#### 1. Nature of operations

U308 Corp. (the "Company") is a Canadian exploration company focused on exploration for uranium and related minerals in South America; on the definition of resources and advancing these deposits toward production. The Company was incorporated by articles of incorporation dated December 6, 2005 ("date of incorporation") under the Business Corporations Act (Ontario). The Company's common shares are listed on the NEX board of the TSX Venture Exchange under the symbol UWE.H, and on the OTC QB International under the symbol UWEFF. The Company maintains a registered and records office at 36 Toronto Street, Suite 1050, Toronto, Ontario, M5C 2C5, Canada.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

#### 2. Basis of presentation and going concern

The Company is in the exploration and evaluation stage and as is common with many exploration companies, it raises financing for its exploration and evaluation activities through the sale of equities. The Company has incurred a loss in the current and prior periods, with a net loss for the nine months ended September 30, 2020 of \$401,258 (nine months ended September 30, 2019 - loss of \$834,928) and has an accumulated deficit of \$106,388,465.

Additional financings will be required to reinitiate pre-feasibility studies and further develop the properties and to continue operations. There is a significant risk that some, if not all, of the Company's current property holdings may lapse or title to those properties may become uncertain. While the Company's management and board will continue to search for financing, joint venture partners and new assets, there is no guarantee that they will be successful.

The unaudited condensed interim consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The certainty of funding future exploration expenditures and availability of sources of additional financing cannot be assured at this time and accordingly, these uncertainties may cast significant doubt about the Company's ability to continue as a going concern. The unaudited condensed interim consolidated financial statements do not include adjustments to the carrying values of recorded liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern.

#### 3. Significant accounting policies

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IASB. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements. The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of November 30, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2019. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed interim consolidated financial statements.

<sup>(1)</sup> On August 24, 2020, the Company granted 860,000 stock options to board members, management and consultants of the Company pursuant to the Company's stock option plan. Of the options granted, 860,000 remained outstanding at September 30, 2020. The stock options were issued at an exercise price of \$0.12, vest in tranches of 25%, with 25% vesting immediately and the remaining tranches at six-month intervals and will expire on August 21, 2025. For the purposes of the 860,000 options, the fair value of each option was estimated on the date of grant using the Black Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 146% using the historical price history of the Company; risk free interest rate of 0.36%; and an expected average life of five years. The estimated value of \$92,744 will be recorded as a cost to salaries and benefits with a corresponding increase to share-based payments reserve as the options vest. For the three and nine months ended September 30, 2020, the impact on expenses was \$37,355 (comparative period - \$nil) (cumulative to September 30, 2020 - \$37,355).

<b>Total</b>	<b>\$ 37,355</b>	<b>\$ 28,378</b>	<b>\$ 52,490</b>	<b>\$ 132,479</b>

Stock option price volatility was based on historical price volatility of the common shares, which is assumed to be an appropriate and approximate proxy for future volatility of a stock option instrument granted for the underlying common shares.

The following table reflects the actual stock options issued and outstanding as of September 30, 2020:

### 7. Loss per common share

The calculation of basic and diluted loss per common share for the three and nine months ended September 30, 2020 was based on the loss after tax attributable to common shareholders of \$128,816 and \$401,258, respectively (three and nine months ended September 30, 2019 – loss of \$122,030 and \$834,928, respectively) and the weighted average number of common shares outstanding of 23,043,436 (three and nine months ended September 30, 2019 - 23,043,436). Diluted loss per share did not include the effect of 2,288,000 (nine months ended September 30, 2019 - 1,700,500) share purchase options and 2,528,000 (nine months ended September 30, 2019 - 5,614,506) warrants as they are anti-dilutive.

### 8. Exploration and evaluation expenditures

The Company enters into exploration agreements or permits with other companies or foreign governments pursuant to which it may explore, or earn interests in mineral properties by issuing common shares and/or making option or rental payments and/or incurring expenditures in varying amounts by varying dates. Failure by the Company to meet such requirements can result in a reduction or loss of the Company's ownership interests or entitlements under the agreements or permits.
