Description of the Business and Share Purchase Agreement

Red River Capital Corp. (the "Company") was incorporated under the laws of the Province of Alberta on December 20, 2017. The Company is classified as a Capital Pool Corporation as defined in Policy 2.4 of the TSX Venture Exchange (the "Exchange"). The principal business of the Company will be to identify and evaluate assets or businesses with a view to potentially acquire them or an interest therein by completing a purchase transaction, by exercising of an option or by any concomitant transaction. The purpose of such an acquisition is to satisfy the related conditions of a Qualifying Transaction under the Exchange rules. The address of the registered office is 1900, 520 3rd Avenue SW Calgary, Alberta.

Pursuant to a final prospectus dated April 26, 2018, the Company completed a public offering of 3,000,000 shares for gross proceeds of \$300,000 on July 26, 2018. The net proceeds received by the Company were \$202,170 after payment of fees related to the offering of \$41,325. In addition, the Agent was granted the option to purchase up to 300,000 common shares at a price of \$0.10 per Common Share. This option expires 24 months from July 26, 2018. The Company also granted share options to purchase an aggregate of 550,000 common shares at an exercise price of \$0.10 per Common Share to the directors and officers of the Corporation, which expire five years from July 26, 2018.

The novel coronavirus ("COVID-19") outbreak was declared a pandemic by the World Health Organization on March 11, 2020. This has resulted in significant economic uncertainty and governments worldwide are enacting emergency measures to contain the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global financial markets have experienced significant volatility and weakness as a consequence of this economic uncertainty. The duration and impact of the COVID-19 outbreak is unknown as this time, as is the effectiveness of interventions by governments and central banks. The full extent of the impact on the Company's future financial results is uncertain given the length and severity of these developments cannot be reliably estimated.

The current challenging economic climate relating to the effect of the Coronavirus (COVID-19) may lead to challenges in managing cash flows and the ability to raise capital. These items may have a direct adverse impact on the Company's ability to close the Transaction.

Share Purchase Agreement

On September 14, 2020 the Company entered into a share purchase agreement pursuant to which the Company and 1739001 Alberta Ltd. ("Bitcoin Solutions"), an arms length company incorporated under the laws of Alberta, intend to complete a plan of arrangement, merger, exempt takeover bid or other form of arrangement whereby the shareholders of Bitcoin Solutions will control between 93.5% to 95.5% of the issued and outstanding shares of the Company (the "Transaction"). The Transaction is intended to serve as the Company's "qualifying transaction" as that term is defined in the policies of the Exchange. Completion of the Transaction is subject to satisfactory completion of due diligence and regulatory body approvals including approval of the Exchange. Trading in the common shares of the Company has been halted and is not expected to resume trading until the Transaction is completed or until the Exchange receives the requisite documentation to resume trading.

Established in 2013, Bitcoin Solutions is a leading cryptocurrency ATM machine operator in Canada with a national network of Bitcoin ATMs.

Risks and Uncertainties

The Corporation has a limited history of existence. There can be no assurance that a Qualifying Transaction will be completed. Equity or debt financing may be required to complete a Qualifying Transaction. There can be no assurance that the Corporation will be able to obtain adequate financing to continue. The securities of the Corporation should be considered a highly speculative investment. The following risk factors should be given special consideration when evaluating an investment in any of the Corporation's securities:

- a) until completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- b) the Corporation has had no business activity and has not acquired any material assets since its incorporation other than cash;
- c) the Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the completion of the Qualifying Transaction;
- d) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- e) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- f) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation;
- g) there can be no assurance that an active and liquid market for the common shares will develop and an investor may find it difficult to resell its common shares;
- h) it is currently anticipated that the Corporation will not complete its Qualifying Transaction within 24 months of listing, and accordingly, it is likely that the TSX Venture Exchange will suspend trading of the common shares of the Corporation until such time as the Qualifying Transaction has been completed. Further, in the event that the Corporation fails to complete a Qualifying Transaction, the common shares of the Corporation will be delisted from the TSX Venture Exchange. An interim cease trade order may be issued against the Corporation's securities by an applicable securities commission if its common shares are suspended from trading on or delisted from the TSX Venture Exchange or otherwise; and

- i) the Corporation competes with many Capital Pool Companies that are seeking suitable Qualifying Transactions. In addition, other Capital Pool Companies may have substantially greater financial and technical resources than the Corporation.

Related Party Transactions

There were no related party transactions during the period other than those disclosed elsewhere in the report.

Other Information

The policies of the TSX Venture Exchange prohibit Capital Pool Companies from carrying on formal investor relations activities.
