2. Summary of significant accounting policies and critical accounting estimates

a. Basis of presentation

These condensed interim consolidated financial statements for the nine months ended May 31, 2022 have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting”. The condensed interim consolidated financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended August 31, 2021, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

The condensed interim consolidated financial statements have been prepared using the same accounting policies and methods as those used in the annual consolidated financial statements for the year ended August 31, 2021. The condensed interim consolidated financial statements have been presented in Canadian dollars rounded to the nearest thousand unless otherwise indicated.

These condensed interim consolidated financial statements were approved by the Board of Directors for issue on July 14, 2022.

b. Principles of consolidation

Subsidiaries

These condensed interim consolidated financial statements incorporate the assets and liabilities of all entities controlled by the Company and the results of all controlled entities. Controlled entities are those entities over which the Company has i) the power to govern the financial and operating policies, ii) the right to receive benefits from that entity, and iii) the ability to use its operating decisions to alter the benefits received. These criteria are met by having a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. In addition, for consolidation purposes, factors may exist where an entity may consolidate without having more than 50% of the voting power through ownership or agreements, or in the circumstances of enhanced minority rights, as a consequence of *de facto* control. *De facto* control is control without the legal right to exercise unilateral control, and involves decision-making abilities that are not shared with others and the ability to give direction with respect to the operating and financial policies of the entity concerned. Where control of a subsidiary ceases during a financial year, its results are included up to the point in the year when control ceases. Where control of an entity is acquired during a financial year, its results are

included in the consolidated statement of income and comprehensive income from the date on which control commences.

The Company's subsidiaries are Metro Vancouver Properties Corp. ("Metro"), MP Western Properties Inc., 1073774 Properties Inc., 3530639 Canada Inc., 801325 B.C. Ltd., the MPW Properties Partnership, Madison Silverdale Developments Corp., Madison Developments 2800 Barnet Ltd., the MT Properties Limited Partnership, and MT Management Inc. The Company holds a 100% interest in MP Western Properties Inc., 1073774 Properties Inc., 3530639 Canada Inc., Madison Silverdale Developments Corp. and a 99.8% interest in Metro which holds a 100% interest in the MPW Properties Partnership, 801325 B.C. Ltd., and Madison Developments 2800 Barnet Ltd., a 60.9% interest in the MT Properties Limited Partnership, and a 75% interest in MT Management Inc.

All inter-company balances, transactions, and unrealized profits resulting from inter-company transactions are eliminated.

Non-controlling interests

Non-controlling interests represent equity interests in subsidiaries owned by outside parties. The share of net assets of subsidiaries attributable to non-controlling interests is presented as a component of equity. Changes in the parent company's ownership interest in subsidiaries that do not result in a loss of control are accounted for as equity transactions.

Joint arrangements

The Company classifies its interests in joint arrangements as either a joint venture or a joint operation. A joint arrangement is a contractual arrangement whereby the Company and other parties undertake an economic activity that is subject to joint control. A joint arrangement is classified as a joint venture when the parties to the joint arrangement have rights over the net assets of the joint arrangement, whereas a joint arrangement is classified as a joint operation when the arrangement provides rights to assets and obligations for liabilities for the parties sharing joint control. Joint operations are accounted for using the proportionate consolidation method whereby the Company's share of assets, liabilities, income, expenses and cash flows of jointly controlled operations are combined with the equivalent items in the results on a line-by-line basis. Joint ventures are accounted for using the equity method as follows:

- Investments are initially recognized at cost.
- Investments in joint ventures include goodwill and intangible assets identified on acquisition, net of any accumulated impairment loss.
- The Company's share of its joint ventures' post-acquisition profits or losses is recognized in the consolidated statement of income and comprehensive income.
- Dividends and distributions receivable from joint ventures reduce the carrying amount of the investment.
- The Company's liability with respect to its joint ventures is limited to its net investment where it has no obligation to fund any subsequent losses should they arise. There is no obligation beyond the initial investment.
- Joint ventures are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

(unaudited)

(expressed in thousands of Canadian dollars, except number of shares and per share amounts)

Associates

Associates are entities over which the Company has significant influence but not control. Investments in associates are accounted for using the equity method as follows:

- Investments are initially recognized at cost.
- Investments in associates include goodwill and intangible assets identified on acquisition, net of any accumulated impairment loss.
- The Company's share of its associates' post-acquisition profits or losses is recognized in the consolidated statement of income and comprehensive income.
- Dividends and distributions receivable from associates reduce the carrying amount of the investment.
- The Company's liability with respect to its associates is limited to its net investment where it has no obligation to fund any subsequent losses should they arise. There is no obligation beyond the initial investment.
- Associates are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

c. Critical accounting estimates and judgements

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. The critical accounting estimates and judgements have been set out in Note 2 to the Company's consolidated financial statements for the year ended August 31, 2021.

The Company also has approximately \$4,843 of unrecognized federal investment tax credits which begin to expire in 2022, and can also be carried forward to be used to reduce future Canadian income taxes otherwise payable.

The federal investment tax credits and non-capital losses expire as follows:

In addition, the Company has capital losses carried forward of approximately \$6,494 which may be used to reduce future taxable capital gains in Canada and do not expire.

Contingencies

The Company and certain subsidiaries have received from the Canada Revenue Agency (“CRA”) and Alberta Tax and Revenue Administration (“ATRA”) tax notices of reassessment for various taxation years. The reassessments deny the application and usage of certain non-capital losses, capital losses, deductions and investment tax credits arising from prior years. In addition, the CRA and ATRA are disallowing unclaimed carryforward non-capital losses of \$657, carryforward capital losses of \$6,494, and carryforward investment tax credits of \$5,503. As a result, additional taxes payable for the reassessed years, including interest, total \$38,790. The Company and its subsidiaries have filed notices of objection and notices of appeal to the reassessments with the CRA and ATRA. To object to the reassessments, the Company and its subsidiaries were required to make deposits totalling \$18,797 for a portion of the taxes and interest the CRA and ATRA have

claimed are owed. The Company and its subsidiaries have made these deposits and they are included in other non-current assets. Additional estimated interest accruing on the unpaid portion of the reassessments was approximately \$6,065 as at May 31, 2022.

The Company's trial with the Tax Court of Canada completed in March 2022 with a decision not expected for several months. The previously scheduled trial date for the Company's subsidiary has been deferred and no new date has been confirmed. The Company and its counsel believe that its filing positions for the Company and subsidiaries described above are appropriate and in accordance with the law. It is defending such positions as required. Accordingly, the Company has not recorded a liability in these consolidated financial statements for the reassessed taxes payable and related interest described above nor has it reduced the carrying value of deferred income tax assets recorded for unused carryforward amounts. If the Company is ultimately successful in defending its positions, deposits made plus applicable interest will be refunded to the Company. There is no assurance that the Company's objections and appeals will be successful. If the CRA and ATRA are successful, the Company will be required to pay the balance of taxes reassessed plus applicable interest and derecognize deferred income tax assets related to the carryforward amounts.

13. Capital management

The primary objective of the Company's capital management is to ensure that it maintains adequate capital resources in order to support its business and maximize shareholder value. The Company manages its capital structure with the goal of minimizing risk to the stability of cash flows from properties. The Company's capital includes mortgage loans, construction loans, a lease liability, a line of credit, and equity.
