Forward Looking Statements

Certain statements herein may be “forward looking” statements that involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of Pinetree or the industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the results discussed in the forward-looking statements. These forward-looking statements reflect current assumptions and expectations regarding future events and operating performance and are made as of the date hereof and Pinetree assumes no obligation, except as required by law, to update any forward-looking statements to reflect new events or circumstances.

Non-IFRS Measures, Non-GAAP Measures

BVPS (book value per share) is a non-IFRS (international financial reporting standards) measure calculated as the value of total assets less the value of total liabilities divided by the total number of common shares outstanding as at a specific date. The term BVPS does not have any standardized meaning according to IFRS and therefore may not be comparable to similar measures presented by other companies. There is no comparable IFRS measure presented in Pinetree’s consolidated financial statements and thus no applicable quantitative reconciliation for such non-IFRS financial measure. The Company has calculated BVPS consistently for many years and believes that BVPS can provide information useful to its shareholders in understanding its performance and may assist in the evaluation of its business relative to that of its peers.
