

Q2 Metals Announces Results of AGM and Year-End Webcast

VANCOUVER, British Columbia, Dec. 11, 2025 -- **Q2 Metals Corp. (TSX.V: QTWO | OTCQB: QUEXF | FSE: 458)** (“Q2” or the “Company”) is pleased to announce that all matters brought before the Company’s Annual General Meeting held on December 9, 2025 (the “Meeting”) were approved. A total of 73,179,989 common shares of the company were represented at the Meeting, representing 38.62% of the Company’s outstanding common shares as at the record date of October 24, 2025.

Year-End Webcast Presentation

Q2 Metals will host a live year-end webcast presentation on Thursday, December 18 at 08:00 AM PST (11:00 AM EST). Management will review the Company’s 2025 performance, highlight upcoming catalysts, and outline plans for 2026. The presentation will be followed by a Q&A session.

ABOUT Q2 METALS CORP.

Q2 Metals is a Canadian mineral exploration company focused on the Cisco Lithium Project which is located within the greater Nemaska traditional territory of the Eeyou Istchee, James Bay region of Quebec, Canada. The known mineralized zone at Cisco is just 6.5 km from the Billy Diamond Highway, which leads to the railhead in the Town of Matagami, approximately 150 km to the south.

The Cisco Project has district-scale potential with an initial Exploration Target estimating a range of potential lithium mineralization of 215 to 329 million tonnes at a grade ranging from 1.0 to 1.38% Li₂O, based only on the first 40 holes drilled. It is noted that the potential quantity and grade of the Exploration Target are conceptual in nature and there has been insufficient exploration to estimate and define a Mineral Resource, as defined by NI 43-101. It is uncertain if further exploration will result in the target being delineated as a Mineral Resource.

The 2025 Exploration Program is ongoing, prioritizing infill drilling towards an initial mineral resource estimate expected in Q1 2026. Expansion and exploration drilling continues at the main zone, which remains open at depth and along strike, as well as at high potential targets identified across the broader 41,253 hectare project area.

Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, “forward-looking statements”) within the meaning of applicable Canadian legislation. Forward-looking statements are typically identified by words such as: “believes”, “expects”, “anticipates”, “intends”, “estimates”, “plans”, “may”, “should”, “would”, “will”, “potential”, “scheduled” or variations of such words and phrases and similar expressions, which, by their nature, refer to future events or results that may, could, would, might or will occur or be taken or achieved. Accordingly, all statements in this news release that are not purely historical are forward-looking statements and include statements regarding beliefs, plans, expectations and orientations regarding the future including, without limitation, any statements or plans regard the geological prospects of the Company’s properties and the future exploration endeavors of the Company. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Forward-looking statements are based on a number of material factors and assumptions.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in such forward-looking statements. The forward-looking statements in this news release speak only as of the date of this news release or as of the date specified in such statement. Forward looking statements in this news release include, but are not limited to, drilling results on the Cisco Project and inferences made therefrom, the conceptual nature of an exploration target on the Cisco Project, the potential scale of the Cisco Project, the

focus of the Company's current and future exploration and drill programs, the scale, scope and location of future exploration and drilling activities, the Company's expectations in connection with the projects and exploration programs being met, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from those in forward-looking statements include failure to obtain necessary approvals, variations in ore grade or recovery rates, changes in project parameters as plans continue to be refined, unsuccessful exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital and financing on acceptable terms, reallocation of proposed use of funds, general economic, market or business conditions, risks associated with regulatory changes, defects in title, availability of personnel, materials and equipment on a timely basis, accidents or equipment breakdowns, uninsured risks, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same. Readers are cautioned that mineral exploration and development of mines is an inherently risky business and accordingly, the actual events may differ materially from those projected in the forward-looking statements. Additional risk factors are discussed in the section entitled "Risk Factors" in the Company's Management Discussion and Analysis for its recently completed fiscal period, which is available under Company's SEDAR profile at www.sedarplus.com.

Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as otherwise required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
