FORWARD-LOOKING STATEMENTS

Certain statements contained in the following MD&A constitute forward-looking statements. Such forward looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements.

DESCRIPTION OF BUSINESS

The Company was incorporated on August 23, 2019 under the laws of British Columbia and is a Capital Pool Company ("CPC") as defined in the TSX Venture Exchange (TSX-V) Policy 2.4. The Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company's common shares are listed for trading on the TSX-V under the trading symbol ALTN.P. The Company's registered and records office is located at Suite 2500 – 700 West Georgia Street, Vancouver, BC, V7Y 1B3.

The Company's continuing operations are dependent on the continued financial support of its shareholders, and the completion of a Qualifying Transaction. Any acquisition or investment proposed by the Company will be subject to regulatory approval. There is no assurance that the Company will identify a business or asset that warrants acquisition or participation within such time limitations permissible under the policies of the Exchange, at which time the Exchange may suspend or de-list the Company's common shares from trading.

All amounts are presented in Canadian dollars, which is the functional currency of the Company, unless otherwise noted.

On October 30, 2020, the Company entered into a binding letter of intent (the "Letter Agreement") to complete a proposed business combination (the "Transaction") with Omega Gold Corp. ("Omega Gold"). The Transaction will constitute the Company's "Qualifying Transaction" as defined in Policy 2.4 – Capital Pool Companies of the TSX Venture Exchange (the "TSXV").

On June 1, 2021, the Company entered into a definitive arrangement agreement with Omega Gold (the "Definitive Agreement"). Pursuant to the Definitive Agreement, the Company will acquire all of the issued and outstanding securities of Omega Gold on a one for one basis in exchange for the Company's common shares (the "Transaction").

Omega Gold is a private British Columbia company which holds a registered and titled interest to 98.77% of the shares of Formacion Yura Exploracion S.A.C., a Peruvian holding company ("Formacion Yura") that owns 100% of 16 Peruvian mineral exploration claims located near Arequipa, Peru. One additional mineral exploration claim has been leased to Omega Gold by Shiprock Peru S.A.C. until it can be formally transferred to Formacion Yura, which together with the 16 claims owned by Formacion Yura forms Omega's "Rio Bravo" concession (the "Property"). Omega's ownership interest in Formacion Yura is subject to the fulfillment of certain option payments and expenditures under the Option Agreements.

Pursuant to the Transaction, each issued and outstanding security of Omega Gold, including any issued pursuant to the Concurrent Financings described below, (collectively, the “Omega Gold Securities”) will be exchanged for equivalent securities of the Company on a one-for-one basis.

Completion of the Transaction is conditional upon, among other standard conditions for a transaction of this nature: (i) Omega Gold providing a current Technical Report that is acceptable to the TSXV and the Company; (ii) Omega Gold delivering audited annual financial statements and any applicable unaudited interim financial statements that are acceptable to the Company and compliant with TSXV policies; (iv) Omega Gold delivering a title opinion for the Property in a form and content reasonably satisfactory to the Company; (v) receipt of all required consents and approvals for the Transaction, including from the directors and shareholders of Omega Gold, from the directors and, if required, the shareholders of the Company, and from the TSXV; (vi) completion of the Concurrent Financings (as defined below); and (vii) completion of satisfactory due diligence.

Management is currently working on signing a new agreement to further extend the outside date for completion.

In connection with the Transaction, the Company and Omega Gold will complete one or more arm’s length brokered and/or non-brokered private placements for aggregate proceeds of at least \$10,161,668 and not more than \$13,000,000 (collectively, the “Concurrent Financings”), as described below.

Under the Definitive Agreement, Omega Gold is required to complete one or more Concurrent Financings with aggregate gross proceeds of not less than \$4,661,668 (the “Omega Minimum”), of which the Omega Minimum has been raised as at the date hereof, and not more than \$5,500,000 (each such Concurrent Financing referred to together as the “Omega Concurrent Financing”). The Omega Concurrent Financing may be comprised of units of Omega Gold (each, an “Omega Gold Unit”), with each Omega Gold Unit having a subscription price of \$0.20 per Omega Gold Unit, and being comprised of one common share and one share purchase warrant (each, an “Omega Unit Warrant”) of Omega Gold. Each such Omega Unit Warrant is exercisable for one common share in the capital of Omega Gold at \$0.50 per share for a period of one year from the listing of the common shares of the Resulting Issuer.

In accordance with the Definitive Agreement, the Company will also complete one or more Concurrent Financings with aggregate gross proceeds of not less than \$5,500,000 not more than \$7,500,000 (each such Concurrent Financing referred to together as the “Company Concurrent Financing”). The Company Concurrent Financing will be comprised of units (or special warrants or subscription receipts convertible to units) of the Company (each, a “Company Unit”), with each such Company Unit having a subscription price of \$0.25 per Company Unit, and being comprised of one common share and one share purchase warrant (each, a “Company Unit Warrant”) of the Company, and with each such Company Unit Warrant being exercisable for a common share in the capital of the Company at \$0.50 for a period of one year from date of issuance. The closing of the Company Concurrent Financing is subject to approval of the TSXV and, subject to compliance with applicable TSXV Policies, is not conditional upon closing of the Transaction and is not subject to any minimum subscription amount.

In the event that the Transaction is not completed for any reason, the Company will instead complete a standalone private placement (the “Private Placement”) of up to 31,250,000 common shares at a price of \$0.24 per common share for aggregate proceeds of up to \$7,500,000. It is anticipated that the proceeds realized under the Private Placement would be used by the Issuer only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed qualifying transaction in accordance with TSX-V policies. The closing of the Private Placement is subject to the final approval of the TSX-V.

The Company’s financial statements were prepared in accordance with IFRS that are applicable to a going concern, which contemplate the realization of assets and the settlement of liabilities and commitments in the normal course of business. At September 30, 2022, the Company had an accumulated deficit of \$525,300 since inception (December 31, 2021 - \$412,024), and a net working capital of \$24,103 (December 31, 2021 – \$122,889).

The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months from working capital and if necessary from private placement of common shares. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital.

Management believes that the Company's capital resources should be adequate to continue operating and maintaining its business strategy. However, if the Company is unable to raise additional capital, management expects that the Company may need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. The financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.
