Background

Riley Resources Corp. (the “Company” or “Riley”) provides this Management Discussion and Analysis (“MD&A”) of financial position and results of operations as of November 26, 2018. This MD&A should be read in conjunction with the unaudited condensed interim financial statements for the period ended September 30, 2018 and the notes thereto, as well as the audited financial statements for the years ended December 31, 2017 and 2016, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”). Except as otherwise disclosed, all dollar figures included therein and in the following MD&A are quoted in Canadian dollars. The Company has prepared this MD&A following the requirements of National Instrument 51-102, Continuous Disclosure Obligations.

Description of Business

Riley Resources Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on June 3, 2011. The Company’s registered office is located at Suite 2390 - 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9. On January 8, 2015, the Company completed its initial public offering of 2,000,000 common shares at \$0.10 per share for gross cash proceeds of \$200,000 and has listed its common shares on the TSX Venture Exchange (“TSXV”, or the “Exchange”) under the trading symbol RLY.

On October 31, 2016, the Company entered into an exploration and option agreement with MSM Resource L.L.C. (“MSM”) to acquire MSM’s undivided interest in the East Manhattan Wash property. The transaction received final approval of the TSXV on March 29, 2017. As a result, the Company became a Tier 2 TSXV mining issuer.

The Company is a precious metals exploration company engaged in the acquisition and exploration of mineral properties. The Company currently has exploration properties in the United States of America. To date, no mineral development projects have been completed and no commercial development or production has commenced.

The Company is primarily in the exploration stage with respect to its mineral properties. Based on the information available to date, the Company has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development programs and ultimately upon future profitable production.

Results of Operations for the Three Months Ended September 30, 2018

For the three months ended September 30, 2018, the Company recorded a net loss of (\$22,883) versus a net loss of (\$8,451) incurred during the three months ended September 30, 2017. The increase in net loss during the three months ended September 30, 2018 is due primarily from an increase in stock-based compensation (\$8,475), and an increase in shareholder reporting expense (\$2,581). The increase in stock-based compensation is due to the granting of 240,000 stock options during the three months ended September 30, 2018, and the related vesting. The increase in shareholder reporting is due from the increase in overall activity during the period.

Results of Operations for the Nine Months Ended September 30, 2018

For the nine months ended September 30, 2018, the Company recorded a net loss of (\$50,573) versus a net loss of (\$36,130) incurred during the nine months ended September 30, 2017. The increase in net loss during the nine months ended September 30, 2018 is due primarily from increases in stock-based compensation (\$8,475), insurance expense (\$4,938) and consulting fees (\$3,950). The increase in stock-based compensation is due to the granting of 240,000 stock options during the three months ended September 30, 2018, and the related vesting. The increase in insurance expense is due from additional premiums. The increase in consulting fees were due from the hiring of new consultants to facilitate the increased activity. The increase in net loss was partially offset by the decrease in professional fees (\$7,426). The decrease of professional fees is due from the timing of the audit billing cycle.

Liquidity, Cash Flows and Capital Resources

	Period Ended September 30, 2018	Period Ended September 30, 2017
Sources and Uses of Cash	\$	\$
Cash used in operations prior to changes in working capital	(42,098)	(36,130)
Changes in non-cash working capital	(9,196)	(19,781)
Cash used in operating activities	(51,294)	(55,911)
Cash used in investing activities	(8,751)	(36,333)
Cash provided by (used in) financing activities	-	272,044
Change in cash	(60,045)	179,800

Operating Activities

For the period ended September 30, 2018, cash used in operating activities, prior to changes in non-cash working capital, was \$42,098 compared to \$36,130 used during the nine-month period ended September 30, 2017. The increase in cash used is due primarily to the variances as outlined under the “*Results of Operations for the Nine Months Ended September 30, 2018*” section. For the period ended September 30, 2018, non-cash working capital increased by \$9,196, as compared to an increase by \$19,781 for the nine-month period ended September 30, 2017. The increase in non-cash working capital is primarily the result a decrease in accounts payable and accrued liabilities (\$6,469), and an increase in prepaids (\$4,219). For the period ended September 30, 2018 cash used by operating activities was \$51,294 compared to a use of \$55,911 for the period ended September 30, 2017.

Investing Activities

For the nine-month period ended September 30, 2018, cash used in investing activities was \$8,751, which reflects expenditures on mineral property interests. For the nine-month period ended September 30, 2017, the total cash used for investing activities was \$36,333, which also reflects expenditures on mineral property interests.

Financing Activities

For the nine-month period ended September 30, 2018, cash provided by financing activities was \$Nil. For the period ended September 30, 2017, cash provided by financing activities was \$272,044 which relates to the gross proceeds received from the issuance of 3,615,254 common shares of the Company at \$0.075, offset by share issuance costs of \$750. The Company also received \$1,650 related to the exercise of 16,500 warrants at a price of \$0.10.

The Company’s principal source of liquidity is cash which is raised by way of the sale of common shares from treasury.

At September 30, 2018, the Company had a working capital of \$327,415 (December 31, 2017 - \$378,264) which consisted of current assets of cash totaling \$315,931 (December 31, 2017 - \$375,976), prepaid expenses of \$10,055 (December 31, 2017 - \$5,836), and \$1,849 (December 31, 2017 - \$3,341) in taxes receivable. Current liabilities include accounts payable and accrued liabilities of \$420 (December 31, 2017 - \$6,889).

To date, the Company has relied entirely upon the sale of common shares to provide working capital to fund the administration of the Company. The Company’s access to additional capital may not be available on terms acceptable or at all. As the Company relies on equity financings to continue, current market conditions could make it difficult or impossible for the Company to raise necessary funds to meet its longer-term capital requirements. If the Company is unable to obtain financing, it could seek multiple solutions including, but not limited to, credit facilities, asset sales or debenture issuances.

Annual Financial Information

The financial statements have been prepared in accordance with IFRS for fiscal years 2017, 2016 and 2015, and are expressed in Canadian dollars.

	Year Ended December 31, 2017	Year Ended December 31, 2016	Year Ended December 31, 2015
	\$	\$	\$
Operations:			
Revenues	-	-	-
Net income (loss)	(55,566)	(35,692)	(80,165)
Net income (loss) per share – Basic	(0.01)	(0.01)	(0.01)
Net income (loss) per share – Diluted	(0.01)	(0.01)	(0.01)
Balance Sheet:			
Working capital	378,264	234,312	327,124
Total current assets	385,153	248,479	330,840
Total liabilities	6,889	14,167	3,716

Quarterly Financial Information

The following selected financial information is derived from the condensed interim financial statements of the Company prepared in accordance with IFRS.

Quarter ended	September 30, 2018	June 30, 2018	March 31, 2018	December 31, 2017	September 30, 2017	June 30, 2017	March 31, 2017	December 31, 2016
	\$	\$	\$	\$	\$	\$	\$	\$
Revenue	-	-	-	-	-	-	-	-
Net income (loss)	(22,883)	(13,630)	(14,060)	(19,436)	(8,451)	(17,881)	(9,798)	(8,122)
Basic Earnings per share (loss)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)
Diluted Earnings per share (loss)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)

Related Party Disclosures

As at September 30, 2018, \$Nil (December 31, 2017 - \$Nil) of accounts payable and accrued liabilities was payable to companies controlled by officers and/or directors of the Company.

During the period ended September 30, 2018, \$327 (September 30, 2017 – 28,065) was paid to a law firm in which a director is a partner.

During the period ended September 30, 2018, the Company incurred share-based payments of \$7,945 (September 30, 2017 – \$Nil) to officers and directors of the Company.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Commitments

The Company has no commitments.

Conflicts of Interest

The Company's directors and officers may serve as directors and/or officers, or may be associated with, other reporting companies, or have significant shareholdings in other public companies. To the extent that such other companies may participate in business or asset acquisitions, dispositions or ventures in which the Company may participate, the directors and officers of the Company may have a conflict of interest in negotiating and concluding terms respecting the transaction. If a conflict of interest arises, the Company will follow the provisions of the Business Corporations Act (British Columbia) ("Corporations Act") dealing with conflict of interest. These provisions state that where a director has such a conflict, that director must, at a meeting of the Company's directors, disclose his or her interest and refrain from voting on the matter unless otherwise permitted by the Corporations Act. In accordance with the laws of the Province of British Columbia, the directors and officers of the Company are required to act honestly, in good faith and in the best interests of the Company.

Share Data

	Number of Shares Outstanding (Diluted)
Outstanding as at November 26, 2018	10,681,755
Shares reserved for issuance pursuant to share purchase options outstanding	945,000
Shares outstanding - fully diluted	11,626,755

As at the date of this MD&A, the Company had outstanding stock options enabling holders to acquire common shares of the Company as follows:

Number	Vested	Price per share	Expiry date
705,000	705,000	\$ 0.10	January 8, 2025
240,000	60,000	\$0.145	September 20, 2028
945,000	765,000

Critical Accounting Estimates

The preparation of financial statements in conformity IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues (if applicable) and expenditures during the reporting period.

Significant Accounting Policies

Significant Accounting Policies adopted

- (i) Effective on January 1, 2018, the Company adopted IFRS 9 – Financial Instruments (“IFRS 9”) using the modified retrospective approach. IFRS 9 did not affect the Company’s classification and measurement of financial assets and financial liabilities. IFRS 9 also did not affect the carrying amounts of the Company’s financial instruments at the transition date.

IFRS 9 uses a single approach to determine whether a financial instrument is classified and measured at amortized cost or fair value. The classification and measurement of financial assets is based on the Company’s business models for managing its financial assets and whether the contractual cash flows represent solely payments for principal and interest. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9.

- (ii) Effective on January 1, 2018, the Company adopted IFRS 15, "Revenue from Contracts with Customers". The Company reviewed the impact of IFRS 15, and there were no changes as the Company has not incurred revenue to date.

Significant Accounting Policies not yet adopted

- (i) IFRS 16 *Leases*. In January 2016, the IASB issued IFRS 16 which replaces IAS 17 – Leases and its associated interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract based on whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is like current finance lease accounting, with limited exceptions for short term leases or leases of low value assets. Lessor accounting remains like current accounting practice. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted for entities that apply IFRS 15.

Risks and Uncertainties

The Company is in the business of acquiring and exploring mineral properties. It is exposed to many risks and uncertainties that are common to other mineral exploration companies in the same business. The industry is capital intensive at all stages and is subject to variations in commodity prices, market sentiment, exchange rates for currency, inflation and other risks. The Company currently has no source of revenue other than interest on cash balances. The Company relies mainly on equity financing to fund exploration activities on its mineral properties.

The risks and uncertainties described in this section are not inclusive of all the risks and uncertainties to which the Company may be subject.

Early Stage – Need for Additional Funds

The Company has no history of profitable operations and its present business is at an early stage. As such, the Company is subject to many risks common to other companies in the same business, including under-capitalization, cash shortages and limitations with respect to personnel, financial and other resources, and the lack of revenues. There is no assurance that the Company will be successful in achieving a return on shareholders' investment and the likelihood of success must be considered considering its early stage of operations.

Exploration and Development

Mineral exploration and development is a speculative business, characterized by many significant risks including, among other things, unprofitable efforts resulting not only from the failure to discover mineral deposits, but also from finding mineral deposits that, though present, are of insufficient size and/or grade to return a profit from production.

All the mineral claims in which the Company has a right to acquire an interest are in the exploration stages only and are without a known body of commercial ore. Upon discovery of a mineralized occurrence, several stages of exploration and assessment are required before its economic viability can be determined. Development of the subject mineral properties would follow only if favourable results are determined at each stage of assessment. Few precious and base metal deposits are ultimately developed into producing mines.

Operating Hazards and Risks

Mining operations involve many risks which even a combination of experience, knowledge and careful evaluation may not be able to overcome. During exploration, development and production of mineral properties, certain risks, and unexpected or unusual geological operating conditions including rock bursts, cave-ins, fires, flooding and earthquakes, may occur. Operations in which the Company has a direct or indirect interest are subject to all the hazards and risks normally incidental to exploration, development and

production of mineral deposits, any of which could result in damage to or destruction of mines and other producing facilities, damage to life and property, environmental damage and possible legal liability for any or all damage.

Although the Company maintains liability insurance in an amount which it considers adequate, the nature of these risks is such that liabilities could exceed policy limits, in which event the Company could incur significant costs that could have a materially adverse effect upon its financial conditions.

Foreign Currency Exchange

Foreign currency exchange rate risk is the risk that the fair value or future cash flows will fluctuate because of changes in foreign exchange rates. Although the Company is in the exploration stage and has not yet developed commercial mineral interests, the underlying market prices in Canada for minerals are impacted by changes in the exchange rate between Canadian and United States Dollars. The Company has not entered into any arrangements to hedge its currency risk but does maintain cash balances within each currency.

Supplies and Infrastructure

The Company's property interests are often located in remote, undeveloped areas and the availability of infrastructures such as surface access, skilled labour, fuel and power at an economic cost cannot be assured. These are integral requirements for exploration, production and development facilities on mineral properties. Power may need to be generated onsite.

Metal Prices

The mining industry, in general, is intensely competitive and there is no assurance that a profitable market will exist for the sale of metals produced, even if commercial quantities of precious and/or base metals are discovered. Factors beyond the control of the Company may affect the marketability of metals discovered. Pricing is affected by numerous factors beyond the Company's control, such as international economic and political trends, global or regional consumption and demand patterns, increased production and smelter availability. There is no assurance that the price of metals recovered from any mineral deposit will be such that it can be mined at a profit.

Title Risks

Although the Company has exercised the usual due diligence with respect to determining title to properties in which it has a material interest, there is no guarantee that title to such properties will not be challenged or impugned. The Company's mineral property interests may be subject to prior unregistered agreements, transfers or native claims, and title may be affected by undetected defects.

Environmental Regulations, Permits and Licenses

The Company's operations are subject to various laws and regulations governing the protection of the environment, exploration, development, production, taxes, labour standards, occupational health, waste disposal, safety and other matters. Environmental legislation in Nevada provide restrictions and prohibitions on spills, releases or emissions of various substances produced in association with certain mining industry operations, such as seepage from tailing disposal areas, which would result in environmental pollution. A breach of such legislation may result in the imposition of fines and penalties. In addition, certain types of operations require the submission and approval of environmental impact statements. Environmental legislation is evolving in a direction of stricter standards and enforcement, and higher fines and penalties for non-compliance. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and their directors, officers and employees. The cost of compliance with changes in governmental regulations has the potential to reduce the profitability of operations. The Company intends to fully comply with all environmental regulations.

The current operations of the Company require permits from various U.S. authorities and such operations are governed by laws and regulations governing prospecting, development, mining, production, exports,

taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental, mine safety and other matters.

The Company believes that it follows all material laws and regulations which currently apply to its activities. However, there can be no assurance that all permits which the Company may require for its operations and exploration activities will be obtainable on reasonable terms, a timely basis or that such laws and regulations would not have an adverse effect on any mining project which the Company might undertake.

Competition and Agreements with Other Parties

The mining industry is intensely competitive in all its phases and the Company competes with other companies that have greater financial resources and technical capacity. Competition could adversely affect the Company's ability to acquire suitable properties or prospects in the future.

The Company may, in the future, be unable to meet its share of costs incurred under such agreements to which it is a party and it may have its interest in the properties subject to such agreements reduced as a result. Also, if other parties to such agreements do not meet their share of such costs, the Company may not be able to finance the expenditures required to complete recommended programs.

Economic Conditions

Unfavourable economic conditions may negatively impact the Company's financial viability. Unfavourable economic conditions could also increase the Company's financing costs, decrease net income or increase net loss, limit access to capital markets and negatively impact the availability of credit facilities to the Company.

Dependence on Management

The Company is very dependent upon the personal efforts and commitment of its existing management. To the extent that management's services would be unavailable for any reason, a disruption to the operations of the Company could result and other persons would be required to manage and operate the Company.

Corporate Governance

Management of the Company is responsible for the preparation and presentation of the annual financial statements and notes thereto, MD&A and other information contained in this MD&A. Additionally, it is management's responsibility to ensure the Company complies with the laws and regulations applicable to its activities.

The Company's management is held accountable to the board of directors ("Directors"), each member of which is elected annually by the shareholders of the Company. The Directors are responsible for reviewing and approving the audited annual financial statements and MD&A. Responsibility for the review and approval of the Company's unaudited condensed interim financial statements and MD&A is delegated by the Directors to the Audit Committee, which is comprised of 3 directors. Additionally, the Audit Committee pre-approves audit and non-audit services provided by the Company's auditors.

The external auditors are appointed annually by the shareholders to conduct an annual audit of the financial statements in accordance with IFRS. The external auditors have complete access to the Audit Committee to discuss the audit, financial reporting and related matters resulting from the annual audit, as well as assist the members of the Audit Committee in discharging its corporate governance responsibilities.

Cautionary Statement

The Company's unaudited condensed interim financial statements for the period ended September 30, 2018, and this accompanying MD&A contain statements that constitute "forward-looking statements" within the meaning of National Instrument 51-102, *Continuous Disclosure Obligations* of the Canadian Securities Administrators. Forward-looking statements often, but not always, are identified using words such as "seek", "anticipate", "believe", "plan", "estimate", "expect", "targeting" and "intend" and statements that an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions. Forward-looking statements in this MD&A include statements regarding the Company's future exploration plans and expenditures, the satisfaction of rights and performance of obligations under agreements to which the Company is a part, the ability of the Company to hire and retain employees and consultants and estimated administrative assessment and other expenses. The forward-looking statements that are contained in this MD&A involve many risks and uncertainties. Therefore, actual results might differ materially from results forecast or suggested in these forward-looking statements. Some of these risks and uncertainties are identified under the heading "RISKS AND UNCERTAINTIES" in this MD&A. Additional information regarding these factors and other important factors that could cause results to differ materially may be referred to as part of forward-looking statements. The forward-looking statements are qualified in their entirety by reference to the important factors discussed under the heading "RISKS AND UNCERTAINTIES" and to those that may be discussed as part of forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause the actual results to differ include market prices, exploration success, continued availability of capital and financing, inability to obtain required regulatory approvals and general market conditions. These statements are based on many assumptions, including assumptions regarding general market conditions, the timing and receipt of regulatory approvals, the ability of the Company and other relevant parties to satisfy regulatory requirements, the availability of financing for proposed transactions and programs on reasonable terms and the ability of third-party service providers to deliver services in a timely manner. Forward-looking statements contained herein are made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking statements, whether because of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

Other Information
