The cost of such solicitation will be borne by the Company.

The Company will not be using the notice-and-access mechanism under National Instrument 54-101 *Communication with Beneficial Owners of Securities of a Reporting Issuer* for distribution of the Meeting Materials to Shareholders.

Unless otherwise specified herein, the information contained herein is given as of March 29, 2017.

BOARD RECOMMENDATION

The Board recommends that Shareholders vote **FOR**

- (i) Each of the proposed director nominees, whose names are set forth in the Circular; and
- (ii) The reappointment of PricewaterhouseCoopers LLP, Chartered Accountants, as auditor of the Company, to hold office until the next annual meeting of Shareholders, and for the authorization for the directors to fix the auditor's remuneration.

REGISTERED SHAREHOLDERS

Registered shareholders (**Registered Shareholders**) are shareholders whose names appear directly on the share register of the Company maintained by the Company's transfer agent, Computershare Investor Services Inc., as the direct holders of Shares. Only Registered Shareholders or the persons they appoint as their proxies are permitted to vote at the Meeting. Registered Shareholders who are unable to attend the Meeting or any adjournment thereof in person are encouraged to vote by completing the enclosed form of proxy or, alternatively, by telephone or over the internet, in each case in accordance with the enclosed

instructions. A proxy will not be valid for use at the Meeting unless the completed form of proxy is deposited to the Corporate Secretary of the Company or to the Company's transfer agent, Computershare Investor Services Inc., 100 University Avenue, 8th Floor, Toronto, Ontario M5J 2Y1, before 4:00 p.m. (Toronto Time) on May 29, 2017 or, if the Meeting is adjourned, 48 hours (excluding Saturdays, Sundays and holidays) preceding the day and time the adjourned Meeting is reconvened. Late proxies may be accepted or rejected by the chairman of the Meeting (the **Chair**) in his discretion, and the Chair is under no obligation to accept or reject any particular late proxy.

The form of proxy accompanying this Circular confers discretionary authority upon the proxy nominee with respect to any amendments or variations to matters identified in the Notice of Annual Meeting accompanying this Circular and any other matters that may properly come before the Meeting. As at the date of this Circular, Spectral's management is not aware of any such amendments or variations, or of other matters to be presented for action at the Meeting.

NON-REGISTERED SHAREHOLDERS (BENEFICIAL SHAREHOLDERS)

The information in this section is of significant importance to Shareholders who do not hold their Shares in their own name. Shares beneficially owned by non-registered Shareholders (**Non-Registered Shareholders**) are registered either:

- (i) in the name of an intermediary (an **Intermediary**) that the Non-Registered Shareholder deals with in respect of the Shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans); or
- (ii) in the name of a depository (a **Depository** such as The Canadian Depository for Securities Limited) of which the Intermediary is a participant.

Non-Registered Shareholders, wishing to vote their Shares, must instruct their Intermediary or Depository to vote their Shares on their behalf. Shares of a Non-Registered Shareholder will not be voted at the Meeting unless the Non-Registered Shareholder instructs its Intermediary or Depository to do so. The Intermediary or Depository must receive a Non-Registered Shareholder's voting instructions in sufficient time for the Intermediary or Depository to act on them. Non-Registered Shareholders that wish to vote in person at the Meeting must carefully follow the steps provided by their Intermediary or Depository to appoint themselves or another representative to vote at the Meeting.

In accordance with the requirements of National Instrument 54-101 *Communication with Beneficial Owners of Securities of a Reporting Issuer*, the Company has distributed copies of the Notice of Meeting, this Circular and the form of proxy (collectively, the **Meeting Materials**) to the clearing agencies, Intermediaries and Depository for onward distribution to Non-Registered Shareholders. The Company has elected to pay for the delivery of Meeting Materials to Non-Registered Shareholders. Intermediaries often use service companies to forward the Meeting Materials to Non-Registered Shareholders.

If you are a Non-Registered Shareholder of the Company, your Intermediary will send you a VIF or form of proxy accompanying this Circular. The VIF will instruct the Intermediary how to vote your Shares at the Meeting on your behalf. You must follow the instructions from your Intermediary to vote. The majority of Intermediaries now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications Solutions, Canada (**Broadridge**). Broadridge typically mails a VIF to the Non-Registered Shareholders and asks Non-Registered Shareholders to return the VIF to Broadridge (in some cases the completion of the VIF may be by telephone or the internet). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Shares to be represented at the Meeting.

A Non-Registered Shareholder may also receive, on occasion, a form of proxy that has already been signed by the Intermediary (typically by a facsimile, stamped signature) and is restricted as to the number of Shares beneficially owned by that particular Non-Registered Shareholder. This form of proxy is otherwise not

completed. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Shareholder when submitting it. In this case, the Non-Registered Shareholder who wishes to submit a proxy should otherwise properly complete the form of proxy and deliver it to the Company c/o Computershare Investor Services Inc. as provided above.

In either case, the purpose of these procedures is to permit Non-Registered Shareholders to direct the voting of the Shares that they beneficially own. Should Non-Registered Shareholders who receive one of the above forms wish to vote at the Meeting in person, such Non-Registered Shareholders should strike out the names of the designated proxyholders and insert the Non-Registered Shareholder's name in the blank space provided.

In either case, Non-Registered Shareholders should carefully follow the instructions of their Intermediary or Depository including those regarding when and where the proxy or proxy authorization form is to be delivered and may be revoked.

Additionally, the Company may utilize the Broadridge QuickVote[®] service to assist eligible Non-Registered Shareholders with voting their Shares. There are two kinds of Non-Registered Shareholders: (i) those who object to their name being made known to the issuers of securities that they own (called "OBOs" or Objecting Beneficial Owners); and (ii) those who do not object (called "NOBOs" or Non-Objecting Beneficial Owners).

APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the accompanying form of proxy are senior officers of the Company. **A Shareholder has the right to appoint a person, other than the persons specified in the accompanying form of proxy, who need not be a Shareholder, to attend and act for him or her and on his or her behalf at the Meeting. A Shareholder desiring to appoint some other person as his or her proxy holder may do so by either inserting such person's name in the blank space provided in the form of proxy or by completing another legal form of proxy** and, in either case, delivering the completed proxy to the Corporate Secretary of the Company or to the Company's transfer agent, Computershare Investor Services Inc., 100 University Avenue, 8th Floor, Toronto, Ontario M5J 2Y1, before 4:00 p.m. (Toronto Time) on May 29, 2017 or, if the Meeting is adjourned, 48 hours (excluding Saturdays, Sundays and holidays) preceding the day and time the adjourned Meeting is reconvened. Non-Registered Shareholders should carefully follow the procedures provided by their Intermediary to appoint themselves or someone else to represent their Shares at the Meeting. A Non-Registered Shareholder's Intermediary requires sufficient time to submit any proxies to Computershare Investor Services Inc. before the voting deadline.

A Shareholder executing the enclosed form of proxy has the right to revoke it under Subsection 110(4) of the *Business Corporations Act* (Ontario) ("BCA"). A Shareholder may revoke a proxy as to any matter on which a vote has not already been cast pursuant to the authority conferred by such proxy and may do so: (a) by completing and signing a proxy bearing a later date and depositing it as aforesaid; (b) by depositing an instrument in writing revoking the proxy executed by the Shareholder, or by his or her attorney authorized in writing, before 4:00 p.m. (Toronto time) on May 29, 2017 or, if the Meeting is adjourned, 48 hours (excluding Saturdays, Sundays and holidays) preceding the day and time the adjourned Meeting is reconvened; or (c) in any other manner permitted by law. Please note, only a Registered Shareholder can revoke a proxy. Non-Registered Shareholders should follow the instructions provided by their Intermediary or Depository. A Non-Registered Shareholder may revoke a VIF given to an Intermediary by written notice to the Intermediary, except that an Intermediary may not act on a revocation of a VIF which is not received by the Intermediary in sufficient time prior to the Meeting.

EXERCISE OF DISCRETION BY PROXIES

The management representatives named in the accompanying form of proxy will vote the Shares in respect of which they are appointed or will withhold such Shares from voting in accordance with the direction of the Shareholders appointing them.

In the absence of such direction, such Shares will be voted in favour of the matters set out in the Notice of Meeting. The accompanying form of proxy confers discretionary authority upon the persons named therein to vote in accordance with his or her best judgment with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting and any reconvened Meeting. At the date of this Circular, management of the Company knows of no such amendment, variation or other matter to come before the Meeting other than the matters referred to in the Notice of Meeting.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

As at the date hereof, other than as disclosed herein, to the knowledge of the directors and senior officers of the Company, none of the directors or officers of the Company who have been a director or executive officer of the Company at any time since the beginning of the Company's last financial year, nor any proposed nominee for election as a director of the Company, nor any associate or affiliate of any of the foregoing persons, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting, other than the election of directors.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

As at March 29, 2017, the Company had 207,165,587 Shares issued and outstanding. Except as otherwise expressly set forth herein, all Shareholders of record at the close of business on the Record Date will be entitled to one vote at the Meeting for each Share held except to the extent that such Shareholder has transferred any of such Shares after the Record Date and the transferee of any of such Shares produces properly endorsed Share certificates or otherwise establishes ownership thereof and makes a written demand not later than seven clear days before the Meeting to be included in the list of Shareholders entitled to vote at the Meeting, in which case the transferee will be entitled to vote such Shares.

Two persons present in person or represented by proxy at the Meeting holding not less than 25 per cent of the Shares entitled to vote at the Meeting constitute a quorum for the transaction of business at the Meeting.

Other than as set forth below, as of the date hereof, to the knowledge of the directors and executive officers of the Company, no persons or corporations beneficially own, or exercise control or direction over, directly or indirectly, 10% or more of the issued and outstanding Shares:

- (i) Toray Industries, Inc. (~~AToray~~) owns and controls 45,630,105 Shares, or 22.0%, of the currently issued and outstanding Shares, calculated on a non-diluted basis.
- (ii) Birch Hill Equity Partners Management Inc. (~~Birch Hill~~) acts as the general partner of each of Birch Hill Equity Partners IV, LP, Birch Hill Equity Partners (US) IV, LP, and Birch Hill Equity Partners (Entrepreneurs) IV, LP (collectively, ~~LPs~~). Birch Hill, on behalf of the LPs, owns and controls 33,517,718 Shares representing approximately 16.2% of the issued and outstanding Shares, calculated on a non-diluted basis.

BUSINESS OF THE MEETING

1. CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT

At the Meeting, the consolidated financial statements for the year ended December 31, 2016 and the auditor's report thereon will be presented by management of the Company. Such consolidated financial statements are contained in the Annual Report of the Company, copies of which have been mailed, together with the Meeting Materials, to Shareholders.

2. ELECTION OF DIRECTORS

The articles of the Company (the **Articles**) provide that the Board shall consist of a minimum of three and a maximum of ten directors. The Board has been empowered to determine from time to time by resolution the number of directors within that provided for in the Articles.

The Board currently consists of six directors. Directors are elected annually at the annual Shareholder meeting and their term of office expires at the next annual Shareholder meeting, unless earlier terminated.

Toray is entitled to nominate one director to the Board for so long as Toray owns in the aggregate not less than 10% of the issued and outstanding Shares (on a non-diluted basis). Mr. Koichiro Takeshita was the Toray representative until December 2, 2016 when he resigned from the Board for personal reasons. His position was filled by Dr. Masayuki Kaneko effective on the same date.

On April 15, 2013, the Board adopted a majority voting policy providing that if any proposed nominee receives a greater number of votes withheld from his or her election than votes for such election, then such nominee is expected to offer to resign. The Nomination & Governance Committee will review any such offer of resignation and make a recommendation to the Board. The Board will determine whether to accept the resignation and will announce its decision within 90 days following the shareholders meeting. If the Board rejects the offer, it will disclose the reasons why. If the Board accepts the offer, it may appoint a new director to fill the vacancy. The policy would not, however, apply in circumstances involving contested director elections.

STATEMENT OF EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Company's executive compensation program is designed to provide short and long-term rewards to executive officers and other employees that are consistent with individual and corporate performance and the employee's contribution to Spectral's objectives. The objectives of the Company with respect to

compensation of executive officers are to provide compensation levels necessary to attract and retain high quality executives and to motivate key executives to contribute to the success of the Company. These objectives are to be met by the principal components of the Company's executive compensation program, as set out in greater detail below.

The total compensation plan for senior executives of the Company includes four components: base salary, annual discretionary cash bonus, annual benefits and a long-term component based on stock options.

The Company does not intend to make any significant changes to its compensation policies and practices in the next financial year.

Base Salary

Base salary is reflective of responsibilities and annual increases should, at a minimum, reflect inflationary pressures and changes in duties. At the date of hire, base salary is determined using a number of factors including industry comparators and relevant experience and is set out in the employment agreement. Annual increases are determined based upon reference to data on compensation levels of executives in comparable companies (i.e. public companies in the drug development/biotech/healthcare sector) as well as annual performance evaluation and underlying economic circumstances. The Human Resources & Compensation Committee recommends the annual base salary increases for the Chief Executive Officer and the direct reports of the Chief Executive Officer to the Board for approval.

Annual Incentive Plans and Benefits

Cash bonuses are awarded to recognize the achievement of annual corporate objectives and to recognize contributions that enhance the intrinsic value of the Company. Benefits commensurate with those paid to senior officers of companies of similar size and scope to the Company are paid to Spectral's executive officers.

The annual incentive plan is a cash performance plan under which a payment is made to executives following the end of the Company's fiscal year, based on the achievement of established Company and individual goals. Generally, management of the Company prepares an annual business plan, comprised of a budget and corporate/strategic and financial objectives, which is reviewed and approved by the Board. Bonuses are generally paid to management if the corporate/strategic and financial objectives in such business plan are achieved by the Company, as evaluated at the end of the year by the Human Resources & Compensation Committee. The Human Resources & Compensation Committee may also recommend bonuses based on other criteria where circumstances merit. The Board can exercise discretion, either to award compensation absent attainment of the relevant performance goals or to reduce or increase the size of any award or payout. The Board did not exercise any discretion in this regard during 2016.

The annual objectives of the Company are presented to the Human Resources & Compensation Committee early in the fiscal year and regular updates are provided to the Human Resources & Compensation Committee by the Chief Executive Officer during the year. Following the completion of the fiscal year, the Chief Executive Officer presents an evaluation of corporate performance versus objectives to the Human Resources & Compensation Committee. The Chief Executive Officer also presents the recommended incentive plan payments for each of his direct reports to the Human Resources & Compensation Committee with reference to the achievement of individual objectives. The Board, on recommendation from the Human Resources & Compensation Committee, has final approval of the amounts paid to the Chief Executive Officer and his direct reports under the annual incentive plan.

The Board, upon the recommendations of the Human Resources & Compensation Committee, considers the implications of any risks associated with the Company's compensation policies and practices. On an annual basis, the Compensation Committee reviews the compensation of, among others, the Named Executive Officers (as defined under the heading "Summary Compensation Table" below), including bonuses, and presents their recommendations to the Board for evaluation, review and approval. The Board

has not identified any risks arising from the Company's compensation policies or practices that could encourage a Named Executive Officer to take inappropriate or excessive risks.

Stock Options

The long-term component of compensation for executive officers, including the Chief Executive Officer, is based on stock options. This component of compensation is intended to reinforce management's commitment to long-term improvements in Spectral's performance and increased Shareholder value. The Stock Option Plan V of the Corporation (the "Stock Option Plan") provides for initial option grants upon hire. Thereafter, options may be granted based upon the recommendations of the Human Resources & Compensation Committee. The Chief Executive Officer recommends the amount of option grants for each of his direct reports to the Human Resources & Compensation Committee. The Human Resources & Compensation Committee, after making any revisions deemed necessary, recommends the option grants to the Board for approval. Previous grants of options are taken into account when considering new grants because the Stock Option Plan is subject to certain limits. The maximum number of Shares that may be reserved for issuance on the exercise of options is 10% of the number of Shares issued and outstanding from time to time. In addition, the maximum number of Shares which may be reserved for issuance to any one optionee under the Stock Option Plan, together with any Shares reserved for issuance pursuant to employment agreements and/or other stock option and/or purchase plans of the Company, may not exceed 5% of the number of Shares issued and outstanding at the time of the grant. See "Equity Compensation Plans" Stock Option Plan" below.

Directors and officers are not permitted to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of the Shares granted as compensation or held, directly or indirectly, by the director or officer.

Compensation of the Chief Executive Officer

The total compensation package available for the Chief Executive Officer includes a base salary, a discretionary-bonus component, benefits and a long-term component based on stock options. Compensation is based upon the factors outlined above, including a comparison with compensation of senior officers of companies of similar size and scope to Spectral and the performance of Spectral. The Chief Executive Officer's compensation is determined in accordance with the procedures outlined above.

Performance Graph

The Shares are listed and posted for trading on the Toronto Stock Exchange ("TSX") under the symbol "EDT".

The following line graph compares the Company's total Shareholder return for \$100 invested in Shares on January 1, 2012 with the cumulative total return on the TSX Composite Index for the five most recently completed financial years of the Company.

	January 1	December 31				
	2012	2012	2013	2014	2015	2016
Closing Price of Shares on the TSX	\$0.265	\$0.250	\$0.580	\$0.345	\$0.810	\$0.275

TSX Composite Index Return	\$100.00	\$107.19	\$121.11	\$133.90	\$122.76	\$148.64

The performance trend shown by the above graph does not reflect the trend in the Company's compensation to Named Executive Officers reported over the same period. The market price of the Shares, like the share prices of many publicly traded biotechnology companies, has historically been highly volatile. The Company's compensation policies and practices are benchmarked to those of other companies in similar industries.

Executive Compensation Review

The executive employment agreements described above became effective January 1, 2011 following the approval of the Board and based on the recommendations of an independent executive compensation review completed by Lane Caputo Compensation Inc. in 2010.

The review consisted of a comparison of compensation practices benchmarked against a group of relevant peer companies ranging from approximately half of the Company's size as measured by market capitalization to roughly double the Company's size.

The peer group was comprised of biotechnology companies with operations in similar stages of development to the Company. Like Spectral, the majority of the peer companies are leading a product through Phase III clinical trials, with the remaining companies well along in Phase II trials. The peer companies are all publicly traded and proxy circular compensation data is available for their highest paid positions.

In addition, compensation data from a salary survey of North American-based companies in the biotechnology and life sciences industries was used as a cross-check to the data from the peer group and to benchmark positions that are not typically disclosed in continuous disclosure documents.

The following elements of compensation were compared against Spectral's peer group:

1. Salary (either actual or estimated 2010 levels of compensation);
2. Bonus as a percentage of salary (the average of the three most recent actual annual bonuses paid, where three years of history was available);
3. Total cash compensation (estimated 2010 salary plus average annual bonus); and
4. Equity participation (average grant of stock options and other full-value, equity-based incentives).

There have been no further independent compensation reviews and none are currently planned.

Incentive Plan Awards

Other than grants of options under the Stock Option Plan, the Company does not compensate its executives with share-based awards.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

No executive officers, directors, employees, former executive officers, directors or employees of the Company nor any of its subsidiaries are indebted to the Corporation.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Except as otherwise disclosed in this Circular, no informed person of the Company, any proposed director of the Company or any associate or affiliate of such persons has had any material interest, direct or indirect, in any transaction of the Company during the last fiscal year or in any proposed transaction which has materially affected or would materially affect the Company or any of its subsidiaries.

CORPORATE GOVERNANCE

Strong, effective corporate governance is a necessary foundation to improved performance and Shareholder confidence and is a key commitment of the Company.

As our Shareholders are aware, a series of guidelines, rules, regulations, listing standards and legislation has been passed or adopted over the last several years to assist companies in establishing best practices and to address concerns about governance. These include National Instrument 58-101 *ñ Disclosure of Corporate Governance Practices* and National Policy 58-201 *ñ Corporate Governance Guidelines* passed by the Canadian Securities Administrators.

The Board believes that its effectiveness is a combination of structure, membership and process; and individual director effectiveness is a combination of competence, behaviour and independence.

In developing Spectral's policies and practices, the Board and the Nomination & Governance Committee have carefully considered the Board's structure, membership and its processes.

Set out below are certain key policies and practices that are, in the Company's view, essential in creating a Board and committees of the Board that can function effectively, add value to the Company and evidence the various roles and shared responsibilities of management of the Company and the Board.

Board Membership and Independence

The Company believes that a strong and independent Board is fundamental to effective corporate governance and accordingly all of the Company's current and proposed directors, with the exception of Dr. Walker, are independent. Brief biographies of the directors are included earlier in this Circular and indicate the breadth, scope and diversity of their experience, all of which makes a major contribution to the Company, its operations and evolving needs. The independent directors of the Company meet, without the non-independent directors or management of the Company in attendance, after every regularly scheduled Board meeting. Accordingly, the independent directors met 9 times during 2016 without the non-independent directors or management of the Company.

Mr. Anthony Bihl III is an independent Chairman of the Board and reports to the Board and to the Shareholders. The Chairman of the Board is charged with the responsibility of leading the Board and organizing it to function in partnership with, but independently of, management of the Company in order to facilitate the achievement of the goals of the Company, including sustainable growth and maximizing Shareholder value. The Chairman is also charged with providing appropriate oversight of the management of the ongoing business and affairs of the Company, and fostering and supporting ethical and responsible decision making.

The Nomination & Governance Committee reviews Board composition and meets on a regular basis.

Board Orientation and Continuing Education

New directors are introduced to the business of the Company through an initial orientation program, including meetings with the senior executives and tours of the business operations, so that they have a clear understanding of such business operations, and the Company can more effectively leverage their capability in the context of such business. New directors receive a Board orientation binder containing relevant historical material to assist them in learning about the Company, the role of the Board, its committees and its directors. The Board holds meetings each year at which management of the Company reviews with the Board its strategies, business plans, opportunities and risks. In addition, the Board periodically receives relevant articles and reports regarding the diagnostics and health markets and the Company's particular business, strategy and governance.

Board and Director Assessments

Like any process, corporate governance practices must be reviewed on a regular basis to ensure that the practices remain relevant and effective for the Company. In that regard, each of the directors completes a confidential questionnaire evaluating the Board and its committees annually. The questionnaires are reviewed by the Chair of the Nomination & Governance Committee. In addition, the Nomination & Governance Committee reviews the performance of the Board members annually. These assessments consider, in the case of the Board or a committee thereof, its mandate and/or key responsibilities and, in the case of individual directors, any applicable position description and the competencies and skills such director is expected to bring to the Board. The results of these reviews are reported to and discussed with the Board. The Nomination & Governance Committee also regularly reviews and evaluates its practices against various governance guidelines and best practices.

Term Limits

The Nomination & Governance Committee has established guidelines on the term of directors. Board members should anticipate serving for an initial period of three years. However, the Company has not adopted formal term limits for directors on the Board or other mechanisms of Board renewal. Overall tenure is based upon a member's continuing contribution, the ongoing needs of the Company and annual election by the Shareholders. The Nomination & Governance Committee reviews on a regular basis the makeup of the Board and particular skill sets which would be beneficial to the overall strategy and evolving business requirements of the Company. These skill sets include medicine, science, information technology, marketing and sales, general management, business, finance, government relations, academia, human resources and governance. In addition, the Nomination & Governance Committee assesses each director in order to ensure that the Board is balanced between highly experienced directors with long-term institutional knowledge and those with a fresh perspective. The Board is of the view that such a review process is more effective than implementing terms limits or other mechanisms of Board renewal (such as a mandatory retirement age).

Women on the Board and in Executive Offices

The Company has not adopted a written policy specifically relating to the identification and nomination of women directors nor does the Board or the Nomination & Governance Committee consider the level of representation of women on the Board or in executive positions when nominating candidates for election to the Board or when making executive officer appointments. Instead, the Board and the Nomination & Governance Committee evaluates potential nominees to the Board by reviewing the qualifications of the nominee, irrespective of gender, and determines their relevance by taking into consideration the then

current Board composition and the anticipated skills required to round out the capabilities of the Board. Similarly, the Board assesses candidates for executive positions with the Company based on experience, skill and merit. However, the Company values diversity, including, without limitation, diversity of experience, perspective, education, race, gender and national origin as part of its overall business strategy.

The Board has not set specific targets as to the number of women board members it will maintain or the number of women executive positions it will maintain given the relatively small number of directors it currently has and the infrequent turnover of directors and executive officers.

As at the date of this Circular, no women are members of the Board and one woman holds an executive position, representing approximately 25% of such positions.

Meetings and Strategic Planning

The Board is actively involved on an ongoing basis in reviewing, providing input on and approving the Company's overall strategic plan, business plan and any strategic investments. The frequency of Board meetings depends upon the state of Spectral's operations and the opportunities and challenges that the Company faces. In addition to the formal meetings, there are informal consultations between senior management and directors. There were six formal meetings of the Board during the year ended December 31, 2016.

The Board

The Board has the statutory duty to manage or supervise the management of the business and affairs of the Company. In carrying out such duties and exercising their powers, each director is required to act honestly and in good faith with a view to the best interests of the Company and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Committees

The Board does not have an executive committee, but has created and delegated some of its duties to three standing committees of the Board: the Finance & Audit Committee; the Human Resources & Compensation Committee; and the Nomination & Governance Committee. Each of the committees has a written mandate which sets out its principal duties and responsibilities, all of which are reviewed annually. The Finance & Audit Committee and the Nomination & Governance Committees are comprised entirely of

independent directors. The Human Resources & Compensation Committee is comprised of two independent directors and one non-independent director.

A summary of the key responsibilities of each of the standing committees is set out in Schedule 6 to this Circular.

Trading in Company Securities

The Company has established blackout periods during which securities of the Company cannot be traded by insiders of the Company, including directors and senior officers. In addition, to the extent that the Company is engaged in material undisclosed activities, additional blackout periods are formally imposed. These blackout periods apply to all securities whether held directly or in any equity compensation plan. There are no separate blackout periods related to non-insider equity compensation plan participants. Directors and senior officers are required to report any trading in securities of the Company within the requisite period required under the *Securities Act* (Ontario).

Equity Ownership Guidelines for Directors and Officers

Equity Compensation Plans

The equity compensation plans that the Company has in place reflect the recommendations of the independent compensation review completed by Lane Caputo Compensation Inc. during 2010. All equity compensation plans of the Company that provide for the issuance of Shares from treasury to participants

have been approved by the Board and the TSX. Pursuant to the TSX rules, any changes to such plans may require Shareholder approval.

Stock Option Plan

Below is a summary of the material terms of the Stock Option Plan:

- (a) Eligible participants in the Stock Option Plan include consultants, employees, executives or directors of the Company, or an affiliated entity or a consultant's consultant company or partnership, or an RRSP or RRIF of such consultants, employees, executives or directors.
- (b) The maximum number of Shares that may be issued under the Stock Option Plan is 10% of the number of issued and outstanding Shares from time to time. As a result, any increase in the issued and outstanding number of Shares will result in an increase in the available number of the Shares issuable under the Stock Option Plan, and any exercises of options, warrants or other convertible securities of the Company will make new grants available under the Stock Option Plan, effectively resulting in a re-loading of the number of options available to grant under the Stock Option Plan.

As of the date of this Circular, the current maximum number of Shares that may be issued under the Stock Option Plan is currently 20,716,559 (the **Current Plan Maximum**). Options to purchase an aggregate of 5,591,872 Shares are currently outstanding and unexercised (representing approximately 27% of the Current Plan Maximum and approximately 2.7% of the Shares currently outstanding). Options to purchase an aggregate of 15,124,687 Shares remain available for grant under the Stock Option Plan (representing approximately 73% of the Current Plan Maximum).

- (c) The Human Resources & Compensation Committee administers the Stock Option Plan, designates from time to time those directors, officers, employees, advisors and consultants to the Company to whom options are to be granted and determines the number of Shares covered by such options. Options are granted by the Company pursuant to recommendations of the Human Resources & Compensation Committee and approval of the Board.

No member of the Human Resources & Compensation Committee is entitled, during the tenure of his or her membership on the Human Resources & Compensation Committee, to participate in the Stock Option Plan (except where options are granted to all or substantially all of the Board members), but such member is entitled to exercise any options granted to him or her before such person became a member of the Human Resources & Compensation Committee.

- (d) The total number of Shares to be optioned to any optionee under the Stock Option Plan, together with any Shares reserved for issuance under employment agreements and employee stock option purchase plans or any other option plans to such optionee cannot exceed 5% of the issued and outstanding Shares at the date of the grant of the option.
- (e) The Human Resources & Compensation Committee, or in its absence the Board, is responsible for determining the exercise price of options granted under the Stock Option Plan. However, options granted under the Stock Option Plan must have an exercise price of not less than the closing price of the Shares on the TSX on the last business day preceding the date on which the option grant is approved by the Human Resources & Compensation Committee. In the event that the Shares did not trade on such business day, the exercise price will be the average of the bid and ask prices in respect of the Shares at the close of trading on such date.
- (f) Subject to the other provisions of the Stock Option Plan, the specific terms of an option grant including the number of Shares subject to each option, the exercise price, the vesting period, the expiration date of each option, the extent to which each option is exercisable from time to time during the term of the option are determined by the Human Resources & Compensation Committee or, in its absence, the Board; provided however, that if no specific determination is made by the Human Resources & Compensation Committee or the Board, as the case may be, with respect to the expiration of options, each option will, subject to any other specific provisions of the Stock Option Plan, be exercisable for a maximum term of 10 years from the date the option is granted. Notwithstanding the foregoing, in

no event may the term of an option granted under the Stock Option Plan exceed 10 years from the date of grant.

- (g) Unless the Compensation Committee or the Board, as the case may be, decides otherwise: (i) options granted under the Stock Option Plan terminate on the earlier of (i) the expiration date of the option or (ii) 30 days following the date on which the optionee ceases to be eligible to participate in the Stock Option Plan (including, resignation, retirement or termination without cause); (ii) upon the death of an optionee, all options held by the optionee may, subject to the terms of the option grant and any other terms of the Stock Option Plan, be exercised by the legal personal representative(s) of the estate of the optionee during the first six months following the date of the death of the optionee, but only to the extent that the optionee was entitled to exercise such option at the date of death and at the date of exercise; and (iii) if, before the expiry of an option in accordance with its terms, the employment of an optionee by the Company or by a subsidiary is terminated for legal cause, all unexercised options held by the optionee will terminate immediately.
- (h) An option granted under the Stock Option Plan is personal to the optionee and is non-assignable.
- (i) The Board may from time to time amend the Stock Option Plan or the terms of any previously granted option without obtaining the approval of the Shareholders, provided that, except pursuant to applicable laws, no such amendment to the terms of any previously granted option may, except as expressly provided in the Stock Option Plan, or with the written consent of the optionee, adversely alter or impair the terms or conditions of such option previously granted to such optionee under the Stock Option Plan. Notwithstanding the foregoing, Shareholder approval is required for the following amendments to the Stock Option Plan: (i) a change in the number or percentage of Shares reserved for issuance under the Stock Option Plan; (ii) a reduction of the exercise price of an option held by any optionee who is an insider or the cancellation and reissue of options; (iii) an extension beyond the original expiry date of an option held by any optionee; (iv) an increase to the maximum number of Shares that may be issued to insiders within a one-year period or which would increase the maximum number of Shares issuable to more than 10% of the outstanding Shares; (v) permitting options to be transferable or assignable other than for normal course estate settlement purposes; and (vi) a change to the amendment provisions of the Stock Option Plan.

Pursuant to Section 613(a) of the TSX Company Manual, Shareholders must re-approve any security based compensation arrangement that does not have a maximum aggregate of securities issuable and all unallocated options issuable pursuant thereto every three years.

Business Conduct and Ethics

The Company's business conduct and ethics are embodied in certain core values, including mutual trust, respect for people, integrity and commitment to excellence. At Spectral, ethical behaviour is the responsibility of all employees, not simply that of senior officers. A copy of the Company's code of ethics and business conduct (the **Code**) can be obtained by contacting the Company at 1-888-426-4264.

Directors are required to notify management of the Company in writing of the existence of any personal or professional relationships which may create a conflict of interest with the Company or with a customer, supplier or other outside party. In addition, directors are required to disclose to the Board any material interest in any proposed transaction/agreement to be entered into by the Company which is subject to Board approval.

The Company's directors, officers, employees and consultants have a responsibility to report any conduct or proposed conduct reasonably believed to be in violation of the Code promptly to the Corporate Secretary of the Company. The Corporate Secretary is required to report any suspected violation of the Code to the Human Resources & Compensation Committee for investigation. The Human Resources & Compensation Committee in turn reports to the Board. On an annual basis, the Board undertakes a self-assessment of its governance practices including compliance with the Code. Management of the Company is also interviewed in connection with such assessment. The Corporate Secretary of the Company is the contact person for employees, officers, and directors who may wish to report any suspected violations of the Code. Employees are asked if they are aware of any violations during annual performance reviews and senior management

make enquiries at each of its regularly scheduled meetings. To date there have been no reports of any suspected violations of the Code.

Nomination Committee Process

The Company's current governance practices address a number of the disclosure rules including the requirement for a nomination committee, a nomination committee charter and confirmation as to independence of the committee's members under applicable listing standards.

In addition, Spectral's Nomination & Governance Committee reviews the composition of the Board on a regular basis, taking into account a number of factors, including the evolving needs of the Company, and the breadth and depth of experience of the Board members. Potential nominees for the Board currently come from a number of sources including recommendations of existing independent Board members, senior management and outside search firms.

All proposed candidates are reviewed by members of the Nomination & Governance Committee, the Chairman of the Board and certain members of senior management. Such review takes into consideration the competencies and skills of any proposed candidate as well as the ability to devote the necessary amount of time to Board member duties. The final decision as to whether such candidates are proposed to the Shareholders as nominees is made by the Board.

Director Independence

It is the objective of the Board that all non-employee directors meet the criteria for independence as set out in applicable securities laws. In addition, the Company's Corporate Governance Guidelines and Practices require that members of the Finance & Audit Committee satisfy the independence requirements under applicable securities laws for members of audit committees.

Based upon the information provided by the directors, the Board has determined that all of the directors are independent other than Dr. Walker, who is also the Chief Executive Officer.

Schedule “A”: Corporate Governance Guidelines

The Board of Directors of Spectral Medical Inc. (**Spectral**) is responsible for overseeing the effective management of the Company’s business. In carrying out those responsibilities, the Board has the authority and duty to protect and enhance the Company’s assets in the interests of all stakeholders.

The Board recognizes that Board effectiveness is an interplay of structure, membership and process and individual Director effectiveness is an interplay of independence, competence and behaviour. The Board’s responsibility is an active one and the involvement and commitment of each Director, as evidenced by attendance, preparation and participation at meetings are essential ingredients in the overall success of the Company.

This document summarizes certain guidelines and practices of Spectral’s Board of Directors relating to matters of corporate governance. These guidelines are not meant to be static and will be reviewed and evaluated on a regular basis and modified as determined by the Nomination & Governance Committee to meet the changing needs of the Company and regulatory requirements.

1. Chair of the Board and CEO

The Board has separated the roles of Chair and CEO. Currently, the Company has an independent, Non-Executive Chair of the Board (**Chair**). The Chair is appointed by the independent Board on the recommendation of the Nomination & Governance Committee.

2. Lead Independent Director

The Board has determined that at such time as the Chair is not an independent Director that a Director who is independent should serve as a Lead Independent Director. The Lead Independent Director would chair regular meetings of the independent Directors and would assume other responsibilities, which the independent Directors may from time to time designate. The Lead Independent Director would be appointed by the independent Board on the recommendation of the Nomination & Governance Committee.

3. Director Responsibilities

In discharging his or her duties, each Director shall act honestly and in good faith with a view to the best interests of the Company; and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

4. Board Composition

The Board believes and the Company’s by-laws provide that a majority of the Directors should be independent of the Company. Independent means free from any relationship which could materially interfere with his or her ability to act in the best interests of the Company as determined by the Board or a Committee thereof, in accordance with applicable regulatory Governance Guidelines and Standards (currently OSC and TSX). In addition, the Board believes that there should generally be no more than one or two non-independent Directors.

5. Board Size

The Articles of the Company provide for a minimum of three and a maximum of ten Directors. The Board believes at this time, given the size and scope of the Company’s Business, that seven Directors is the right number to provide the depth, breadth and diversity of expertise and experience required, while allowing for efficient operation and decision-making. The Board has the ability to increase or decrease its size, within the limits set out in its Articles. The Nomination & Governance Committee reviews the size and composition of the Board annually and makes recommendations to the Board when it believes a change would be in the best interests of the Company.

6. Board Meeting Agendas

The Chair and the CEO, in consultation with the Corporate Secretary, develop the agenda for each Board meeting. Notice of the principal matters to be addressed at all Board meetings are distributed to Directors in advance of each meeting, and all Board members are free to suggest additions to meeting topics. The Chair will establish the agenda items for meetings of the independent Directors.

7. Board Meetings

Information and reports pertaining to Board meeting agenda items are generally circulated to the Directors a week in advance of the meeting. Materials are prepared in a way to focus attention on critical issues to be considered by the Board. Reports may be presented during Board meetings by members of the Board, senior management and/or staff, or by invited outside advisors.

Directors are expected to attend all meetings of the Board and the Committees upon which they serve, to come to such meetings fully prepared, and to remain in attendance for the duration of the meeting. Where a Director's absence from a meeting is unavoidable, the Director should, as soon as practicable after the meeting, contact the Board Chair, the Committee Chair, the CEO, or the Corporate Secretary for a briefing on the substantive elements of the meeting.

8. Regular Attendance of Non-Directors at Board Meetings

The Board appreciates the value of having certain members of senior management attend each Board meeting to provide information and opinion to assist the Directors in their deliberations and to allow Directors to evaluate the caliber of the senior management team. The CEO will seek the Board's concurrence in the event of any proposed change to the management attendees at Board meetings. Management attendees will not attend the portion of each meeting, which is reserved for discussion among the independent Directors only.

9. Executive Sessions of Independent Directors

The independent Directors of the Board will meet separately, as determined by the Chair or, if there is a Lead Independent Director, by the Lead Independent Director.

10. Board Contacts with Senior Management

All of the Directors have open access to the Company's senior management. It is expected that Directors will exercise judgment to ensure that their contacts with senior management are carried out in such a manner as to limit such management's distraction from the Company's business operations. Written communications from Directors to members of senior management will be copied to the Chair and to the CEO. The Board also encourages individual Directors to make themselves available for consultations with senior management outside Board meetings in order to provide specific advice and counsel on subjects where such Directors have special knowledge and experience.

11. Board Compensation

The compensation program for Directors is reviewed and agreed to on an annual basis by the Nomination & Governance Committee, with the opportunity to obtain assistance from outside consultants. Overall compensation is established based on a comparator peer group of companies as determined from time to time by the Committee.

12. Delegation and Committees of the Board

In carrying out its duties, the Board has established and delegated certain responsibilities to separate Committees of the Board. The current Committees of the Board are Finance & Audit; Human Resources & Compensation; and Nomination & Governance. Each of the Committees operates under a separate and distinct mandate approved by the Board, which describes both the structure of the Committee and its duties and responsibilities and each is comprised entirely of independent Board members.

13. Committee Members

Committee membership is approved by the Board in consultation with the Chair and the CEO and upon recommendation of the Nomination & Governance Committee.

14. Committee Composition

Members of the Committees of the Board shall be appointed from among the members of the Board.

15. Committee Meetings

The schedule of meetings of each Committee will be determined by its Chair and its members, based upon an annual work plan designed to discharge the responsibilities of the Committee as set out in its mandate. The Chair of the Committee will develop the agenda for each Committee meeting through consultation as appropriate with members of management, staff and the Committee. Each Committee will report to the Board on the results of each Committee meeting. Minutes will be prepared for all Committee meetings and copies provided to all Board members.

16. Board Review of Independence of Directors

Directors will notify the Chair of the Nomination & Governance Committee of their employment affiliations, including both director and committee memberships, in other organizations, in order to enable the Committee to assess their independence and/or the continued appropriateness of their membership under the circumstances.

The Committee will review on an annual basis any relationships between Directors and the Company, which might be construed in any way to compromise the designation of any Director as being independent of the Company. The objective of such review will be to determine the existence of any material relationships, to ensure that the composition of the Board remains such that the majority of the Directors are independent and that where any such relationships exist, the Director is acting appropriately.

17. Criteria for Board Membership

The Nomination & Governance Committee will review each year the composition and general and specific criteria applicable to candidates to be considered for nomination to the Board. The objective of this review will be to maintain the composition of the Board in a way, which provides the best mix of skills and experience to guide the long term strategy and ongoing business operations of the Company. This review will take into account such common characteristics such as personal integrity, good judgment, high ethics and standards, outstanding ability in their individual fields of expertise and a willingness to devote necessary time to Board matters.

The Company does not have a policy limiting the number of other public company boards of directors upon which a director may sit, in general. However, the Nomination & Governance Committee shall consider the number of other public company board and other boards (or comparable governing bodies) on which a prospective nominee is a member.

Although the Company does not impose a limit on outside directorships, it does recognize the substantial time commitments attendant to Board membership and expects that the members of its Board be fully committed to devoting all such time as is necessary to fulfill their Board responsibilities, both in terms of preparation for, and attendance and participation at meetings.

18. Selection of New Director Candidates

The Board is responsible for identifying suitable candidates to be recommended for election to the Board by the shareholders. The Nomination & Governance Committee has been given the responsibility in consultation with the Chair and CEO of gathering the names of potential nominees, screening their qualifications against the current skill and experience needs of the Board and making recommendations in this regard to the full Board. All Directors are encouraged to identify potential candidates and to provide their names to the Chair of the Committee. In addition, independent search firms shall be engaged as appropriate to assist in identifying potential candidates.

An invitation to stand as a nominee for election to the Board will normally be made to a candidate by the Board through the Chair or the Chair of the Nomination & Governance Committee.

19. New Director Orientation and Continuing Education

New Directors will be provided with an orientation and education program which will include written information about the duties and obligations of Directors, the business of the Company, material policies, meetings and discussion with senior management and other Directors, and tours of the Company's operations. When first appointed to a Board Committee, Directors will be offered appropriate information and orientation to prepare them to participate effectively in the work of the Board or any Committee to which

they are appointed. Continuing education will include meeting with local management, regular receipt of articles, reports and other papers regarding the diagnostics market, presentations related to industry trends, markets, opportunities in such markets and governmental and regulatory changes impacting the Company.

20. Assessing Corporate Governance Practices and the Board's Performance

The Nomination & Governance Committee, with the assistance of the Chair and Corporate Secretary, is responsible for conducting annual assessments of the effectiveness of the Company's governance practices and conducting a self-assessment of the overall performance of the Board and its Committees and reporting on the same to the Board. In addition, the Chair of the Board and the Chair of the Nomination & Governance Committee shall review on an annual basis the performance of individual members of the Board and the Chair of the Board, in consultation with the Chairs of the Committees, the performance of Members of each Committee. It is expected that the result of such reviews will be to identify any areas where the Directors believe the governance practices can be improved or where the Directors and/or management believe that the Board could make a better collective contribution to overseeing the affairs of the Company. Items identified through this process as requiring improvement will become an accountability of senior management and/or the Chair or Committee and regular monitoring and progress reports provided to the Nomination & Governance Committee.

21. Withhold Votes for Directors at Shareholder Meetings

The Nomination & Governance Committee will take into account the number of withheld votes by shareholders with respect to a Director in determining his or her candidacy for re-election at the next annual meeting.

22. Term Limits for Directors

Directors should anticipate serving on the Board for an initial period of three years. Overall, tenure will be based upon a Director's continuing contribution, the overall requirements of the Company and annual election by the shareholders.

23. Evaluation of the CEO

The Human Resource & Compensation Committee conducts an annual review of the performance of the CEO as measured against objectives established mutually in advance by the Committee and the CEO. The evaluation will also be used by the Committee in its deliberations concerning the CEO's annual compensation, which shall be reviewed and approved by the Board.

The Board shall review such plans annually and provide input thereon to the Committee.

It is understood that the Chair or other individual Directors may from time to time be requested by management to assist with such communications. If communications from stakeholders are made to the Chair or to other individual independent Directors, management will be informed. The Board, either directly or through the Finance & Audit Committee, approves the content of the Company's major communications to shareholders and the investing public, including the annual and interim Consolidated financial statements and corresponding Press Releases, the annual and interim Management's Discussion and Analysis, the Proxy Circular, the Annual Information Form and any prospectuses which may be issued.

26. Corporate Strategy

The Board believes that management is responsible for the development of long-term corporate strategy, while the role of the Board is to review, question and validate, and ultimately to approve the strategies
