PAN GLOBAL RESOURCES INC.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian dollars unless otherwise noted, tabular amounts are expressed in thousands of Canadian dollars, except share and per share amounts)

1. NATURE OF OPERATIONS AND GOING CONCERN

Pan Global Resources Inc. (hereafter referred to as the “Company”) was incorporated under the laws of the Province of British Columbia and was established as a legal entity on February 1, 2006.

The Company’s principal business activities are the acquisition of rights to explore for minerals and the exploration of acquired rights. Pan Global Resources Inc. is actively targeting copper-rich mineral deposits, given copper’s compelling supply-demand fundamentals and outlook for strong long-term prices as a critical metal for global electrification and energy transition. The Company’s flagship Escacena Project is located in the prolific Iberian Pyrite Belt in southern Spain, where a favourable permitting track record, excellent infrastructure, mining and professional expertise, and support for copper as a Strategic Raw Material by the European Commission collectively define a tier-one jurisdiction for mining investment.

The Company’s common shares are listed on the TSX Venture Exchange (“TSX-V”) under the trading symbol “PGZ”, on the OTCQX under the symbol “PGZFF” and on the Frankfurt stock exchange under the symbol “2EU”. The Company’s principal office is located at 1150 - 355 Burrard Street, Vancouver, British Columbia, V6C 2G8.

These condensed consolidated interim financial statements do not include any adjustments to amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. At the date of these consolidated financial statements, the Company has not identified a known body of commercial-grade mineral on any of its properties. The Company has not achieved profitable operations and has accumulated losses since inception. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern. Realization values may be substantially different from the carrying values shown and these condensed consolidated interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Any such adjustments could be material. The Company’s continuing operations and the ability of the Company to meet exploration and evaluation assets and other commitments may be dependent upon the ability of the Company to continue to raise additional equity or debt financing and to seek joint venture partners.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation and Measurement

The condensed consolidated interim financial statements have been prepared using accounting policies in compliance with International Financial Reporting Standards (“IFRS”) as issued by International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These condensed consolidated interim financial statements have been prepared on a historical cost basis. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the most recent annual audited condensed consolidated interim financial statements and should be read in conjunction with the annual audited condensed consolidated interim financial statements of the Company for the year ended January 31, 2024.

Escacena Project, Spain

In December 2018, EVALAM 2003 S.L. ("EVALAM") was granted the Escacena Investigation Permit located in the Iberian Pyrite Belt in southern Spain, which is the subject of an agreement between EVALAM and the Company, which had an option to acquire 100% of the Escacena Investigation Permit for the following consideration: (a) \$350,000 in cash (paid) and (b) \$1,000,000 in exploration work commitments over a three-year period (spent). The Company exercised its option to acquire the permit. EVALAM retains a net smelter return ("NSR") of 0.5% on the first 12,500 tonnes of copper equivalent and 0.75% on any amount in excess of 12,500 tonnes of copper equivalent. The NSR has a lifetime cap of \$5,000,000.

10. SEGMENTED INFORMATION

The Company operates in a single reportable operating segment, being the exploration and evaluation of mineral properties. Geographic information about the Company's long-lived non-financial assets, as at October 31, 2024 is as follows: Spain - \$2,817,277 (January 31, 2024 - \$2,811,035); Canada - \$Nil (January 31, 2024 - \$Nil).

11. FINANCIAL INSTRUMENTS

The Company classified its financial instruments as follows:

	October 31, 2024	January 31, 2024
Financial assets - amortized costs:		
Cash and cash equivalents	\$ 7,378	\$ 4,735
Receivables	1	21
Reclamation deposits	124	118
Financial liabilities - amortized costs:		
Accounts payable and accrued liabilities	\$ (431)	\$ (529)

Fair Value

Financial instruments recorded at fair value on the consolidated statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly; and
- Level 3 - Inputs for assets and liabilities that are not based on observable market data.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. The carrying value of cash and cash equivalents, interest receivable, reclamation deposits, and accounts payable and accrued liabilities approximated their fair value because of the short-term nature of these instruments.

11. FINANCIAL INSTRUMENTS (cont'd...)

Risk and Capital Management

The Company's capital includes share capital and the cumulative deficit. The Company's objectives when managing capital are to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The Company may issue new shares in order to meet its financial obligations. There was no change in the Company's approach to managing capital during the nine months ended October 31, 2024. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's activities expose it to a variety of financial risks, market risk (including currency risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company. This note presents information about the Company's exposure to each of these risks, the Company's objectives and processes for measuring and managing risk, and the Company's management of capital. The Company is not subject to any externally imposed capital restrictions.

Credit Risk

Credit risk arises from cash and deposits with banks, as well as credit exposure on outstanding receivables and committed transactions. The Company's cash deposits are primarily held with a Canadian chartered bank. The Company's receivables exposure relates to amounts due from the governments of Canada and Spain pursuant to goods and services tax and VAT credits.

Interest Rate Risk

As the Company's interest-bearing assets do not have significant interest rates, the Company's income and operating cash flows are not significantly affected by changes in market interest rates.

Currency Risk

The Company has identified its functional currency as the Canadian dollar. Certain of the Company's exploration expenditures have been incurred in Euros and United States dollars ("USD"). The Company's exposure to foreign currency risk arises primarily on fluctuations between the Canadian dollar and those currencies. The Company has not entered into any derivative instruments to manage foreign exchange fluctuations. Management believes the foreign exchange risk related to currency conversions is minimal.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on the issuance of shares and warrants to fund exploration programs and will require doing so again in the future.
