

North American Nickel Reports on Annual General and Special Meeting

Vancouver, British Columbia--(Newsfile Corp. - September 21, 2020) - **North American Nickel Inc. (TSXV: NAN) (OTCQB: WSCRF) (CUSIP: 65704T 405)** (the "Company" or "NAN") is pleased to report on the results of the Annual General and Special Meeting (the "Meeting") of shareholders held on September 21, 2020.

The shareholders ratified and approved the number of directors at six (6) and re-elected Charles Riopel, Douglas Ford, Gilbert Clark, Christopher Messina, Keith Morrison and Zhen Janet Huang as directors of the Company for the ensuing year.

In addition, Dale Matheson Carr-Hilton LaBonte LLP were re-appointed as auditors and shareholders approved the Company's Stock Option Plan as detailed in the Management Information Circular dated as of August 17, 2020.

Following the meeting the board of directors re-appointed Charles Riopel as Chairman, Keith Morrison as Chief Executive Officer and Sarah-Wenjia Zhu as Chief Financial Officer.

About North American Nickel

North American Nickel is a mineral exploration company with 100% owned properties in Maniitsoq, Greenland and Ontario, Canada. In 2019 the Company became a founding shareholder in Premium Nickel Resources ("PNR") a private Canadian company, to provide direct exposure to Ni-Cu-Co opportunities in the southern African region. PNR has submitted an Indicative Offer to acquire the assets, currently in liquidation, formerly operated by Bamangwato Concessions Limited ("BCL") in Botswana. In addition, the Company is expanding its area of exploration interest into Morocco and building a relationship with the Office National des Hydrocarbures et des Mines ("ONHYM"), the leading resource crown corporation and the single largest permit holder in Morocco.

The Maniitsoq property in Greenland is a Camp scale permitted exploration project comprising 3,048 square km covering numerous high-grade nickel-copper + cobalt sulphide occurrences associated with norite and other mafic-ultramafic intrusions of the Greenland Norite Belt (GNB). The >75km-long belt is situated along, and near, the southwest coast of Greenland and is accessible from the existing Seqi deep water port with an all year-round shipping season and hydroelectric power potential from a quantified watershed.

The Post Creek/Halcyon property in Sudbury is strategically located adjacent to the past producing Podolsky copper-nickel-precious metal sulphide deposit of KGHM International Ltd. The property lies along the extension of the Whistle Offset dyke structure. Such geological structures host major Ni-Cu-PGM deposits and producing mines within the Sudbury Camp.

The Company acquired 100% ownership of property near the southern extent of the Lingman Lake Greenstone Belt in northwest Ontario known as Lingman Nickel and in the Quetico region near Thunder Bay Ontario. The acquisition of these properties is part of the Company's strategy to develop a pipeline of new nickel projects. The Company is evaluating direct and indirect nickel asset acquisition opportunities globally.

ON BEHALF OF THE BOARD OF DIRECTORS

Keith Morrison
Chief Executive Officer

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION: This news release includes certain "forward-looking statements" and "forward-looking information" under applicable Canadian securities legislation concerning the business, operations and financial performance and condition of the Company. Forward-looking statements and forward-looking information includes, but is not limited to, statements about the ability of the Company to access capital to satisfy the fees and expenditures under the earn-in agreement, the ability of the Company to complete the expenditures under the earn-in agreement, spending commitments, the success of exploration activities, the future economics of minerals including nickel and copper, the benefits of the development potential of the properties of the Company, the benefits of drilling and advancement of projects, engagement and dialogue with First Nations groups and formalizing the scope of work. Forward-looking information is necessarily based upon a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors, which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking information, including the risks identified in the Company's disclosure documents available at www.sedar.com. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. All forward-looking information contained in this press release is given as of the date hereof and is based upon the opinions and estimates of management and information available to management as at the date hereof. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by law.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be anticipated, estimated or intended. Statements concerning mineral reserve and resource estimates may also be deemed to constitute forward-looking statements to the extent they involve estimates of the mineralization that will be encountered if the property is developed.
