NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2025 and 2024

(Tabular dollar amounts expressed in thousands of US dollars, except per share amounts and number of shares)

1. Nature of business

Jaguar Mining Inc. (the “Company” or “Jaguar”) is a corporation continued under the *Business Corporations Act* (Ontario) engaged in the acquisition, exploration, development, and operation of gold producing properties in Brazil. The address of the Company’s registered and principal executive office is 25 Adelaide St. East, Suite 1400, Toronto, Ontario, Canada, M5C 3A1.

These condensed interim consolidated financial statements of the Company as at and for the three and nine months ended September 30, 2025 and 2024, include the accounts of the Company and its wholly owned subsidiaries: (i) Mineração Serras do Oeste Ltda. (“MSOL”) and (ii) Mineracao Oncas De Pitangui Ltda. (“MOPL”). All significant intercompany accounts and transactions have been eliminated on consolidation.

MSOL is the operating subsidiary for (i) the Turmalina Complex comprising the Turmalina mine and one processing facility, (ii) the Caeté Complex comprising the Pilar mine and one processing facility, and (iii) the Paciência Complex comprising the Santa Isabel mine which has been on care and maintenance since 2012. MOPL is the operating subsidiary for the Pitangui and Acuruí gold mineral exploration projects which are located, respectively, in proximity to the Turmalina Complex and Paciência Complex.

The Company’s condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). These condensed interim consolidated financial statements do not include all annual disclosures as required by IFRS Accounting Standards as issued by the IASB, and should be read in connection with the Company’s December 31, 2024 audited annual consolidated financial statements.

The condensed interim consolidated financial statements were authorized for issuance by the Board of Directors on November 6, 2025.

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business as they become due.

2. Material accounting policies and significant estimates and judgments

The accounting policies and estimates applied in these condensed interim consolidated financial statements are consistent with those used in the Company’s audited annual consolidated financial statements for the year ended December 31, 2024, except for the adoption of the following which were effective and adopted as of January 1, 2025:

- IAS 21 ‘The Effects of Changes in Foreign Exchange Rates’ – On August 15, 2023, the IASB issued amendments to IAS 21 to specify how to assess whether a currency is exchangeable and how to determine the exchange rate when it is not exchangeable. The amendments specify that a currency is exchangeable when it can be exchanged through market or exchange mechanisms that create enforceable rights and obligations without undue delay at the measurement date and the specified purpose. For non-exchangeable currencies, an entity is required to estimate the spot exchange rate as the rate that would have applied to an orderly exchange transaction between market participants at the measurement date under prevailing economic conditions. The adoption of the amendments to IAS 21 did not affect the financial results or disclosures in the Company’s condensed interim consolidated financial statements.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2025 and 2024

(Tabular dollar amounts expressed in thousands of US dollars, except per share amounts and number of shares)

The following are recent pronouncements approved by the IASB that are pending adoption:

- IFRS 18 ‘Presentation and Disclosure in Financial Statements’ – On April 9, 2024, the IASB issued IFRS 18 replacing IAS 1. IFRS 18 introduces categories and defined subtotals in the statement of profit or loss, disclosures on management defined performance measures, and requirements to improve the aggregation and disaggregation of information in the financial statements. As a result of IFRS 18, amendments to IAS 7 were also issued to require that entities use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities and also to remove presentation alternatives for interest and dividends paid and received. Similarly, amendments to IAS 33 “Earnings per Share” were issued to permit disclosure of additional earnings per share figures using any other component of the statement of profit or loss, provided the numerator is a total or subtotal defined under IFRS 18. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively, with early adoption permitted. The Company is currently assessing the impact of the standard on its consolidated financial statements.

a) Judicial Decision – August 2011 Paciencia Mine Pipeline Rupture

On September 24, 2025, the Minas Gerais State Court of Appeals issued a decision which overturned the collective moral damages previously imposed in a July 2024 first-instance ruling related to the public civil action seeking compensation for environmental and moral damages caused by the Company’s August 29, 2011 Paciência Mine tailings pipeline rupture. As a result, the total fine was reduced by R\$15.0 million (\$2.9 million), and the Company recorded a corresponding \$2.9 million provision reversal. As of September 30, 2025, no appeal is outstanding for this case, but the decision remains subject to appeal by the Public Prosecutor’s Office of the State of Minas Gerais.

b) Satinoco Incident

On December 7, 2024, the Company experienced a slump (the “Incident”) in the north wall of the Satinoco dry tailings pile which belongs to the Turmalina Complex and consists of dry-stacked filtered tailings and waste rock. As a result of the Incident, the Company’s operating license for the Turmalina mine was suspended until further notice.

The Satinoco Incident led to several legal and administrative actions, including claims for community compensation, environmental fines, and a significant Public Civil Lawsuit. All legal matters related to the Satinoco incident known to-date have been addressed and successfully resolved as follows:

- **Public Civil Lawsuit:** On December 9, 2024, the Company became aware of the filing of a Public Civil Lawsuit by the State Public Prosecutor’s Office which, among other things, requested the payment of a compensation in the amount of R\$200.0 million (\$37.6 million). The Company contested the compensation amount and on September 3, 2025 signed a settlement agreement with the State Public Prosecutor’s Office. According to the settlement terms, the assessed compensation amount was reduced from R\$200 million (\$37.6 million) to R\$40.0 million (\$7.5 million) and the payment terms were established as follows: (i) R\$10.0 million (\$1.9 million) payable on completion of an independent technical report and (ii) R\$30.0 million (\$5.6 million) payable in 24 equal monthly installments beginning in March 2026. As at September 30, 2025, the Company is awaiting the finalization of the independent technical report.
- **Environmental Fine:** On December 20, 2024, the Company received a notice of infraction applying an environmental liability fine of approximately R\$320 million (\$60.2 million) from the State Secretariat for the Environment and Sustainable Development (SEMAD) of Minas Gerais. The Company contested the infraction amount and on July 11, 2025 signed a settlement agreement with SEMAD. According to the settlement, the infraction amount was reduced from R\$320.0 million (\$60.2 million) to R\$60.0 million (\$11.3 million) and the payment terms were established as follows: (i) R\$24.5 million (\$4.5 million) to be paid to complete certain

socio-environmental projects in the State of Minas Gerais within 24 months following a 12 month grace period and (ii) R\$35.5 million (\$6.7 million) plus accrued interest to paid to SEMAD in 60 monthly installments following a 12 month grace period. The 60 monthly installments bear interest based on Brazil's SELIC (Sistema Especial de Liquidação e de Custódia) rate calculated as from January 2025 until the date each installment is paid.

- **Community Compensation:** On March 24, 2025, the Company signed an agreement with the Public Defender's Office of Minas Gerais which established parameters ("Fair Compensation Parameters") to be used in fairly determining the compensation of individuals and families impacted by the Incident. Following the execution of this agreement, the impacted individuals and families will work with the Public Defender's Office to identify their right to a compensation claim under the parameters established and then decide (i) to submit a compensation claim in conformity with the Fair Compensation Parameters, (ii) to submit a compensation claim through a separate litigation to be initiated against the Company, or (iii) to refrain from submitting a compensation claim. If all impacted individuals and families submit claims in conformity with the Fair Compensation Parameters, the Company estimates its cost for compensation will be approximately R\$57 million (\$10.7 million). Up through September 30, 2025, the Company paid \$2.0 million (R\$11.3 million) in community compensation payments related to the Satinoco Incident

As at September 30, 2025, the Company has provisioned R\$173.4 million (\$32.6 million) in total liabilities related to the Incident in its condensed interim consolidated statement of financial position to cover eventual indemnities, environmental recovery costs, fines and assessments, according to management's best estimate.

In the three and nine months ended September 30, 2025, the Company paid \$5.5 million and \$13.6 million, respectively, in expense obligations related to the Incident and recorded the following expenses:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2025	2024	2025	2024
Turmalina care and maintenance expenses	\$ 5,196	\$ -	\$ 14,923	\$ -

Turmalina depreciation expense	764	-	2,339	-
Total Satinoco event	\$ 6,127	\$ -	\$ 35,333	\$ -

As at the date of issuance of these condensed interim consolidated financial statements, the Company is conducting authorized, essential preparatory work and is awaiting the regulatory authority to lift the remaining suspensions on the operating license, which will then allow mining operations to resume at the Turmalina mine.

c) Other expense provision

In the nine months ended September 30, 2025, the Company initiated a review of its historical royalty payments and identified that certain royalties were paid to incorrect landowners between June 2022 and June 2025. As at September 30, 2025, the Company has recognized a \$4.0 million other expense provision as its best estimate for the amount due to the correct landowners. The total royalty expense was calculated and recognized accurately in prior period consolidated financial statements. The Company continues to investigate this matter and is pursuing recovery of the amounts paid to incorrect landowners, but no receivable has been recognized as at September 30, 2025, as recovery remains uncertain and is considered a contingent asset.

b) Stock options

The Stock Option Plan ("SOP") provides for the issuance of options to employees, directors, or officers of the Company, its subsidiary, or any of its affiliates, consultants, and management employees.

The aggregate number of shares available at all times for issuance under the SOP shall not exceed 10% of the total issued and outstanding common shares of the Company (calculated on a non-diluted basis). Any option, which has been exercised, cancelled or forfeited, will again be available for grant under the SOP. The Board of Directors has the power to determine terms of any options and units granted under the Company's incentive plans, including setting exercise prices, vesting terms and expiry dates.

The following table shows the movement of stock options for the nine months ended September 30, 2025 and 2024:

	Number of options	Weighted average exercise price (C\$)

c) Deferred share units – “DSUs”

The deferred share unit plan (“DSU Plan”) provides awards to employees, directors, or officers of the Company. DSU means a right to receive, on a deferred basis, previously unissued shares in accordance with the terms of the DSU Plan. DSUs granted to officers, executives, and employees are redeemable upon vesting. DSUs granted to directors are redeemable upon retirement and up to three to twelve months following retirement. Vested DSUs shall be redeemed in whole or in part for shares issued from treasury or, subject to the approval of the Company, cash. The Company accounts for these awards as equity awards. The maximum number of shares reserved for issuance under the DSU Plan, at any time, shall be 3,623,269.

16. Capital disclosures

The Company manages its capital structure in order to support the acquisition, exploration and development of mineral properties, and to maximize return to stakeholders through a flexible capital structure which optimizes the costs of capital and the debt and equity balance. The Company sets the amount of capital in proportion to risk by managing the capital structure and making adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets. To adjust or maintain its capital structure, the Company may adjust the amount of long-term debt, enter into new credit facilities, issue new equity, or enter into new customer advance arrangements.

As at September 30, 2025, the Company's capital structure is composed of \$6.1 million in notes payable and \$246.0 million in shareholders' equity (December 31, 2024: \$3.0 million in notes payable and \$239.5 million in shareholders' equity). As at September 30, 2025 and December 31, 2024, the Company was not subject to externally imposed capital requirements.

17. Financial risk management and financial instruments

The Company's activities expose it to a variety of financial instrument risks, including but not limited to credit risk, liquidity risk, currency risk, interest rate risk, and price risk.

a) Credit risk

The Company is exposed to credit-related losses in the event of non-performance by counterparties to recoverable tax claims and sales agreements, but does not expect any counterparties to fail to meet their obligations. The Company's cash and cash equivalents are held through large financial institutions in Brazil, Canada, and the United States of America. The Company manages its credit risk by entering transactions with high-credit quality counterparties, limiting the amount of exposure to each counterparty where possible, and monitoring the financial condition of the counterparties.

b) Liquidity risk

To manage its liquidity risk, the Company conducts an in-depth budgeting process each year which is supplemented by a continuous detailed cash forecasting process. Future financing requirements, if any, will depend on a number of factors that are difficult to predict and are often beyond the control of the Company. The main factors are the realized price of gold received for gold produced from the Company's operating mines and the operating and capital costs of those mines. The Company's financial liabilities and other commitments are listed in Note 15.

c) Derivative financial instruments

The Company assesses its financial instruments and non-financial contracts on a regular basis to determine the existence of any embedded derivatives which would be required to be accounted for separately at fair value and to ensure that any embedded derivatives are accounted for in accordance with the Company's policy. On an ongoing basis, the Company evaluates its price risk and currency risk and, when envisioned to be beneficial, engages in derivative financial instruments to manage these risks, including gold forward contracts, gold price collar contracts, gold call option contracts, and foreign exchange call and put option contracts. As at September 30, 2025, the Company did not have any derivative positions outstanding (December 31, 2024 – the Company did not have any derivative positions outstanding).

1) Price risk

The Company is exposed to price risk with respect to gold prices on gold sales. The Company evaluates price risk and, when envisioned to be beneficial, may enter into hedge contracts to manage this risk and to secure future sales terms with customers. The Company does not use hedge accounting for these instruments and gain and losses are recorded in earnings as fair value changes occur as a component of revenue. In the nine months ended September 30, 2025, the Company did not enter into any price hedge contracts (no price derivative contracts in the nine months ended September 30, 2024).

2) Currency risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. Financial instruments that impact the Company's net earnings due to currency fluctuations include:

- Brazilian reais denominated cash and cash equivalents, other accounts receivable, recoverable taxes, restricted cash, accounts payable and accrued liabilities, lease liabilities, income taxes payable, reclamation provisions, and legal and other provisions;
- Canadian dollar denominated cash and cash equivalents, recoverable taxes and accounts payable and accrued liabilities, and
- Euro denominated lease obligations.

The Company may, at its discretion, use forward or derivative contracts to manage its exposure to foreign currencies. In the nine months ended September 30, 2025, the Company did not enter into any foreign exchange forward or derivative contracts (nil foreign exchange derivative contracts in the nine months ended September 30, 2024).

d) Interest rate risk

The Company is potentially exposed to interest rate risk on its outstanding borrowings and short-term investments. The Company managed its risk by entering into agreements with fixed interest rates on all of its notes payable with interest rates ranging from 5.9% to 7.3% per annum.

e) Inflation risk

The Company is exposed to risk with respect to inflation. Inflation risk refers to the potential for rising prices in an economy to erode the value of the purchasing power of the Company's cash over time. The Company manages its exposure to inflation risk through a detailed and continuous cost review and cash forecasting process.

f) Changes in liabilities arising from financing activities
