Item 5. **Full Description of Material Changes**

The Issuer announced the closing of the first tranche of a non-brokered private placement (the "Offering") for gross proceeds of \$150,000. The Issuer has issued 3,000,000 units (the "Units") at a price of \$0.05 per Unit. Each Unit is comprised of one (1) flowthrough common share and one common share purchase warrant (a "Warrant"). Each Warrant entitles its holder to purchase one (1) common share at a price of \$0.055 per common share until December 12, 2020.

The securities issued in connection with the closing of the first tranche of the Offering are subject to a four-month hold period expiring on April 13, 2019. The Offering is subject to the final approval of the TSX Venture Exchange.

The Issuer intends to raise up to a total of \$500,000 as part of the Offering and issue up to 10,000,000 Units at \$0.05 per Unit. The proceeds from the Offering will be used for flow-through eligible exploration expenses.

Two insiders of the Issuer participated in the first tranche of the Offering and subscribed for an aggregate of 3,000,000 Units representing an aggregate amount of approximately \$150,000. Participation of insiders of the Issuer in the Offering constitutes a "related party transaction" as defined under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Offering is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of securities being issued to insiders nor the consideration being paid by insiders will exceed 25% of the Issuer's market capitalization. The Issuer did not file a material change

report 21 days prior to the closing of the Offering as the details of the participation of insiders of the Issuer had not been confirmed at that time.
