Notes to the Condensed Interim Financial Statements

For the three and six months ended October 31, 2022 and 2021

Expressed in Canadian Dollars

1. Nature of operations and going concern

Torr Metals Inc. ("Torr" or the "Company") was incorporated under the Business Corporations Act (Alberta) on July 18, 2018 and continued its corporate existence from Alberta to British Columbia under the British Columbia Business Corporation Act. On November 26, 2021, the Company completed its Qualifying Transaction ("QT") pursuant to the policies of the TSX Venture Exchange ("TSXV") to acquire an aggregate 100% interest in the Latham Copper-Gold Project in northern British Columbia. Concurrent with the QT, the Company changed its name from Duro Metals Inc. to Torr Metals Inc. and now trades under the symbol "TMET" on the TSXV.

On April 30, 2022, the Company completed a vertical short-form amalgamation pursuant to the Business Corporations Act with its wholly owned subsidiary 1306043 B.C. Ltd. ("130"). Pursuant to the Amalgamation, the resulting amalgamated company has adopted the name "Torr Metals Inc.", maintained the same Articles and management as the Company, issued no securities, the symbol "TMET" and the CUSIP remains the same.

The Company's principal business is to explore and develop the Latham Copper-Gold Project in northern British Columbia. The Company's head office is at Suite 780, 1111 West Hastings Street, Vancouver, BC, V6E 2J3.

While these condensed interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations for the foreseeable future, there are significant uncertainties related to certain adverse conditions and events that may cast doubt on the validity of this assumption. As at October 31, 2022, the Company had working capital of \$2,788,032 (April 30, 2022 - \$2,975,969) and an accumulated deficit of \$994,007 (April 30, 2022 - \$960,524). The Company anticipates that its cash resources will be sufficient to cover its projected funding requirements for the ensuing year.

2. Basis of presentation

Statement of compliance with International Financial Reporting Standards

These financial statements of the Company comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim financial statements were authorized for issue by the Board of Directors of the Company on December 19, 2022.

These condensed interim financial statements are presented in Canadian Dollars, unless otherwise noted and have been prepared on a historical cost basis. The Canadian dollar is the functional and presentation currency of the Company.

3. Acquisition of 1306043 BC Ltd.

On November 26, 2021, the Company executed an amalgamation agreement (the "Agreement") with 1306043 BC Ltd. ("130 BC") which provided for the transfer all of 130 BC's issued and outstanding shares to Torr, in exchange for the issuance of 22,106,867 common shares of Torr and 2.0% net smelter returns royalty from any production of the Dalvenie Property. As a result of this transaction, 130 BC. became a wholly owned subsidiary and Torr acquired a 100% interest in the Dalvenie and Hu Properties.

Due to the fact that the 130 BC is an exploration stage, with no significant operations, no processes or outputs, and no demonstrated technical feasibility or commercial viability of the project. Consequently, the Company has accounted for its acquisition of 130 BC as an asset acquisition, whereby acquired assets and liabilities assumed are

(ii) The Company issued warrants in exchange for 130 BC warrants with an estimated fair value of \$16,393 (note 5).

Subsequent to the acquisition, the Company amalgamated with 1306043 BC Ltd. on April 30, 2022 (note 1).

4. Exploration and evaluation properties

On November 26, 2021, the Company completed its Qualifying Transaction (the "QT") by acquiring the British Columbia mineral claims known as the Hu Property and Dalvenie Property, by way of an acquisition transaction of 1306043 BC Ltd. (note 3). Immediately after the acquisition, the Company acquired mineral claims known as the Gnat claims. Together, the consolidated Gnat Claims, Hu Property and Dalvenie Property are now known as the Latham Copper-Gold Project, a mineral exploration property comprised of 41 mineral claims totaling 49,694 hectares in northern British Columbia.

To acquire the Dalvenie and Hu claims the Company acquired 1306043 BC Ltd., by issuing 22,106,867 shares in a share exchange (note 3, 4).

To acquire the Gnat claims, the Company paid \$100,000 cash to the vendor and issued 400,000 common shares of the Company at a deemed price of \$0.30 per share for a total consideration of \$220,000. The vendor retains a 2% net smelter royalty.

i On November 26, 2021, the Company issued 148,852 warrants to agents pursuant to the flow-through private placement as compensation for services provided by the agents. The estimated fair value of the agents' warrants of \$4,465, or \$0.03 per agents' warrant, has been recorded as a decrease to share capital as a cost of share issuance and an increase to option and warrant reserve, and was calculated using the Black Scholes Option Pricing Model with the following grant-date assumptions: grant date stock price \$0.33; expected life, 1 year; expected volatility, 24%; risk free rate, 0.93%; expected dividends, 0%.

ii On November 26, 2021, the Company acquired 546,426 warrants from 1306043 BC Ltd. with an estimated fair value of the agents' warrants of \$16,393, or \$0.03 per agents' warrant, has been recorded as a decrease to share capital as a cost of share issuance and an increase to option and warrant reserve, and was calculated using the Black Scholes Option Pricing Model with the following grant-date assumptions: grant date stock price \$0.30; expected life, 1 years; expected volatility, 24%; risk free rate, 0.93%; expected dividends, 0%.

c) Stock options

The Company has a stock option plan (the "Plan") for directors, officers, employees, and consultants. The Plan provides for the issuance of incentive options to acquire up to a total of 10% of the issued and outstanding common shares of the Company. The exercise price of each option shall not be less than the minimum prescribed amount allowed under the TSX. The options can be granted for a maximum term of 5 years with vesting provisions determined by the Company.

A summary of stock options outstanding and exercisable is as follows:

i The fair value of stock options granted in the year ended April 30, 2022 was estimated based on the Black-Scholes option pricing model using a share price of \$0.21, volatility of 90%, risk free interest rate of 1.70%, expected life of 5 years, and expected dividend yield of nil. The estimated fair value of the stock options of \$483,000 has been recognized as the share-based compensation during the year ended April 30, 2022.

6. Financial instruments and risk management

Fair value of financial instruments

IFRS requires disclosures about the inputs to fair value measurements for financial assets and liabilities recorded at fair value, including their classification within a hierarchy that prioritizes the inputs to fair value measurement.

The three levels of hierarchy are:

- Level 1 - Quoted prices in active markets for identical assets or liabilities,
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - Inputs for the asset or liability that are not based on observable market data.

The Company's cash are classified as Level 1, whereas accounts receivable, and accounts payable and accrued liabilities are classified as Level 2. As at October 31, 2022, the Company believes that the carrying values of cash, accounts payable and accrued liabilities approximate their fair values because of their nature and relatively short maturity dates or durations.

Financial instruments risk

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counter party limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is defined as the risk of loss associated with counterparty's inability to fulfill its payment obligations. The maximum exposure to credit risk is the carrying amount of the Company's financial assets.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle its obligations as they come due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds available to meet its short-term business requirements by taking into account the anticipated cash expenditures for its exploration and other operating activities, and its holding of cash and cash equivalents. The Company will pursue further equity or debt financing as required to meet its commitments. There is no assurance that such financing will be available or that it will be available on favourable terms.

As at October 31, 2022, the Company's financial liabilities consist of its accounts payable and accrued liabilities, which are all current obligations.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to foreign exchange risk is minimal.

Capital management

The Company monitors its equity as capital.

The Company's objectives in managing its capital are to maintain a sufficient capital base to support its operations and to meet its short-term obligations and at the same time preserve investor's confidence and retain the ability to seek out and acquire new projects of merit. The Company is not exposed to any externally imposed capital requirements.

7. Related party transactions

Unless otherwise noted, related party transactions were incurred in the normal course of operations and are measured at the amount established and agreed upon by the related parties. The Company incurred and paid fees to directors and officers for management and professional services as follows:

For the six months ended	October 31, 2022	October 31, 2021
Management fees paid to key management and directors	\$ 29,000	\$ 4,000
Capitalized consulting fees paid to key management	48,000	-
Investor relations fees paid to a director	66,000	-
Rent fees paid to a corporation controlled by key management	20,100	6,000
	<u>\$ 163,100</u>	<u>\$ 10,000</u>

In the comparative period, \$3,150 was payable to corporations controlled by key management personnel and is included in accounts payable and accrued liabilities in the financial statements. Such amounts are unsecured, non-interest bearing and will be paid under normal trade terms.
