Notes to Condensed Interim Consolidated Financial Statements

(Unaudited)

1. Nature of operations and going concern

Sintana Energy Inc. ("Sintana" or the "Company") is a public Canadian oil and gas exploration company listed on the TSX Venture Exchange ("TSXV"), with offices in Toronto, Canada; and Dallas, Texas. The trading symbol of the Company is SEI. The Company is targeting assets in Colombia's Magdalena Basin. The Company's exploration strategy is to acquire, explore, develop and produce superior quality assets with significant reserve potential. The primary office of the Company is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, Canada, M5C 1P1.

Sintana is at an early stage of development and as is common with similar exploration companies, it raises financing for its property acquisition and exploration activities. Sintana has not incurred any operating income in the current and prior periods. For the nine months ended September 30, 2020, the Company incurred a loss of \$1,382,767 (nine months ended September 30, 2019 - \$1,180,297) and had an accumulated deficit of \$90,210,813 (December 31, 2019 - \$88,828,046). Sintana had a working capital deficit of \$5,932,982 at September 30, 2020 (December 31, 2019 - working capital deficit of \$5,124,320).

These unaudited condensed interim consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. The certainty of funding future exploration expenditures and availability of additional financing sources cannot be assured at this time. These material uncertainties cast significant doubt on the Company's ability to continue as a going concern and, accordingly, the ultimate use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business and / or ability to raise funds.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of November 27, 2020, the date the Board of Directors approved these unaudited condensed interim consolidated financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual audited consolidated financial statements as at and for the year ended December 31, 2019, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual audited consolidated financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed interim consolidated financial statements.

2. Significant accounting policies (continued)

New accounting standards adopted

IFRS 3, Business Combinations ("IFRS 3")

Amendments to IFRS 3, issued in October 2018, provide clarification on the definition of a business. The amendments permit a simplified assessment to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments are effective for transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020. The adoption of the amendments had no impact on the Company's unaudited condensed interim consolidated financial statements.

IAS 1, Presentation of Financial Statements ("IAS 1")

Amendments to IAS 1, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's unaudited condensed interim consolidated financial statements.

IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8")

Amendments to IAS 8, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

Accounts payable	\$ 12,499	\$ 31,922
Accrued liabilities	419,995	521,501

A provision related to the dispute is included in accounts payable and accrued liabilities. The Company assesses the probability each period for the likelihood of payment of the alleged liability. Management estimates that the probability of paying the alleged liability will decrease by 15% of the original accrued amount each year.

During the three and nine months ended September 30, 2020, the Company recorded a gain of accounts payable of \$23,339 and \$72,006, respectively (three and nine months ended September 30, 2019 - \$14,029 and \$42,086, respectively) in the unaudited condensed interim consolidated statements of loss and comprehensive loss related to a decrease in the probability of payment of the alleged liability.

On July 15, 2019, the Company received a notice of partial conversion (the "Notice") in respect to the convertible debentures in the principal amount of \$650,000 issued on July 24, 2018 (the "Debentures"). Interest is also convertible under the Debentures at the election of the holder, subject to the approval of the TSXV. The Notice provided for conversion of (i) \$550,000 of the principal amount of the Debentures at the conversion price of \$0.07 in exchange for the issuance of 7,857,143 common shares of the Company; and (ii) \$42,875 of interest owing under the Debentures at a conversion price of \$0.075 per share in exchange for the issuance of 571,664 common shares of the Company. The options have an exercise price of \$0.145, vest in three equal tranches over the next 24 months and expire on January 30, 2025. The fair value of each option was estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 141.08%; risk-free interest rate of 1.34%; and an expected average life of 5 years. The options were valued at \$261,023. \$32,628 and \$174,075, respectively (three and nine months ended September 30, 2019 - \$nil) was expensed to salaries and benefits (share-based compensation) and as an addition to contributed surplus during the three and nine months ended September 30, 2020.

9. Restricted Share Units ("RSUs")

The grant date fair value of RSUs equals the fair market value of the corresponding shares at the grant date. The fair value of these equity-settled awards is recognized as compensation expense with a corresponding increase in contributed surplus. The total amount expensed is recognized over the vesting period, which is the period over which all the specified vesting conditions should be satisfied. RSUs are converted into common shares when vested.

On February 11, 2019, the Company granted 800,000 RSUs to four officers of the Company. These RSUs vest as follows: one-half of the RSUs vested immediately and one-half vested on the first anniversary. In relation to this grant, compensation for the three and nine months ended September 30, 2020 was \$nil and \$4,266, respectively (three and nine months ended September 30, 2019 - \$9,000 and \$58,734, respectively). During the three and nine months ended September 30, 2020, nil and 400,000 RSUs, respectively vested and converted to common shares with a value of \$nil and \$36,000, respectively (three and nine months ended September 30, 2019 - nil and 400,000 RSUs, respectively vested and converted to common shares with a value of \$nil and \$36,000, respectively).

On January 30, 2020, the Company granted 200,000 RSUs to four officers of the Company. These RSUs vested on February 11, 2020. In relation to this grant, compensation for the three and nine months ended September 30, 2020, was \$nil and \$26,000, respectively. During the three and nine months ended September 30, 2020, nil and 200,000 RSUs, respectively vested and converted to common shares with a value of \$nil and \$26,000, respectively.

As of September 30, 2020, there were nil RSU outstanding (December 31, 2019 - 400,000 RSUs). The weighted average fair value of RSUs granted during the nine months ended September 30, 2020 was \$0.10 per unit (nine months ended September 30, 2019 - \$0.09).

10. Net loss per share

The calculation of basic and diluted loss per share for the three and nine months ended September 30, 2020 was based on the loss attributable to common shareholders of \$251,820 and \$1,382,767, respectively (three and nine months ended September 30, 2019 - loss of \$516,881 and \$1,180,297, respectively) and the weighted average number of common shares outstanding of 130,398,297 and 129,775,397, respectively (three and nine months ended September 30, 2019 - 118,044,490 and 117,982,024, respectively). Diluted loss per share did not include the effect of options, warrants, RSUs and convertible debentures for the three and nine months ended September 30, 2020 and 2019 as they were anti-dilutive or not in the money.
