INFORMATION CIRCULAR

(As at November 13, 2018 except as indicated)

The Company is providing this Information Circular and a form of proxy in connection with management's solicitation of proxies for use at the annual general meeting (the "Meeting") of the Company to be held on December 18, 2018 and at any adjournments. Unless the context otherwise requires, when we refer in this Information Circular to the Company, its subsidiaries are also included. The Company will conduct its solicitation by mail and officers and employees of the Company may, without receiving special compensation, also telephone or make other personal contact. The Company will pay the cost of solicitation.

APPOINTMENT OF PROXYHOLDER

The purpose of a proxy is to designate persons who will vote the proxy on a shareholder's behalf in accordance with the instructions given by the shareholder in the proxy. The persons whose names are printed in the enclosed form of proxy are officers or Directors of the Company (the "Management Proxyholders").

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person's name in the blank space provided or by executing a proxy in a form similar to the enclosed form. A proxyholder needs not be a shareholder.

VOTING BY PROXY

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Shares represented by a properly executed proxy will be voted or be withheld from voting on each matter referred to in the Notice of Meeting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

If a shareholder does not specify a choice and the shareholder has appointed one of the Management Proxyholders as proxyholder, the Management Proxyholder will vote in favour of the matters specified in the Notice of Meeting and in favour of all other matters proposed by management at the Meeting.

The enclosed form of proxy also gives discretionary authority to the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1, not later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of

the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NON-REGISTERED HOLDERS

Only shareholders whose names appear on the records of the Company as the registered holders of shares or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are “non-registered” shareholders because the shares they own are not registered in their names but instead registered in the name of a nominee such as a brokerage firm through which they purchased the shares; bank, trust company, trustee or administrator of self-administered RRSP’s, RRIF’s, RESP’s and similar plans; or clearing agency such as The Canadian Depository for Securities Limited (a “Nominee”). If you purchased your shares through a broker, you are likely an unregistered holder.

In accordance with securities regulatory policy, the Company has distributed copies of the Meeting materials, being the Notice of Meeting, this Information Circular and the Proxy, to the Nominees for distribution to non-registered holders.

Nominees are required to forward the Meeting materials to non-registered holders to seek their voting instructions in advance of the Meeting. Shares held by Nominees can only be voted in accordance with the instructions of the non-registered holder. The Nominees often have their own form of proxy, mailing procedures and provide their own return instructions. If you wish to vote by proxy, you should carefully follow the instructions from the Nominee in order that your Shares are voted at the Meeting.

If you, as a non-registered holder, wish to vote at the Meeting in person, you should appoint yourself as proxyholder by writing your name in the space provided on the request for voting instructions or proxy provided by the Nominee and return the form to the Nominee in the envelope provided. Do not complete the voting section of the form as your vote will be taken at the Meeting.

Non-registered holders who have not objected to their Nominee disclosing certain ownership information about themselves to the Company are referred to as “non-objecting beneficial owners” (“NOBOs”). Those non-registered holders who have objected to their Nominee disclosing ownership information about themselves to the Company are referred to as “objecting beneficial owners” (“OBOs”).

The Company is not sending the Meeting materials directly to NOBOs in connection with the Meeting, but rather has distributed copies of the Meeting materials to the Nominees for distribution to NOBOs.

The Company does not intend to pay for Nominees to deliver the Meeting materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary* to OBOs. As a result, OBOs will not receive the Meeting Materials unless their Nominee assumes the costs of delivery.

NOTICE-AND-ACCESS

The Company is not sending the Meeting materials to shareholders using “notice-and-access”, as defined under NI 54-101.

REVOCABILITY OF PROXY

Any registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a registered shareholder, his attorney authorized in writing or, if the registered shareholder is a corporation, a corporation under its corporate seal or by an officer or attorney thereof duly authorized, may revoke a proxy by instrument in writing, including a proxy bearing a later date. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting. **Only registered shareholders have the right to revoke a proxy. Non-Registered Holders who wish to change their vote must, at least 7 days before the Meeting, arrange for their Nominees to revoke the proxy on their behalf.**

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue an unlimited number of common shares without par value, of which 18,409,188 shares are issued and outstanding. Persons who are registered shareholders at the close of business on November 13, 2018 will be entitled to receive notice of and vote at the Meeting and will be entitled to one vote for each share held. The Company has only one class of shares with voting rights. On December 16, 2016 the Company's shareholders approved the creation of a class of convertible preferred class-A shares which have no voting rights. As at November 13, 2018, no class-A preferred shares have been issued by the Company.

To the knowledge of the Directors and executive officers of the Company, no person beneficially owns, controls or directs, directly or indirectly, shares carrying 10% or more of the voting rights attached to all shares of the Company, except the following:

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Role of the Corporate Governance & Human Resources Committee

On December 16, 2016, the Company appointed a CGHRC for the ensuing year. The CGHRC is responsible for annually reviewing the Company's compensation arrangements with its executive officers. When reviewing the compensation of the executive officers, the CGHRC considers the objectives of: (i) recruiting and retaining the executives critical to the success of the Company and the enhancement of shareholder value; (ii) providing fair and competitive compensation; (iii) balancing the interests of management and shareholders of the Company; and (iv) rewarding performance, both on an individual basis and with respect to the business in general. The CGHRC has the responsibility of negotiating the senior executive officers' total compensation package, reviewing and advising on stock option guidelines, including making recommendations on specific option grants and to review and communicate to the Board the compensation policies and principles that will be applied to other executives and employees of the Company.

On December 11, 2017 the CGHRC was dissolved as the agreement that was instrumental in appointing the CGHRC the previous year was terminated. The Board of Directors now has the responsibility for determining compensation for the Directors and senior management. As such in the following paragraphs the "CGHRC" is interchangeable with the "Board of Directors".

Compensation Philosophy

All employees of the Company receive compensation based on market value for the type of role they perform. Additional consideration is given to internal pay equity and performance. Currently, the compensation payable to employees consists of long-term incentives by way of the grant of stock options in accordance with the policies of the TSX Venture Exchange ("TSXV") and the Company's Stock Option Plan as long-term incentives.

Base Salary

No Named Executive Officers (NEOs) of the Company received a base salary during the year ended December 31, 2017 as the Company has presently no cash-flow and its announced private placement will be applied primarily for general working capital. In the CGHRC's view, paying base

compensation that is competitive in the market in which the Company operates can be one of the steps in retaining and attracting additional talented, qualified and effective executives.

The base salary of each particular executive officer will always be determined via an assessment by the CGHRC of such executive officer's performance, a consideration of competitive compensation levels in companies similar to the Company and a review of the performance of the Company as a whole and the role such executive officer played in such company performance.

Long-Term Incentive

The incentive component of the Company's compensation program is the potential longer term reward provided through the grant of stock options. The Company's Stock Option Plan is intended to attract, retain and motivate officers and Directors of the Company and to align the interests of those individuals with those of the Company's shareholders. The Company grants stock options to executive officers, consultants and employees in accordance with the policies of the TSXV. On March 29, 2005, the Board approved the adoption of a new stock option plan, which was approved by the shareholders at the 2005 annual meeting. It replaced a previous stock option plan. The stock option plan was subsequently amended and approved by the Company's shareholders at the annual meeting on June 27, 2012 and again on November 27, 2014.

The Stock Option Plan provides that the number of common shares under the Stock Option Plan, together with all of the Company's other previously established or proposed share compensation arrangements, may not exceed 20% of the total number of issued and outstanding common shares. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis. The Stock Option Plan must be approved by a majority of the votes cast by shareholders other than insiders or their associates to whom shares may be issued pursuant to the New Stock Option Plan if the number of options granted to insiders exceeds 10% of the issued shares of the Company. The objective of granting options is to encourage executive officers to acquire an ownership interest in the Company over a period of time, which acts as a financial incentive for such executive officer to consider the long-term interests of the Company and its shareholders.

When determining the number of stock options to be granted to an executive officer, the CGHRC takes into account the number and terms of outstanding stock options and vesting provisions when determining whether or not new stock option grants should be made to such executive officer.

CEO's Compensation

The components of the CEO's compensation are the same as those that apply to all of the Company's executive officers, namely base compensation and long-term incentives in the form of stock options. Due to the Company's tight budget, since 2014 the CEO has not received base compensation (salary) from the Company. The general compensation philosophy of the Company for executive officers is to provide, under consideration of its available working capital, a level of compensation that is competitive within the North American marketplace and that will attract and retain individuals with the experience and qualifications necessary for the Company to be successful, and to provide long-term incentive compensation which aligns the interest of executives with those of the shareholders and provide long-term incentives to members of senior management whose actions have a direct and identifiable impact on the performance of the Company and who have had a material responsibility for long-range strategy development and implementation.

In establishing the CEO's compensation, the CGHRC reviews salaries paid to other CEOs in the industry for companies of similar size and stage of development and the CEO's contribution to the affairs of the Company and makes recommendations with respect to the CEO compensation to the Board. In its review, the Board of Directors took in to consideration that both the CEO and the CFO provide administrative services to two other public companies with common directors and officers, for which the Company (not the Executives) would receive reimbursements of 60% of the monthly salaries of the CEO and CFO from the related companies for which such services are provided, if a salary is being paid, as reflected in the

Company's Financial Statements which have been filed on SEDAR. Due to the reason mentioned above, since 2014, neither the CEO nor the CFO has received base compensation (salary) from the Company.

The Board of Directors meets to discuss and determine executive compensation without reference to formal objectives, criteria or analysis. In making its determinations regarding the various elements of executive compensation, the Board of Directors does not benchmark its executive compensation program.

On December 11, 2017 the CGHRC was dissolved and the responsibilities of the CGHRC are being handled by the Board of Directors from this date forward.

Elements of Compensation

The Company's executive compensation policy consists of an annual base salary and long term incentives in the form of stock options granted under the Company's Stock Option Plan.

Since January 2014, the President & CEO, the interim CFO and the Senior Assistant to the CFO of the Company (the "Team Members") forfeited their base salaries for the time being in order to keep the company in good standing for as long as it is not in the position to provide competitive pay that reflects each of the Team Members' primary duties and responsibilities and the level of skill and experience required to successfully perform their role. The Company intends to pay the Team Members base salaries that are competitive with those for similar positions in the Company's related industry and working capital position, in order to attract and retain executive talent in the market in which the Company competes for talent. Base salaries of officers are reviewed annually by the Board of Directors and the CGHRC.

Compensation Policies and Risk Management

The Board of Directors considers the implications of the risks associated with the Company's compensation policies and practices when determining rewards for its officers. Commencing in 2016, the Board of Directors intends to review at least once annually the risks, if any, associated with the Company's compensation policies and practices at such time.

The Company's executive compensation is presently only comprised of a long-term ownership through the Company's Stock Options in accordance to the Stock Option Plan. This structure ensures that a significant portion of executive compensation (stock options) is both long-term and "at risk" and, accordingly, is directly linked to the achievement of business results and the creation of long-term shareholder value. As the benefits of such compensation, if any, are not realized by officers until a significant period of time has passed, the ability of officers to take inappropriate or excessive risks that are beneficial to their compensation at the expense of the Company and the shareholders is extremely limited. Furthermore, the short-term component of executive compensation (base salary) represents, presently, no part of the total compensation. As a result, it is unlikely an officer would take inappropriate or excessive risks at the expense of the Company or the shareholders that would be beneficial to their short-term compensation when their long-term compensation might be put at risk from their actions.

Due to the small size of the Company and the current level of the Company's activity, the Board of Directors is able to closely monitor and consider any risks which may be associated with the Company's compensation policies and practices. Risks, if any, may be identified and mitigated through regular Board meetings during which financial and other information of the Company are reviewed. No risks have been identified arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

Hedging of Economic Risks in the Company's Securities

The Company has not adopted a policy prohibiting Directors or officers from purchasing financial instruments that are designed to hedge or offset a decrease in market value of the Company's securities

granted as compensation or held, directly or indirectly, by Directors or officers. However, the Company is not aware of any Directors or officers having entered into this type of transaction.

Option-Based Awards

The Company's Stock Option Plan has been and will be used to provide share purchase options which are granted in consideration of the level of responsibility of the executive as well as his or her impact or contribution to the longer-term operating performance of the Company. In determining the number of options to be granted to the executive officers, the Board takes into account the number of options, if any, previously granted to each executive officer, and the exercise price of any outstanding options to ensure that such grants are in accordance with the policies of the TSX Venture Exchange, and closely align the interests of the executive officers with the interests of shareholders.

The Board of Directors as a whole has the responsibility to administer the compensation policies related to the executive management of the Company, including option-based awards.

Compensation Governance

Options available under the Company's Stock Option Plan are granted at the discretion of the Board of Directors, which considers factors such as how other junior exploration companies grant options and the potential value that each optionee is contributing to the Company and the various board committees. The number of options granted to an individual is based on such considerations.

Summary Compensation Table

The following table (presented in accordance with National Instrument Form 51-102F6 "**Statement of Executive Compensation**" (the "**Form 51-102F6**")) sets forth all annual and long term compensation for services in all capacities to the Company for the most recently completed financial year (to the extent required by Form 51-102F6) in respect of each of the individuals comprised of the CEO and the CFO and each of the three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, (other than the CEO and the CFO), as at December 31, 2017 whose total compensation was, individually, more than \$150,000 for the financial year and any individual who would have satisfied these criteria but for the fact that individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of the most recently completed financial year (collectively the "**Named Executive Officers**" or "**NEOs**").

CORPORATE GOVERNANCE DISCLOSURE

National Instrument 58-201 establishes corporate governance guidelines which apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company's practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 mandates disclosure of corporate governance practices which disclosure is set out below.

Independence of Members of Board

The Company's Board consists of six Directors, three of whom are independent based upon the tests for independence set forth in National Instrument 52-110 ("NI 52-110"). Grant Hendrickson, Rafael Pinedo and Milo Filgas are independent. Dieter Peter is not independent as he is the President & CEO of the Company. Andrew von Kursell was appointed by the Board of Directors to the position of interim Chief Financial Officer effective June 17, 2014. Mr. von Kursell ceased to be independent as set forth by NI

52-110 at that time. Eric Peter-Kaiser is not independent as he is an immediate relative of the President and CEO of the Company.

Management Supervision by Board

The operations of the Company do not support a large Board of Directors and the Board has determined that the current constitution of the Board is appropriate for the Company's current stage of development. Independent supervision of management is accomplished through choosing management who demonstrate a high level of integrity and ability and through having strong independent Board members. The independent Directors are, however, able to meet at any time without any members of management, including the non-independent Directors, being present. Further supervision is performed through the Audit Committee which is composed of a majority of independent Directors who meet with the Company's auditors without management being in attendance.

Risk Management

The Board of Directors is responsible for the adoption of a strategic planning process, the identification of principal risks and implementing risk management systems, succession planning and the continuous disclosure requirements of the Company under applicable securities laws and regulations.

The audit committee is responsible for the risk management items set out in the audit committee charter.

Orientation and Continuing Education

While the Company does not have formal orientation and training programs, new Board members are provided with:

1. access to recent, publicly filed documents of the Company, technical reports and the Company's internal financial information;
2. access to management and technical experts and consultants; and
3. a summary of significant corporate and securities responsibilities.

Board members are encouraged to communicate with management, auditors and technical consultants, to keep themselves current with industry trends and developments and changes in legislation with management's assistance and to attend related industry seminars and visit the Company's operations. Board members have full access to the Company's records.

Ethical Business Conduct

The Board views good corporate governance as an integral component to the success of the Company and to meet responsibilities to shareholders. In 2006, the Company's Board adopted a Code of Conduct under its updated HR Policy #9.10/080715 and instructed its management and employees to abide by the Code.

Nomination of Directors

The Board has responsibility for identifying potential Board candidates. The Board assesses potential Board candidates to fill perceived needs on the Board for required skills, expertise, independence and other factors. Members of the Board and representatives of the exploration industry are consulted for possible candidates.

Compensation of Directors and the CEO

From November 27, 2014 to December 16, 2016, the whole Board of Directors was responsible for all issues and responsibilities pertaining to the Corporate Governance & Human Resources Committee ("CGHRC"). During the year ended December 31, 2016, the following individuals served as members of

the Company's Board of Directors: Andrew H. von Kursell, Dieter Peter, Rafael Pinedo, Grant Hendrickson, Eric Peter-Kaiser and Milo Filgas. Rafael Pinedo, Grant Hendrickson and Milo Filgas were independent directors. As CEO and interim CFO, Dieter Peter and Andrew von Kursell are not independent directors. Eric Peter-Kaiser is not independent as he is an immediate relative of the President & CEO of the Company. On December 16, 2016, the Board appointed a CGHRC for the ensuing year.

The following individuals are members of the CGHRC: Rafael Pinedo, Grant Hendrickson, Dieter Peter. To determine compensation payable, the CGHRC reviews compensation paid for Directors and CFOs of companies of similar size and stage of development in the mineral exploration industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the Directors and senior management while taking into account the financial and other resources of the Company. In setting the compensation, the CGHRC annually reviews the performance of the CEO in light of the Company's objectives and considers other factors that may have impacted the success of the Company in achieving its objectives.

On December 11, 2017 the CGHRC was dissolved and the responsibilities of the CGHRC were handled by the Board of Directors from this date forward.

Board Committees

Other than the Audit Committee, the Board has a Steering Committee, a Corporate Governance & Human Resources Committee, an Environmental & Safety Committee, an Exploration Committee and an Advisory Committee. These Committees are still developing their charters and code of conduct for recommendation to the Board.

Assessments

The Board does not consider formal assessments to be useful at this stage of the Company's development. The Board conducts informal annual assessments of the Board's effectiveness, the individual Directors and each of its committees. The Board intends to implement formal assessments to assist in its review and will conduct formal surveys of its Directors, the Corporate Governance and Human Resources Committee on its assessment of the functioning of the Board and reports from each committee respecting its own effectiveness.

Expectations of Management

The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company’s business plan and to meet performance goals and objectives.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

Management of the Company is not aware of any particular of other matter to be acted upon to come before the Meeting other than as set forth in the notice of Meeting.

Approval and Ratification of the Existing Stock Option Plan

The incentive component of the Company’s compensation program is the potential longer term reward provided through the grant of stock options. The Company’s Stock Option Plan is intended to attract, retain and motivate officers and Directors of the Company and to align the interests of those individuals with those of the Company’s shareholders. The Company grants stock options to executive officers, consultants and employees in accordance with the policies of the TSXV. On March 29, 2005, the Board approved the adoption of a new stock option plan, which was approved by the shareholders at the 2005 annual meeting. It replaced a previous stock option plan. The stock option plan was subsequently amended and approved by the Company’s shareholders at the annual meeting on June 27, 2012 and again on November 27, 2014.

The Stock Option Plan provides that the number of common shares under the Stock Option Plan, together with all of the Company’s other previously established or proposed share compensation arrangements, may not exceed 20% of the total number of issued and outstanding common shares. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis. The Stock Option Plan must be approved by a majority of the votes cast by shareholders other than insiders or their associates to whom shares may be issued pursuant to the New Stock Option Plan if the number of options granted to insiders exceeds 10% of the issued shares of the Company. The objective of granting options is to encourage executive officers to acquire an ownership interest in the Company over a period of time, which acts as a financial incentive for such executive officer to consider the long-term interests of the Company and its shareholders.

Therefore, at the Meeting, shareholders will be asked to pass a resolution in the following form:

“UPON MOTION IT WAS RESOLVED that the Company approve and ratify, subject to regulatory approval, the existing Stock Option Plan to which the Directors may, from time to time, authorize the issuance of options to Directors, officers, employees and service providers of the Company and its subsidiaries to a maximum of 20% of the issued and outstanding common shares at the time of the grant, with a maximum of 5% of the Company's issued and outstanding shares being reserved to any one person on a yearly basis.”

Shareholders may contact the Company by email, fax or mail to request a copy of the full text of the Plan up to the date of the Meeting and at the Meeting.

Unless such authority is withheld, the persons named in the enclosed proxy intend to vote for the approval and ratification of the Plan.

Cancellation of Series “1” of Pref-AShares

On March 1, 2016, the Board of Directors approved the execution of a Share Purchase Agreement (“SPA”) between the Company and 12 independent shareholders (“Shareholders-SPA”) of CPS Resources Plc (“CPS”) to acquire their interest representing 45% of CPS’ issued and outstanding shares.

On May 1, 2016 the Board approved the creation of the first convertible preference A shares, Series “1” (“Pref-A1”) to be issued to the Shareholders-SPA in accordance with the SPA and upon approval of regulatory Authorities. In consultation with the representative of Shareholder-SPA both parties gave their consent not to issue the Pref shares until conditions in respect to the obligations of the Shareholders-SPA under the SPA were fulfilled. The SPA stated that the Company would have the right to cancel those shares if the conditions of the obligations were not met.

On December 14, 2017 the Company notified the representatives of the Shareholders-SPA that it was terminating the SPA due to non-fulfillment of an essential part of the SPA.

As of the date of the termination no Pref A1 shares had been issued and the Company approved the cancellation of Series “1” of the Pref-A shares.

Therefore, at the Meeting, shareholders will be asked to approve and ratify the following resolution:

“UPON MOTION IT WAS RESOLVED that the Company approve and ratify the Company’s cancellation of Series “1” of its Pref-A shares;

Letter of Intent and Definitive Acquisition Agreement with an Oil and Gas Leasehold Estate in Oklahoma.

The Company signed a Letter of Intent on February 15, 2018 and subsequent a Definitive Acquisition Agreement (“DA-Agr.”), dated April 24, 2018 with seven oil&gas leaseholders (the “Leasehold Estate”) and including any entity which holds an interest in the Leasehold Estate (the “Seller”), the subject of the DA-Agr..

On May 25, 2018 the Company received final acceptance of the acquisition from the TSX Venture Exchange based on the final Geological Report entitled “Appraisal of Certain Oil and Gas Interest Located in Oklahoma, as of March 1, 2018”.

Under the terms of the DA-Agr., the Company can acquire all working and overriding royalty interests of a Leasehold Estate, located in Oklahoma, covering wells and oil leases. The purchase price for the acquisition is US\$3,000,000 to be fulfilled through scheduled cash payments over a period of three years and will be secured through a mortgage carried by the seller bearing an annual interest rate of 5% which has to be paid in monthly instalments as an overriding royalty interest for the balance of the acquisition price until paid off in full.

In accordance with the DA-Agr, Messrs. D. Peter and Rafael Pinedo are authorized to execute the DA-Agr.

Therefore, at the Meeting, shareholders will be asked to ratify the following resolution:

“UPON MOTION IT WAS RESOLVED that the Company ratify the Letter of Intent and subsequent Definitive Oil and Gas Leasehold Estate in Oklahoma, USA”

Fundraising and its Amendment

On April 30, 2018, the Company approved a private placement of up to 5,000,000 units and up to \$1,500,000, whereby each unit would consist of one common share at \$0.30 and one common share purchase warrant at \$0.50 in the first year and \$1.00 in the second year after the issuance of the shares.

Due to the inability to close the private placement at the aforementioned price because of prevalent market conditions and after discussing the necessity of obtaining immediate funding for the Company at a Board Meeting on July 11, 2018, the Directors approved to amend the price of the private placement closer to the recent trading conditions of the Company’s stock and concluded to accept a unit price between \$0.16- \$0.20 per unit. Subsequent to the board meeting the CEO had discussions with brokers whereby he received verbal commitments to close a funding of a minimum of \$500,000 if the unit price would be reduced closer to the prevalent market conditions and that a unit price of \$.20 per unit with one attached share purchase warrant at \$0.30 would be acceptable even with a reduced exercise period.

At the Meeting, shareholders will be asked to approve and ratify the following resolution:

“UPON MOTION IT WAS RESOLVED that the Company approve and ratify the announced fundraising and its amendment in order to provide general working capital for the Company.”

Long-Term Insider Loans

On October 30, 2018, the Company received TSX Venture Exchange (the “TSX-V”) approval for its submitted request dated September 25, 2018 to issue 6,468,910 common shares to Merfin Management Limited (“Merfin”) and 585,975 common shares to Infogen Research Limited (“Infogen”) respectively to eliminate the long outstanding insider loans provided until September 30, 2018. The shares will have no warrants attached and the cost of \$0.155 per share was calculated based on the weighted average trading price for the previous two months.

As at September 30, 2018, Merfin, a holding company, of which Dieter Peter is President, provided accumulated loans of \$1,002,681 that were used for property payments, general working capital in order to keep the Company in good standing and meet its administrative obligations including the required fees to regulatory bodies as well as consulting fees from 2013 to January 2014 and accrued interest for the aforementioned. The loans from Infogen for providing consulting services from 2013 to February 2014 amount to \$90,826. Since 2013 and 2014 Mr. Peter and Mr. von Kursell respectively provided unpaid services in their capacities as Officers and Directors of the Company which was always disclosed in its financial statements.

The Company’s independent Directors, acting in good faith, having approved all previous loans, have determined that the issuance of common shares in the capital of the Company is preferable to large and long outstanding insider loans and reasonable in the current circumstances of the Company. The issuance of shares has no impact on or is creating a new control person. Both Merfin and Infogen are showing faith in the future of the Company and investors can be assured that any future funds raised will not be used to pay off those long-term outstanding insider loans.

Merfin and Infogen agreed to a voluntary holding period of four month from the issuance date.

“UPON MOTION IT WAS RESOLVED that the Company approve and ratify the conversion of two long-term insider loans into common shares of the Company”
