FORWARD-LOOKING STATEMENTS

This Annual Information Form contains forward-looking statements regarding the future success of the Company's business that are subject to risk and uncertainties. Examples of such forward-looking statements include, but are not limited to, statements concerning the estimated amount of potential tax reassessments, management's belief that the Company is positioned to achieve market rental rates within the markets in which it operates, the Company's expectation to renew mortgage loans as they become due, the Company's expectation to hold interest rate swap contracts and the related floating rate mortgages until maturity, the Company's belief that loan facilities together with funds on hand and cash generated from operations should provide adequate liquidity and sufficient funds to pay for potential tax reassessments; the Company's expectation that the Bank of Canada will continue to increase its overnight interest rate until it achieves its target inflation range; the Company's belief that there will be sufficient future taxable income to utilize income tax losses; the Company's belief that the recoverability of unrecognized investment tax credits is still in doubt; and the Company's expectation to pay dividends. The material factors and assumptions used to develop forward looking information includes the current level of interest rates in the market, current relationships with the Company's lenders, current capitalization rates and long-term lease agreements supporting income expectations to utilize tax losses.

These forward-looking statements involve known and unknown risks and uncertainties that may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied in these forward-looking statements. These risks include risks related to the real estate industry generally, such as, financing and interest rates, demand for office, industrial, commercial and multi-family rentals, illiquidity of real estate investments, non-renewal of tenant leases, risks associated with residential development and related zoning and other permits approvals, joint ventures and co-ownerships, fluctuation in real estate values, geographic concentration of the business, environmental matters and uninsured losses, income tax risk including reassessment and the sufficiency of taxable income to utilize losses and the COVID-19 pandemic. Although the forward-looking statements contained herein are based upon what management believes to be current and reasonable assumptions, the Company cannot assure readers that actual results will be consistent with

these forward-looking statements. The forward-looking statements contained herein are made as of the date of this Annual Information Form and are expressly qualified in their entirety by this cautionary statement. Except as required by law, the Company undertakes no obligation to publicly update or revise any such forward-looking statements to reflect any change in its expectations or in events, conditions or circumstances on which any such forward-looking statements may be based, or that may affect the likelihood that actual results will differ from those set forth in the forward-looking statements.

The building was constructed in 1966 and has a mix of bachelor, 1 bedroom and 2 bedroom units for rent. The common area, parking lot and 12 of the 54 units have been upgraded since this property was acquired.

Other Properties

Madison has a 50% interest in the Silverdale Hills LP which owns approximately 1,402 acres of residential development lands in Mission, British Columbia as of the date of this Annual Information Form. In June 2020, the Silverdale Hills LP commenced development of 162 townhomes and 65 single family lots on the site, which consumed approximately 38 acres of land inventory (see "Silverdale Hills LP"). Development of this first project is managed by the other 50% partner, a major residential developer. See "Joint Venture Residential Developments" below.

Competitive Conditions

Madison competes for suitable real property investments with other real estate investment companies, trusts, pension funds and other institutional investors. Many of these investors have greater financial

resources than Madison. An increase in the availability of investment capital and an increase in demand for real property investments would likely result in increased competition for real property investments, thereby increasing purchase prices and reducing the yields from such investments.

Employees

Madison had 10 full-time employees as at November 22, 2022.

RISK FACTORS

The real estate industry is subject to various operating risks. In evaluating Madison and its business, an investor should consider carefully the following risk factors in addition to the other information contained herein.

Real Estate Industry

Investment properties are subject to varying degrees of risk. Such risks include changes in general economic conditions (such as the availability and cost of mortgage funds), local conditions (such as an over-supply of space or a reduction in demand for real estate in the area), the attractiveness of the properties to tenants, competition from others with available space and the ability of Madison to provide adequate maintenance at an economic cost.

Certain significant expenditures, including property taxes, maintenance costs, mortgage payments, insurance costs and related charges, must be made regardless of whether or not a property is producing sufficient income to cover such expenses. The real estate properties of Madison are subject to mortgages that require ongoing debt payments and repayments of outstanding amounts on maturity. If Madison is unable or unwilling to make mortgage repayments on any property, losses could be sustained as a result of the lenders exercising their rights of foreclosure or sale.

Real estate is relatively illiquid. Such illiquidity will tend to limit Madison's ability to vary its portfolio promptly in response to changing economic or investment conditions. Financial difficulties of other property owners resulting in distress sales may further depress real estate values in many of the markets in which Madison operates.

Madison manages these risks through ownership of good quality properties combined with a diverse tenant base. As at August 31, 2022, no one commercial tenant accounted for more than 12.24% (August 31, 2021 – 13.45%) of the commercial rental revenue of Madison and lease maturities are staggered such that as at August 31, 2022, no more than 27.59% (August 31, 2021 – 27.73%) of the rental space was subject to renewal in any one year.

Revenue-Producing Properties

The revenue-producing properties of Madison generate income through rental receipts from tenants. Upon the expiry of any lease, there is no assurance that the lease will be renewed or the tenant replaced. The terms of any subsequent lease may be less favourable to Madison than the existing lease. Furthermore, at any time, a tenant of Madison's properties may seek the protection of bankruptcy, insolvency or similar laws which could result in the rejection and termination of such tenant's lease and a resultant reduction in cash flow available to Madison.

The Company has a 50% interest in a 54-unit apartment building in Vancouver, British Columbia. In addition to risks similar to commercial income properties, residential apartments are typically subject to greater government regulation.

COVID-19 Pandemic

The COVID-19 pandemic has caused financial market disruption, social dislocation, and temporary business closures or curtailed operations, particularly in the restaurant and retail sectors. While governments have eased COVID-19 restrictions and businesses have reopened, given the uncertainty regarding the expected length of the pandemic and the number of new variants, there are still some restrictive measures in place. The continuing risks and uncertainties arising from the COVID-19 pandemic include, but are not limited to, the tenants' ability to pay rent or to pay rent in a timely manner, the impact of related current and future government countermeasures, domestic and global supply chain disruption and demand and supply of the labour market.

Joint Venture Residential Developments

Madison has two properties held through separate 50/50 joint ventures where the lands have residential and mixed-use development potential under the current respective official community plans. The Company, in conjunction with its joint venture partners is at various stages with the properties, including commencing development on a section of one site (see "Silverdale Hills LP"), and is currently investigating the feasibility and redevelopment potential of the properties, including rezoning requirements. The joint ventures, which are described below, are accounted for using the equity method of accounting.

Silverdale Hills LP

Madison has a 50% interest in the Silverdale Hills LP which owns approximately 1,402 acres of residential development lands in Mission, British Columbia as of the date of this Annual Information Form. In the year ended August 31, 2022, the Company made additional equity investments of \$8,571 in the Silverdale Hills LP. In the year ended August 31, 2021, the Company made equity investments of \$5,555 in the Silverdale Hills LP. The additional equity was required to fund development costs and the acquisition of additional parcels of undeveloped residential land. In June 2020, the Silverdale Hills LP commenced development of 162 townhomes and 65 single family lots on the site, which consumed approximately 38 acres of land inventory. The townhome development is being constructed in four phases. As of the date of this Annual Information Form, approximately 82% of the four phase townhome development has been completed and sold and of the remaining townhome units, 100% have been presold. In respect of the single family lot development, 61 units have been committed for sale to a single developer of which 34 lots have been sold as of the date of this Annual Information Form. Development of this project is managed by Madison's partner, a major residential developer. Redevelopment of further properties on this site is subject to economic feasibility and obtaining all necessary approvals, including rezoning, none of which are certain as of the date of this Annual Information Form.

In March 2022, the Silverdale Hills LP entered into a contract to purchase approximately 19 acres of residential development lands in Mission, British Columbia for \$25,000 excluding closing costs and taxes. The purchase is scheduled to close in March 2025 and required an initial deposit of \$7,500 and an additional deposit of \$2,500 in September 2023. In September 2022, the Silverdale Hills LP purchased approximately 11 acres of residential development lands in Mission, British Columbia for \$14,783 including closing costs and taxes.

Barnet LP

Madison has a 50% interest in the Barnet LP which owns a retail property in Coquitlam, British Columbia. The Barnet LP has submitted an application to the City of Coquitlam to redevelop this site into a residential and mixed-use property. The proposal to the City of Coquitlam is to construct three buildings with a total of 1,061 residential units, and one building with 300 residential rental units and 145,700

square feet of commercial space. Redevelopment of this site is subject to economic feasibility and obtaining all necessary approvals, including rezoning and development approvals, none of which are certain as of the date of this Annual Information Form.

Risks Associated with Residential Development Activities

There are a variety of risks associated with the Company's development activities such as municipal regulatory requirements and environmental considerations that affect the approval for planning, subdivision and use of land. During this period, market conditions may change dramatically. Other risks include increasing costs of construction, contractual risk, shortage of experienced labour in the construction industry, reduced demand for new residential units, changes in regulations and taxes, and general market risk. The Company is also subject to risk that the actual performance of development properties acquired by the Company may be materially different from the assumptions made by management of the Company when purchasing the properties or initiating development. The Company manages the risks associated with its development activities by entering into joint ventures with experienced developers with a long history of successful development in Metro Vancouver.

Joint Ventures and Co-ownerships

The Company participates in joint ventures, partnerships and similar arrangements that may involve risks and uncertainties not present absent third-party involvement, including, but not limited to, Madison's dependency on partners, co-tenants or co-venturers that are not under the Company's control and that might become bankrupt or otherwise fail to fund their share of required capital contributions, or suffer reputational damage that could have an adverse impact on the Company. Additionally, the Company's partners might at any time have economic or other business interests or goals that are different than or inconsistent with those of Madison, and the Company may be required to take actions that are in the interest of the partners collectively, but not in Madison's sole best interests. Accordingly, Madison may not be able to favourably resolve issues with respect to such decisions, or the Company could become engaged in a dispute with any of them that might affect our ability to operate the business or assets in question.

Fluctuations in Real Estate Values

The commercial and industrial real estate industry is subject to variability and fluctuations in real estate values. The Company has elected to report its investment properties at fair value. Fair value represents the amount at which the properties could be exchanged between a knowledgeable and willing buyer and seller in an arm's length transaction at the date of valuation. Adjustments will be made to the fair values when changes in the underlying valuation assumptions occur.

The COVID-19 pandemic and the geopolitical events in the world has caused global economic disruption and rising inflation and interest rates. This has increased the risk and uncertainty surrounding valuation estimates due to limited market activity for comparable transactions, as well as uncertainty regarding the expected length of these events and the resulting impact on the Company's cash flows from investment properties. Downturns in the real estate market could negatively impact the fair values of the Company's investment properties.

Geographic Concentration

Madison currently carries on the majority of its business in British Columbia, and predominantly in Metro Vancouver. However, the company has some geographic diversification with properties located in Alberta and Ontario. An economic downturn in any of these markets could cause leasing rates to decline, which

could have a material adverse effect on the business and negatively affect the results of operations and financial condition of Madison.

Environmental Matters and Climate Change Risk

As an owner of investment properties, Madison is subject to various Canadian federal, provincial, and municipal laws relating to environmental matters. Such laws provide that Madison could be liable for costs of removal and remediation of certain hazardous substances or wastes released or deposited on or in its properties or disposed of at other locations. The failure to remove or remediate such substances, if any, could adversely affect Madison's ability to sell such real estate or pledge real estate as collateral for borrowing. In addition, such a situation could potentially result in claims against Madison. Madison is not aware of any material pending or threatened investigations or actions by environmental regulatory authorities in connection with any of its properties or any material pending or threatened claims relating to environmental conditions at its properties. It is also possible that asbestos containing material (ACM) and polychlorinated biphenyls (PCB) in light fixtures may be present at some properties which may result in future removal and disposal costs, however management is not aware of any such presence.

Madison has formal procedures to review and monitor environmental exposure on an ongoing basis and conducts thorough environmental due diligence as part of its acquisition process. Madison has made and will continue to make the necessary capital expenditures to ensure compliance with environmental laws and regulations. Environmental laws and regulations can change at any time and Madison may become subject to more stringent environmental laws and regulations in the future. Compliance with more stringent environmental laws and regulations could have a material adverse effect on Madison's business, financial condition and results of operations.

Natural disasters and severe weather such as floods, blizzards and rising temperatures may result in damage to the properties. The extent of Madison's casualty losses and loss in operating income in connection with such events is a function of the severity of the event and the total amount of exposure in the affected area. Madison is also exposed to risks associated with inclement winter weather, including increased need for maintenance and repair of its buildings. In addition, climate change, to the extent it causes changes in weather patterns, could have effects on the Company's business by increasing the cost of property insurance, and/or energy at the properties. As a result, the consequences of natural disasters, severe weather and climate change could negatively affect the results of operations and financial condition of Madison.

General Uninsured Losses

Madison carries comprehensive general liability, fire, flood, extended coverage and rental loss insurance with policy specifications, limits and deductibles customarily carried for similar properties. There are, however, certain types of risks (generally of a catastrophic nature such as from wars or environmental contamination) which are either uninsurable or not insurable on an economic basis. Madison currently has insurance for flood and earthquake risks, subject to certain policy limits, deductibles, and self-insurance arrangements, and will continue to carry such insurance so long as it is economical to do so. Should an uninsured or underinsured loss occur, Madison could lose its investment in, and anticipated profits and cash flows from, one or more of its properties, while still being obligated to repay any recourse mortgage indebtedness on such properties. If a loss occurs in excess of insured limits, Madison could lose all or part of its investment in, and anticipated profits and cash flows from such property.

Income Taxes

The Company and certain subsidiaries have received from the Canada Revenue Agency ("CRA") and Alberta Tax and Revenue Administration ("ATRA") tax notices of reassessment for various taxation

years. The reassessments deny the application and usage of certain non-capital losses, capital losses, deductions and investment tax credits arising from prior years. In addition, the CRA and ATRA are disallowing unclaimed carryforward non-capital losses of \$657, carryforward capital losses of \$6,494, carryforward investment tax credits of \$5,503. As a result, additional taxes payable for the reassessed years, including interest, total \$38,790. The Company and its subsidiaries have filed notices of objection and notices of appeal to the reassessments with the CRA and ATRA. To object to the reassessments, the Company and its subsidiaries were required to make deposits totalling \$18,799 for a portion of the taxes and interest the CRA and ATRA have claimed are owed. The Company and its subsidiaries have made these deposits and they are included in other non-current assets. Additional estimated interest accruing on the unpaid portion of the reassessments was approximately \$6,350 as at August 31, 2022.

The Company's trial with the Tax Court of Canada completed in March 2022 with a decision not expected for several months. The Company's subsidiary has been advised by the Tax Court of Canada that a trial date will be scheduled for the fall of 2023 although no specific date has been scheduled at this time. The previously scheduled trial date for the Company's other subsidiary has been deferred and no new date has been confirmed. The Company and its counsel believe that its filing positions for the Company and subsidiaries described above are appropriate and in accordance with the law. It is defending such positions as required. Accordingly, the Company has not recorded a liability in the consolidated financial statements for the reassessed taxes payable and related interest described above nor has it reduced the carrying value of deferred income tax assets recorded for unused carryforward amounts. If the Company is ultimately successful in defending its positions, deposits made plus applicable interest will be refunded to the Company. There is no assurance that the Company's objections and appeals will be successful. If the CRA and ATRA are successful, the Company will be required to pay the balance of taxes reassessed plus applicable interest and derecognize deferred income tax assets related to the carryforward amounts.

The Company believes it has sufficient funds and sources of funds to pay for potential tax reassessments.

Interest Rate Fluctuations

Madison's capital structure involves risks primarily associated with leverage and interest rates. Madison's financing includes some indebtedness with interest rates set on a floating rate basis which could result in fluctuations in Madison's cost of borrowing.

The Bank of Canada has increased its overnight interest rate by 350 basis points in 2022 as of the date of this Annual Information Form in an attempt to bring inflation under control. Inflation in Canada is at its highest level in four decades and is a result of, but not limited to the effects of, the tight labour market, global supply chain disruptions, strong economic growth and the war in Ukraine. The Bank of Canada is expected to continue to increase its overnight interest rate until it achieves its target inflation range. Rising interest rates directly affect the Company's cost of debt capital.

The Company maintains a conservative approach to managing debt capital with leverage ratio of 45.8% at August 31, 2022 (August 31, 2021 - 46.4%). Leverage ratio is a non-GAAP measure and is not a generally accepted measure under IFRS but management uses it as a supplementary financial measure. The leverage ratio is calculated as total debt on investment properties (before netting of deferred financing costs) divided by the fair value of investment properties. The Company's calculation of leverage may differ from other companies and, accordingly, may not be comparable to other companies' calculation of leverage. Madison has mitigated interest rate risk by refinancing 97.5% of its debt on investment properties (mortgage loans, excluding lease liabilities) at fixed rates ranging from 1.97% to 4.33% per annum and staggering maturities up to five years so that no more than 33.4% of such debt matures in one year. The Company has variable rate borrowings as of August 31, 2022 of \$7,750 (August 31, 2021 - \$7,750), which bear interest ranging from bank prime rate plus 0.60% to 0.75% and

Banker's Acceptance rate plus 2.35% (August 31, 2021 – prime rate plus 0.60% to 0.75% and Banker's Acceptance rate plus 2.35%). The Company has not experienced any difficulties in renewing mortgages as they have become due. The Company also mitigates interest rate risk by entering into interest rate swaps. As at August 31, 2022, the Company had entered into interest rate swaps with Canadian Chartered banks on five mortgages to reduce the impact of fluctuating interest rates and fix the Company's interest rates. The swaps had notional amounts as at August 31, 2022 totaling \$88,087, fixed swap rates ranging from 2.52% to 3.90%, and maturity dates ranging from September 2022 to February 2025. The total notional amount of the interest rate swaps represented 28.5% as at August 31, 2022 (August 31, 2021 - 38.0%) of the total debt on investment properties (before netting of deferred financing costs and fair value adjustments to assumed debt and excluding lease liabilities). The Company anticipates holding the mortgages and interest rate swap contracts until maturity.

The weighted average interest rate on fixed rate mortgage debt as at August 31, 2022 was 3.34% (August 31, 2021 - 3.32%). Madison has approximately \$7,750 in floating rate mortgages. The Barnet LP, of which the Company owns a 50% interest and is accounted for using the equity method, has a floating rate demand loan of \$29,250 which matures in September 2023. The Silverdale Hills LP, of which the Company owns a 50% interest and is accounted for using the equity method, has a floating rate demand construction loan facility to a maximum of \$35,651 as at August 31, 2022. As at August 31, 2022, \$13,997 and letters of credit totalling \$2,215 had been drawn against the facility.

The Company has a line of credit that bears interest at bank prime rate plus 1.0% or the Banker's Acceptance rate plus 2.50%. The line of credit may be used for general business purposes and the amount available for such uses varies with the value of investment properties pledged, up to a maximum of \$20,000. As at August 31, 2022, \$nil had been drawn on the line of credit. The Company's variable interest rate borrowings represent 2.5% (August 31, 2021 – 2.8%) of total borrowings. The impact of a 1.0% interest rate change on the Company's variable rate debt would increase or decrease interest expense and pre-tax earnings by \$78 (August 31, 2021 - \$78) per year.

These loan facilities, together with funds on hand and cash generated by operations, should provide adequate liquidity to meet the Company's obligations as they become due.

DIVIDENDS

Madison initiated a formal dividend policy in 2007. An annual dividend of \$0.105 per share is payable to each shareholder semi-annually in February and September of each year. Dividends were paid under this policy in February and September, from 2008 to 2022. The payment of dividends is subject to available cash resources.

The Company has declared four special dividends, \$0.23 per share in February, 2009, \$0.35 per share in October, 2011, \$0.3415 per share in September, 2016 and \$0.34 per share in April, 2021.

All dividends paid by the Company are eligible dividends unless the Company indicates otherwise.

CAPITAL STRUCTURE

Authorized and Issued Share Capital

The authorized share capital of Madison consists of an unlimited number of Class A non-voting preferred shares without par value, issuable in series (the "Class A Preferred Shares"), an unlimited number of Class B voting common shares without par value (the "Class B Shares"), an unlimited number of Class C

non-voting shares without par value (the “Class C Shares”) and an unlimited number of Old Common Shares without par value.

The Class B Shares entitle a holder thereof to one vote for each share held at all meetings of shareholders, other than meetings at which only holders of a specified class or series are entitled to vote.

The Class C Shares entitle a holder thereof to receive notice of, attend and be heard at all meetings of shareholders, other than meetings at which only holders of a specified class or series are entitled to vote, but are not entitled to vote at such meetings. If an offer is made to purchase Class B Shares that is not made concurrently with an offer to purchase Class C Shares or if the price and terms offered for the Class C Shares is different than that offered for the Class B Shares, the Class C Shares will be entitled to be converted into Class B Shares on a one for one basis, during specified periods during the period of offer for the purpose of depositing those shares to that offer. Any election shall be deemed to also constitute an irrevocable agreement by the holder exercising such rights of conversion not to vote any converted shares. Any election to convert will be deemed to have been withdrawn and be an election to convert back to Class C Shares in certain circumstances as set forth in the special rights and restrictions attached to the Class C Shares, including if more than 50% of the holders of the Class B Shares advise the transfer agent that they will not be depositing shares pursuant to the offer or if the offer is withdrawn or abandoned or if it is not completed within applicable times. Class C Shareholders are cautioned that the conversion rights described herein are limited to very specific circumstances and in no event will entitle a holder of Class C Shares to vote on any item of business, including the election of directors of Madison.

The Class B Shares and the Class C Shares rank equally with one another as to payment of dividends and the participation in the distribution of assets in the event of liquidation, dissolution and winding-up, subject to the rights and privileges, restrictions and conditions attaching to the Class A Preferred Shares.

The Class A Preferred Shares are issuable from time to time in one or more series. The board of directors of Madison is empowered to fix the number, consideration per share and the designation and the provisions attaching to the shares of each series, including the right to vote. The Class A Preferred Shares of each series will rank prior to the Class B Shares and the Class C Shares and on a parity with the Class A Preferred Shares of every other series with respect to dividends and return of the amount paid up thereon.

The Old Common Shares represent the former common shares of Princeton exchanged under the Plan. No Old Common Shares are issued.

Stock Option Plan

The Company implemented a share option plan (the “Plan”) effective January 1, 2019. Under the Plan, the Company reserves Class B Shares equal to 2% of aggregate outstanding Class B Shares and Class C Shares for issuance upon the exercise of share options granted under the Plan. The Plan provides that share options may be issued only to executives, employees and outside directors of the Company or of any of its subsidiaries and that options granted to insiders (as defined by Toronto Stock Exchange rules) shall not exceed 10% of the outstanding Class B Shares within a one year period, or at any time when aggregated with any other stock based compensation arrangement.

The Plan and the terms of options granted, including the exercise price, the expiry time (subject to a maximum 5-year term), the vesting period and other terms and conditions relating to such options, shall be administered by the Board of Directors or any committee to which such authority is delegated by the Board of Directors. The exercise price may not be lower than the greater of the last closing price of the Class B Shares on the Toronto Stock Exchange or the average closing price of the Class B Shares for the 5 previous trading days as of the date of grant.

As at the date of this Annual Information Form, there are no options outstanding.

APPENDIX A

Madison Pacific Properties Inc.

Audit Committee Mandate and Charter

I. The Board of Directors' Mandate for the Audit Committee

1. *The Board of Directors* ("Board") bears responsibility for the stewardship of Madison Pacific Properties Inc. (the "Corporation"). To discharge that responsibility, the Board is obligated by the *Canada Business Corporations Act* to supervise the management of the business and affairs of the Corporation. The Board's supervisory function involves Board oversight or monitoring of all significant aspects of the management of the Corporation's business and affairs.

Financial reporting and disclosure by the Corporation constitute a significant aspect of the management of the Corporation's business and affairs. The objective of the Board's monitoring of the Corporation's financial reporting and disclosure (the "Financial Reporting Objective") is to gain reasonable assurance of the following:

- (a) that the Corporation complies with all applicable laws, regulations, rules, policies and other requirements of governments, regulatory agencies and stock exchanges relating to financial reporting and disclosure;
- (b) that the accounting principles, significant judgments and disclosures which underlie or are incorporated in the Corporation's financial statements are the most appropriate in the prevailing circumstances;
- (c) that the Corporation's quarterly and annual financial statements are accurate and present fairly the Corporation's financial position and performance in accordance with International Financial Reporting Standards ("IFRS"); and
- (d) that appropriate information concerning the financial position and performance of the Corporation is disseminated to the public in a timely manner.

The Board is of the view that the Financial Reporting Objective cannot be reliably met unless the following activities (the "Fundamental Activities") are conducted effectively:

- (a) the Corporation's accounting functions are performed in accordance with a system of internal financial controls designed to capture and record properly and accurately all of the Corporation's financial transactions;
- (b) the Corporation's internal financial controls are regularly assessed for effectiveness and efficiency;
- (c) the Corporation's quarterly and annual financial statements are properly prepared by management;
- (d) the Corporation's annual financial statements are reported on, once audited by an external auditor appointed by the shareholders of the Corporation; and

- (e) the financial components of the Corporation's Disclosure Policy are complied with by management and the Board.

To assist the Board in its monitoring of the Corporation's financial reporting and disclosure, the Board has established, and hereby continues the existence of a committee of the Board known as the Audit Committee (the "Committee"). The Committee shall develop and present to the Board for the Board's approval a Charter which, amongst other things, will describe the activities in which the Committee will engage for the purpose of gaining reasonable assurance that the Fundamental Activities are being conducted effectively and that the Financial Reporting Objective is being met.

2. *Composition of Committee*

- (a) The Committee shall be appointed annually by the Board and consist of at least 3 members from among the directors of the Corporation, each of whom shall be an independent director and free from any relationship that, in the opinion of the Board, would interfere with the exercise of his or her independent judgment as a member of the Committee. Executive officers of the Corporation, may not serve as members of the Audit Committee; and
- (b) The Board shall designate the Chairman of the Committee.

3. *Reliance on Experts*

In contributing to the Committee's discharging of its duties under this mandate, each member of the Committee shall be entitled to rely in good faith upon:

- (a) financial statements of the Corporation represented to him or her by an officer of the Corporation or in a written report of the external auditors to present fairly the financial position of the Corporation in accordance with IFRS; and
- (b) any report of a lawyer, accountant, engineer, appraiser or other person whose profession lends credibility to a statement made by any such person.

4. *Limitations on Committee's Duties*

In contributing to the Committee's discharging of its duties under this mandate, each member of the Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this mandate is intended, or may be construed, to impose on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which all Board members are subject. The essence of the Committee's duties is monitoring and reviewing to gain reasonable assurance (but not to ensure) that the Fundamental Activities are being conducted effectively and that the Financial Reporting Objective is being met and to enable the Committee to report thereon to the Board.

II. Audit Committee Charter

The Audit Committee's Charter outlines how the Committee will satisfy the requirements set forth by the Board in its mandate. This Charter comprises:

- A. Operating Principles
- B. Operating Procedures
- C. Specific Responsibilities and Duties

A. Operating Principles

The Committee shall fulfill its responsibilities within the context of the following principles.

1. Committee Values

The Committee expects the management of the Corporation to operate in compliance with the Corporation's Code of Business Conduct and Ethics and corporate policies, with laws and regulations governing the Corporation and to maintain strong financial reporting and control processes.

2. Communications

The Chairman (and others on the Committee) expects to have direct, open and frank communications throughout the year with management, other Committee Chairmen, the external auditors and other key Committee advisors as applicable.

3. Financial Literacy

All Audit Committee Members should be sufficiently versed in financial matters to understand the Corporation's accounting practices and policies and the major judgments involved in preparing the financial statements.

4. Annual Audit Committee Work Plan

The Committee, in consultation with management and the external auditors, shall develop an annual Audit Committee Work Plan responsive to the Committee's responsibilities as set out in this Charter. In addition, the Committee, in consultation with management and the external auditors, shall develop and participate in a process for review of important financial topics that have the potential to impact the Corporation's financial disclosure.

5. Meeting Agenda

Committee meeting agendas shall be the responsibility of the Chairman of the Committee in consultation with Committee members, senior management and the external auditors.

6. Committee Expectations and Information Needs

The Committee shall communicate its expectations to management and the external auditors with respect to the nature, timing and extent of its information needs. The Committee expects that written materials will be received from management and the external auditors at least one week in advance of meeting dates.

7. External Resources

To assist the Committee in discharging its responsibilities, the Committee may, in addition to the external auditors, at the expense of the Corporation, retain one or more persons having special expertise.

8. In Camera Meetings

At each meeting of the Committee, the members of the Committee may meet in private session with the external auditors, with management, and with the Committee members only.

9. Reporting to the Board

The Committee, through its Chairman, shall report after each Committee meeting to the Board at the Board's next regular meeting.

10. Committee Self Assessment

The Committee shall annually review, discuss and assess its own performance. In addition, the Committee shall periodically review its role and responsibilities.

11. The External Auditors

The Committee expects that, in discharging their responsibilities to the shareholders, the external auditors shall be accountable to the Board through the Committee. The external auditors shall report all material issues or potentially material issues to the Committee.

B. Operating Procedures

1. The Committee shall meet at least two times annually or more frequently as circumstances dictate. Meetings shall be held at the call of the Chairman, upon the request of two (2) members of the Committee or at the request of the external auditors.
2. A quorum shall be a majority of the members.
3. Unless the Committee otherwise specifies, the Secretary or Assistant Secretary of the Corporation shall act as Secretary of all meetings of the Committee.
4. In the absence of the Chairman of the Committee, the members shall appoint an acting Chairman.
5. A copy of the minutes of each meeting of the Committee shall be provided to each member of the Committee and to each director of the Corporation in a timely fashion.

C. Specific Responsibilities and Duties

To fulfill its responsibilities and duties, the Committee shall:

Financial Reporting

1. review the Corporation's quarterly and annual financial statements, and related management discussion and analysis with management to gain reasonable assurance that the statements are accurate, complete, represent fairly the Corporation's financial position and performance and are in accordance with IFRS and report thereon to the Board before such financial statements are approved by the Board;
2. review the Corporation's annual financial statements with the external auditors to gain reasonable assurance that the statements are accurate, complete, represent fairly the Corporation's financial position and performance and are in accordance with IFRS and report thereon to the Board before such financial statements are approved by the Board;
