Notes to the Condensed Consolidated Interim Financial Statements

For the Six Months Ended December 31, 2025, and 2024

(Expressed in Canadian Funds, except where indicated)

1. Nature of Business and Going Concern

Mirasol Resources Ltd. (“Mirasol” or the “Company”) is incorporated under the laws of the Province of British Columbia, Canada. The Company’s corporate registered and records office is located at 700 – 1199 Hastings Street, Vancouver, British Columbia and the head office is located at 1150-355 Burrard Street, Vancouver, British Columbia.

Mirasol engages in the acquisition and exploration of mineral properties, principally located in Chile and Argentina, with the objective of identifying mineralized deposits economically worthy of subsequent development, mining or sale.

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As of December 31, 2025, the Company had positive working capital of \$485,804 and working capital deficiency of \$1,755,890 as of June 30, 2025, and has incurred losses since its inception and expects to incur further losses in the development of its business. The ability of the Company to continue as a going concern depends upon its ability to raise additional equity and to seek joint venture partners. Additional capital may be sought from existing shareholders loans, and from the sale of additional common shares, assets, other equity or debt instruments.

As the Company is in the exploration and evaluation stage, the Company has not identified a known body of commercial grade mineral on any of its properties. The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company has no source of revenue and has significant cash requirements to meet its administrative overhead and maintain its exploration and evaluation assets. The recovery of the Company’s exploration and evaluation assets is dependent on the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of exploration and evaluation assets. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern. While the Company has been successful in the past with its financing efforts, there can be no assurance that it will be able to do so in the future.

2. Basis of Presentation

Statement of Compliance

The condensed consolidated interim financial statements of the Company have been prepared in accordance with IFRS accounting as issued by the International Accounting Standards Board (“IASB”). These condensed consolidated interim financial statements were prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. They do not include all of the information required for full annual financial statements. These condensed consolidated interim financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the years ended June 30, 2025 and 2024.

The Board of Directors approved the condensed consolidated interim financial statements on February 27, 2026.

Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis. Financial instruments classified as financial instruments at fair value through profit or loss are stated at their fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for the cash flow information.

2. Basis of Presentation (Cont'd...)

Significant Accounting Estimates and Judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the years ended June 30, 2025 and 2024.

Recent Accounting Pronouncements and Adoptions

Classification of liabilities as current or non-current (Amendments to IAS 1)

The IASB has published *Classification of Liabilities as Current or Non-Current* (Amendments to IAS 1) which clarified the guidance on whether a liability should be classified as either current or non-current. The amendments:

- (i) Clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period";
- (ii) Clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and
- (iii) Make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

The amendment was applied effective July 1, 2024, and did not have a material impact on the Company's financial statements.

The IASB issued certain new accounting standards or amendments that are mandatory for accounting periods beginning on or after January 1, 2024, including amendments to IFRS 16 "Leases", amendments to IAS 7 "Statement of Cash Flow" and IFRS 7 "Financial Instruments Disclosures".

The new accounting standards or amendments were applied effective July 1, 2024, and did not have a material impact on the Company's financial statements.

IAS 21 - Lack of Exchangeability

Effective for annual reporting periods beginning on or after January 1, 2025. These amendments clarify the accounting for transactions when the exchange rate is not observable, including the determination of the exchange rate to apply and related disclosures. Although the Company has subsidiaries in Argentina and Chile, where foreign exchange restrictions may exist, the adoption of this amendment did not have a material impact on its condensed consolidated interim financial statements.

Amendments to the SASB Standards to Enhance Their International Applicability

Effective for annual reporting periods beginning on or after January 1, 2025. These amendments are designed to improve the global consistency and comparability of sustainability-related disclosures. The adoption of these amendments did not have a material impact on the Company's condensed consolidated interim financial statements.

2. Basis of Presentation (Cont'd...)

New accounting standards issued but not yet effective

IFRS 18 - Presentation and Disclosure in Financial Statements

IFRS 18 is effective for reporting periods beginning on or after January 1, 2027. It introduces several new requirements that are expected to impact the presentation and disclosure of most, if not all, entities, including new requirements for income statement structure, defined subtotals, enhanced aggregation and disaggregation, and disclosure of management-defined performance measures. The Company is in the process of assessing the impact on the financial statements of the new standard.

3. Cash and Cash Equivalents

Cash and cash equivalents comprise of cash and short-term redeemable Guaranteed Investment Certificates ("GIC") placed with major Canadian financial institutions. Maturity dates of these GICs are within one year.

4. Prepaid Expenses, Receivables and Advances

Prepaid expenses, amounts and other receivables are summarized in the following table:

5. Marketable Securities (Cont'd...)

The Company holds 1,037,794 common shares (June 30, 2025 – 1,037,794) of Silver Sands Resources Corp. (“Silver Sands”).

As of December 31, 2025, the market price of the Silver Sands shares was \$0.09 per share (June 30, 2025 - \$0.045). Accordingly, the Company recorded an unrealized fair value gain of \$46,703 (December 31, 2024 – loss of \$46,701) in the condensed consolidated interim statement of loss and comprehensive loss.

6. Private equity investments

During the quarter ended as of December 31, 2025, the Company received 758,000 shares of Copper Bay Resources (“Copper Bay”) that were received as settlement agreement in regards the Rubi project (note 10 d)). The shares were recorded at cost of AUD \$0.20 per share, for a total value of \$138,665. The investment has been classified as a financial asset measured at fair value through profit or loss. Subsequent to initial recognition, changes in fair value are required to be recognized in profit or loss. As at December 31, 2025, no subsequent remeasurement adjustment was recorded, as the fair value of the shares did not materially differ from their initial recognition amount.

10. Exploration and Evaluation Assets

The Company owns 100% of the mineral exploration rights to a large portfolio of properties focused in two mining regions, namely the Atacama region in northern Chile and the Santa Cruz Province in southern Argentina. As well, the Company holds several other properties in the San Juan and Catamarca provinces of northern Argentina. The Company also focuses on generative exploration to identify and acquire new prospects.

(Expressed in Canadian Funds, except where indicated)

10. Exploration and Evaluation Assets (Cont'd...)

a) Sascha–Marcelina – Option to Sell and Completion of Transaction

On August 13, 2025, the Company entered into a binding Heads of Agreement (the “Agreement”) under which Andara Mining Pty Ltd (“Andara”), an entity subsequently subject to acquisition by Pursuit Minerals Limited (“Pursuit”), obtained an exclusive right to acquire the mineral rights within the Company’s 100% owned Sascha Project and to receive the assignment of the Company’s Option to Purchase Agreement on the Marcelina Project (together, the “Sascha-Marcelina Projects”). Under the Agreement, Andara could acquire an undivided 100% interest in the consolidated project for total consideration of US\$1.5 million.

In December, 2025, the Company completed the transaction, after all conditions precedent under the Agreement were satisfied or waived, including execution of the Royalty Deed, assignment and assumption of the Marcelina Option Agreement with Minera Piuquenes S.A., regulatory approvals, and Pursuit’s shareholder approval on November 24, 2025. At completion, the Company received the US\$1.5 million cash consideration, including credit for the prior deposit of US\$50,000, and Andara—subsequently under Pursuit—assumed all remaining financial obligations under the Marcelina Option Agreement. The Company has been fully released from any future commitments under the option structure.

The Company retains a 1.5% NSR royalty, of which Pursuit (through Andara) has an option—but not an obligation—to repurchase 0.75% for US\$1.5 million and the remaining 0.75% for an additional US\$1.5 million (US\$3 million in total). Furthermore, if the Company decides to sell the royalty, or receives a purchase offer from a third party, Pursuit has a right of first offer to match the terms of such sale. The retained royalty interest has not been recognized as an asset, as its fair value cannot be reliably measured at this early stage of project development.

In connection with the completion of the transaction, the Company wrote-off exploration and evaluation assets related to the Sascha–Marcelina Projects with a carrying value of \$305,308, which were included in the determination of the gain on disposal.

b) Virginia Project – Option to Sell

In November 2025, the Company entered into a definitive agreement (“Definitive Agreement”) with Ampere Metals Pty Ltd (“Ampere Metals”) for the sale of its mineral rights and landholdings within the Virginia Project (“Virginia”) located in Santa Cruz Province, Argentina.

Under the terms of the Definitive Agreement, Mirasol has granted Ampere Metals an initial option to acquire 51% of the Virginia Project for total consideration of US\$4 million, and a further option to acquire the remaining 49% for total consideration of US\$4 million. Mirasol will retain a 2% net smelter royalty.

First Option (US\$ 4.0 million over 3.5 years):

- US\$ 50,000 on signing the Memorandum of Understanding (“MOU”) (received)
- US\$ 300,000 on signing Definitive Agreement (received)
- US\$ 900,000 on the earlier of
 - i) five months after signing Definitive Agreement, and
 - ii) listing of Ampere Metals common shares on a recognized stock exchange
- US\$ 600,000 one year after signing Definitive Agreement
- US\$ 450,000 two years after signing Definitive Agreement
- US\$ 450,000 two and one-half years after signing Definitive Agreement
- US\$ 625,000 three years after signing Definitive Agreement
- US\$ 625,000 three and one-half years after signing Definitive Agreement

10. Exploration and Evaluation Assets (Cont'd...)

b) Virginia Project – Option to Sell (Cont'd...)

Second Option (US\$ 4.0 million over 3.5 years):

- US\$ 1 million four and one-half years after signing Definitive Agreement
- US\$ 1 million five and one-half years after signing Definitive Agreement
- US\$ 1 million six and one-half years after signing Definitive Agreement
- US\$ 1 million seven years after signing Definitive Agreement
- Mirasol retains 2.0% NSR (Net Smelter Return) royalty

Upon exercise of the second option, Ampere Metals will have earned 100% interest in Virginia and Mirasol will retain a 2% NSR royalty. Mirasol will have the right to either sell the 2.0% NSR royalty to Ampere Metals for US\$2 million which Ampere Metals is obligated to purchase. Alternatively, if Mirasol elects to retain the 2.0% NSR royalty Ampere Metals will have the right, but not the obligation to purchase 1.5% NSR royalty for US\$ 3.0 million or the entire 2.0% NSR royalty for US\$ 4.0 million.

If Ampere exercises the first option for 51% but fails to make all payments to exercise the second option, it shall be required to transfer its 51% interest to Mirasol in exchange for a 1% NSR royalty. Mirasol will have the right, but not the obligation, to purchase the 1% NSR royalty for US\$2.5 million for a period of two years following commencement of commercial production.

c) Mendoza Portfolio

In November, 2025, the Company entered into a binding term sheet with Argentina Metals Corp. ("Argentina Metals") providing for the sale of its Mendoza Portfolio, comprising certain mineral rights located in the Province of Mendoza, Argentina. Total consideration for the transaction is US\$50,000 in cash and 1,300,000 common shares of Argentina Metals Corp.

The cash consideration consists of US\$25,000 (received) and an additional US\$25,000 payable at closing.

The share consideration is to be issued in three tranches as follows:

- 433,333 common shares issued at closing (note 14);
- 433,333 common shares issuable upon registration of the transfer of the mineral rights with the Mendoza Mining Authority; and
- 433,334 common shares issuable on the earlier of
 - i. The first anniversary of closing and
 - ii. The listing of Argentina Metals Corp.'s common shares on a recognized Canadian stock exchange.

The consideration shares are deemed to have a value of \$0.50 per share, for an aggregate implied value of \$650,000.

Following completion of the transaction, Mirasol retains no interest in the Mendoza Portfolio.

d) Rubi Project

During the period ended December 31, 2025, the Company executed a Deed of Settlement with MDF Global Limited ACN and MDF Copper Chile Pty Ltd in relation to the Rubi Project option agreement dated June 19, 2020. Under the settlement terms, the Company received US\$50,000 in cash and 758,000 common shares of Copper Bay Resources Ltd issued at A\$0.20 per share in full and final settlement of all outstanding obligations. Upon execution of the Deed, the option agreement was terminated, and the parties mutually released all claims related to the project. The consideration received was recorded as investment income (\$138,665 note 6).

12. Share Capital

a) Authorized Share Capital

The Company's authorized share capital consists of an unlimited number of common shares without par value. All issued common shares are fully paid. As at December 31, 2025 the Company had 88,540,939 common shares outstanding.

i. Financing

Financing during the period ended December 31, 2025, was as follows:

In December, 2025, the Company completed a non-brokered private placement financing issuing 6,689,445 units at a price of \$0.45 per unit for aggregate gross proceeds of \$3,010,250. Each unit consisted of one common share and one-half of one non-transferable common share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at an exercise price of \$0.60 per share for a period of twelve months from the closing date. The securities issued are subject to a four-month statutory hold period in accordance with applicable securities legislation.

In connection with the private placement, the Company paid finder's fees of \$13,932 and \$10,963 for regulatory and other related fees, which were accounted for as share issuance costs and recorded as a reduction of share capital. Two directors and one officer of the Company participated in the private placement and were issued an aggregate of 3,350,556 units.

Financing during the year ended June 30, 2025, was as follows:

In November 2024, the Company completed a non-brokered private placement issuing 11,335,132 units at a price of \$0.45 for aggregate gross proceeds of \$5,100,809. Each unit comprised of one common share and one-half of a non-transferable common share purchase warrant. Each full warrant is exercisable into one common share at a price \$0.60 for one year from closing date. The Company incurred \$29,937 in cash finder's fees, and \$97,542 for regulatory and other related fees.

b) Share Purchase Options ("Options")

The Company has established a share purchase option plan (the "Plan") whereby the Board of Directors may, from time to time, grant Options to directors, officers, employees, and consultants under the long-term incentive plan. Options granted must be exercised no later than five years from the date of grant or such lesser period as determined by the Company's Board of Directors.

The exercise price of an Option is equal to or greater than the closing market price on the TSX Venture Exchange ("TSXV") on the day preceding the date of grant. The vesting terms for each grant are set by the Board of Directors. The Plan provides that the aggregate number of shares reserved for issuance shall not exceed 10% of the total number of issued and outstanding shares. At December 31, 2025, a total of 8,854,094 Options were reserved under the Plan with 6,872,500 Options outstanding.

i. Movements in Share Purchase Options During the Year

c) RSU Plan

On June 17, 2025, the shareholders approved an RSU Plan (the "RSU Plan"). The RSU Plan was also approved by the Board of Directors on June 17, 2025, and by the TSXV on July 31, 2025. The RSU Plan provides for the issuance of up to 1,000,000 restricted share units (the "RSUs"). Under the RSU Plan, RSUs may be granted to directors, officers, employees and consultants of the Company (excluding investor relations consultants) as partial compensation for the services they provide to the Company. The RSU Plan is a fixed number Plan, and independent of the number of Options available under the Company's stock option plan.

During the period ended December 31, 2025, the Company issued nil RSUs (2024 – 51,250). The associated compensation cost, which is based on the underlying share price on the date of grant, is recorded as share based payments expense against share based payment reserve. During the period ended December 31, 2025, the Company recognized \$Nil (2024 - \$Nil) respectively, as share-based payments. As of December 31, 2025, Nil RSUs were outstanding (June 30, 2025 – Nil).

d) Warrants

In December 2025, the Company issued 3,344,725 of share purchase warrants with an exercise price of \$0.60 expiring December 16, 2026. These warrants were outstanding as of December 31, 2025 (June 30 2025 – 5,667,563). The share purchase warrants were issued in connection with the Company's private placement from December 2025 (note 12 a (i)). The Company recorded \$334,473 residual value relating to the warrants.
