

Latin Metals Inc. Invites Investors to Meet Management at PDAC 2026, the World's Premier Mining Convention

Partner-Funded 1,500 Metre Drill Program Underway at Cerro Bayo and Launch of Copper-Gold Spin-Out Latin Explore to Be Featured at PDAC 2026

NR26-07

February 25, 2026

Vancouver, B.C. – Latin Metals Inc. ("Latin Metals" or the "Company") (TSXV: LMS) (OTCQB: LMSQF) is pleased to invite current and prospective investors to meet with management at the Prospectors & Developers Association of Canada (PDAC) Convention 2026, the foremost global mining and mineral exploration conference.

The PDAC Convention 2026 will be held at the Metro Toronto Convention Centre, South Building, located at 222 Bremner Blvd, Toronto, Ontario.

Latin Metals will be exhibiting at **Booth 2329** and welcomes shareholders, institutional investors, analysts, and industry participants to connect directly with management during the conference. The Company will also be featuring **Latin Explore Inc.**, its newly launched copper-gold exploration company.

Event Details

PDAC 2026 – Metro Toronto Convention Centre, South Building
222 Bremner Blvd, Toronto, Ontario

Sunday, March 1: 10:00 am to 5:00 pm

Monday, March 2: 10:00 am to 5:00 pm

Tuesday, March 3: 10:00 am to 5:00 pm

Wednesday, March 4: 9:00 am to 12:00 pm

Location: Investors Exchange Booth 2329

What Investors Can Expect

Investors visiting Booth 2329 can expect updates on:

- **Partner-funded diamond drilling currently underway** at the **Cerro Bayo Project** in Argentina, where option partner **Daura Gold Corp.** has commenced a ~1,500 metre Phase I drill program targeting 15 high-priority gold-silver targets (22 drill holes) defined through geochemical and IP geophysical surveys

- Exploration progress across Latin Metals' diversified gold, silver, and copper portfolio in Peru and Argentina
- The Company's disciplined prospect generator model, designed to minimize shareholder dilution while retaining exposure to exploration success
- The successful completion of the Latin Explore spin-out, establishing a focused copper-gold exploration growth vehicle
- 2026 exploration catalysts and anticipated news flow

Cerro Bayo is located within the prolific Deseado Massif and represents one of several active projects advancing under partner-funded agreements. All drilling expenditures at Cerro Bayo are being funded by Daura Gold under the option agreement, consistent with Latin Metals' strategy of leveraging partnerships to advance projects while preserving capital.

Why This Matters to Investors

Latin Metals enters PDAC 2026 with:

- **Active partner-funded drilling underway**
- A strengthened balance sheet following recent warrant exercises
- Multiple projects advancing across Peru and Argentina
- The successful launch of Latin Explore as a standalone copper-gold exploration company

The creation of Latin Explore enables parallel value creation — allowing Latin Metals to continue executing its diversified prospect generator strategy while providing shareholders with dedicated exposure to copper-gold exploration growth through a separate vehicle.

Management believes 2026 represents one of the most catalyst-rich periods in the Company's recent history.

Management Commentary

"PDAC is one of the most important gatherings in the global mining industry, and we look forward to engaging directly with our shareholders and the broader investment community," said Keith Henderson, President and Chief Executive Officer of Latin Metals. "With partner-funded drilling underway at Cerro Bayo, a strengthened treasury, and the successful launch of Latin Explore as a focused copper-gold exploration company, we believe 2026 represents one of the most catalyst-driven years for Latin Metals. We welcome investors to visit us at Booth 2329 to discuss the momentum building across our portfolio."

We look forward to seeing you there.

About Latin Metals

Latin Metals Inc. is a copper, gold and silver exploration company operating in Peru and Argentina under a prospect generator model, minimizing risk and dilution while maximizing discovery potential. The company secures option agreements with partners to fund exploration. This approach provides early-stage exposure to high-value mineral assets. Latin Metals is actively seeking new strategic partners to advance its portfolio.

Upcoming Events

Latin Metals is pleased to announce its participation in several Q1 2026 industry conferences, providing a platform to connect with investors, industry leaders, and potential partners:

- **PDAC** – Toronto, March 1–4, 2026
- **121 London** – London, UK, May 11-12, 2026
- **Deutsche Goldmesse** – Frankfurt, Germany, May 15-16, 2026

These events offer valuable opportunities to share Latin Metals' exploration progress in Argentina and Peru, highlight the advantages of its low-dilution prospect generator model, and explore strategic investment and partnership opportunities across its gold, copper, and silver-focused portfolio.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, the anticipated content, commencement, timing and cost of exploration programs in respect of the Property and otherwise, anticipated exploration program results from exploration activities, and the Company's expectation that it will be able to enter into agreements to acquire interests in additional mineral properties, the discovery and delineation of mineral deposits/resources/reserves on the Properties, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Often, but not always, forward looking information can be identified by words such as "pro forma", "plans", "expects", "may", "should", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes", "potential" or variations of such words including negative variations thereof, and phrases that refer to certain actions, events or results that may, could, would, might or will occur or be taken or achieved. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, market fundamentals will result in sustained precious and base metals demand and prices, the receipt of any necessary permits, licenses and regulatory approvals in connection with the future development of the Company's Argentine projects in a timely manner, the availability of financing on suitable terms for the development, construction and continued operation of the Company projects, and the Company's ability to comply with environmental, health and safety laws.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information. Such risks and other factors include, among others, operating and technical difficulties in connection with mineral exploration and development and mine development activities at the Properties, including the geological mapping, prospecting and sampling programs being proposed for the Properties (the "Programs"), actual results of exploration activities, including the Programs, estimation or realization of mineral reserves and mineral resources, the timing and amount of estimated future production, costs of production, capital expenditures, the costs and timing of the development of new deposits, the availability of a sufficient supply of water and other materials, requirements for additional capital, future prices of precious metals and copper, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, possible variations in ore grade or recovery rates, possible failures of plants, equipment or processes to operate as anticipated, accidents, labour disputes and other risks of the mining industry, delays or the inability of the Company to obtain any necessary permits, consents or authorizations required, any current or future property acquisitions, financing or

other planned activities, changes in laws, regulations and policies affecting mining operations, hedging practices, currency fluctuations, title disputes or claims limitations on insurance coverage and the timing and possible outcome of pending litigation, environmental issues and liabilities, risks related to joint venture operations, and risks related to the integration of acquisitions, as well as those factors discussed under the heading as well as those factors discussed under the heading "Risk Factors" in the Company's annual management's discussion and analysis and other filings of the Company with the Canadian Securities Authorities, copies of which can be found under the Company's profile on the SEDAR+ website at www.sedarplus.ca.

Readers are cautioned not to place undue reliance on forward looking statements. Except as otherwise required by law, the Company undertakes no obligation to update any of the forward-looking information in this news release or incorporated by reference herein.
