financial statements of the Company as at and for the year ended December 31, 2019. The Board of Directors authorized these condensed interim financial statements for issue on November 18, 2020.

The accounting policies applied in these condensed interim financial statements are the same as those applied in the Company’s most recent audited annual financial statements as at and for the year ended December 31, 2019.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Measurement

These condensed interim financial statements have been prepared on the historical cost basis except for financial instruments measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(b) Critical Accounting Estimates, Judgments and Assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and expenses. Estimates and associated assumptions applied in determining asset or liability values are based on historical experience and various other factors including other sources that are believed to be reasonable under the circumstances but are not necessarily readily apparent or recognizable at the time such estimate or assumption is made. Actual results may differ from these estimates.

Estimates and underlying assumptions used in determining asset and liability values are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The information about significant areas of estimation uncertainty considered by management in preparing the condensed interim financial statements is as follows:

(i) Deferred tax assets and liabilities

The measurement of deferred income tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful operations of the Company. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

(ii) Valuation of share-based payments

Management uses the Black-Scholes model to determine the fair value of stock options granted to officers and directors. This model requires assumptions of the expected future price volatility of the Company's common shares, expected life of options, future risk-free interest rates, and the dividend yield of the Company's common shares.

The information about significant areas of judgment considered by management in preparing the condensed interim financial statements is as follows:

(i) Going concern

The assessment of the Company's ability to continue as a going concern as discussed in Note 1 involves judgment regarding future funding available for its operations and working capital requirements.

5. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

The Company has identified its directors and certain senior officers as its key management personnel and the compensation costs for key management personnel and companies related to them are recorded at their exchange amounts as agreed upon by transacting parties.

6. INVESTMENT IN ENOSI

ENOSI

Pursuant to an agreement dated August 30, 2019, the Company loaned \$200,000, receivable by promissory note to Enosi in conjunction with the LOI. The principal outstanding under this promissory note bore interest at the simple rate of 10% per annum. On January 13, 2020, the Company and Enosi entered into an agreement to restructure their proposed transaction (the “Settlement Agreement”), resulting in the Company acquiring an equity interest in Enosi. Pursuant to the Settlement Agreement, Enosi issued 825,000 common shares in its capital to the Company in full satisfaction of all obligations owing by Enosi to the Company. Enosi is a private biotechnology company incorporated under the laws of the province of British Columbia that is focused on translating novel technologies into valuable therapeutics in the treatment of cancer and autoimmune disease.

7. PROMISSORY NOTES PAYABLE AND LOAN PAYABLE

ECC

Pursuant to an agreement dated March 25, 2019, the Company purchased 90,000 common shares (subsequently split 2:1 resulting in 180,000 common shares) of PUMP from ECC for an aggregate price of \$21,150, payable by promissory note. The principal outstanding under this promissory note bears interest at the simple rate of 10% per annum. The entire unpaid principal and any interest is fully and immediately payable upon demand of ECC. The Company may repay the principal and all accrued interest thereon at any time and from time to time without notice or penalty. Interest expense for the period was \$1,588. As at September 30, 2020, a total of \$3,215 has been recorded as interest payable.

ESOF 2017

Pursuant to an agreement dated August 30, 2019, the Company received \$200,000, payable by promissory note. The principal outstanding under this promissory note bears interest at the simple rate of 12% per annum. The entire unpaid principal and any interest is fully and immediately payable upon demand of ESOF 2017. The Company may repay the principal and all accrued interest thereon at any time and from time to time without notice or penalty. In the current fiscal year, ESOF 2017 has advanced a further \$5,250 in the form of a line of credit with a simple rate of 12% per annum. Interest expense for the period was \$18,332 and has been recorded as interest payable. As at September 30, 2020, a total of \$26,420 has been recorded as interest payable.

8. SHARE CAPITAL

(a) Authorized

Unlimited number of common and preferred shares without par value.

(b) Issued and outstanding

As at September 30, 2020, the Company had 24,930,500 common shares issued and outstanding.

On March 25, 2019, the Company received \$25,000 through the issuance of 5,000,000 common shares at \$0.005 per share.

On May 29, 2019, ECC completed a strategic reorganization of its assets in which it spun out certain assets into Duckhorn. The transaction was carried out by way of an Arrangement pursuant to the *Business Corporations Act* (British Columbia). Under the terms of the Arrangement, shareholders of ECC received one common share of the Company for every common share of ECC they held as of April 17, 2019; as a result, 19,930,500 common shares of the Company were issued. The value of each share is deemed to be \$0.005 for a total of \$99,653.

	Number of Shares	Amount \$
Balance, (incorporation) March 25, 2019	-	-
March 25, 2019 – share issuance	5,000,000	25,000

Balance, December 31, 2019 and September 30, 2020	24,930,500	124,653

(c) Stock options

On March 25, 2019, the Company adopted a stock option plan (the “Stock Option Plan”) whereby it can grant incentive stock options to directors, officers, employees, and technical consultants of the Company. The maximum number of shares that may be reserved for issuance under the Stock Option Plan is limited to 10% of the issued common shares of the Company at any time. The vesting period for all options is at the discretion of the Board of Directors. The exercise price will be set by the Board of Directors at the time of grant and cannot be less than the discounted market price (if any) of the Company’s common shares.

The Stock Option Plan provides that the number of common shares that may be reserved for the issuance to any one individual upon exercise of all stock options held by such an individual may

not exceed 5% of the issued common shares, if the individual is a director or officer, or 2% of the issued common shares, if the individual is a consultant or engaged in providing investor relations services, on a yearly basis. All options granted under the Stock Option Plan will expire not later than the date that is ten years from the date that such options are granted. Options terminate earlier as follows: (i) immediately in the event of dismissal with cause; (ii) 90 days from date of termination other than for cause; or (iii) one year from the date of death or disability. Options granted under the Stock Option Plan are not transferable or assignable other than by will or other testamentary instrument or pursuant to the laws of succession.

On May 29, 2019, the Company granted a total of 2,490,000 incentive stock options to officers and a consultant to the Company, which vested immediately, having an exercise price of \$0.02 per share and expire in five years.

Share purchase option transactions are summarized as follows:

	Number	Options Weighted Average Exercise Price
Balance, (incorporation) March 25, 2019	-	\$ -
Grants	2,490,000	0.02
Outstanding and exercisable, December 31, 2019 and September 30, 2020	2,490,000	\$ 0.02

The fair value of the options granted was determined to be \$6,692 using the Black-Scholes option pricing model under the following assumptions: risk-free interest rate – 1.36%; expected life – 5 years; expected volatility – 100% and expected dividends – nil.

As at September 30, 2020, stock options outstanding and exercisable are as follows:

9. BASIC AND DILUTED LOSS PER SHARE

The calculation of basic and diluted loss per share for the period ended September 30, 2020 was based on the loss attributable to common shareholders of \$127,785 and the weighted average number of common shares outstanding of 24,930,500.

10. MANAGEMENT OF CAPITAL

Capital is comprised of the Company's shareholders' equity and any debt that it may issue. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its ongoing liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels.

The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital, but rather relies on the expertise of the Company's management to sustain the future development of the business. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. As at September 30, 2020, the Company is not subject to any externally imposed capital requirements.

11. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Market Risk

Market risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate because of changes in market prices or prevailing conditions. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk and are disclosed as follows:

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company holds no financial instruments that are denominated in a currency other than Canadian dollars. As at September 30, 2020, the Company is not exposed to currency risk.

(Expressed in Canadian dollars)

11. FINANCIAL INSTRUMENTS (continued)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market risk. The Company's sensitivity to interest rates relative to its cash balances is currently immaterial. The Company also has no long-term debt with variable interest rates, so it has no negative exposure to changes in the market interest rate.

(iii) Price rate risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Management closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Given the Company's limited market exposure at this time it has assessed there to be a low level of price rate risk.

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits the exposure to credit risk by only investing its cash with high-credit quality financial institutions. Management believes that the credit risk related to its cash is negligible.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At September 30, 2020, the Company has limited sources of revenue and has a cash balance of \$914 to settle current liabilities of \$454,685. As such, the Company has insufficient cash to fund corporate overhead costs and the repayment of the Company's debt obligations for the next year.

Until such time as the Company's investments increase in value or begin generating significant dividend income, the Company will remain dependent upon the financial support of its shareholders and debt holders or the sale of investments. If the Company is unable to finance itself through these means, it is possible that the Company will be unable to continue as a going concern.

Additionally, the Company likely has insufficient funds from which to finance any identified business acquisition and as such will require additional financing to accomplish the Company's long-term strategic objectives. Future funding may be obtained by means of issuing share capital and/or debt financing. There can be no certainty of the Company's ability to raise additional financing through these means. If the Company is unable to continue to finance itself through these means, it is possible that the Company will be unable to continue as a going concern.

Fair Value Risk

When participating in investment activities, the Company may incur losses if it is unable to resell the securities it has purchased or if it is forced to liquidate its holdings at less than their respective carrying values. The Company is also exposed to fair value risk as a result of its trading activities in publicly traded securities. All of the Company's investments are carried on a FVTPL basis and are recorded at their fair value. As such, changes in fair value affect earnings as they occur.

The fair value of cash, accounts receivable, promissory note receivable, accounts payable and accrued liabilities, and promissory notes payable at September 30, 2020 approximate their carrying values due to their short term to maturity.

As of September 30, 2020, the determination of estimated fair value of the Company's investments was as follows:

	September 30, 2020	Estimated fair values		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
FVTPL investments	4,500	4,500	-	-
	4,500	4,500	-	-
