

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF THE COMPANY'S FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FOR THE PERIOD ENDED JULY 31, 2019**

FORM 51-102F1

Date and Subject of Report

The following Management Discussion & Analysis ("MD&A") is intended to assist in the understanding of the trends and significant changes in the financial condition and results of operations of Priyanka Capital Inc. ("Priyanka" or "PCI" or the "Company") for the three and nine months ended July 31, 2019. The MD&A should be read in conjunction with the unaudited condensed interim financial statements for the three and nine months ended July 31, 2019. The MD&A has been prepared effective September 30, 2019.

SCOPE OF ANALYSIS

The following is a discussion and analysis of Priyanka Capital Inc. (the "Company"), which was incorporated on October 16, 2014, under the laws of the Province of British Columbia. The Company's head office is located at Suite 1845 – 1066 West Hastings Street, Vancouver, British Columbia, V6E 3X1. The Company reports its financial results in Canadian dollars and prepares its financial statements in accordance and compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Priyanka's Business

The principal business of the Company is to identify, evaluate and then acquire an interest in a business or assets.

The Company entered into an arrangement agreement dated December 8, 2014 (the "**Arrangement Agreement**") with Leucadia Finance Partners Inc. ("**Leucadia**"), Glenmac Capital Inc., Nishal Capital Inc., Ravensden Capital Inc. and Real Difference Capital Inc. Final court approval of the plan of arrangement (the "**Arrangement**") was obtained on January 15, 2015 and the Company has completed its arrangement on February 12, 2015 (the "**Effective Date**") (See Note 7). Shareholders of record of Leucadia on the Effective Date (the "**Shareholders**") received, among other things, one new common share of Leucadia and one-half of one Class 1 Reorganization Share of Leucadia (each whole share, a "**Reorganization Share**") for each Leucadia share held, which Reorganization Shares were then, pursuant to the Arrangement and requisite corporate approvals, automatically transferred by Shareholders to the Company in exchange for an aggregate of 1,316,670 common shares of the Company (each, a "**Priyanka Share**"), after accounting for rounding, which shares were issued to the Shareholders on a *pro rata* basis, such that the 1,316,667 Reorganization Shares were exchanged for 1,316,670 Priyanka Shares. Fractional shares of the Company were not issued, and any fractional shares resulting from the Arrangement were rounded up or down to the nearest whole number.

Immediately following this, Leucadia redeemed all of the Reorganization Shares by the transfer to the Company of \$30,000 cash and a promissory note in the principal amount of \$35,833. On closing of the Arrangement, the Company became a reporting issuer in British Columbia and Alberta. Share certificates for the Priyanka Shares will be distributed or credited to Shareholders in due course.

RESULTS OF OPERATIONS

During the three months ended July 31, 2019, the Company incurred \$1,500 (2018 - \$25,000) of consulting fees for services utilized during the period; professional fees of \$1,000 (2018 - \$nil); and \$500 (2018 - \$nil) of transfer agent and filing fees in the comparative periods.

During the nine months ended July 31, 2019, the Company incurred \$6,000 (2018 - \$75,000) of consulting fees for services utilized during the period; professional fees of \$5,060 (2018 - \$2,448); and \$1,582 (2018 - \$1,779) of transfer agent and filing fees in the comparative periods.

LIQUIDITY

As at July 31, 2019, the Company negative working capital of \$213,685 (Oct. 31, 2018 - \$218,457), had not yet achieved profitable operations, had accumulated deficit of \$279,518 (Oct. 31, 2018 - \$266,671) and expects to incur further losses in the development of its business, all of which casts significant doubt upon the Company's ability to continue as a going concern.

The Company currently is not able to internally finance on-going operating costs of its businesses over the long term and therefore will require additional financing by means of issuing share capital, advances from related parties, or other sources. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. In addition, the Company will require additional financing in order to assist in the search, and, if warranted, acquisition of a business opportunity. There can be no certainty of the Company's ability to raise additional financing through private placements,

advances from related parties, or other sources to fund these activities. Consequently the Company is subject to liquidity risks.

These financial statements have been prepared in accordance with accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and the Company's financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

CAPITAL RESOURCES

The Company is actively looking to acquire an interest in a business or assets and this involves a high degree of risk. The Company has not determined whether it will be successful in its endeavours and does not generate cash flows from operations. The Company's primary source of funds comes from the issuance of capital stock. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations, and is not subject to any externally imposed capital requirements.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern.

The Company defines its capital as equity. Capital requirements are driven by the Company's general operations. To effectively manage the Company's capital requirements, the Company monitors expenses and overhead to ensure costs and commitments are being paid.

The Company does not expect to make significant capital expenditures in the near future.

FINANCIAL INSTRUMENTS

The Company's risk exposure and the impact on the Company's financial instruments is summarized below:

Credit risk

The Company's cash is largely held in large Canadian financial institutions. The Company maintains cash deposits with these financial institutions, which from time to time may exceed federally insured limits. The Company is exposed to credit risk to the extent of its loans receivable.

Liquidity risk

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating

any investing and financing activities. All of the Company's financial liabilities are current and expected to fall due within 30 days, except for the loan payable, which is due on demand.

Foreign exchange risk

The Company's functional and reporting currency is the Canadian dollar and major purchases are transacted in Canadian dollars. As a result, the Company is not exposed to foreign exchange risk.

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company does not hold any financial liabilities with variable interest rates. The Company maintains bank accounts which earn interest at variable rates but it does not believe it is currently subject to any significant interest rate risk.

Other price risk

Other price risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate due to changes in market prices other than from interest rates and foreign currency risk. The Company is not exposed to other price risk.

OFF BALANCE SHEET ARRANGEMENTS

As at July 31, 2019, the Company had no off-balance sheet arrangements.

PROPOSED TRANSACTIONS

Except for starting its business to identify, evaluate and then acquire an interest in a business or assets, the Company does not have any proposed transactions to discuss at this time.

TRANSACTIONS WITH RELATED PARTIES

Due to a related party as at July 31, 2019 is \$Nil (2018 - \$525) owing to Nishal Capital Inc., a company related by the common directors for the purpose of reimbursing expenses paid on behalf of the Company. The balances are unsecured, non-interest-bearing and have no fixed terms of repayment.

Pursuant to the Arrangement (note 1), the Company holds a promissory note receivable of \$Nil, (2018 - \$35,833) from Leucadia, a company, formerly related by common directors. The promissory note is non-interest-bearing, due on demand, and has no fixed terms of repayment, and was repaid during the period.

These transactions above are in the normal course of operations and are measured at the agreed to amounts, which is the amount of consideration established and agreed to by the related parties.

RISKS AND UNCERTAINTIES

Market risk

Market risk is the risk that a change in market prices and/or any of the underlying market factors will result in losses. Each business area is responsible for ensuring that its market risk exposures are prudent. In addition, Priyanka will establish procedures to ensure that risks are measured, closely monitored, controlled and visible to senior levels of management.

The Company may be exposed to equity price risk, liquidity risk and volatility risk as a result of its activities in equity securities if it decides to invest in marketable securities. Priyanka will also be exposed to specific interest rate risk, credit spread risk and liquidity risk in respect of its fixed income securities. In addition to active supervision and review of all activities by senior management, the Company will mitigate its risk exposure through a variety of limits to control concentration, capital allocation and usage, as well as through policies and guidelines.

Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, fraud, people and systems, or from external events such as the occurrence of disasters or security threats. Operational risk will exist in all of Priyanka's activities, including processes, systems and controls used to manage other risks. Failure to manage operational risk can result in financial loss, reputational damage, regulatory fines and failure to manage market or credit risks.

The Company will operate in different markets and rely on its employees and systems to process a number of transactions. In order to mitigate this risk, Priyanka will develop a system of internal controls and checks and balances at appropriate levels, which will include, cash controls, physical security, independent review procedures, documentation standards, billing and collection procedures, and authorization and processing controls for transactions and accounts. disaster recovery procedures in place, business continuity plans and built-in redundancies in the event of a systems failure.

Regulatory Risk

Regulatory risk results from non-compliance with regulatory requirements, which could lead to fines and/or sanctions. Priyanka will establish procedures to ensure compliance with all applicable statutory and regulatory requirements in each jurisdiction. These procedures will address issues such as regulatory capital requirements, disclosure requirements, internal controls over financial reporting, use of and safekeeping of client funds, credit granting, collection activity, antimoney laundering, insider trading, conflicts of interest and recordkeeping.

Legal risk results from potential criminal, civil or regulatory litigation against Priyanka that could materially affect the Company's business, operations or financial condition. Priyanka will have

access to external legal counsel, to assist the Company in addressing legal matters related to operations and to defend the Company's interests in various legal actions.

FORWARD LOOKING STATEMENTS

The information set forth in this MD&A contains statements concerning future results, future performance, intentions, objectives, plans and expectations that are, or may be deemed to be, forward-looking statements. These statements concerning possible or assumed future results of operations of the Company are preceded by, followed by or include the words 'believes,' 'expects,' 'anticipates,' 'estimates,' 'intends,' 'plans,' 'forecasts,' or similar expressions. Forward-looking statements are not guarantees of future performance. These forward-looking statements are based on current expectations that involve numerous risks and uncertainties, including, but not limited to, those identified in the Risks Factors section. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate. These factors should be considered carefully, and readers should not place undue reliance on forward-looking statements. Priyanka Capital Inc. has no intention and undertakes no obligation to update or revise any forward-looking statements, whether written or oral that may be made by or on the Company's behalf.
