The Agent’s Warrants are exercisable for a period of 24 months from the Listing Date (as hereinafter defined). The Agent’s Warrants are qualified for distribution under this Prospectus. - (2) Before deducting the costs of this issue estimated at \$77,500 (exclusive of the Agent’s Commission) which includes legal and audit fees and other expenses of the Corporation, the Corporate Finance Fee and legal fees of the Agent and the listing fee payable to the Exchange and filing fees payable to the Commissions. - (3) A total of 1,350,000 Common Shares are qualified for distribution hereunder. In addition, this prospectus qualifies for distribution the Agent’s Warrants, and the grant of the Directors’ and Officers’ Options, as hereinafter defined. See “Plan of Distribution” and “Directors’ and Officers’ Options”.

This Offering is made on a “commercially reasonable efforts” agency basis by the Agent and is subject to the completion of a minimum subscription of 1,350,000 Common Shares for gross proceeds to the Corporation of \$202,500. The offering price of the Common Shares was determined by negotiation between the Corporation and the Agent. All funds received from subscriptions for Common Shares will be held by the Agent pursuant to the terms of an agency agreement between the Corporation and the Agent (the “Agency Agreement”). If the minimum subscription is not completed within 90 days of the issuance of a receipt for the final prospectus or such other time as

may be consented to by the regulatory authorities and the Agent and persons or companies who subscribed within that period, all subscription monies will be returned to subscribers without interest or deduction, unless the subscribers have otherwise instructed the Agent.

Pursuant to the Agency Agreement, the Agent and any sub-agents will be granted common share purchase warrants (the “Agent’s Warrants”) to purchase 100,000 Common Shares at a price of \$0.15 per Common Share and which may be exercised for a period of 24 months from the day the Common Shares are listed on the Exchange. The Agent’s Warrants and the Common Shares issuable upon the exercise of the Agent’s Warrants are qualified for distribution under this prospectus. See “Plan of Distribution - Agency Agreement and Agent’s Compensation”.

This prospectus also qualifies for distribution options to be granted to directors and officers of the Corporation (the “Directors’ and Officers’ Options”) at the Closing. The Directors’ and Officers’ Options will entitle the holders to purchase an aggregate of 300,000 Common Shares at a price of \$0.15 per Common Share and such options may be exercised for a period of five years from the date of grant.

Other than the initial distribution of the Common Shares pursuant to this prospectus, the grant of the Agent’s Warrants and the grant of the Directors’ and Officers’ Options, trading in all securities of the Corporation is prohibited during the period between the date a receipt for the preliminary prospectus is issued by the securities commission that was designated the principal regulator pursuant to Multilateral Instrument 11-102 – Passport System and National Policy 11-202 – Process for Prospectus Reviews in Multiple Jurisdictions and the time the Common Shares are listed for trading on the Exchange except, subject to prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authority(ies) grants a discretionary order.

The Exchange conditionally approved the listing application in respect of the Common Shares Corporation on September 9, 2020. Listing is subject to the Corporation fulfilling all of the requirements of the Exchange, including distribution of such Common Shares to a minimum number of public shareholders.

Investment in the Common Shares offered by this prospectus is highly speculative due to the nature of the Corporation’s business and its present stage of development. This Offering is suitable only to those investors who are prepared to risk the loss of their entire investment. See “Risk Factors”.

There is currently no market through which the Common Shares offered by this prospectus may be sold and purchasers may not be able to resell the Common Shares purchased under this prospectus. This may affect the pricing of the Common Shares in the secondary market, the transparency and availability of trading prices, the liquidity of the Common Shares, and the extent of issuer regulation. Upon completion of this Offering, purchasers will suffer an immediate dilution (based on the gross proceeds from this and prior issues per Common Share) of approximately \$0.0449 per Common Share or 29.93%. The Corporation was only recently formed and has no active business and does not currently own any assets other than cash. Investment in the Common Shares offered by this prospectus is highly speculative given the proposed nature of the Corporation’s business and its present stage of development. The business objective of the Corporation is to identify and evaluate businesses or assets with a view to completing a Qualifying Transaction; however, there can be no assurance that the Corporation will successfully complete a Qualifying Transaction. Although the Corporation has commenced the process of identifying potential acquisitions, to date, the Corporation has not identified any potential acquisitions and may determine that current markets, terms of acquisition, or pricing conditions make such potential acquisitions uneconomic. The Corporation has not entered into an Agreement in Principle, as hereafter defined. The Corporation may find that even if the terms of a potential acquisition are economic, the Corporation may not be able to finance such acquisition and additional funds may be required to meet such obligations. Subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan. Since the Corporation has not placed any geographic restrictions on the location of a Qualifying Transaction, such Qualifying Transaction may involve the acquisition of a business located outside of Canada and, as such, investors should be aware that it may be difficult or may not be possible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and that it may not be possible to enforce against such persons or the Corporation, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada. Where the investment or acquisition is financed by the issuance of

shares from the Corporation's treasury, control of the Corporation may change and shareholders may suffer further dilution of their investment. The Corporation will be in competition with other entities with greater resources. The Corporation has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future. The Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval. Similarly, unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares. Upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares will be halted and will remain halted for an indefinite period of time, typically until a Sponsor, as hereinafter defined, has been retained and certain preliminary reviews have been conducted. The Common Shares will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction. The Exchange may suspend from trading or delist the Common Shares where the Corporation has failed to complete a Qualifying Transaction within 24 months of the Listing Date, as hereinafter defined. The trading in the Common Shares may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required. The Commissions may issue a cease trade order if the Corporation is delisted from the Exchange. In addition, delisting of the Common Shares may result in the cancellation of all or some of the Common Shares of the Corporation owned by Insiders, as hereinafter defined, issued prior to this Offering. Neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction. Investors must rely solely on the expertise of the Corporation's Promoter, as hereinafter defined, directors and officers for any possible return on their investment. The Corporation's Promoter, directors, officers and Control Persons, as hereinafter defined, and their Associates, as hereinafter defined, and Affiliates, as hereinafter defined, as a group, beneficially own or control, directly or indirectly, 2,010,000 Common Shares, which represents approximately 100% of the issued and outstanding Common Shares before giving effect to this Offering and approximately 60% of the issued and outstanding Common Shares after giving effect to this Offering. The directors and officers of the Corporation will only devote part of their time to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. If the Corporation does not list the Common Shares on the Exchange prior to the time of Closing, adverse tax consequences may arise with respect to any Common Shares held in RRSPs, RRIFs, DPSPs, TFSA's, RDSPs and RESPs. See 'Capitalization', 'Dilution', 'Business of the Corporation', 'Directors, Officers and Promoters', 'Use of Proceeds', 'Conflicts of Interest', and 'Risk Factors'.

The Agent conditionally offers these Common Shares on a "commercially reasonable efforts" agency basis, if, as and when subscriptions are accepted by the Corporation, subject to prior sale, in accordance with the terms and conditions of the Agency Agreement referred to under "Plan of Distribution" and subject to the approval of certain legal matters by Borden Ladner Gervais LLP, Barristers & Solicitors, Calgary, Alberta, on behalf of the Corporation, and by Peterson McVicar LLP, Toronto, Ontario, on behalf of the Agent.

Pursuant to the CPC Policy, no purchaser of Common Shares is permitted to directly or indirectly purchase more than 2% of the total Common Shares offered under this prospectus, or 27,000 Common Shares (\$4,050). In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates of that purchaser, is 4% of the total number of Common Shares offered under this prospectus, or 54,000 Common Shares (\$8,100).

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that the Common Shares sold under the Offering will be delivered under the book-based system through CDS Clearing and Depository Services Inc. ("CDS") or its nominee and deposited in electronic non-certificated form. If delivered in electronic non-certificated form, Purchasers of Common Shares will receive only a customer confirmation from the registered dealer that is a CDS participant and from or through which the Common Shares were purchased as to the number of Common Shares subscribed for. CDS will record the CDS participants who hold such Common Shares on behalf of owners who have purchased such Common Shares in non-certificated form. Certificates representing the Common Shares in registered and definitive form will be issued in certain limited circumstances.

The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment. The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment (based on the gross proceeds from this and prior issuances without deduction of selling and related expenses) per Common Share of \$0.0449 or 29.93%. There can be no assurance that an active and liquid market for the Corporation’s Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See “Business of the Corporation,” “Directors, Officers and Promoter – Conflicts of Interest,” “Capitalization”, “Dilution” and “Risk Factors”.

THE CORPORATION

The Corporation was incorporated on July 28, 2020, by Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act (British Columbia).

The registered and records office of the Corporation is located at 1200 Waterfront Centre, 200 Burrard Street, Vancouver, British Columbia V7X 1T2. The head office of the Corporation is located at 1703, 595 Burrard St., Vancouver, British Columbia V7X 1J1.

BUSINESS OF THE CORPORATION

Preliminary Expenses

The Corporation will pay the amount of \$9,000 (plus applicable taxes) to the Agent representing the Corporate Finance Fee. The Corporation has also paid \$5,000 (plus applicable taxes) to the Exchange as part of its listing fees and paid \$7,690 with respect to filing fees incurred in connection with filing this preliminary prospectus. Certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including the expenses of its auditor and legal fees, the fees of the Exchange, the Agent's Commission, legal fees and expenses and the fees of the securities regulatory authorities. See "Use of Proceeds".

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm's Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations other than to enter into discussions for the purpose of identifying potential acquisitions or interests. The Corporation has not selected a business sector or industry in which to primarily pursue a Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Use of Proceeds – Private Placements for Cash" and "Use of Proceeds – Restrictions on Use of Proceeds", the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders' interest in the Corporation to be further diluted.

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals, utilizing the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith having regard to the best interests of the Corporation and

will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Corporation – Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation is required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and
- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the Listing Date. In the event that the Common Shares are delisted by the Exchange, and unless otherwise agreed to with the Exchange, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders within 90 days from the date of such delisting, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the Issuer or its remaining assets in some other manner. See "Business of the Corporation – Filings and Shareholder Approval of the Qualifying Transaction".

If the Corporation has not completed a Qualifying Transaction within the time frame prescribed by the CPC Policy, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on NEX the Corporation must:

- (a) obtain majority shareholder approval for the transfer to NEX exclusive of the votes of Non Arm's Length Parties of the Corporation; and
- (b) either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the IPO price, in accordance with section 11.2(a) of the CPC Policy, as if the Corporation had delisted from the Exchange, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus, unless otherwise agreed to between the Corporation and the Exchange, has irrevocably authorized and directed the Transfer Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If the Corporation lists on the NEX, the Corporation must continue to comply with all the requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) Associates of any such person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

Since the date of incorporation of the Corporation, 2,010,000 Common Shares have been issued as follows:

Date	Number of Common Shares	Issue Price Per Share	Aggregate Issue Price	Consideration Received
July 28, 2020	2,010,000 ⁽¹⁾	\$0.075	\$150,750	Cash

Note:

(1) These Common Shares will be held in escrow. See "Escrowed Securities".

ESCROWED SECURITIES

All of the 2,010,000 Common Shares which were issued prior to this Offering at a price of \$0.075 per Common Share, and all Common Shares that may be acquired from treasury of the Corporation by Non Arm's Length Parties of the Corporation either under the Offering or otherwise prior to Completion of the Qualifying Transaction and all Common Shares acquired by members of the Aggregate Pro Group prior to this Offering will be deposited with Computershare Investor Services Inc. (previously defined as the "Transfer Agent") under the Escrow Agreement.

All Common Shares acquired on exercise of stock options prior to the Completion of a Qualifying Transaction, must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares acquired in the secondary market prior to the Completion of a Qualifying Transaction by any Person or Company who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Corporation held by Principals of the Resulting Issuer will also be escrowed.

Notwithstanding the foregoing, Common Shares acquired by Principals of the Corporation or Principals of the Resulting Issuer pursuant to a private placement will not be subject to escrow provided that various conditions, as set forth in the CPC Policy, are met. See “Escrowed Securities – Escrowed Securities on Private Placement”.

The following table sets out, as at the date hereof, the number of Common Shares which are held in escrow.

Name and Municipality of Residence of Shareholder	Number of Escrowed Common Shares	Percentage of Common Shares Prior to Giving Effect to the Offering	Percentage of Common Shares After Giving Effect to the Offering ⁽²⁾
Ionic Securities Ltd. ⁽¹⁾ Vancouver, British Columbia	1,350,000	67.16%	40.18%
Richard Graham Coquitlam, British Columbia	100,000	4.98%	2.98%
Donn Burchill Victoria, British Columbia	100,000	4.98%	2.98%
Scott McLean Vancouver, British Columbia	100,000	4.98%	2.98%
Brian Bayley Vancouver, British Columbia	360,000	17.91%	10.71%
Total	2,010,000	100%	59.83%

Notes:

- (1) Ionic Securities Ltd. is wholly owned by A. Murray Sinclair Jr. and Brian E. Bayley, a director of the Corporation. Brian E. Bayley is also Chief Executive Officer and a director of Ionic Securities Ltd. and Richard Graham, a director of the Corporation, is Vice President at Ionic Securities Ltd.
- (2) Assuming no Common Shares are purchased by these persons under the Offering.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a “holding company”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “Initial Release”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Initial Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus, unless otherwise agreed to between the Corporation and the Exchange, has irrevocably authorized and directed the Transfer Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "value securities", then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the "Value Security Escrow Agreement"). "Value Securities" are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "Surplus Security Escrow Agreement").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every 6 months thereafter until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 3 year release mechanism with 5% of the escrowed securities releasable at the time of the Final Exchange bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for an 18 month escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30% on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer;
 - (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period; and
 - (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Corporate Cease Trade Orders or Bankruptcies

Other than as disclosed herein, no director, officer, Insider or Promoter or a shareholder holding a sufficient number of securities to affect materially the control of the Corporation is, or within ten years before the date of the prospectus, has been, a director, officer, Insider or Promoter of any other issuer that, while that person was acting in that capacity, was the subject of a cease trade or similar order, or an order that denied such issuer access to any statutory exemptions for a period of more than 30 consecutive days or became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Brian E. Bayley was a director of American Natural Energy Corp. from June 15, 2001 to November 30, 2010. During the period between May 2007 and March 2008 each of the British Columbia Securities Commission, Autorité des marchés financiers (Québec), the Ontario Securities Commission, and the Alberta Securities Commission issued cease trade orders against American Natural Energy Corp. for failing to file its financial statements within the prescribed times. The orders were rescinded in October 2008.

Donn Burchill has been a director of Angus Mining Inc. since November, 2019. Cease trade orders were issued against Angus Mining Inc. by each of the British Columbia Securities Commission on May 11, 2015, the Ontario Securities Commission on May 20, 2015, and the Alberta Securities Commission on August 21, 2015, for failing to file its financial statements within the prescribed times. The cease trade orders remain in effect as of the date hereof. Mr. Burchill was not a director of Angus Mining Inc. at the time the cease trade orders were issued.

Penalties or Sanctions

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation, holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would likely be considered important to a reasonable investor in making an investment decision.

Personal Bankruptcies

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons has, within the 10 years before the date of this prospectus, as applicable, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or has been subject to or has instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver-manager or trustee appointed to hold such person's assets.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and Promoters of the Corporation may be subject in connection with the operations of the Corporation. All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the Business Corporations Act (British Columbia).

Executive Compensation

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;

The directors and officers of the Corporation will also be granted the Directors' and Officers' Options. See "Plan of Distribution" and "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation may pay compensation to its directors and officers. However, no payment other than the Permitted Reimbursements, will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of \$0.0449 per Common Share or 29.93% on the basis of there being 3,360,000 Common Shares issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation, as set forth below:

Item	Total Offering (\$)
Gross proceeds of prior share issues	150,750
Gross proceeds of this Offering	202,500
Total gross proceeds after this Offering	353,250
Offering price per share	0.15
Proceeds per share after this Offering	0.1051
Dilution per share to subscriber	0.0449
Percentage of dilution in relation to offering price	29.93%

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by this prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;
- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Directors, Officers and Promoter – Conflicts of Interest";
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of \$0.0449 per Common Share or 29.93%;
- (e) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (i) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;

- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) if the Common Shares are not listed on the Exchange prior to the time of Closing in the manner contemplated in this prospectus under the heading 'Eligibility For Investment', adverse tax consequences may arise with respect to any Common Shares held in RRSPs, RRIFs, DPSPs, TFSAs, RDSPs and RESPs;
- (q) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
- (r) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

The right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. The securities legislation further provides a purchaser with remedies for rescission, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province for the particulars of these rights or consult with a legal adviser.

ELIGIBILITY FOR INVESTMENT

In the opinion of Borden Ladner Gervais LLP, counsel to the Corporation, based on the current provisions of the Income Tax Act (Canada) (the “Tax Act”), the regulations thereunder in force as of the date hereof and all specific proposals to amend the Tax Act and the regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof, provided that the Common Shares are listed on a “designated stock exchange” for the purposes of the Tax Act (which currently includes the Exchange) or the Corporation is otherwise a “public corporation” for the purposes of the Tax Act, in each case at the time of Closing, the Common Shares issued pursuant to the Offering will be “qualified investments” for a trust governed by a registered retirement savings plan (“RRSP”), registered retirement income fund (“RRIF”), deferred profit sharing plan (“DPSP”), registered education savings plan (“RESP”), registered disability savings plan (“RDSP”) or a tax-free savings account (“TFSA”) (collectively, the “Registered Plans”).

The Common Shares are not currently listed on a “designated stock exchange” and the Corporation is not currently a “public corporation” for the purposes of the Tax Act. The Corporation has applied to list the Common Shares on the Exchange as of the day before the Closing, followed by an immediate halt in trading of the Common Shares in order to allow the Corporation to satisfy the conditions of the Exchange and to have the Common Shares listed and posted for trading prior to the issuance of the Common Shares on Closing. The Corporation must rely on the Exchange to list the Common Shares on the Exchange and have them posted for trading prior to the issuance of the Common Shares on Closing, and to otherwise proceed in such manner as may be required to result in the Common Shares being listed on the Exchange at the time of their issuance on Closing. If the Common Shares are not listed on the Exchange at the time of their issuance on Closing and the Corporation is not a “public corporation” for the purposes of the Tax Act on Closing, the Common Shares will not be qualified investments for the Registered Plans at that time.

Notwithstanding that a Common Share may be a qualified investment for a RRSP, RRIF, RESP, RDSP or TFSA, the holder of a TFSA or RDSP, the subscriber of an RESP or the annuitant under an RRSP or RRIF will be subject to a penalty tax in respect of Common Shares held in such TFSA, RDSP, RESP, RRSP or RRIF if such Common Shares are a “prohibited investment” for the TFSA, RDSP, RESP, RRSP or RRIF. Generally, the Common Shares will be considered to be a “prohibited investment” if the holder of a TFSA or RDSP, the subscriber of an RESP or the annuitant of an RRSP or RRIF, as the case may be: (i) does not deal at arm’s length with the Corporation for the purposes of the Tax Act; or (ii) has a “significant interest” (as defined in subsection 207.01(4) of the Tax Act) in the Corporation. A “significant interest” generally includes, but is not limited to, the ownership of 10% or more of any class of issued shares of a corporation. In addition, the Common Shares generally will not be a “prohibited investment” if the Common Shares are “excluded property” (as defined in subsection 207.01(1) of the Tax Act). Prospective purchasers who intend to hold Common Shares in their RRSP, RRIF, RESP, RDSP or TFSA should consult their own tax advisors having regard to their own particular circumstances.

JUSTIFY CAPITAL CORP.

FINANCIAL STATEMENTS

For the period from incorporation on July 28, 2020 to July 31, 2020

(Expressed in Canadian Dollars)

INDEPENDENT AUDITOR'S REPORT

To the Directors of
Justify Capital Corp.

Opinion

We have audited the accompanying financial statements of Justify Capital Corp. (the "Company"), which comprise the statement of financial position as at July 31, 2020, and the statements of loss and comprehensive loss, changes in shareholders' equity, and cash flows for the period from incorporation on July 28, 2020 to July 31, 2020, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at July 31, 2020, and its financial performance and its cash flows for the period from incorporation on July 28, 2020 to July 31, 2020 in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Justify Capital Corp. (the “Company”) was incorporated on July 28, 2020 under the Business Corporations Act (British Columbia). The Company intends to complete an initial public offering of common shares (the “IPO”) after which it will become a Capital Pool Company (“CPC”) as defined in the TSX Venture Exchange (“TSX-V”) Policy 2.4 (“Policy 2.4”). Additional information on the IPO is included in Note 9.

As a CPC, the Company’s objective will be to identify and acquire either operating assets or a business, subject to regulatory approval, that meet the criteria of a Qualifying Transaction as defined by the TSX-V (“Qualifying Transaction”). Until such time that a Qualifying Transaction is completed, the Company will have no significant revenue and will incur expenses primarily for Qualifying Transaction investigation, TSX-V listing and filing requirements, professional services and office facilities and administration, subject to certain restrictions under Policy 2.4. Additional discussion on these restrictions is included in Note 7.

The Company’s registered office address is Suite 1200, 200 Burrard St., Vancouver, BC, and its principal place of business is Suite 1703, 595 Burrard Street, Vancouver, BC.

These financial statements were authorized for issue by the Audit Committee and Board of Directors on September 14, 2020.

COVID-19 Pandemic

On March 11, 2020, the World Health Organization declared the COVID-19 coronavirus outbreak a pandemic, which continues to spread globally. As a CPC with no commercial operations, the COVID-19 pandemic has not had a significant impact on the Company’s routine operations or on the carrying value of its assets. However, the pandemic’s effect on broader capital markets may hinder the Company’s ability to identify and complete a Qualifying Transaction.

2. BASIS OF PRESENTATION**a) Statement of Compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These financial statements are presented in Canadian dollars, which is also the Company’s functional currency.

c) Continuation of Operations

As at July 31, 2020, the Company had cash of \$150,743 which the Company’s management believes is sufficient to pay \$5,000 in accounts payable and accrued liabilities then outstanding and for its projected operating costs for the next 12 months. The Company intends to raise up to \$202,500 in additional equity financing from its proposed IPO, which will provide further short-term liquidity and will enable it to pursue a limited number of potential Qualifying Transactions.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue its existence.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (cont'd...)**d) Comparative Period Information**

The Company was incorporated on July 28, 2020 and these are the first financial statements to be prepared for the Company. As a result, no comparative period information is provided.

3. SIGNIFICANT ACCOUNTING POLICIES**Financial instruments**

Financial instruments consist of financial assets and financial liabilities and are initially recognized at fair value along with, in the case of a financial asset or liability not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit and loss.

The Company classifies its financial assets and financial liabilities in the following measurement categories:

- i) those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- ii) those to be measured at amortized cost.

The classification of financial assets depends on the business model for managing the financial assets and the contractual terms of the cash flows. Financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding, are generally measured at amortized cost at the end of subsequent accounting periods. All other financial assets are measured at their fair values at the end of subsequent accounting periods, with any changes taken through profit and loss or other comprehensive income.

Financial liabilities are classified as those to be measured at amortized cost unless they are designated as those to be measured subsequently at fair value through profit or loss (irrevocable election at the time of recognition). Any fair value changes due to credit risk for liabilities designated at fair value through profit and loss are recorded in other comprehensive income.

The Company has implemented the following classifications for financial instruments:

- The Company's sole financial asset is cash. Cash is classified as an asset at fair value and any changes to fair value subsequent to initial recognition are recorded in profit or loss for the period in which they occur.
- Financial liabilities comprise of accounts payable and accrued liabilities. Accounts payable and accrued liabilities are classified as amortized cost and are measured using the effective interest rate method. Interest expense is recorded in profit or loss, as applicable.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

Impairment of financial assets

The Company assesses all information available, including on a forward-looking basis, the expected credit losses associated with its assets carried at amortized cost. The Company's sole financial asset is cash and, accordingly, does not hold any financial assets measured at amortized cost.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**Financing costs**

Costs incurred to obtain equity financing are deducted from the value assigned to shares issued. When costs are incurred prior to the closing of a financing arrangement, these amounts are presented as a deferred asset until the financing has closed. When an expected financing arrangement does not occur, any deferred costs are recorded as an expense.

Share-based compensation

The Company may grant stock options to acquire common shares of the Company to directors, officers, employees and consultants. An individual is classified as an employee when the individual is an employee for legal or tax purposes, or provides services similar to those performed by an employee.

Stock options granted to directors, officers and employees are measured at their fair values determined on their grant date, using the Black-Scholes option pricing model, and are recognized as an expense over the vesting periods of the options on a graded basis. Options granted to consultants or other non-insiders are measured at the fair value of goods or services received from these parties, or at their Black-Scholes fair values if the fair value of goods or services received cannot be measured. A corresponding increase is recorded to equity reserves for share-based compensation recorded.

When stock options are exercised, the cash proceeds along with the amount previously recorded as equity reserves are recorded as share capital. When the right to receive options is forfeited before the options have vested, any expense previously recorded is reversed.

Income taxes

Tax provisions are recognized when it is considered probable that there will be a future outflow of funds to a taxing authority. In such cases, a provision is made for the amount that is expected to be settled, where this can be reasonably estimated. This requires the application of judgment as to the ultimate outcome, which can change over time depending on facts and circumstances. A change in estimate of the likelihood of a future outflow and/or in the expected amount to be settled would be recognized in income in the period in which the change occurs.

Deferred tax assets or liabilities, arising from temporary differences between the tax and accounting values of assets and liabilities, are recorded based on tax rates expected to be enacted when these differences are reversed. Deferred tax assets are recognized only to the extent it is considered probable that those assets will be recovered. This involves an assessment of when those deferred tax assets are likely to be realized, and a judgment as to whether or not there will be sufficient taxable profits available to offset the tax assets when they do reverse. This requires assumptions regarding future profitability and is therefore inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognized in respect of deferred tax assets as well as in the amounts recognized in income in the period in which the change occurs.

Tax provisions are based on enacted or substantively enacted laws. Changes in those laws could affect amounts recognized in income both in the period of change, which would include any impact on cumulative provisions, and in future periods.

(Loss) earnings per share

Basic (loss) earnings per share is calculated by dividing net (loss) earnings by the weighted average number of common shares outstanding during the period which excludes shares held in escrow. All of the escrow shares are considered contingently returnable until the Company completes a Qualifying Transaction and, accordingly, are not considered to be outstanding shares for the purposes of the loss per share calculation.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**(Loss) earnings per share (cont'd...)**

Diluted (loss) earnings per share is determined by adjusting the earnings or loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of dilutive instruments, which includes stock options, as if their dilutive effect was at the beginning of the period. The calculation of the diluted number of common shares assumes that proceeds received from the exercise of “in-the-money” stock options and common share purchase warrants are used to purchase common shares of the Company at their average market price for the period.

In periods that the Company reports a net loss, any stock options or warrants outstanding are excluded from the calculation of diluted loss per share as their inclusion would be anti-dilutive.

Use of estimates and measurement uncertainties

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the measurements of assets, liabilities, revenues, expenses and certain disclosures reported in these financial statements. Significant estimates made by management include the following:

i. Income taxes

Provisions for income and other taxes are based on management’s interpretation of taxation laws, which may differ from the interpretation by taxation authorities. Such differences may result in eventual tax payments differing from amounts accrued. Reported amounts for deferred tax assets and liabilities are based on management’s expectation for the timing and amounts of future taxable income or loss, as well as future taxation rates. Changes to these underlying estimates may result in changes to the carrying value, if any, of deferred income tax assets and liabilities.

4. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities of the Company are due for professional fees and are payable within the next 12 months.

5. SHAREHOLDERS’ EQUITY**Authorized share capital**

The Company is authorized to issue an unlimited number of common shares without par value.

Changes to the number of common shares outstanding are as follows:

	Number of Shares	Assigned Value
Outstanding, July 28, 2020	-	\$ -
Shares issued	<u>2,010,000</u>	<u>150,750</u>
Outstanding, July 31, 2020	2,010,000	\$ 150,750

On July 28, 2020, the Company issued 2,010,000 common shares at a price of \$0.075 per share for total proceeds of \$150,750 (the “Seed Shares”).

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**

(Expressed in Canadian dollars)

5. SHAREHOLDERS' EQUITY (cont'd...)*Proposed IPO*

As further described in Note 9, the Company intends to complete the IPO for up to 1,350,000 of its common shares at a price of \$0.15 per share.

Equity reserves*Stock options*

The Company has adopted an incentive stock option plan which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable options to purchase its common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares, exercisable for a period of up to ten years from the date of grant. The vesting conditions, if any, for stock options granted are determined at the discretion of the Company's Board of Directors.

As of July 31, 2020, the Company has not granted any stock options. However, the Company intends to grant options to purchase 300,000 common shares in conjunction with the close of the proposed IPO, discussed in Note 9. The options will be exercisable for one common share at a price of \$0.15 and would expire five years following the completion of the IPO.

Warrants

The Company may grant warrants that can be exercised to purchase its common shares at terms determined at the discretion of the Company's Board of Directors. These warrants may be included with common shares in future financings or granted as compensation for services provided to the Company. As of July 31, 2020, the Company has not granted any warrants, but, as further described in Note 9, the Company intends to grant warrants to purchase 100,000 common shares to the agent for the proposed IPO.

Per share amounts

Weighted average loss per share for the period from incorporation on July 28, 2020 to July 31, 2020 is calculated as follows:

	July 28, 2020 to July 31, 2020
Numerator	
Net loss for the period	\$ (5,007)
Denominator	
Weighted average number of common shares outstanding, basic and diluted	2,010,000
Loss per common share, basic and diluted	\$ -

In accordance with the Company's accounting policy, weighted average number of common shares outstanding excludes 2,010,000 shares held in escrow.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**(Expressed in Canadian dollars)

6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at July 31, 2020, the Company's financial instruments comprise cash and accounts payable and accrued liabilities. The fair values of accounts payable and accrued liabilities approximate their carrying values due to their short-term maturity. Fair values of financial instruments are classified in a fair value hierarchy based on the inputs used to determine fair values. The levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – Inputs that are not based on observable market data (unobservable inputs).

As at July 31, 2020, the fair value of cash held by the Company was based on level 1 inputs of the fair value hierarchy.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss arising from a customer or third party to a financial instrument failing to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash. The Company limits exposure to credit risk by maintaining its cash with large financial institutions.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company ensures there is sufficient capital to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash as well as anticipated proceeds from the IPO. As at July 31, 2020, the Company had a cash balance of \$150,743 which it believes is sufficient to settle current liabilities of \$5,000 and anticipated short-term cash requirements, but that additional funding from the IPO is required to meet long-term requirements. The Company's financial liabilities include trade payables that have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and equity prices. As the Company does not currently hold and does not expect to hold interest-bearing financial instruments other than cash, assets or liabilities denominated in a foreign currency, and marketable securities or other financial instruments subject to fluctuations in equity prices, it currently does not have and is not expected to have exposure to these market risks.

JUSTIFY CAPITAL CORP.**NOTES TO THE FINANCIAL STATEMENTS****FOR THE PERIOD FROM INCORPORATION ON JULY 28, 2020 TO JULY 31, 2020**

(Expressed in Canadian dollars)

7. CAPITAL MANAGEMENT

Capital is composed of the Company's shareholders' equity and any debt that it may issue. As at July 31, 2020, the Company's shareholders' equity was \$145,743 and it had current liabilities of \$5,000. The Company's objectives when managing capital are to maintain financial viability and to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels.

The Company's current capital was received from the issuance of common shares.
