STATEMENT OF EXECUTIVE COMPENSATION

In accordance with the provisions of applicable securities legislation, the Corporation had two (2) “Named Executive Officers” during the financial year ended November 30, 2019, namely Mr. Geir Liland, President CEO and a director since April 27, 2017 and Ms. Jasvir Kaloti, CFO and Corporate Secretary since November 2, 2017 and a director since September 17, 2018.

The Corporation’s process for determining executive compensation is very simple. In particular, the Corporation relies solely on board discussion without any formal objectives, criteria and analysis.

Through its executive compensation practices, the Corporation seeks to provide value to its Shareholders through a strong executive leadership. Specifically, the Corporation’s executive compensation structure seeks to attract and retain talented and experienced executives necessary to achieve the Corporation’s strategic objectives, motivate and reward executives whose knowledge, skills and performance are critical to the Corporation’s success, and align the interests of the Corporation’s executives and Shareholders by motivating executives to increase Shareholder value.

The Corporation does not currently pay any base salary compensation to its Named Executive Officers for their services in their capacity as Named Executive Officers. Compensation to Named Executive Officers currently consists solely of the granting of stock options. In determining executive compensation, the Corporation relies solely on the experience and knowledge of the Board of Directors in terms of appropriate compensation for executive officers with similar abilities and experience.

The Board of Directors has not conducted a formal evaluation of the implications of the risks associated with the Corporation’s compensation policies. Risk management is a consideration of the Board of Directors when implementing its compensation policies and the Board of Directors do not believe that the Corporation’s compensation policies result in unnecessary or inappropriate risk taking including risks that are likely to have a material adverse effect on the Corporation.

Option Based Awards

The Corporation has in effect a stock option plan (the "**Stock Option Plan**") in order to provide effective incentives to directors, officers and senior management personnel and consultants of the Corporation and to enable the Corporation to attract and retain experienced and qualified individuals in those positions by permitting such individuals to directly participate in an increase in per share value created for the Corporation's Shareholders. The Corporation has no equity compensation plans other than the Stock Option Plan. The Stock Option Plan is an important part of the Corporation's long-term incentive strategy for its executive officers. The Stock Option Plan is intended to reinforce commitment to long-term growth in profitability and Shareholder value. The size of stock option grants to executive officers is dependent on each executive officer's level of responsibility, authority and importance to the Corporation and the degree to which such executive officer's long term contribution to the Corporation will be key to its long-term success. Previous grants of stock options are taken into account when considering new grants. The Corporation also grants options to charitable organizations as part of its commitment to social responsibility.

Under the Stock Option Plan, the number of common shares reserved for issuance pursuant to the exercise of stock options is equal to 10% of the issued common shares of the Corporation from time to time. For details of the Stock Option Plan, please refer to the Corporation's Information Circular dated October 21, 2019 available on SEDAR at www.sedar.com.

Use of Financial Instruments

The Corporation does not have a policy that would prohibit a Named Executive Officer or director from purchasing financial instruments, including prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the Named Executive Officer or director. However, management is not aware of any Named Executive or director purchasing such an instrument.

The only plan based award program that the Corporation currently operates with is its Stock Option Plan. The Corporation's current Stock Option Plan was approved by the Shareholders on November 25, 2019. The purpose of the Stock Option Plan is to advance the interests of the Corporation, through the grant of options, by (1) providing an incentive mechanism to foster the interest of directors, officers, employees and consultants in the success of the Corporation; (2) encouraging directors, officers, employees and consultants to remain with the Corporation; and (3) attracting new directors, officers, employees and consultants.

The Stock Option Plan is administered by the Board or the Compensation Committee established by the Board for the purpose of administering the Stock Option Plan. At the present time, option grants are approved by either the Board or the Compensation Committee. It is the responsibility of the granting party to determine:

- (a) persons entitled to receive the option grant;
- (b) the number of options to be granted;
- (c) the exercise price, which shall not be less than market price for the Corporation's common shares at the date of grant;
- (d) an expiry date of no more than ten (10) years after the date of the grant; and
- (e) the manner, if any, in which the option shall vest and become exercisable.
