The land package consists of 780 claims stretching over 16,320 hectares (163 square kilometres) and is located 110 kilometres northeast of Thunder Bay, Ontario. Record can own 100 percent of the claims by paying \$300,000 at closing on or before May 31, 2024 and by issuing a total of 6.9 million shares in instalments over a two-year period. The above noted allocation of capital and anticipated timing represents the Issuer's current intentions based upon its present plans and business conditions, which could change in the future as its plans and business conditions evolve. Although the Issuer intends to expend the proceeds from the Offering and its available funds as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Issuer's ability to execute on its business plan.

The most recent audited annual financial statements and interim financial report of the Issuer included a going-concern note. The Issuer is still in the exploration stage and the Issuer has not yet generated positive cash flows from its operating activities, which may cast doubt on the Issuer's ability to continue as a going concern. The Offering is intended to permit the Issuer to continue to explore its properties and conduct additional drilling with the goal of updating mineral resource estimates, and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Issuer.
