Pinetree Capital Ltd.

Notes to Condensed Consolidated Interim Financial Statements

Three and Nine Months Ended September 30, 2023

(In thousands of Canadian dollars except for securities and per share amounts)

Unaudited

1. Nature of business

Pinetree Capital Ltd. ("Pinetree" or the "Company") was incorporated in 1962 under the laws of the Province of Ontario and its shares are publicly traded on the Toronto Stock Exchange (the "TSX") under the symbol "PNP". The Company is domiciled in the Province of Ontario, Canada and its registered office address is at 49 Leuty Ave, Toronto, ON, M4E 2R2.

Pinetree is a value-oriented investment and merchant banking company focused on the technology sector.

These unaudited condensed consolidated interim financial statements were approved by the Company's board of directors on October 26, 2023.

2. Basis of preparation

a) Statement of compliance

These unaudited condensed consolidated interim statements are unaudited and have been prepared on a condensed basis in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, issued by the International Accounting Standards Board using accounting policies consistent with International Financial Reporting Standards ("IFRS").

The same accounting policies and methods of computation were followed in the preparation of these unaudited condensed consolidated interim statements as were followed in the preparation and described in note 3 of the annual consolidated financial statements as at and for the year ended December 31, 2022, except for those described in Note 2(d). Accordingly, these unaudited condensed consolidated interim statements as at and for the three and nine months ended September 30, 2023 should be read together with the annual consolidated financial statements as at and for the year ended December 31, 2022.

These unaudited condensed consolidated interim statements have been prepared using the historical cost convention except for some financial instruments that have been measured at fair value. All monetary references expressed in these notes are references to Canadian dollar amounts.

b) Basis of consolidation

These unaudited condensed consolidated interim statements include the accounts of Pinetree and its wholly-owned subsidiaries: Pinetree (Barbados) Inc., Pinetree (Israel) Inc., Pinetree Capital Investment Corp. ("PCIC") and Emerald Capital Corp., as well as Pinetree Resource Partnership ("PRP") and Pinetree Income Partnership ("PIP"), each a general partnership of which Pinetree indirectly owns a 100% interest. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. Pinetree (Barbados), Pinetree (Israel) and PRP are currently inactive.

c) Critical accounting judgments, estimates, and assumptions:

The preparation of these unaudited condensed consolidated interim statements in conformity with IFRS requires management to make judgments, estimates and assumptions. These affect the reported amounts of assets, liabilities and contingent liabilities at the date of these statements, as well as the reported amounts of revenue and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Uncertainty about these judgments, estimates and assumptions could result in outcomes that could require a material

2. Basis of preparation (continued)

adjustment to the carrying amount of the asset or liability affected in future periods.

The information about significant areas of estimation uncertainty and judgment considered by management in preparing the unaudited condensed consolidated interim statements were the same as those in the preparation of the annual financial statements as at and for the year ended December 31, 2022.

d) New accounting standards adopted:

Effective January 1, 2019, the Company has adopted IFRS 16, *Leases* and International Financial Reporting Interpretations Committee ("IFRIC") 23, *Uncertainty over Income Tax Treatments*. These changes were made in accordance with the applicable transitional provisions for which there was no impact on the condensed consolidated interim financial statements for the three months ended September 30, 2022. Under IFRS 16, the presentation on the statements of loss and comprehensive loss required by the new standard will result in most lease expenses being presented as amortization of lease assets and financing costs arising from lease liabilities rather than as being a part of goods and services purchased. The Company's office lease has a duration of 12 months which is exempted from the new presentation.

3. Financial instruments hierarchy and investments at fair value

(a) Financial hierarchy:

Investments consist of the following as at September 30, 2023:

Investments	Cost	Level 1 Quoted market price	Level 2 valuation technique - observable market inputs	Level 3 Valuation technique - non- observable market inputs	Total fair value
Equities	\$ 37,639	\$ 32,846	\$ -	\$ 1,000	\$ 33,846

3. Financial instruments hierarchy and investments at fair value (continued)

Investments consist of the following as at December 31, 2022:

Investments	Cost	Level 1 Quoted market price	Level 2 valuation technique - observable market inputs	Level 3 Valuation technique - non- observable market inputs	Total fair value
Equities	\$ 37,297	\$ 30,145	\$ -	\$ 1,000	\$ 31,145
Debenture	2,450	2,760	-	-	2,760
Total investments	\$ 39,747	\$ 32,905	\$ -	\$ 1,000	\$ 33,905
Investments denominated in foreign currencies		\$ 23,720	\$ -	\$ -	\$ 23,720
% of investments denominated in foreign currencies		72%	0%	0%	70%

(1) As at September 30, 2023, included in total investments were securities of private companies with a fair value totaling \$1,000 (cost of \$5,189) (December 31, 2022 – fair value of \$1,000 (cost of \$7,939) measured in accordance with the Company's accounting policy for private company investments.

(2) During the nine months ended September 30, 2023, there were no transfers from Level 1 to Level 3. Generally, the transfer out of Level 1 consists of an investee being privatized.

(b) Level 3 hierarchy:

The following table presents the changes in fair value measurements of financial instruments classified as Level 3. These financial instruments are measured at fair value utilizing non-observable market inputs. The net realized losses and net change in unrealized losses are recognized in the consolidated statements of income (loss).

	Opening balance at January 1,	Transfer to Level 3	Proceeds upon disposition	Net realized gains	Net unrealized gains (losses)	Ending balance
2023	\$ 1,000	\$ -	\$ -	\$ -	-	\$ 1,000
2022	1,006	3,919	(5,244)	1,179	141	1,000

Transfers between levels of fair value hierarchy are deemed to have occurred at the date of event. Within Level 3, the Company includes private company investments and other investment instruments such as loans to investees and convertible debentures which are not quoted on an exchange. The key assumptions used in the valuation of these instruments include (but are not limited to) the value at which a recent financing was done by the investee, company-specific information, trends in general market conditions, the share performance of comparable publicly-traded companies and a strategic review.

3. Financial instruments hierarchy and investments at fair value (continued)

Within Level 3, the Company includes private company investments and other investment instruments such as loans to investees and convertible debentures which are not quoted on an exchange. The key assumptions used in the valuation of these instruments include (but are not limited to) the value at which a recent financing was done by the investee, company-specific information, trends in general market conditions, the share performance of comparable publicly-traded companies and a strategic review.

For the Company's Level 3 investments, the inputs used can be highly judgmental. Significant unobservable inputs that were considered include gross margins, sales & marketing expenses, research & development expenses, administrative expenses, churn, bookings, discount rates, perpetuity growth rates, scenario weightings, valuations of comparable public companies and financings. In aggregate, management estimates that adjustments to these key inputs would result in a +/- 25% (+/- \$250) change to the fair value of these Level 3 investments as a class.

The sensitivity analysis is intended to reflect the uncertainty inherent in the valuation of these investments under current market conditions, and its results cannot be extrapolated due to non-linear effects that changes in valuation assumptions may have on the fair value of these investments. Furthermore, the analysis does not indicate a probability of such changes occurring and it does not necessarily represent the Company's view of expected future changes in the fair value of these investments.

4. Financial assets (liabilities) other than investments at fair value

Financial assets and liabilities other than investments at fair value are as follows as at September 30, 2023 and December 31, 2022:

	September 30, 2023	December 31, 2022
Cash and cash equivalents	\$ 2,677	\$ 6,045
Accounts payable and accrued liabilities (a)	(340)	(443)
	\$ 2,337	\$ 5,602

The carrying values of cash, cash equivalents, and accounts payable and accrued liabilities approximate their fair values due to the short term to maturity for these instruments.

(a) As at September 30, 2023, included in accounts payable and accrued liabilities are Class C preferred share liabilities of \$200 (December 31, 2022 - \$203). The Class C preferred shares ("Class C Shares") were issued in 2009 by Pinetree's wholly-owned subsidiary, PCIC, are non-voting, redeemable and retractable at any time, and entitle the holders thereof to receive cumulative dividends at a rate of 8% per annum.

The Class C Shares' redemption and retraction prices are linked to the market price of the Company's common shares subject to a minimum redemption price of \$10 per share. As at September 30, 2023, the redemption price was \$10 per share and the retraction price in effect was \$0.11 per share (December 31, 2022 - \$0.09 per share). During the nine months ended September 30, 2023, 300 of the Class C shares were cancelled by PCIC. During the year ended December 31, 2022, none of the Class C shares were cancelled by PCIC. As at September 30, 2023, 20,000 Class C Shares (December 31, 2022 - 20,300 Class C Shares) were issued and outstanding.

9. Finance expense

Finance expense is comprised of dividend expense related to the Class C Shares and consolidated interest expense for the three and nine months ended September 30, 2023 and 2022.

10. Management of capital

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of its underlying assets and liabilities. There were no changes to the Company's objectives in managing and maintaining capital during the three months ended September 30, 2023. The Company is not subject to any capital requirements imposed by a regulator. The Company's objectives when managing capital are:

- (a) to allow the Company to respond to changes in economic and/or marketplace conditions by maintaining its ability to purchase new investments;
- (b) to give shareholders sustained growth in shareholder value by increasing shareholders' equity; and
- (c) to maintain a flexible capital structure that optimizes the cost of capital at acceptable levels of risk.

The Company is meeting its objective of managing capital through detailed review and performance of due diligence on all potential investments and acquisitions. Management reviews its capital management approach on an on-going basis and believes that this approach, given the size of the Company, is reasonable. There were no changes in its approach to capital management during the three months ended September 30, 2023.

11. Risk management

Financial instrument risks:

The investment operations of Pinetree's business involve the purchase and sale of securities and, accordingly, the majority of the Company's assets and liabilities are currently comprised of financial instruments. The use of financial instruments can expose the Company to the following risks.

Pinetree Capital Ltd.

Notes to Condensed Consolidated Interim Financial Statements

Three and Nine Months Ended September 30, 2023

(In thousands of Canadian dollars except for securities and per share amounts)

Unaudited

11. Risk management (continued)

(a) Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity and commodity prices. The Company is exposed to market risk as unfavourable market conditions could result in dispositions of investments at less than favourable prices. Additionally, in accordance with IFRS 9, Financial Instruments ("IFRS 9") Pinetree is required to fair value its investments at the end of each reporting period. This process could result in significant write-downs of the Company's investments over one or more reporting periods, particularly during periods of overall market instability, which would have a significant unfavourable effect on Pinetree's financial position.

There were no changes to the way that the Company manages market risk since December 31, 2022. The Company manages market risk by having a portfolio that is not singularly exposed to any one issuer, although Pinetree's investment activities are currently concentrated primarily in the technology sector. The Company also requires approval from the board of directors for purchases of investments over a certain cost threshold.

For the three months ended September 30, 2023, a 5% change in the closing trade price of the Company's investments (with all other variables held constant) would have an estimated change on the Company's total comprehensive income of \$1,897 (December 31, 2022 – \$1,645).

(b) Concentration risk in the Company's investment portfolio

Concentration risk is the risk that any investment or group of investments will have the potential to materially affect the operating results of the Company. The Company will typically seek to take equity positions between 5% and 10% of assets, and may from time to time take positions that exceed these levels. As at September 30, 2023, the Company's top five equity investments, all in the technology sector, had a fair value of \$21,587. This represents 52% of the fair value of the Company's total portfolio. As at December 31, 2022, the Company's top five equity investments had a fair value of \$19,300, all in the technology sector. These represented 57% of the fair value of the Company's total portfolio.

(b) Liquidity risk:

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they become due. The Company's management is responsible for reviewing liquidity resources to ensure funds are readily available to meet financial obligations as they become due, as well as ensuring funds exist to support business strategies and operating growth.

The Company generates cash flow primarily from its financing activities and proceeds from the disposition of its investments, in addition to interest and dividend income earned on its investments. Pinetree invests in securities of "small-cap" issuers, which can at times be relatively illiquid. If the Company decides to dispose of securities of a particular issuer it may not be able to do so at the time at favourable prices, or at all. In addition, the amounts at which the Company's private company investments could be disposed of currently may differ from their carrying values since there is no active market to dispose of these investments.

There were no changes to the way that the Company manages liquidity risk since December 31, 2022. The Company's liquidity risk is limited to exposure to accounts payable and accrued liabilities. The following table shows the Company's contractual undiscounted cash flows which are payable under financial liabilities on the consolidated statement of financial position as at September 30, 2023:

11. Risk management (continued)

(d) Currency risk:

Currency risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company's operations are exposed to foreign exchange fluctuations, which could have a significant adverse effect on its consolidated results of operations from time to time.

The Company has financial instruments denominated in foreign currencies such as U.S. dollars, Euros, British pounds, Australian dollars, Norwegian krone, and Polish zloty. A change in the foreign exchange rate of the Canadian dollar versus another currency may increase or decrease the Company's value of its financial instruments.

There were no changes to the way that the Company manages currency risk since December 31, 2022. Although the Company believes that it is exposed to foreign exchange risk it does not actively hedge its foreign currency exposure as the risk is, to a certain extent, mitigated by the Company's foreign exchange denominated investments. A 1% change in exchange rates impacts net income by the following amounts as at September 30, 2023: U.S. dollar \$89, Australian dollar \$37, Polish Zloty \$47, Norwegian krone \$32. (December 31, 2022 – U.S. dollar \$80, Euro \$25, GBP \$9, Australian dollar \$63, Norwegian krone \$23, Polish Zloty \$40).

The following assets and liabilities were denominated in foreign currencies as at the following dates:

	September 30, 2023	December 31, 2022
Net assets denominated in U.S. dollars	\$ 8,846	\$ 7,994
Net assets denominated in Australian dollars	5,950	6,266
