#### **1. NATURE OF OPERATIONS AND THE ABILITY TO CONTINUE AS A GOING CONCERN**

EnGold Mines Ltd. (the “Company”) was incorporated in British Columbia under the Business Corporations Act. The Company is in the business of exploring for and evaluating economically viable mineral properties in Canada.

The Company’s registered and records office is 2200 – 700 W Georgia Street, Vancouver, BC V7Y 1K8.

The Company is in the process of exploring and evaluating its resource properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These condensed interim financial statements have been prepared in accordance with accounting principles applicable to a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the period ended December 31, 2025, the Company incurred a loss of \$39,380, has an accumulated deficit of \$60,014,836, and expects to incur further losses in the development of its business. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern.

The Company’s continuing operations and its ability to discharge its liabilities and fulfill its commitments as they come due, is dependent upon the ability of the Company to continue to obtain debt or equity financing in the short term, the continued support of related parties, and ultimately, on locating economically recoverable ore reserves in its mineral properties. Management believes the Company will be successful at securing additional funding, however, there is no assurance that such plans will be successful and if so, that the funding will be provided on terms acceptable to the Company.

If the Company is unable to obtain adequate additional financing and the continued support of related parties, the Company will be required to curtail operations and exploration activities. Furthermore, failure to continue as a going concern would require restatement of assets and liabilities on a liquidation basis, which would differ significantly from the going concern basis. The condensed interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

#### **2. BASIS OF PREPARATION**

##### **Statement of Compliance**

These financial statements have been prepared using accounting policies consistent with IFRS Accounting Standards Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

##### **Basis of Presentation**

The financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

## **2. BASIS OF PREPARATION (cont'd...)**

### **Use of Estimates and Judgments**

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting year, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to:

#### *Critical accounting estimates*

- i. Share-based payments are subject to estimation of the value of the award at the date of grant using pricing models such as the Black-Scholes option valuation model. The option valuation model requires the input of highly subjective assumptions including the expected share price volatility. Because the Company's options and warrants have characteristics significantly different from those of traded options and because the subjective input assumptions can materially affect the calculated fair value, such value is subject to measurement uncertainty.

#### *Critical accounting judgments*

- i. The carrying value and recoverability of mineral properties requires management to make certain estimates, judgments and assumptions about each project. Management considers the economics of the project, including the latest resources prices and the long-term forecasts, and the overall economic viability of the project. Management has assessed these indicators and does not believe an impairment provision is required.
- ii. Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.
- iii. The estimate for contingencies and settlement provisions require management to make judgments as to the likelihood of outcomes and estimates of the timing and the possible outflow of economic benefits.

## **3. MATERIAL ACCOUNTING POLICY INFORMATION**

The accounting policies applied in these condensed interim financial statements are the same as those applied in the most recent audited annual financial statements as at and for the year ended September 30, 2024, and reflect all the adjustments necessary for fair presentation in accordance with IAS 34.

### **New accounting standards issued but not yet effective:**

IFRS 18, Presentation and Disclosure in Financial Statements ("IFRS 18"), which will replace IAS 1, Presentation of Financial Statements aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statements of loss and comprehensive loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company has not yet determined the impact of this amendment on its condensed consolidated interim financial statements

## **4. RECLAMATION DEPOSITS**

As at December 31, 2025 the Company held \$147,000 (September 30, 2025 - \$147,000) in deposits with a financial institution as security for reclamation requirements.

#### 6. MINERAL PROPERTIES (cont'd...)

b) Peach Lake

The Company owns a 100% interest in a number of mineral claims located in the Clinton Mining Division of British Columbia, located near Lac La Hache that were acquired under option agreements with the original vendors. There is a 3% NSR due to the original vendor on four of the original seven claims acquired to a maximum of \$500,000 and a 1% NSR in favour of Peach Lake Resources Ltd., purchasable at any time for \$2,000,000.

c) Ann

The Company owns a 100% interest in two mineral claims located in the Clinton Mining Division of British Columbia, located near Lac La Hache. Under the terms of the agreements, the claims are subject to a 5% net profits royalty to a maximum of \$500,000.

d) Murphy Lake

The Company owns a 100% interest in a number of mineral claims located in the Cariboo Mining Division of British Columbia, located near Lac La Hache. Under the terms of an agreement dated June 3, 1993, the Company has agreed with the original vendor to issue 30,000 common shares, when it is confirmed that an ore body exists and the plans to commence commercial production are in place and pay a 3% NSR to a maximum of \$1,000,000. No shares have been issued to the date of these condensed interim financial statements.

e) PMA/Cassidy

The Company owns a 100% interest in four mineral claims, located in the Cariboo Mining Division of British Columbia, located near Lac La Hache.

f) Candorado Option Agreement

The Company owns a 100% interest in certain mineral claims located east of Williams Lake, BC, near Lac La Hache (the "Claims").

The Claims acquired by the Company are subject to a 2% NSR in favour of two optionees, purchasable by the Company at any time for \$1,000,000 (\$500,000 to each optionee). Certain other Claims are also subject to a 2% NSR in favour of two other optionees, which NSR is similarly purchasable by the Company at any time for \$1,000,000 (\$500,000 to each optionee).

g) Tam Property

On February 11, 2020, the Company entered into an option agreement to acquire 100% of the Tam Property which comprises mineral claims adjoining the Company's Lac La Hache Property.

The agreement with the vendor calls for EnGold to, on signing, apply 2 periods' worth of assessment work on the property (completed) and pay \$40,000 and issue 150,000 common shares over a four-year period. During the year ended September 30, 2024, the Company entered into an amending agreement, whereby the term was extended to five years and the total shares issuable under the agreement increased to 745,000 as follows:

- a) 10,000 common shares on exchange acceptance (*issued with fair value of \$4,500*);
- b) on the 12-month anniversary, \$5,000 and 15,000 common shares (*\$5,000 paid and 15,000 common shares issued with fair value of \$6,000 during the year ended September 30, 2021*);
- c) on the 24-month anniversary, \$10,000 and 20,000 common shares; (*\$10,000 paid and 20,000 common shares issued with fair value of \$4,300 during the year ended September 30, 2022*);
- d) on the 36-month anniversary, 100,000 common shares (amended from \$10,000 and 25,000 common shares – *issued during the year ended September 30, 2025 with fair value of \$4,000 (Note 9)*);
- e) on the 48-month anniversary, 200,000 common shares (amended from \$15,000 and 80,000 common shares – *issued during the year ended September 30, 2024 (Note 9)*); and
- f) on the 60-month anniversary, \$25,000 and 400,000 common shares.

### 6. MINERAL PROPERTIES (cont'd...)

#### g) Tam Property (cont'd...)

All commitments except the application of the work and payment of the first 10,000 shares are at the sole option of the Company. The Tam Property will at all times be subject to a 2% NSR in favour of the vendor, which NSR will be purchasable at any time by the Company for \$1,500,000.

As at the date of these, the commitments under the option agreement have not been met and the option agreement is not in good standing. The Company is currently in negotiations with the optionor to reach an amending agreement.

#### LLH1 Claim

The Company acquired the LLH1 mineral claim for consideration of a 2% NSR of the claim, of which 1% is purchasable by the Company for \$1,000,000 at any time.

### 7. LEASE LIABILITIES

The Company's lease liabilities include a property lease. During the year ended September 30, 2022, the Company entered into a new lease for a vehicle rental with undiscounted payments of \$59,664. During the year September 30, 2023, the Company terminated its vehicle lease, which was valued at \$32,578. On termination, the Company derecognized right-of use assets with a value of \$39,776 and recognized accounts receivable of \$5,301, which was due to the Company on termination. The Company recognized an aggregate loss of \$1,897 on the termination of the lease.

During the year ended September 30, 2025, due to amendments in the lease payment schedule, the Company recognized an adjustment to lease liabilities of \$14,469.

In calculating present values, the Company used a discount rate of 10%.

The following is a reconciliation of the changes in the lease liabilities:

	December 31, 2025	September 30, 2025
Opening balance	\$ -	\$ 91,116
Revaluation of lease liabilities	-	(14,469)
Lease accretion	-	4,187
Payments	-	-
Extinguishment of lease	-	(80,834)
	-	-
Current portion of lease liabilities	-	-
Lease liabilities	\$ -	\$ -

On May 31, 2025, the lease term ended and remaining payments of \$80,834 were reclassified to accounts payable and accrued liabilities.

### 8. LOANS PAYABLE

#### CEBA loan

As part of the Government of Canada's response to the COVID-19 global pandemic, certain businesses are eligible to apply for the Canada Emergency Business Account (the "CEBA"). The CEBA provides companies with a \$40,000 interest free loan to be used to cover non-deferrable operating expenses during the period where operations had been temporarily reduced due to the economic impacts of the COVID-19 virus. During the year ended September 30, 2020, the Company applied for the CEBA and received the \$40,000 loan. The CEBA remained interest free until January 18, 2024 and has no fixed repayment schedule. If \$30,000 is repaid on or before December 31, 2023, the remaining \$10,000 will be forgiven. If at January 18, 2024, any amount remained unpaid, the Company would enter into an extension agreement whereby it would accrue interest at a rate of 5% per annum, with a repayment schedule to be determined at that time.

### 8. LOANS PAYABLE (cont'd...)

During the year ended September 30, 2021, the Company received an additional \$20,000 in CEBA proceeds, of which \$10,000 was forgivable if paid by January 18, 2024.

The loan was not paid by January 18, 2024, and the loan now matures on December 31, 2026, bearing interest at 5% per annum. During the period ended December 31, 2025, the Company recognized \$756 in accrued interest on the loan (2024 - \$754). During the period ended December 31, 2025, the Government of Canada applied \$1,927 in GST claims receivable against the CEBA loan. During the year ended September 30, 2025, the Company made payments of \$2,286 towards loan interest.

#### *Promissory notes and related party loans*

During the year ended September 30, 2023, the Company issued a promissory note to an arm's-length party in the amount of \$30,000. The loan is unsecured, bears simple interest at 12% per annum, and does not have a fixed maturity date. During period ended December 31, 2025, the Company recognized interest of \$1,249 (2024 - \$1,008) on the promissory note.

During the year ended September 30, 2024, the Company issued the following promissory notes:

- a) \$12,500 to a Director of the Company. The loan is unsecured, non-interest bearing and does not have a fixed maturity date;
- b) \$2,200 to a Director of the Company. The loan is unsecured, non-interest bearing and does not have a fixed maturity date;
- c) \$5,000 to a former Director of the Company. The loan is unsecured, bears interest at 12% per annum and had a maturity of one year. During the period ended December 31, 2025, the Company recognized interest of \$217 (2024 - \$150) on the loan;
- d) \$7,020 to a former Officer of the Company. The loan is unsecured, bears interest at 12% per annum and had a maturity of one year. During the year ended September 30, 2025, the Company recognized interest of \$132 on the loan and the loan was repaid in full inclusive of \$704 in interest.

During the year ended September 30, 2025, the Company received an aggregate of \$79,700 in unsecured loans from three directors of the Company and an arm's-length party. The loans are non-interest bearing and have no maturity date.

During the period ended December 31, 2025, the Company received an aggregate of \$15,300 in unsecured loans from three directors of the Company. The loans are non-interest bearing and have no maturity date.

The Company did not have any share issuances during the period ended December 31, 2025.

During the year ended September 30, 2025, the Company:

- i) Issued 100,000 common shares pursuant to the Tam Property option agreement (Note 6) with a fair value of \$4,000.

## c) Stock options and warrants

The Company has a share purchase option plan approved by the Company's shareholders that allows it to grant share purchase options, subject to regulatory terms and approval, to its officers, directors, and employees. The share purchase option plan the "Option Plan" is based on the maximum number of eligible shares equaling a percentage of 5% of the Company's outstanding common shares. Pursuant to the Option Plan, if outstanding share purchase options are exercised or expire, and/or the number of issued and outstanding common shares of the Company increases, then the share purchase options available to grant under the plan increases proportionately. The exercise price of each share purchase option is set by the Board of Directors at the time of grant but cannot be less than the market price (less permissible discounts).

Under the Option Plan, if an optionee ceases to be a director, officer or employee for any reason other than death, this option shall terminate as specified by the Board and all rights to purchase common shares under such option shall cease and expire and be of no further force or effect. Options have a maximum term of five years and depending on who the optionee is and whether the optionee resigned or is terminated, will terminate on the effective date of resignation or termination or 18 months following termination, except in the case of death, in which case they terminate one year after death. Unless otherwise noted, vesting of options is made at the time of granting of the options at the discretion of the Board of Directors. Vested options are exercisable at any time. The Company did not grant any stock options during the period ended December 31, 2025 or the year ended September 30, 2025.

Key management personnel comprise the Chief Executive Officer, Chief Financial Officer, Corporate Secretary, Vice President of Exploration and Directors of the Company. The remuneration of the key management personnel for the period ended December 31, 2025, is as follows:

- Included in management and consulting fees are \$nil (2024 - \$30,000) for services provided by the former CEO, and \$6,000 (2024 - \$6,000) accrued to the corporate secretary and former interim CFO.
- Included in mineral property expenditures are \$nil (2024 - \$7,000) for geological consulting services to a company controlled by the Vice President of Exploration.

As at December 31, 2025, an amount of \$1,083,924 (September 30, 2025 - \$1,077,924) is included in due to related parties. These balances are unsecured, non-interest bearing, have no fixed repayment terms, and are due on demand. Included within due to related parties is an accrual of \$926,549 related to tax indemnification resulting from an unfulfilled obligation to incur qualifying exploration expenditures (Note 11). No demand payment of these funds has been made. As at December 31, 2025, \$nil (September 30, 2025 - \$nil) is included within prepaid expenses to related parties.

As at December 31, 2025, an amount of \$105,926 is due to Directors of the Company (September 30, 2025 - \$90,409) is included within loans payable (Note 8).

### 11. COMMITMENTS AND CONTINGENCIES

- i) From time to time, certain claims, lawsuits, and complaints may arise in the ordinary course of operations against the Company. Provisions related to such claims, if any, will be accrued when the claims meet the recognition criteria for contingent liabilities. The Company is not aware of any material unrecorded contingent liabilities which require recording in the condensed interim financial statements for the year ended September 30, 2025, other than the following.

On February 27, 2025, the President & CEO of the Company was terminated by the Company. The Company has been advised that the former CEO will be initiating litigation to collect unpaid wages and severance due under the officer's 2017 employment contract. During the year ended September 30, 2025, the Company recognized a legal provision of \$237,000 in relation to this litigation on top of previously accrued fees of \$230,000.

A former senior officer of the Company commenced litigation against the Company alleging wrongful dismissal and claiming unspecified damages. During the year ended September 30, 2020, a judgment was reached, and the Company was ordered to pay \$72,500 plus plaintiff's costs. As at September 30, 2022 the Company had accrued a provision of \$403,262 related to plaintiff costs. During the year ended September 30, 2023, the Company entered into an agreement whereby it would settle an aggregate of \$355,000 in plaintiff costs, of which \$121,142 was previously paid in trust, over the course of two years. Accordingly, the Company adjusted its legal settlements payable balance to \$234,000 and recognized an adjustment of \$169,404 to profit and loss during the year ended September 30, 2023.

The repayment schedule for legal settlements payable is as follows:

- \$140,000 by February 17, 2023 (*paid, of which \$121,142 was previously held in trust*)
- \$55,000 by July 1, 2023 (*paid*)
- \$55,000 by December 1, 2023 (*unpaid as at September 30, 2025*)
- \$55,000 by June 1, 2024 (*unpaid as at September 30, 2025*)
- \$50,000 by December 1, 2024 (*unpaid as at September 30, 2025*)

As at the date of these condensed interim financial statements, the remaining payments per the above the schedule have not been made. The Company has been granted extensions on a month-to-month basis in exchange for monthly payments of interest. During the period ended December 31, 2025, the Company made \$nil (2024 - \$2,280) in interest payments on the balance owing.

### 11. COMMITMENTS AND CONTINGENCIES (cont'd...)

- ii) The Company is partly financed by the issuance of flow-through shares. However, there is no guarantee that the funds spent by the Company will qualify as Canadian exploration expenses, even if the Company has committed to take all the necessary measures for this purpose. Refusals of certain expenses by tax authorities would have negative tax consequences for investors. During the year ended September 30, 2023, the Company did not meet its required expenditures under its flow-through obligation and became liable to indemnify a shareholder for the tax impact of the shortfall. The Company has recognized an accrual within due to related parties for \$926,549 relating to the expected indemnification.

As at December 31, 2025, the Company had an obligation to incur \$nil (September 30, 2025 - \$49,442) in eligible exploration expenditures related to the flow-through private placement completed during the year ended September 30, 2024.

### 12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed to the following financial risks:

- Market Risk
- Interest Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these annual financial statements.

#### General Objectives, Policies and Processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

#### a) Market Risk

Market risk is the risk that changes in market prices, such as interest rates, commodity prices, and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. As at September 30, 2025, the Company is not materially exposed to market risk.

#### b) Interest Risk

Interest risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has not entered into any derivative contracts to manage risk. The Company's policy as it relates to its cash balances is to invest excess cash in a reputable Canadian chartered bank.

As of December 31, 2025, the Company's exposure to interest rate risk is cash with variable interest rate. A change in interest rates of 1% would not materially affect the Company's cash flows.

#### c) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is on its reclamation deposit.

## **12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)**

### **d) Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases.

The Company anticipates that the current funds are not sufficient to support its corporate and administrative obligations on a continuous basis. Management is evaluating other alternatives to secure financing including additional equity offerings. However, there is no assurance that these initiatives will be successful. The amount and timing of additional funding will be impacted by, among other things, the strength of the capital markets.

### **Determination of Fair value**

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The statement of financial position carrying values for cash, receivables, reclamation deposits, loans payable, due to related parties, leases and accounts payable and accrued liabilities approximates fair value due to their short-term nature.

## **13. CAPITAL MANAGEMENT**

The Company manages its capital to ensure that there are adequate capital resources to safeguard the Company's ability to continue as a going concern through the optimization of its capital structure. The capital consists of shareholder's equity comprising issued capital; share purchase warrants; reserves and deficit. The basis for the Company's capital structure is dependent on the Company's exploration programs. There were no changes in the Company's approach to capital management during the current year and the Company is not subject to externally imposed capital requirements, except when the Company issues flow-through shares. The Company is subject to certain requirements in relation to its use of funds raised through the issuance of flow-through shares. These funds have to be incurred for eligible exploration expenditures in accordance with Canadian federal and certain provincial income tax acts.
