See “Plan of Distribution”.

As at the date of this Prospectus, the Company does not have any of its securities listed or quoted, has not applied to list or quote any of its securities and does not intend to apply to list or quote any of its securities on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside of Canada and the United States of America, other than the Alternative Investment Market of the London Stock Exchange or the PLUS market operated by the PLUS Markets Group plc.

There is no market through which the Common Shares may be sold and purchasers may not be able to resell securities purchased under this Prospectus. This may affect the pricing of the securities in the secondary market, the transparency and availability of trading prices, the liquidity of the securities, and the extent of issuer regulation. See ‘Risk Factors’. The Company has applied to list its Common Shares on the

Exchange. Listing is subject to the Company fulfilling all of the listing requirements of the Exchange.

Other than the initial distribution of the Common Shares pursuant to this Prospectus, the grant of the Agent's Warrants, and the grant of Stock Options to the directors, and officers of the Company, trading in all securities of the Company is prohibited during the period between the date a receipt for this Prospectus is issued by the securities commission that is designated the principal regulator pursuant to National Policy 11-202 *Process for Prospectus Reviews in Multiple Jurisdictions* and the time the Common Shares are listed for trading except, subject to the prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authorities grant a discretionary order.

INVESTMENT IN THE COMMON SHARES OFFERED BY THIS PROSPECTUS IS HIGHLY SPECULATIVE DUE TO THE NATURE OF THE COMPANY'S BUSINESS AND ITS PRESENT STAGE OF DEVELOPMENT. The Company was only recently incorporated, owns no assets (other than cash) and has not conducted active business operations. The Company has not entered into an Agreement in Principle, as that term is defined in the CPC Policy. The Company has no history of earnings and has not paid any dividends as of the date hereof. It is unlikely that the Company will generate earnings or pay dividends in the immediate or foreseeable future. The business objective of the Company is to identify and evaluate assets or businesses with a view to completing a Qualifying Transaction. There is no assurance that the Company will identify assets or businesses that warrant acquisition, in whole or in part. Even if assets or businesses are identified and the acquisition of the same or an interest therein is determined to be in the best interests of the Company, the Company may not be able to finance the acquisition with its existing resources and additional funds may be required to complete the transaction, and the Company may not be able to obtain additional financing. There can be no assurance that the Company will successfully complete any Qualifying Transaction. If the Company issues shares from its treasury to finance an acquisition, control of the Company may change and purchasers of Common Shares hereunder may suffer further dilution of their investment. The net proceeds generated from the Offering, after deducting associated costs, will be sufficient to identify and evaluate a limited number of opportunities. The officers and directors of the Company are not expected to devote their full time and attention to the business and affairs of the Company. The Company may be required to compete with others in its efforts to identify suitable assets or businesses for acquisition. **THIS OFFERING IS SUITABLE ONLY TO THOSE INVESTORS WHO ARE PREPARED TO RISK THE LOSS OF THEIR ENTIRE INVESTMENT. See "Risk Factors".**

Pursuant to the CPC Policy, no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% (or 40,000 Common Shares) of the total number of Common Shares offered under this Prospectus. In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates (as such terms are defined herein) of that purchaser, is

4% (or 80,000 Common Shares) of the total number of Common Shares offered under this Prospectus.

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that certificates evidencing the Common Shares in definitive form will be available for delivery on the completion of the Offering.

The Common Shares are offered by the Agent, as agent of the Company, on a "commercially reasonable efforts" basis, subject to prior sale, if, as and when issued and delivered by the Company and accepted in accordance with the conditions referred to under the heading "Plan of Distribution" and subject to the approval of certain legal matters on behalf of the Company by Armstrong Simpson, Barristers & Solicitors, Vancouver, British Columbia, and on behalf of the Agent by McCullough O'Connor Irwin LLP, Vancouver, British Columbia.

No person is authorized to provide any information or to make any representation in connection with the Offering other than as contained in this Prospectus.

The distribution of the Agent’s Warrants and Common Shares issuable upon their exercise is also qualified under this Prospectus. See “Plan of Distribution”.

The Company also intends to grant Stock Options to purchase a total of 400,000 Common Shares to the current directors and officers of the Company, all of which options and the Common Shares issuable upon their exercise are qualified for distribution under the Prospectus. Use of Proceeds

The net proceeds to the Company from the sale of the Common Shares, after deducting estimated expenses and costs relating to the Offering including listing fees, the Agent’s Commission, the Agent’s Corporate Finance Fee, the Agent’s expenses, legal fees and audit expenses, are estimated to \$125,000. The net proceeds of the Offering, together with gross proceeds from the sale of Common Shares of the Company prior to the Offering in the amount of \$100,000, will be used to provide the Company with a minimum of funds with which to identify and evaluate assets or businesses for acquisition with a view to completing a Qualifying Transaction. The Company may not have sufficient funds to secure such businesses or assets once identified and evaluated

and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized from the sale of all securities issued by the Company or \$210,000 may be used for purposes other than evaluating businesses or assets. Until Completion of the Qualifying Transaction, neither the Company nor any party on behalf of the Company will engage the services of any person to provide investor relations activities or market making services. See "Use of Proceeds".

Directors, Officers & Promoters

Toby Pierce – President and Chief Executive Officer, Director and Promoter
Chris Beltgens – CFO, Corporate Secretary, Director and Promoter
Adam Cegielski – Director and Promoter

See "Escrowed Securities".

Risk Factors

An investment in the Common Shares must be regarded as highly speculative due to the nature of the Company's proposed business and its present stage of development. The Company was only recently incorporated and has no active business or assets other than a minimum amount of cash. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who

are prepared to rely entirely on the directors and management of the Company and can afford to risk the loss of their entire investment. The directors and officers of the Company will only devote part of their time and attention to the affairs of the Company and there are potential conflicts of interest to which some of the directors and officers of the Company will be subject in connection with the operations of the Company. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment of 25% or \$0.025 per Common Share. There can be no assurance that an active and liquid market for the Company's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Company will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "Business of the Company", "Risk Factors", "Conflicts of Interest", and "Dilution".

CORPORATE STRUCTURE

The Company was incorporated under the BCBCA on October 21, 2016. The head office and registered and records office of the Company is located at Suite 2040, 885 West Georgia Street, Vancouver, B.C. V6C 3E8.

The Company does not have any subsidiaries.

Since January 31, 2017, the Company has not incurred any significant operating expenses and has disbursed a total of \$2,625 in connection with regulatory filing fees. See "Use of Proceeds".

Proposed Operations until Completion of a Qualifying Transaction

To date, the Company does not own any assets, other than a minimum amount of cash, and has not entered into an Agreement in Principle. The Company proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm's Length Qualifying Transaction, is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Company does not have business operations or assets other than seed capital and while the Company has commenced the process of identifying potential acquisitions with a view to completing a Qualifying Transaction, the Company has not entered into an Agreement in Principle for the acquisition of an asset or business at this time. The Company currently intends to pursue a Qualifying Transaction in the natural resources sector, but there is no assurance that this will, in fact, be the business sector of a proposed Qualifying Transaction or of the Company following Completion of the Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Use of Proceeds - Restrictions on Use of Proceeds", the funds raised pursuant to the Offering and any subsequent financing will be utilized only for the

identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Method of Financing Acquisitions or Participation

The Company may use cash, bank financing, issuance of treasury shares, private or public financing of debt or equity, or a combination of these, for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Company and may cause the shareholders' interest in the Company to be further diluted.** See "Use of Proceeds - Private Placements for Cash" and "Risk Factors".

Criteria for Acquisitions

The Company proposes to identify acquisitions of interests in assets or businesses through discussions with various business associates and contacts of the Company's officers and directors. Once a prospective acquisition target has been identified and evaluated, the Company will proceed to negotiate the terms upon which it may acquire an interest in the asset or business. The approval of the board of directors of the Company is required for any proposed Qualifying Transaction identified by the Company. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Company and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The board of directors, in considering whether to approve the terms of an acquisition, is expected to consider, among other criteria, the following:

- (a) the projected rate of return on the proposed investment and the risk of loss;
- (b) the prospects for growth, having regard to existing or potential market share;
- (c) the skill of the management team, either as it exists or as it may be supplemented as a consequence of the acquisition; and
- (d) basic financial considerations including the overall cost of the acquisition and the prospects of obtaining the debt or equity financing necessary to complete the acquisition.

Filings and Shareholders Approval of a Non Arm's Length Qualifying Transaction

Upon the Company reaching an Agreement in Principle, the Company must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Company's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Company - Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Company shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction or where shareholder approval is otherwise required. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction or where shareholder approval is not otherwise required. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Company, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1/Form 3B2. Upon acceptance by the Exchange, the Company must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR, or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Company will also be required to retain a Sponsor, who must be a member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the Policies of the Exchange. The Company will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (i) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (ii) confirmation of closing of the Qualifying Transaction; and
- (iii) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions

in the CPC Policy precluding the Company from completing a reverse take-over for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspension and Delisting

The Exchange will generally halt trading in the Company's Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied. If the Qualifying Transaction is subject to sponsorship, the submission to the Exchange is required to include a Sponsorship Acknowledgment Form pursuant to the CPC Policy, which form is to be submitted to the Exchange in connection with the execution of a sponsorship agreement between a sponsor and the Company. In addition, personal information forms, or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Company's Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer, or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, Completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Company fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Company fails to file post-meeting or final documents as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Company where the Exchange has not issued a Final Exchange Bulletin to the Company within 24 months of the date of listing. In the event that the Company's Common Shares are delisted by the Exchange, within 90 days from the date of such delisting, the Company shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of

Non-Arm's Length Parties to the Company determine to deal with the remaining assets in some other manner.

If the Company does not complete a Qualifying Transaction within 24 months of the date of listing, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on NEX, the Company must:

- (a) either: (i) cancel all escrowed Common Shares purchased by Non-Arm's Length Parties to the Company at a discount to the Offering price, in accordance with section 11.2(a) of the CPC Policy, as if the Company had delisted from the Exchange, or (ii) subject to majority shareholder approval, cancel the escrowed Common Shares purchased by Non-Arm's Length Parties to the Company so that the average cost of the remaining seed shares is at least equal to the Offering Price; and
- (b) obtain majority shareholder approval for the transfer to NEX, exclusive of the votes of Non-Arm's Length Parties of the Company.

If the Company lists the Common Shares on NEX it must continue to comply with all requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange upon Completion of the Qualifying Transaction;
- (b) the aggregate number of securities of the Resulting Issuer upon Completion of the Qualifying Transaction owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such member firm; and
 - (iii) Associates of any such person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer upon Completion of the Qualifying Transaction;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies

that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or

- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

USE OF PROCEEDS

Proceeds and Principal Purposes

The gross proceeds received by the Company from the sale of Common Shares prior to the date of this Prospectus totaled \$100,000. These proceeds were raised by the issuance of 2,000,000 Common Shares at a subscription price of \$0.05 per Common Share. The Company incurred no costs in connection with raising these proceeds. The gross proceeds to be received by the Company from the Offering will be \$200,000. The costs incurred with respect to the proceeds raised from the Offering, including legal, accounting, printing and regulatory fees, the Agent's legal fees and expenses, the Agent's Commission and the Corporate Finance Fee, are estimated by the Company to be approximately \$75,000. Following deduction of those expenses, the Company estimates that it will have a total of \$225,000 available from the prior sale of its Common Shares and from the sale of Common Shares pursuant to the Offering.

The following table indicates the principal uses to which the Company proposes to use the total funds available to it upon the completion of the Offering:

Cash proceeds raised prior to the Offering ⁽¹⁾	\$100,000
Expenses and costs relating to raising the cash proceeds prior to the Offering	Nil
Cash proceeds to be raised pursuant to the Offering ⁽²⁾	\$200,000
Expenses and costs relating to the Offering, including listing fees, Agent's Commission, Corporate Finance Fee, legal fees and expenses, and the Company's legal fees and audit expenses ⁽³⁾	<u>(\$75,000)</u>
Total estimated funds available on completion of the Offering	<u>\$225,000</u>
Funds available for identifying and evaluating assets or business prospects ⁽⁴⁾	\$183,000
Estimated general and administrative expenses until Completion of a Qualifying Transaction	<u>\$42,000</u>
Total Funds Available	<u>\$225,000</u>

⁽¹⁾ See "Prior Sales".

⁽²⁾ In the event the Agent fully exercises the Agent's Warrants and the directors and officers exercise their Stock Options, there will be available to the Company a maximum of an additional \$56,000 which will be added to the working capital of the Company. There is no assurance that any of these Agent's Warrants or Stock Options will be exercised. See "Options to Purchase Securities".

- (3) Approximately \$13,235 has been incurred to date, which includes a \$10,000 deposit on account of the Agent's expenses .
- (4) In the event the Company enters into an Agreement in Principle prior to spending the entire \$183,000 on identifying and evaluating assets or businesses, the remaining funds may be used to finance or partially finance the acquisition of Significant Assets or for working capital after Completion of the Qualifying Transaction.

Until required for the Company's purposes, the proceeds from this Offering and the prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be invested in securities of, or those guaranteed by, the Government of Canada or any Province or territory of Canada or the Government of the United States of America, in certificates of deposit or interest-bearing accounts of Canadian chartered banks, trust companies or credit unions.

The proceeds from this Offering and the prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Company may commit. See "Business of the Company - Method of Financing Acquisitions or Participation" and "Risk Factors".

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in "Use of Proceeds - Restrictions on Use of Proceeds", "Use of Proceeds - Private Placements for Cash," and "Use of Proceeds - Prohibited Payments to Non Arm's Length Parties", the gross proceeds realized from the sale of all securities issued by the Company will be used by the Company only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

The proceeds may be used for expenses incurred for the preparation of:

- (a) valuations or appraisals;
- (b) business plans;
- (c) feasibility studies and technical assessments;
- (d) sponsorship reports;
- (e) engineering or geological reports;
- (f) financial statements, including audited financial statements;
- (g) fees for legal and accounting services; and
- (h) Agent's fees, costs and commissions;

relating to the identification and evaluation of assets or businesses and, in the case of a Non Arm's Length Qualifying Transaction, obtaining shareholder approval for the Company's proposed Qualifying Transaction.

In addition, with the prior acceptance of the Exchange, up to an aggregate of \$225,000 may be advanced as a refundable deposit or secured loan by the Company to a Vendor or Target Company, as the case may be, for a proposed arm's length Qualifying Transaction that has been publicly announced at least 15 days prior to the date of such advance, provided that due diligence with respect to the Qualifying Transaction is well underway and either a Sponsor has been engaged or sponsorship has been waived. A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until Completion of the Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Company or \$210,000 will be used for purposes other than those described above. For greater certainty, expenditures which are not included as "Permitted Use of Funds", listed above, include:

- (a) listing and filing fees (including SEDAR fees);
- (b) other costs for the issuance of securities, (including legal, accounting and audit expenses) relating to the preparation and filing of this Prospectus; and
- (c) administrative and general expenses of the Company, including:
 - (i) office supplies, office rent and related utilities;
 - (ii) printing costs (including the printing of this Prospectus and share certificates);
 - (iii) equipment leases; and
 - (iv) fees for legal advice and audit expenses, other than those described above under "Permitted Use of Funds".

Additionally, no proceeds will be used to acquire or lease a vehicle.

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Company will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of the Qualifying Transaction, the Exchange generally will not accept a private placement by the Company where the gross

proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$5,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm's Length Parties to the Company and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm's Length Parties

Except as described under "Options to Purchase Securities" and "Use of Proceeds - Restrictions on Use of Proceeds", the Company has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Company or a Non Arm's Length Party to the Qualifying Transaction, or to a person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees, loans, advances and bonuses, and
- (b) deposits and similar payments.

Further, no such payment will be made on or after the Completion of the Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Company may reimburse a Non Arm's Length Party to the Company for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of the law firm providing the services is a promoter of the Company or in the case of a law firm, no member of the firm, owns greater than 10% of the outstanding Common Shares of the Company), and the Company may also reimburse a Non Arm's Length Party to the Company for reasonable out-of-pocket expenses incurred in pursuing the business of the Company described in "Use of Proceeds - Permitted Use of Funds".

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non Arm's Length Parties and persons engaged in investor relations activities continue to apply until Completion of the Qualifying Transaction.

⁽¹⁾ Common Shares subject to the Escrow Agreement will be released pro rata to the shareholders as to 10% upon issuance of the Final Exchange Bulletin and as to the remainder in six equal tranches of 15% every six months thereafter for a period of 36 months.

⁽²⁾ Assuming none of these Persons purchases any Common Shares under the Offering.

Where the Common Shares are required to be held in escrow are held by a non-individual (a “**holding company**”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities which could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “**Initial Release**”) and

an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange's Tier 1 Initial Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently thereafter, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Company on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If the Exchange does not issue the Final Exchange Bulletin, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Company who holds escrowed Common Shares acquired at a price below the offering price under this Prospectus has irrevocably authorized and directed the Escrow Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Company; or
- (b) if the Company lists on NEX, either:
 - (i) cancel all seed shares purchased by Non-Arm's Length Parties to the CPC at a discount from the IPO price, in accordance with section 11.2(a) of *TSX Venture Policy 2.4-Capital Pool Companies*, or
 - (ii) subject to majority shareholder approval, cancel an amount of seed shares purchased by Non-Arm's Length Parties to the CPC so that the average cost of the remaining seed shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities" (as defined below), then all of the securities issued to Principals of the Resulting Issuer, pursuant to the Qualifying Transaction, will be deposited into escrow pursuant to a value security agreement (the "**Value Security Escrow Agreement**"). "Value Securities" are securities issued pursuant to a transaction, for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be value securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities

issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a **“Surplus Security Escrow Agreement”**).

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities, being releasable every 6 months thereafter until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 3 year escrow release mechanism with:

5% of the escrowed securities releasable at the time of the Final Exchange bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 18 month escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30% on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to current Principals of the Company and the Principals of the Resulting Issuer upon Completion of the Qualifying Transaction will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle for acquisition by the Resulting Issuer of Significant Assets and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and:

- (i) at least 75% of the proceeds from the private placement is not from current Principals of the Company and/or the Principals of the Resulting Issuer;
- (ii) if subscribers, other than current principals of the Company and/or the Principals of the Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period; and
- (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Aggregate Ownership of Securities

Prior to this Offering, the directors and officers of the Company, as a group, beneficially own, directly or indirectly 2,000,000 Common Shares representing 100% of the issued and outstanding Common Shares of the Company. Following completion of the Offering, the directors and officers of the Company, as a group, will beneficially own, directly or indirectly, 50% of the issued and outstanding Common Shares of the Company assuming no participation by such directors and officers in the Offering.

Corporate Cease Trade Orders or Bankruptcies

No director, officer, Insider or Promoter of the Company, or any shareholder holding sufficient securities of the Company to affect materially the control of the Company, has, within the last 10 years, been a director, officer or Promoter of any reporting issuer that, while such person was acting in that capacity, was the subject of a cease trade or similar order or an order that denied the company access to any statutory exemption for a period of more than 30 consecutive days or was declared bankrupt or made a voluntary assignment in bankruptcy, made a proposal under any legislation relating to bankruptcy or been subject to or instituted any proceedings, arrangements or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold the assets of that person.

Penalties and Sanctions

No director, officer, Insider or Promoter of the Company, or any shareholder holding sufficient securities of the Company to affect materially the control of the Company, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would be likely to be considered important to a reasonable investor making an investment decision.

Conflicts of Interest

There are potential conflicts of interest to which some or all of the directors, officers, Insiders and Promoters of the Company will be subject to in connection with the operations of the Company. The directors and officers of the Company will not be

devoting all of their time to the affairs of the Company. Some of the directors and officers of the Company are directors and officers of other companies. See “Directors, Officers and Promoters”. Some of the other companies are engaged in and will continue to be engaged in the search for properties or business prospects that may be suitable Qualifying Transactions for the Company. Accordingly, situations may arise where some or all of the directors, officers, Insiders or Promoters of the Company will be in direct competition with the Company. The directors and officers of the Company are required by law to act in the best interests of the Company. They have the same obligations to the other companies in respect of which they act as directors and officers. Discharge by the directors and officers of their obligations to the Company may result in a breach of their obligations to the other companies, and in certain circumstances this could expose the Company to liability to those companies. Similarly, discharge by the directors and officers of their obligations to the other companies could result in a breach of their obligation to act in the best interests of the Company. Such conflicting legal obligations may expose the Company to liability to others and impair its ability to achieve its business objectives. Conflicts will be subject to the procedures and remedies as provided for under the BCBCA.

EXECUTIVE COMPENSATION

Except as set out below and otherwise disclosed in this Prospectus, prior to completion of a Qualifying Transaction, other than with respect to a permitted use of funds no payment of any kind has been made, or will be made, directly or indirectly, by the Company to a Non Arm’s Length Party to the Company or a Non Arm’s Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Company or Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors’ fees;
 - (iv) finders fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

However, the Company may reimburse Non Arm’s Length Parties for the Company’s reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value (“**Permitted Reimbursements**”). No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors, officers and consultants of the Company will be granted Stock Options. See "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, the Resulting Issuer may pay remuneration to its directors and officers if the Resulting Issuer is able to do so. No remuneration is anticipated to be paid to directors in their capacity as directors in the foreseeable future. However, no payment other than the Permitted Reimbursements will be made by the Resulting Issuer or by any party on behalf of the Resulting Issuer, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction. See "Use of Proceeds".

PROMOTERS

The Company has no promoters other than Toby Pierce, Chris Beltgens, Adam Cegielski and Peter Laflamme, who serve as directors of the Company. See "Directors, Officers and Promoters".

DILUTION

Purchasers of Common Shares under this Prospectus will suffer an immediate dilution of 25% or \$0.025 per Common Share on the basis of there being 4,000,000 Common Shares of the Company issued and outstanding following completion of the Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this Prospectus and from sales of securities prior to filing this Prospectus, without deduction of commissions or related expenses incurred by the Company.

RISK FACTORS

Investment in the Common Shares involves a high degree of risk, and investors should not invest unless they can afford to lose their entire investment. In addition to the other information contained in this Prospectus, prospective investors should consider carefully the following factors before making a decision to purchase Common Shares:

- (a) the Company was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by the Prospectus is highly speculative given the proposed nature of the Company's business and its present stage of development;
- (c) the directors and officers of the Company will only devote a portion of their time to the business and affairs of the Company and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time;

- (d) assuming completion of the Offering, an investor will suffer an immediate dilution on investment of 25% or \$0.025 per Common Share;
- (e) there can be no assurance that an active and liquid market for the Company's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of the Qualifying Transaction, the Company is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Company has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Company will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Company will be able to successfully complete the transaction;
- (i) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non-Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Company of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Company will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Company will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Company completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Company may be halted at other times for other reasons, including for failure by the Company to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Company's Common Shares or delist the Company in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;

- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Company resides outside of Canada or the Company identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Company and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Company; and
- (q) subject to prior Exchange acceptance, the Company may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Company will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Company and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

We have audited the accompanying financial statements of Seaside Exploration Partners Corp. which comprise the statement of financial position as at January 31, 2017 and the statements of comprehensive loss, cash flows and changes in shareholders' equity for the period from incorporation on October 21, 2016 to January 31, 2017, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's file preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Seaside Exploration Partners Corp. as at January 31, 2017 and its financial performance and its cash flows for the period from incorporation on October 31, 2016 to January 31, 2017 in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

For the period from October 21, 2016 (date of incorporation) to January 31, 2017

(Expressed in Canadian dollars)

1. Nature of operations and going concern

Seaside Exploration Partners Corp. (the "Company") was incorporated under the *Business Corporations Act* (British Columbia) on October 21, 2016 and is a Capital Pool Company under the policies of the TSX Venture Exchange (the "Exchange").

The principal business of the Company will be the identification and evaluation of assets or businesses with a view to completing a "Qualifying Transaction" as it is defined in the policies of the Exchange. The Company has commenced the process of identifying potential acquisitions. There is no assurance that the Company will identify and complete a Qualifying Transaction within the time period described by the policies of the Exchange. Moreover, even if a potential Qualifying Transaction is identified by the Company, it may not meet the requirements of the Exchange. The net proceeds from the proposed public financing described at Note 5(b) will only be sufficient to identify and evaluate a limited number of assets and businesses and additional funds may be required to finance the Company's Qualifying Transaction.

The head office, principal and registered address and records office of the Company are located at 885 West Georgia St., Suite 2040, Vancouver, British Columbia V6C 3E8.

The Company has no source of operating revenue, has incurred net losses since inception and as at January 31, 2017 has a deficit of \$610. Its continued existence will be dependent on the receipt of related party debt or equity financing on terms which are acceptable to the Company.

2. Significant accounting policies and basis of preparation

The financial statements were authorized for issue by the directors of the Company on March __, 2017.

Statement of compliance

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

Basis of preparation

The financial statements of the Company have been prepared on an accrual basis except for cash flow information and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars, which is also the Company's functional currency.

(Expressed in Canadian dollars)

2. Significant accounting policies and basis of preparation (*cont'd*)

Significant accounting judgments, estimates and assumptions

Critical accounting estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position, and the reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates, which, by their nature, are uncertain. The impact of such estimates appear throughout the financial statements and may require adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions, and other relevant factors that are believed to be reasonable under the circumstances.

Critical accounting judgments

Management must make judgments given the various options available as per accounting standards for items included in the financial statements. Judgments involve a degree of uncertainty and could result in material adjustment to the carrying amounts of assets and liabilities, in the event that actual events differ from a judgment made.

Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund exploration programs, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Financial instruments

Financial assets

Financial assets are classified into one of the following categories based on the purpose for which the asset was acquired. All transactions related to financial instruments are recorded on a trade date basis. The Company's accounting policy for each category is as follows:

Fair value through profit or loss ("FVTPL")

Financial assets are classified as FVTPL when the financial asset is held-for-trading or is designated as FVTPL. A financial asset is classified as FVTPL when it has been acquired principally for the purpose of selling in the near future, it is a part of an identified portfolio of financial instruments that the Company manages and has an actual pattern of short-term profit-taking or if it is a derivative that is not designated and effective as a hedging instrument. Upon initial recognition, attributable transaction costs are recognized in profit or loss when incurred. Financial instruments at FVTPL are measured at fair value, and changes therein are recognized in profit or loss. The Company has no assets included in this category.

(Expressed in Canadian dollars)

2. Significant accounting policies and basis of preparation (cont'd)***Significant accounting policies (cont'd)******Financial instruments (cont'd)******Financial assets (cont'd)***Loans and receivables

These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They are initially recognized at fair value less transaction costs that are directly attributable to their acquisition or issue and subsequently carried at amortized cost, using the effective interest rate method, less any impairment losses. Amortized cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process. The Company has no assets included in this category.

Available-for-sale

Non-derivative financial assets that do not meet the definition of loans and receivables are classified as available-for-sale and comprise principally the Company's strategic investments in entities not qualifying as subsidiaries or associates. Available-for-sale investments are carried at fair value with changes in fair value recognized in other comprehensive loss/income. Where there is a significant or prolonged decline in the fair value of an available-for-sale financial asset (which constitutes objective evidence of impairment), the full amount of the impairment, including any amount previously recognized in other comprehensive loss/income, is recognized in profit or loss. If there is no quoted market price in an active market and fair value cannot be readily determined, available-for-sale investments are carried at cost.

On sale or impairment, the cumulative amount recognized in other comprehensive loss/income is reclassified from accumulated other comprehensive loss/income to profit or loss. The Company has no assets included in this category.

Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company has the positive intention and ability to hold to maturity are classified as held-to-maturity. Financial assets classified as held-to-maturity are measured at amortized cost using the effective interest method.

At each reporting date the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets. The Company has no assets included in this category.

2. Significant accounting policies and basis of preparation (cont'd)

Financial instruments (cont'd)

Financial liabilities

Financial liabilities are classified as other financial liabilities, based on the purpose for which the liability was incurred. These liabilities are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method. This ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statements of financial position. Interest expense in this context includes initial transaction costs and premiums payable on redemption, as well as any interest or coupon payable while the liability is outstanding. Bank indebtedness, accounts payable and accrued liabilities, due to related party amounts and loan payable are included in this category.

Impairment of non-financial assets

The carrying amount of the Company's assets (which include exploration and evaluation assets) is reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss.

An impairment loss is recognized whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

The recoverable amount of assets is the greater of an asset's fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount, however, not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment.

Income taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

2. Significant accounting policies and basis of preparation (cont'd)

Income taxes (cont'd)

Current income tax (cont'd)

Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax

Deferred income tax is provided using the asset and liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Loss per share

Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted loss per share is computed using the treasury stock method, under which the weighted average number of shares outstanding is increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options and warrants are exercised.

Shares held in escrow, other than where their release is subject to the passage of time, are not included in the calculation of the weighted average number of common shares outstanding.

Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects.

Share-based compensation

In connection with incentive stock options granted by the Company to its officers, directors, employees and consultants, an expense is recognized over the vesting period based on the estimated fair value of the options on the date of the grant as determined using an option pricing model. The expense is charged to share-based compensation and the offset is credited to share option reserve. Cash received on exercise of incentive stock options is credited to share capital along with any share option reserve amounts previously recorded that are applicable to the options exercised.

3. Accounting standards and amendments not yet adopted

A number of new standards, amendments to standards and interpretations applicable to the Company are not yet effective for the year ended January 31, 2017 and have not been applied in preparing these financial statements:

IFRS 9 – Financial Instruments: Classification and Measurement applies to classification and measurement of financial assets and liabilities as defined in IAS 39. It is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company does not expect any effect on the Company's financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or not expected to have a significant impact on the Company's financial statements.

4. Related party disclosures

As of January 31, 2017, the Company has a balance owing to its Chief Financial Officer of \$602, for expenses paid on behalf of the Company. The amount due to the Chief Financial Officer is non-interest-bearing and repayable upon demand.

5. Share capital

(a) Authorized

Unlimited number of common shares without par value.

(b) Issued and outstanding

During the period ended January 31, 2017, the Company issued 2,000,000 shares at a price of \$0.05 per share for gross proceeds of \$100,000.

All of these issued shares are subject to escrow restrictions and will be released from escrow in tranches over 36 months from the date that the Company's shares are first listed for trading on the Exchange.

(b) Issued and outstanding (cont'd)

The Company has appointed an agent to offer for sale to the public on a commercially reasonable effort basis, 2,000,000 common shares at a price of \$0.10 per common share, in the provinces of British Columbia, Alberta and Ontario for gross proceeds of \$200,000 (the "Offering"). The agent engaged in connection with the Offering of the common shares will be paid a commission of 8% of the gross proceeds. In addition, the Company will pay the agent a Corporate Finance Fee of \$8,000 and will reimburse the agent for its expenses, including legal fees up to a maximum of \$8,000, plus disbursements incurred pursuant to the Offering (\$10,000 paid to date).

Refer to Note 9.

6. Stock options and share purchase warrants

(a) Stock options

Subsequent to year end, the Company determined a total of 400,000 share purchase options will be granted to the board of directors on the date upon which the Company becomes listed on the Exchange as a Capital Pool Company. These options will be exercisable at a price of \$0.10 for a period of five years from the date the Company becomes listed on the Exchange.

(b) Share purchase warrants

On completion of the Offering, the Company will grant to the agent, Agent's Warrants to purchase up to 160,000 common shares at a price of \$0.10 per common share which will be exercisable for a period of 24 months from the closing date of the offering. In accordance with the policies of the Exchange, not more than 50% of the common shares issuable upon the exercise of the Agent's Warrants may be sold by the Agent prior to the completion of the Qualifying Transaction. The balance may only be sold by the agent once the Company has completed the Qualifying Transaction.

6. Financial risk and capital management

Capital management

The Company does not generate cash flows from operations. The Company's primary source of funds comes from the issuance of share capital. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations, and is not subject to any externally imposed capital requirements.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern.

The Company defines its capital as shareholders' equity. Capital requirements are driven by the Company's general operations. To effectively manage the Company's capital requirements, the Company monitors expenses and overhead to ensure costs and commitments are being paid. There were no changes to the Company's capital management approach during the period ended January 31, 2017.

7. Financial risk and capital management (cont'd)***Management of financial risk***

The Company has classified its accounts payable and accrued liabilities as other financial liabilities. The carrying value of all financial liabilities approximates fair value due to the short-term nature of these financial instruments. The types of risk exposure and the Company's methods of managing the risk remain consistent and are as follows:

(a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will significantly fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign currency rates and other price risk.

(i) Interest rate risk

The Company is not subject to significant interest rate risk with respect to its financial instruments.

(ii) Currency risk

The Company is not exposed to currency risk, as all financial instruments and expenditures incurred by the Company are denominated in Canadian dollars.

(iii) Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in market prices. The Company is not exposed to significant other price risk on its financial instruments.

(b) Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash. The Company limits exposure to credit risk through maintaining its cash with high-credit quality Canadian financial institutions. The Company is not exposed to significant credit risk on receivables, as these amounts are due from government agencies. The carrying amount of financial assets represents the maximum credit exposure.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due by forecasting cash flows for operations, anticipated investing and financing activities, and through management of its capital structure. All of the Company's financial liabilities have contractual maturities of less than 90 days.

The fair values of the Company's financial assets and liabilities approximate the carrying amounts due to their short-term nature.

SEASIDE EXPLORATION PARTNERS CORP.**(A Capital Pool Company)**

Notes to the Financial Statements

7. Financial risk and capital management (cont'd)***Management of financial risk (cont'd)*****(c) Liquidity risk (cont'd)**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

8. Income Tax

The reconciliation of the income tax provision computed at statutory rates to the reported income tax provision is as follows:

Net loss for the year	<u>\$ (610)</u>
Total expected income tax recovery at statutory rates	\$ (159)
Unrecognized benefit of income tax losses	<u>159</u>
Actual income tax recovery	<u>\$ -</u>

There are no deferred tax assets or liabilities presented in the statement of financial position.

This potential future tax benefit has been offset entirely by a valuation allowance and has not been recognized in these financial statements. The non-capital loss carry-forwards expire according to the following schedule:

2037	<u>610</u>
	<u>\$ 610</u>

The deferred tax assets have not been recognized because at this stage of the Company's development, it is not determinable that future taxable profit will be available against which the Company can utilize such deferred tax assets.
