Market for Securities

As at the date of this prospectus, the Corporation does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, Aequitas NEO Exchange Inc., a U.S. marketplace, or a marketplace outside Canada and the United States of America (other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc).

The Exchange has conditionally accepted the listing of the Common Shares. Listing is subject to the Corporation fulfilling all of the requirements of the Exchange, including distribution of the Common Shares to a minimum number of public securityholders.

Other than the initial distribution of the Common Shares pursuant to this prospectus, the grant of the Agent's Option and the grant of Share Options to the directors and officers of the Corporation, trading in all securities of the Corporation is prohibited during the period between the date a receipt for the preliminary prospectus is issued by the securities commission that is designated the principal regulator pursuant to Multilateral Instrument 11-102 - *Passport System* ("MI 11-102") and National Policy 11-202 - *Process for Prospectus Reviews in Multiple Jurisdictions* ("NP 11-202") and the time the Common Shares are listed for trading except, subject to prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities commission grants a discretionary order.

Risk Factors

There is no market through which the Common Shares offered by this prospectus may be sold and purchasers may not be able to resell the Common Shares purchased under this prospectus. This may affect the pricing of the Common Shares in the secondary market, the transparency and availability of trading prices, the liquidity of the Common Shares, and the extent of issuer regulation. See "Risk Factors".

Investment in the Common Shares offered by this prospectus is highly speculative due to the nature of the Corporation's business and its present stage of development. The Offering is suitable only to those investors who are prepared to risk the loss of their entire investment. See "Risk Factors".

Upon completion of the Offering, purchasers will suffer an immediate dilution (based on the gross proceeds from this and prior issues without deduction of selling and related expenses) per Common Share of approximately \$0.026 or 26% if the Offering is completed. The Corporation does not currently own any assets other than cash.

The business objective of the Corporation is to identify and evaluate assets or businesses with a view to completing the Qualifying Transaction which receives Exchange approval and in the case of a Non-Arm's Length Qualifying Transaction, Majority of the Minority Approval of the Corporation's shareholders; however, there can be no assurance that the Corporation will be able to identify or successfully complete the Qualifying Transaction. The Corporation has commenced the process of identifying potential acquisitions, but to date, the Corporation has not identified any potential acquisitions. The Corporation may determine that current markets, terms of acquisition, or pricing conditions make such potential acquisitions uneconomic. The Corporation may find that even if the terms of a potential acquisition are economic, the Corporation may not be able to finance such acquisition and additional funds may be required. The Qualifying Transaction may involve the acquisition of a business located outside of Canada and, as such, investors should be aware that it may be difficult or may not be possible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and that it may not be possible to enforce against such persons or companies, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada. Where the investment or acquisition is financed by the issuance of shares from the Corporation's treasury, control of the Corporation may change, and shareholders may suffer further dilution of their investment. The Corporation will be in competition with other entities with greater resources.

The Corporation does not currently own any assets other than cash. The Corporation has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future. Investors must rely solely on the expertise of the Corporation's Promoter, as hereinafter defined, directors and officers for any possible return on their investment.

The Corporation's directors, officers and, as applicable, Control Persons, as hereinafter defined, and their Associates, as hereinafter defined, and Affiliates, as hereinafter defined, as a group, beneficially own or control, directly or indirectly, 4,200,000 Common Shares, which represents 27.29% of the issued and outstanding Common Shares before giving effect to the Offering, and 23.48% of the issued and outstanding Common Shares in the event the Offering is completed. The directors and officers of the Corporation will only devote part of their time to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection

with the operations of the Corporation. See “Business of the Corporation”, “Use of Proceeds”, “Capitalization”, “Officers, Directors and Promoters”, “Dilution”, “Risk Factors” and “Conflicts of Interest”.

Pursuant to the CPC Policy, 75% of the total number of Common Shares offered under this prospectus, being 1,875,000 Common Shares, are subject to the following limits: (i) no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% of the total Common Shares offered under this prospectus, being 50,000 Common Shares (\$5,000); and (ii) the maximum number of Common Shares that may directly or indirectly be purchased by any one purchaser, together with that purchaser’s Associates or Affiliates of that purchaser, is 4% of the total number of Common Shares offered under this prospectus, being 100,000 Common Shares (\$10,000).

Receipt of Subscriptions

The Agent, as agent, hereby conditionally offers these Common Shares, on a “commercially reasonable efforts” basis, if, as and when subscriptions are accepted by the Corporation, subject to prior sale, in accordance with the terms and conditions of the Agency Agreement referred to under “Plan of Distribution” and subject to the approval of certain legal matters by Cassels Brock & Blackwell LLP, on behalf of the Corporation and by Dentons Canada LLP, on behalf of the Agent.

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that one or more global certificates that represent the aggregate number of Common Shares subscribed for under the Offering will be issued in registered form as directed by the Agent and will be available for delivery at the closing of the Offering. The Common Shares subscribed for under the Offering may also be issued on an uncertificated basis in electronic book entry form through CDS Clearing and Depository Services Inc. (“CDS”) or its nominee. In either case, purchasers of Common Shares will only receive a client confirmation from the Agent as to the number of Common Shares subscribed for. Certificates representing the Common Shares in registered and definitive form will be issued to the purchasers in certain limited circumstances only.

PROSPECTUS SUMMARY

The following is a summary of the principal features of this distribution and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus.

- Business of the Corporation:** The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing the Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimum amount of cash. See “Business of the Corporation”.
- Offering:** 2,500,000 Common Shares are being offered under this prospectus at a price of \$0.10 per Common Share. In addition, pursuant to the Agency Agreement, the Corporation will grant to the Agent and their designated sub-agent, if any, the Agent’s Option to purchase up to such number of Common Shares as is equal to 8% of the aggregate number of Common Shares sold pursuant to the Offering, at an exercise price of \$0.10 per Agent’s Share which will be exercisable for a period of 60 months from the date of listing of the Common Shares on the Exchange. The grant of the Agent’s Option is qualified under this prospectus. This prospectus also qualifies for distribution the directors’ and officers’ options which entitle the holders to purchase an aggregate of 1,788,750 Common Shares under the Option Plan. See “Plan of Distribution” and “Options to Purchase Securities”.
- Use of Proceeds:** The net proceeds of the Offering to the Corporation will be \$230,000. The net proceeds of the Offering plus the proceeds from prior sales of Common Shares will be used to provide the Corporation with funds with which to identify and evaluate assets or businesses for acquisition with a view to completing the Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. See “Use of Proceeds” for details of the restrictions and prohibitions on the Corporation’s use of funds, “Business of the Corporation” and “Risk Factors”.
- Management and Directors:** Mark Binns – Director, Chief Executive Officer and Corporate Secretary
Rob Binns – Chief Financial Officer
Dan Reitzik – Director
Mitchell Demeter – Director
Mark Binns is considered to be the Promoter of the Corporation. See “Directors, Officers and Promoters” and “Promoter”.
- Escrowed Securities:** An aggregate of 9,400,000 of the currently issued and outstanding Common Shares issued prior to this Offering and all of the share options, being 1,788,750, will be deposited in escrow pursuant to the terms of the Escrow Agreement, and will be released from escrow in stages over a period of 18 months from the date of the Final QT Exchange Bulletin. See “Escrowed Securities” and “Options to Purchase Securities”.
- Risk Factors:** Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. **The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment.** The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are

potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment of approximately 26% or \$0.026 per Common Share. There can be no assurance that an active and liquid market for the Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing the Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction. The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "Business of the Corporation", "Use of Proceeds", "Officers, Directors and Promoters", "Capitalization", "Dilution", "Plan of Distribution", "Risk Factors" and "Conflicts of Interest".

Proposed Operations until Completion of the Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing the Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non-Arm's Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations. The Corporation is not specifically considering pursuing a company, asset or business in any specific business or industry sector, or in any particular geographical area, and the Corporation anticipates reviewing companies, assets and businesses in a broad range of industry sectors and geographical areas.

Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Use of Proceeds", the funds raised pursuant to the Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders' interest in the Corporation to be further diluted.**

Criteria for the Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability.

The board of directors will examine proposed acquisitions having regard to sound business fundamentals and to the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of a Qualifying Transaction

Upon the Corporation reaching a Qualifying Transaction Agreement, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation shall be required to submit for review to the Exchange a Disclosure

Document that complies with Exchange requirements containing prospectus level disclosure of the Significant Assets and the Corporation, assuming Completion of the Qualifying Transaction. Where the proposed Qualifying Transaction is a Non-Arm's Length Qualifying Transaction, the Corporation must obtain Majority of the Minority Approval of the Qualifying Transaction. Where the proposed Qualifying Transaction is not a Non-Arm's Length Qualifying Transaction, the Exchange will not require the Corporation to obtain Shareholder approval of the Qualifying Transaction provided that it files the CPC Filing Statement or a Prospectus.

Once the Conditional Acceptance Documents have been accepted for filing, the Exchange will advise the Corporation that it is cleared to file the final Disclosure Document on SEDAR and:

1. where Shareholder approval of the Qualifying Transaction is not required, the Corporation must file the final CPC Filing Statement or Prospectus on SEDAR at least seven business days prior to:
 - a. the resumption of trading in the securities of the Resulting Issuer following the Completion of the Qualifying Transaction, if the securities of the Corporation are halted from trading; or
 - b. the Completion of the Qualifying Transaction, if the securities of the Corporation are not halted from trading;
2. where Shareholder approval is required and is to be obtained at a meeting of Shareholders, the Corporation will file on SEDAR and mail to its Shareholders the notice of meeting, CPC Information Circular and form of proxy, together with any other required documents; and
3. where Shareholder approval is required and is to be obtained by written consent, the Corporation will file on SEDAR the final Disclosure Document.

If required by the Exchange, the Corporation will retain a Sponsor, who must be a Member of the Exchange or a Participating Organization of the Toronto Stock Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the Policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final QT Exchange Bulletin. The Exchange will generally not issue the Final QT Exchange Bulletin until the Exchange has received:

1. confirmation of Shareholder approval of the Qualifying Transaction, if required;
2. confirmation of closing of the Qualifying Transaction; and
3. all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final QT Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of a Qualifying Transaction Agreement until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms, or, if applicable, declarations for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable must also be completed before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

1. the unacceptable nature of the business of the Resulting Issuer; or

2. the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, Completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Qualifying Transaction Agreement or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

In the event that the Common Shares are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non-Arm's Length Parties to the Corporation, determine to deal with the Corporation or its remaining assets in some other manner. See "Filings and Shareholder Approval of a Non-Arm's Length Qualifying Transaction."

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

1. the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange;
2. the Resulting Issuer will be a mutual fund, as defined in the securities legislation; or
3. notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

USE OF PROCEEDS

The total dollar amount of funds available upon completion of the Offering will be \$1,161,695.

Until required for the Corporation's purposes, the proceeds will only be invested in securities of, or those guaranteed by, the Government of Canada or any province or territory of Canada or the Government of the United States of America, in certificates of deposit or interest-bearing accounts of Canadian chartered banks, trust companies or credit unions.

The proceeds from the Offering and any prior sale of Common Shares, after deducting the expenses associated with the Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Corporation may commit.

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in "Prohibited Payments to Non-Arm's Length Parties", "Private Placements for Cash" and "Finder's Fees", the gross proceeds realized from the sale of all securities issued by the Corporation will be used by the Corporation only to identify and evaluate assets or businesses and obtain shareholder approval, if applicable, for a proposed Qualifying Transaction, including expenses such as:

In addition, a maximum aggregate amount of \$25,000 may be advanced as a non-refundable deposit or unsecured loan to a Target Company or Vendor(s), as the case may be, without the prior acceptance of the Exchange. Any proposed deposit, advance or loan of funds from the Corporation to the Target Company or a Vendor(s) in excess of

such \$25,000 maximum aggregate may only be made as a secured loan with the prior acceptance of the Exchange where all of the following conditions are satisfied:

1. the Qualifying Transaction is not a Non-Arm's Length Qualifying Transaction;

Prohibited Payments to Non-Arm's Length Parties

Except as described under "Permitted Use of Proceeds", the Corporation has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non-Arm's Length Party to the Corporation or to a Non-Arm's Length Party to the Qualifying Transaction, or to a person engaged in investor relations activities, promotional or market-making services in respect of the Corporation or the securities of the Corporation or any Resulting Issuer, by any means, including:

1. remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees (except as permitted under the CPC Policy), loans, advances and bonuses; and

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non-Arm's Length Parties and persons engaged in investor relations activities continue to apply until the Completion of the Qualifying Transaction.

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Corporation will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of the Qualifying Transaction, the Exchange generally will not accept a private placement by the Corporation where the gross proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$10,000,000. Generally, the only securities issuable pursuant to such a private placement will be Common Shares and agent's options. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non-Arm's Length Parties to the Corporation and to Principals of the Resulting Issuer will be subject to escrow.

Finder's Fees

Upon Completion of the Qualifying Transaction, the Corporation and Target Company may pay finder's fees in aggregate pursuant to Exchange Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions*:

1. to a Person that is not a Non-Arm's Length Party to the Corporation; and
2. to a Non-Arm's Length Party to the Corporation, provided that:
 - a. the Qualifying Transaction is not a Non-Arm's Length Qualifying Transaction;

- b. the Qualifying Transaction is not a transaction between the Corporation and an existing public company;
- c. the finder's fee is payable in the form of cash, Listed Shares and/or Warrants only;
- d. the amount of any Concurrent Financing is not included in the value of the measurable benefit used to calculate the finder's fee; and
- e. approval of the finder's fee is obtained by ordinary resolution at a meeting of Shareholders of the Corporation or by the written consent of Shareholders of the Corporation holding more than 50% of the issued Listed Shares of the Corporation, provided that the votes attached to the Listed Shares of the Corporation held by the recipient of the finder's fee and its Associates and Affiliates are excluded from the calculation of any such approval or written consent.

The Agent will receive a cash commission of 8% of the aggregate gross proceeds from the sale of the Common Shares, which equals \$20,000 in the event the Offering is completed. In addition, the Agent will be paid an administration fee of \$15,000. The Corporation will also pay the Agent's expenses, including reasonable legal fees, plus applicable taxes and disbursements, \$15,000 of which has been paid by the Corporation as a retainer.

Pursuant to the Agency Agreement, the Corporation agrees to notify the Agent of any further brokered equity financings being undertaken by the Corporation in connection with the Corporation's Qualifying Transaction and the Agent will have a right of first refusal to act as the Corporation's agent in respect of such brokered financing for a period of time to be agreed upon in the Agency Agreement. Such right of first refusal is to be exercised within 5 days following receipt of notice by the Corporation to the Agent containing the terms of the proposed equity financing. In addition, the Agent has a right of first refusal to provide sponsorship services in connection with the Qualifying Transaction (if required), which right is to be upon the same terms as that for equity financings by the Corporation.

The Agent's Option is qualified under this prospectus. Not more than 50% of the Common Shares received on the exercise of the Agent's Option may be sold by the holders thereof prior to the Completion of the Qualifying Transaction. The remaining 50% may be sold after the Completion of the Qualifying Transaction. The Agent has agreed to use their commercially reasonable efforts to secure subscriptions for the Common Shares offered hereunder on behalf of the Corporation and may make co-brokerage arrangements with other investment dealers at no additional cost to the Corporation. The obligations of the Agent under the Agency Agreement may be terminated at its discretion on the basis of its assessment of the state of financial markets and may also be terminated on the occurrence of certain events as stated in the Agency Agreement.

The funds received from the Offering will be deposited with the Agent, and will not be released until minimum proceeds of \$250,000 have been deposited. The total subscription must be raised within 90 days of the date a receipt for this prospectus is issued, or such other time as may be consented to by persons or companies who subscribed during that period, failing which the Agent will remit the funds collected to the original subscribers without interest or deduction, unless subscribers have otherwise instructed the Agent.

Notes:

(1) Based on 15,387,500 Common Shares issued and outstanding as at the date of this Prospectus. The remaining 5,162,500 Common Shares are not required to be escrowed.

(2) Assumes 17,887,500 Common Shares issued and outstanding on completion of the Offering.

Where the Common Shares which are required to be held in escrow are held by a non-individual (a "**holding company**"), each holding company pursuant to the Escrow Agreement has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize securities to be issued or transferred if it could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement:

- a) all Share Options granted prior to the date of the Final QT Exchange Bulletin and all Common Shares that were issued pursuant to the exercise of such Share Options prior to the date of the Final QT Exchange Bulletin will be released from escrow on the date of the Final QT Exchange Bulletin, other than Share Options that were granted prior to the Offering with an exercise price that is less than the issue price of the Common Shares under this prospectus and any Common Shares that were issued pursuant to the exercise of such Share Options which will be released from escrow in accordance with (b);
- b) except for the Share Options and Common Shares issued pursuant to the exercise of such Share Options that are released from escrow on the date of the Final QT Exchange Bulletin as provided for in (a), all of the securities held in escrow will be released from escrow in accordance with the following schedule:

Release Dates	Percentage to be Released
Date of Final QT Exchange Bulletin	25%
Date 6 months following Final QT Exchange Bulletin	25%
Date 12 months following Final QT Exchange Bulletin	25%
Date 18 months following Final QT Exchange Bulletin	25%
TOTAL	100%

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to existing Principals of the Corporation and/or to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final QT Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, upon the issuance by the Exchange of a bulletin delisting the Corporation, the Transfer Agent is irrevocably authorized to:

1. immediately cancel all of the escrowed Common Shares held by each Non-Arm's Length Party to the Corporation that were issued at a price below the Offering price under this prospectus and all Share Options and common shares issued upon exercise of Share Options held by such persons; and
2. cancel all of the escrowed securities on a date that is 10 years from the date of such Exchange bulletin.

Escrowed Securities on Qualifying Transaction

Generally, in connection with the Qualifying Transaction, subject to certain exemptions, all securities of the Resulting Issuer held by Principals of the Resulting Issuer will be required to be escrowed in accordance with the Policies of the Exchange.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of approximately \$0.026 per Common Share or 26% if the Offering is completed. Dilution has been computed on the basis of there being 17,887,500 Common Shares issued and outstanding following completion of the Offering and total gross proceeds to be raised by this prospectus and from sales of securities prior to filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation.

Total gross proceeds after the Offering	\$1,318,750

Gross proceeds per share after the Offering	\$0.074
Dilution per share to subscriber	\$0.026
Percentage of dilution in relation to offering price	26%

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative and there are a number of risks inherent in making such an investment. The following are some of the risk factors associated with the Corporation:

1. the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction, see "Business of the Corporation" and "Use of Proceeds" and accrued receivables;
2. investment in the Common Shares offered by the prospectus is highly speculative given the proposed nature of the Corporation's business and present stage of development, see "Business of Corporation";
3. the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time, see "Officers, Directors and Promoters";
4. assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of approximately \$0.026 or 26% per Common Share, see "Dilution";
5. there is no market through which the Common Shares offered by this prospectus may be sold and purchasers may not be able to resell the Common Shares purchased under this prospectus. This may affect the pricing of the Common Shares in the secondary market, the transparency and availability of trading prices, the liquidity of the Common Shares and the extent of issuer regulation.
6. there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;

7. until Completion of the Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions, see "Business of the Corporation";
8. the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction, see "Plan of Distribution";
9. even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction, see "Business of the Corporation";
10. Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non-Arm's Length Qualifying Transaction, Majority of the Minority Approval, see "Business of the Corporation";
11. unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non-Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares, see "Business of the Corporation";
12. upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares (if listed on the Exchange) will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained (if required) and certain preliminary reviews have been conducted. If listed on the Exchange, the Common Shares may be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction, see "Business of the Corporation";
13. if listed on the Exchange, trading in the Common Shares may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required, see "Business of the Corporation";
14. neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
15. in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
16. the Qualifying Transaction may be financed in whole or in part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation;
17. subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to the greater of \$250,000 and 20% of its working capital to a target business without shareholder approval and there can be no assurance that the Corporation will be able to recover that loan, see "Use of Proceeds"; and
18. if the Corporation does not list the Common Shares on the Exchange prior to the time of closing of the Offering or does not make an election to be a "public corporation" for purposes of the Tax Act in the manner contemplated under "Eligibility for Investment", adverse tax consequences will arise with respect to any Common Shares held in RRSPs, RRFs, TFSAs or other deferred plans.

As a result of these factors, the Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

INTERESTS OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

Certain directors and officers of the Corporation have acquired Common Shares in the Seed Capital phase of the Corporation. See "Principal Shareholders".

DIVIDEND POLICY

To date, the Corporation has not paid any dividends on its outstanding Common Shares. The future payment of dividends will be dependent upon the financial requirements of the Corporation to fund further growth, financial condition

of the Corporation and other factors which the board of directors of the Corporation may consider in the circumstances. It is not contemplated that any dividends will be paid in the immediate or foreseeable future.

ELIGIBILITY FOR INVESTMENT

In the opinion of Cassels Brock & Blackwell LLP, counsel to the Corporation, based on the current provisions of the *Income Tax Act* (Canada) (the "**Act**") and the regulations thereunder, in force as of the date hereof, the Common Shares, if, as and when listed on a designated stock exchange (which includes Tier 2 of the Exchange) or the Corporation is a "public corporation" (other than a mortgage investment corporation), as defined in the Act, will be qualified investments for a trust governed by a registered retirement savings plan ("**RRSP**"), a registered retirement income fund ("**RRIF**"), a registered education savings plan ("**RESP**"), a deferred profit sharing plan, a registered disability savings plan ("**RDSP**") and a tax-free savings account ("**TFSA**"), each as defined under the Act.

Notwithstanding that the Common Shares may be a qualified investment for a trust governed by an RRSP, RRIF, RESP, RDSP or TFSA (a "**Plan**"), the annuitant of the RRSP or RRIF, the subscriber under an RESP or the holder of a TFSA or RDSP, as the case may be, (the "**Controller**") will be subject to a penalty tax in respect of Common Shares acquired by a Plan if such Common Shares are a "prohibited investment" for the particular Plan. The Common Shares will generally be a "prohibited investment" of a Plan if the Controller of the Plan does not deal at arm's length with the Corporation for the purposes of the Act or has a "significant interest" (as defined in subsection 207.01(4) of the Act) in the Corporation. In addition, the Common Shares will not be a "prohibited investment" if the Common Shares are "excluded property" as defined in the Act for a Registered Plan.

Prospective investors are urged to consult their own tax advisors.

FINANCIAL STATEMENTS

FOR THE PERIOD FROM INCORPORATION, JANUARY 24, 2022 TO SEPTEMBER 30, 2022

EXPRESSED IN CANADIAN DOLLARS

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Hopefield Ventures Two Inc.

Opinion

We have audited the financial statements of Hopefield Ventures Two Inc. (the "Company"), which comprise the statement of financial position as at September 30, 2022, the statements of loss and comprehensive loss, statements of changes in shareholders' equity and statements of cash flows for the period from incorporation, January 24, 2022, to September 30, 2022, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the Management Discussion & Analysis for the period from incorporation, January 24, 2022, to September 30, 2022, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

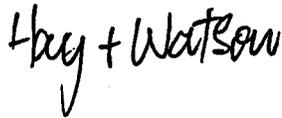

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

HOPEFIELD VENTURES TWO INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM INCORPORATION, JANUARY 24 TO SEPTEMBER 30, 2022
EXPRESSED IN CANADIAN DOLLARS

1. NATURE AND CONTINUANCE OF OPERATIONS

Hopefield Ventures Two Inc. (the “Company”) is a private company incorporated under the Business Corporations Act of British Columbia on January 24, 2022. The address of the Company’s corporate office and its principal place of business is 2200 HSBC Building, 885 West Georgia Street, Vancouver, BC, Canada. The Company intends to obtain a listing on the TSX Venture Exchange under the Capital Pool Company Program and, once public, the Company’s business plan is to identify a suitable private operating company to complete a qualifying transaction.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company does not generate sufficient cash flow from operations to adequately fund its activities and has therefore relied principally upon the support of creditors and the issuance of securities for financing. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company intends to continue relying upon the issuance of securities to finance its future activities but there can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company. Although these financial statements do not include any adjustments that may result from the inability to secure future financing, such a situation would have a material adverse effect on the Company's recoverability of assets, classification of assets and liabilities, and results of operations should the Company be unable to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations by the International Financial Reporting Interpretations Committee (“IFRIC”). All amounts are expressed in Canadian dollars, unless otherwise noted. These financial statements were approved by the Board of Directors of the Company on October 31, 2022.

HOPEFIELD VENTURES TWO INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM INCORPORATION, JANUARY 24 TO SEPTEMBER 30, 2022
EXPRESSED IN CANADIAN DOLLARS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of presentation

These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The financial statements are presented in Canadian dollars, which is also the functional currency of the Company.

Significant accounting estimates and judgments

The preparation of these financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported revenues and expenses during the period.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates. Key estimates made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements are:

Going concern assumption

The assessment of whether the going concern assumption is appropriate requires management to consider all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

For the period ended September 30, 2022, the Company did not need to apply any critical judgments in identifying accounting policies that would have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year.

Share-based compensation

The Company may grant stock options to acquire common shares of the Company to directors, officers, employees and consultants. An individual is classified as an employee when the individual is an employee for legal or tax purposes or provides services similar to those performed by an employee.

HOPEFIELD VENTURES TWO INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM INCORPORATION, JANUARY 24 TO SEPTEMBER 30, 2022
EXPRESSED IN CANADIAN DOLLARS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Share-based compensation (continued)

Share-based payments to employees and others providing similar services are measured at the estimated fair value of the instruments issued on the grant date and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received.

The fair value of the stock options is determined using the Black-Scholes option pricing model. The fair value of stock options is recognized as expense over the vesting period. Consideration paid for the shares on the exercise of share purchase options is credited to share capital.

Share issue costs

Costs directly identifiable with the raising of capital will be charged against the related share capital. Costs related to shares not yet issued are recorded as deferred financing costs. These costs will be deferred until the issuance of the shares to which the costs relate, at which time the costs will be charged against the related share capital or charged to operations if the shares are not issued.

The value of compensatory warrants granted to agents in a private placement is determined using the Black-Scholes option pricing model. The fair value of these compensatory warrants is recognized as share issuance costs, with an offsetting credit to reserves.

Basic and diluted loss per share

Basic earnings (loss) per share is computed by dividing net earnings (loss) available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted earnings (loss) per share is computed by adjusting the net earnings (loss) available to common shareholders and the weighted average number of shares outstanding for the effects of potential common shares, if dilutive. Potential common shares include stock options and warrants and are calculated by assuming that these instruments were exercised and that the proceeds from such exercises were used to acquire common shares at the average market price during the reporting periods. For the period presented, this calculation proved to be anti-dilutive.

EXPRESSED IN CANADIAN DOLLARS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Financial assets are recognized initially at fair value and are subsequently classified and measured at: (i) amortized cost; (ii) fair value through other comprehensive income (“FVOCI”); or (iii) fair value through profit or loss (“FVTPL”). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Financial assets which have contractual cash flows composed solely of principal and interest are measured at amortized cost when they are held with the objective of collecting those cash flows and at FVOCI when they may also be held for sale. Financial assets not classified as amortized cost or FVOCI are measured at FVTPL.

A financial asset is initially measured at fair value net of transaction costs that are directly attributable to its acquisition except for financial assets at FVTPL where transaction costs are expensed. All financial assets not classified and measured at amortized cost or FVOCI are measured at FVTPL.

On initial recognition of an equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income.

The classification determines the method by which the financial assets are carried on the statement of financial position subsequent to inception and how changes in value are recorded. The Company’s financial assets consist of cash and accrued receivables which are measured at amortized cost.

Financial liabilities

Financial liabilities are recognized initially at fair value and subsequently measured at (i) amortized cost or (ii) FVTPL. All financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities measured at FVTPL, such as derivatives and certain financial commitments and guarantee contracts. Financial liabilities may also be designated at fair value through profit and loss if doing so results in more relevant information. The classification determines the method by which the financial liabilities are carried on the statement of financial position subsequent to inception and how changes in value are recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

The Company's financial liabilities consist of accounts payable and accrued liabilities which are measured at amortized cost. As at September 30, 2022, the Company does not have any derivative financial liabilities.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash and accounts payable and accrued liabilities.

Fair values

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets and liabilities;
Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of cash, accrued receivables and accounts payable and accrued liabilities approximate their fair values due to the nature and expected maturity of these financial instruments.

Financial instrument risk exposure and risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's financial risk management framework. The Company considers the fluctuations of financial markets and seeks to minimize potential adverse effects on financial performance.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management process.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Financial instrument risk exposure and risk management (continued)

(a) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligation. The Company's exposure to credit risk includes its cash. The Company manages credit risk in respect of cash by placing its cash with a major Canadian financial institution in accordance with the Company's investment policy.

Concentration of credit risk exists with respect to the Company's cash as all amounts are held at a single major Canadian financial institution. The Company's concentration of credit risk and maximum exposure thereto is considered minimal.

The maximum exposure to credit risk is equal to the carrying value of the financial assets.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in obtaining funds to meet commitments. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. All of the Company's financial liabilities are due within the next operating period.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and commodity price risk.

i. Interest rate risk

Some of the Company's accounts payable and accrued liabilities trade payables may be subject to interest on unpaid balances.

Financial instrument risk exposure and risk management (continued)

- ii. Commodity price risk
Commodity price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company actively monitors commodity price changes and stock market prices to determine the appropriate course of action to be taken by the Company.

4. SHARE CAPITAL (continued)

Share options (continued)

As noted, the company uses the Black-Scholes option pricing model and the following table sets out the weighted average assumptions used in calculating the fair value of share options granted:

Expected dividend yield	Nil
Expected volatility	59%
Risk-free interest rate	1.90%
Expected share option life	10 years
Fair value (per share) of share options granted	\$0.048

Expected volatility was estimated by reference to the price history of publicly traded small cap software and services companies over a ten-year period, commensurate with the expected life of the options. Expected life was estimated to be equal to the contractual life of the share options. The total fair value of \$84,995 was recognized as share-based compensation expense during the period ended September 30, 2022. No reversal of share-based compensation was recorded in conjunction with the cancellation of share options which occurred during the period.

Details of share options outstanding, changes in share options outstanding, exercise prices and remaining lives of share options are reflected in the tables below.
