# NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2023 - unaudited

## 1. Nature of operations

The predecessor corporation of SSC Security Services Corp. (the "Company" or "SSC") was incorporated under The Business Corporations Act (Saskatchewan) (the "Act") on October 25, 2011. The existing Company was formed by an amalgamation under the Act on August 8, 2013. The Company's common shares are publicly traded on the TSX Venture Exchange under the symbol "SECU" (OTCQX: SECUF). The Company provides physical and cyber security services across Canada.

The head office of the Company is located at 300 – 1914 Hamilton Street, Regina, Saskatchewan, S4P 3N6. The Company's registered and records office is located at 800 – 1801 Hamilton Street, Regina, Saskatchewan, S4P 4B4.

These condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 14, 2023.

## 2. Basis of presentation

### A. STATEMENT OF COMPLIANCE

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Committee ("IFRIC"). They do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last audited annual financial statements as at and for the period ended September 30, 2022.

### B. BASIS OF MEASUREMENT

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for the following material items in the condensed interim consolidated statement of financial position:

- Financial instruments that are accounted for at fair value through profit and loss (Note 19).
- Share purchase options and deferred share units that are accounted for according to the share-based payments criteria.
- Assets held for sale are held at the lower of carrying value and fair value.

### C. BASIS OF CONSOLIDATION

The condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries SRG Security Resource Group Inc. ("SRG") and Logixx Security Inc. ("Logixx"). Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities, is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date on which control ceases. All intercompany transactions and balances have been eliminated. All companies have a reporting date of September 30th.

### D. FUNCTIONAL AND PRESENTATIONAL CURRENCY

The condensed interim consolidated financial statements are presented in Canadian dollars, the functional currency of the Company and its subsidiaries, and all values are rounded to the nearest dollar with the exception of share and per share value.

### E. USE OF ESTIMATES AND JUDGMENTS

The preparation of condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ materially from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected.

Significant areas requiring the use of management estimates are further described in the following summary of significant accounting policies and notes:

- Fair value of financial instruments;
- Expected credit losses on financial assets;
- Estimates of future taxable income; and
- Impairment of non-financial assets.

Areas of judgement in applying accounting policies that have the most significant effect on the amount recognized in the condensed interim consolidated financial statements include:

- Classification and measurement of financial instruments including the business model applied;
- Recognition of deferred tax assets;
- Identification of the fair values of assets and liabilities acquired in a business combination;
- Assessing recoverable amounts of all significant financial and non-financial assets; and
- There is judgement in determining the timing of revenue recognition pertaining to electronic installation services, where the entire contract is one performance obligation and is recognized over time using the percentage of completion basis. Timing of revenue recognition may differ from when customers are invoiced, which could result in contract assets or contract liabilities being recognized.

### F. MEASUREMENT OF FAIR VALUES

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act. The fair value hierarchy establishes three levels to classify the inputs of valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

- Level 1 – Fair values are determined using inputs that are quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Fair values are determined using inputs, other than quoted prices in level 1, that are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liabilities. In determining the inputs for calculating fair values, the Company looks for readily observable market inputs, primarily interest rates and forward prices based on the nature of the Company's derivative instruments.
- Level 3 – Fair values are determined based on inputs for the asset or liability that are not based on observable market data. Asset under collection values are calculated using internal discounted cash flow models that rely on forward pricing provided by independent sources and long term basis assumptions. Assets that are impaired or in the process of security realization are dependent upon fair value assessments of underlying security, primarily land.

The Company regularly reviews significant inputs and valuation assumptions. If third party information is used to measure fair values, then the Company assesses the evidence obtained from third parties to support the conclusion that these valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which the valuations should be classified.

### 3. Significant accounting policies

The accounting policies applied by the Company in these condensed interim consolidated financial statements are the same as those applied as at and for the year ended September 30, 2022, and are detailed in note 3 of the Company's audited consolidated financial statements.

### 4. Segment reporting

Segment reporting is prepared on the same basis that the Company's Chief Executive Officer, who is the Company's Chief Operating Decision Maker, manages the business, makes operating decisions and assesses performance. As at June 30, 2023, Management has determined that the Company operates in three segments: Security, Legacy Operations, and Corporate. The security segment provides security services to primarily commercial and public sector clients. Services include cyber security services, protective services as well as security system design, sales, installations, and monitoring and alarm response. Legacy operations relate to the previous canola streaming business. The corporate segment includes intersegment charges and corporate overhead costs. Since May 2019, SSC has not deployed capital into new agriculture streams and is servicing those clients until their contracts with the Company mature.

The Company provides security services for enterprise customers across Canada. Segment results include items directly attributable to a segment and inter-segment administration charges, reflected as corporate revenue. The Company accounts for intersegment sales as if they were to external customers.

Segment statements of income (loss) and comprehensive income (loss) for the three months ended June 30, 2023 are included below:

Each eligible director is given the opportunity to elect, in lieu of cash, to receive all, or a portion of, their annual board retainer or board meeting fees in the form of DSUs. The DSUs are cash-settled payment transactions and are valued at the fair value of the rights based on the closing stock price at the end of the reporting period. The SARs vest one-third per year over a three year vesting period, and expire at the end of a five-year period after the grant date. As at June 30, 2023, any expense or liability balance relating to the SAR Plan has been deemed nominal.

### 19. Financial instruments

**CAPITAL RISK MANAGEMENT** - The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the capital structure. The Company's capital consists of \$68,645,618 (June 30, 2022 - \$72,391,772) of equity attributable to common shareholders, comprised of share capital, contributed surplus, and accumulated deficit.

**CREDIT RISK MANAGEMENT** - The Company's financial assets subject to credit risk include cash, accounts receivable, mortgages and legacy contract assets. Management's view is that the carrying amounts of these assets represent the maximum credit exposure.

The carrying amount of these assets is:

	June 30, 2023	September 30, 2022
Cash	\$ 12,648,138	\$ 11,195,115
Accounts receivable	21,498,806	20,888,761
Legacy contract assets (Note 7)	5,816,941	8,013,701
Mortgages and loans receivable (Note 8)	1,242,770	4,504,522
	\$ 41,206,655	\$ 44,602,099

Management has implemented a number of policies and procedures to manage credit risk. These include: continuously monitoring counterparties' creditworthiness, assignments of collateral and security, and assignment of insurance. For the remaining legacy business contracts, management also monitors the industry environment to ensure that policies, activities and prices are appropriate and relevant.

The aging of trade and other receivables and allowance for doubtful accounts are as follows:

	June 30, 2023	September 30, 2022
Not past due	\$ 16,286,443	\$ 14,872,138
Past due 0-90 days	3,836,997	5,401,966
More than 90 days past due	1,830,041	1,434,960
Total trade and other receivables	21,953,481	21,709,064
Allowance for doubtful accounts	(454,675)	(820,303)
Total trade and other receivables net of allowance	\$ 21,498,806	\$ 20,888,761

**LIQUIDITY RISK** - The Company manages liquidity risk through ongoing management and forecasting of cash flows, budgeting, and equity financings. Cash flow forecasting is performed to monitor cash requirements and to manage capital management decisions. Such forecasting takes into account current customers, mortgage amortization schedules, contractual obligations and the Company's expectations. The term and payment dates of the Company's borrowings are generally matched with the timing at which it is expected to receive payments from customers. However, should the timing of payments differ from what is contracted, this does not change the requirement to repay loans from the bank, potentially affecting liquidity. It is due to these timing uncertainties that the Company maintains a high level of cash liquidity on an ongoing basis.

Legacy agreements contain obligations in that the Company agrees to purchases at a specified price at a future date. A summary of the payments due by period is summarized below:

	Payment due by period				Total
	< 1 year	1 - 3 years	4 - 5 years	> 5 years	
Purchase obligations	\$ 266,539	\$ -	\$ -	\$ -	\$ 266,539

**INTEREST RATE RISK** - The company has mortgages and loans receivable that are measured at amortized cost and contain a fixed interest rate. There is no variability in cash flow amounts or timing of cash flows with changes in interest rates, but, there are changes in the fair value of these financial assets.

**FOREIGN CURRENCY RISK** - Foreign currency risk is the risk that a variation in exchange rates between the Canadian dollar and other foreign currencies will affect the Company's operations and financial results. During the nine month period ended June 30, 2023, approximately 9.0% of the Company's revenues were received or receivable in U.S. dollars, while a smaller percentage of its total costs were paid or payable in U.S. dollars. A significant change in the exchange rate would have a nominal effect on income or loss.

**OTHER RISKS** - The Company is not subject to other significant foreign currency, or other price risks.

**FAIR VALUE** - The following sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy. As required by IFRS 9, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Mortgages and loans receivable - gain from legacy business	35,115	(6,765)	21,585	(20,295)
