MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund’s objective is to provide a return that is similar to the return of one or more exchange traded funds that invest primarily in Canadian equities. The Fund may invest all or a portion of its assets in one or more exchange traded funds, invest directly in the underlying securities held by the exchange traded funds and/or use derivatives to provide the Fund with a return determined by reference to the exchange traded funds.

The portfolio manager invests up to 100% of the Fund’s assets in securities of BMO S&P/TSX Capped Composite Index ETF, which seeks to replicate, to the extent possible, the performance of the S&P/TSX Capped Composite Index, net expenses. The S&P/TSX Capped Composite Index is a market capitalization-weighted index of securities of the largest and most liquid companies on the Toronto Stock Exchange (TSX). To the extent that the Fund does not invest 100% of its assets in securities of BMO S&P/TSX Capped Composite Index ETF, the Fund may invest in securities that make up the S&P/TSX Capped Composite Index in substantially the same proportion as the BMO S&P/TSX Capped Composite Index ETF.

Risk

The risks associated with an investment in the Fund remain as disclosed in the Fund’s most recent simplified prospectus or any amendments thereto, and fund facts. During the Period, there were no changes to the Fund that materially affected the overall risk level associated with an

investment in the Fund. On May 28, 2025, the Manager reviewed the Fund using the standardized investment risk classification methodology prescribed by National Instrument 81-102 *Investment Funds* and determined that the risk rating of the Fund had not changed. The Manager reviews the Fund’s investment risk level and reference index, if any, at least annually.

Results of Operations

During the Period, the Fund’s total net asset value changed from approximately \$678 million to approximately \$1,033 million. Series A units of the Fund returned 27.67%. Please see the *Past Performance* section for information on the performance returns of the Fund’s other series.

The S&P/TSX Composite Index gained 28.6% over the Period, driven by record highs in spot gold prices and exceptional bank earnings. Gold and gold-related stocks performed well as a result of U.S. dollar weakness, sustained central bank support and heightened geopolitical tensions.

The Fund’s exposure to the Financials, Materials and Information Technology sectors contributed to performance. Individual contributors included holdings in Shopify Inc., Agnico Eagle Mines Limited, and Royal Bank of Canada.

The Fund’s exposure to the Communication Services and Real Estate sectors detracted from performance. Individual detractors included holdings in Canadian National Railway Company and BCE Inc.

Series Switch and Termination

As at the close of business on November 22, 2024, Series G Units of the Fund were terminated and switched to Series A Units.

Management Fee Reduction and Administration Fee Change

On May 29, 2025, the management fee on Series A and F securities were reduced by 20 and 15 basis points to 0.55% and 0.05%, respectively.

The fixed administration fee of 0.10% paid to BMOII by this Fund in respect of Series A and F was eliminated. BMOII continues to be responsible for payment of the administration expenses for the Fund, other than the fund expenses which continue to be paid by the Fund directly.

For information on the Fund's performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

Recent Developments

Canadian equities are poised to finish 2025 strongly, driven by robust performances from the Financials, Energy and Information Technology sectors. A dovish (lower interest rates to stimulate economic growth and maximize employment) pivot by the Bank of Canada, including interest rate cuts totaling 125 basis points, has supported interest-rate-sensitive sectors and improved investor sentiment. However, potential U.S. tariffs on Canadian exports and slower domestic productivity growth present downside risks that could weigh on earnings and valuations. Despite these challenges, sector rotation and resilient corporate fundamentals indicate continued opportunity, especially in dividend-rich and cyclical areas.

In January 2025, U.S. President Donald Trump was inaugurated. Subsequently, the U.S. government has made sweeping policy changes. These policy changes include both an increase in existing tariffs and the invocation of new tariffs on many countries, including Canada. In response, both domestic and global financial markets have reacted with increased volatility. As at the current date, President Trump's policy changes are continuously shifting. It is uncertain how long the market instability will continue and whether it will escalate further.

RELATED PARTY TRANSACTIONS

From time to time, the Manager may, on behalf of the Fund, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager (each, a "Related Party"). The purpose of this section is to provide a brief description of any transaction involving the Fund and a Related Party.

Manager

BMO Investments Inc., an indirect, wholly-owned subsidiary of Bank of Montreal ("BMO"), is the Manager and trustee of the Fund. The Manager is paid a management fee by the Fund as compensation for its services, which is described in the "Management Fees" section later in this document.

Portfolio Manager

The Fund's portfolio manager is BMO Asset Management Inc. ("BMOAM"), an affiliate of the Manager. BMOAM provides portfolio management services to the Fund. BMOAM receives from the Manager a management fee based on assets under management, calculated daily and payable monthly.

Administration Fee and Operating Expenses

The Fund pays a fixed administration fee to the Manager in respect of each series other than Series I. The Manager in return pays the operating expenses of these series of the Fund, other than certain specified expenses that are paid directly by the Fund ("Fund Expenses"). Fund Expenses are allocated proportionately among the relevant series. If the Fund Expenses are specific to a series, the Fund Expenses are allocated to that series. The fixed administration fee is calculated as a fixed annual percentage of the net asset value of each relevant series of the Fund. The annual fixed administration fee rate for each series of the Fund, other than Series I, is 0.10%. The administration fee is subject to applicable taxes. The Manager may, in certain cases, waive a portion of the administration fee that it receives from the Fund or from certain series of the Fund. Separate fees and expenses are negotiated and paid directly by each Series I investor. Further details about the fixed administration fee, Fund Expenses and/or operating expenses can be found in the Fund's most recent simplified prospectus at www.bmogam.com/ca-en/investing-resources/legal-and-regulatory-documents or www.sedarplus.ca.

Buying and Selling Securities

During the Period and pursuant to applicable securities legislation, the Fund relied on standing instructions provided by the independent review committee ("IRC") with respect to one or more of the following related party transactions (each, a "Related Party Transaction"):

- (a) investments in securities issued by BMO;
- (b) investments in a class of securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where a related party dealer acted as an underwriter in the distribution;

BMO Canadian Equity ETF Fund

- (c) trades in debt securities of any issuer from or to a related party dealer acting as principal; and
- (d) trades of a security of any issuer from or to another investment fund or managed account managed by the Manager or an affiliate of the Manager.

In accordance with the IRC's standing instructions, in making a decision to cause the Fund to enter into a Related Party Transaction, the Manager and the portfolio manager of the Fund are required to comply with the Manager's written policies and procedures governing the Related Party Transaction and, among other things, advise the IRC of non-compliance with the applicable policies and procedures. The governing policies and procedures are designed to ensure that each Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc., and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc.; (ii) represents the business judgment of the Manager and/or portfolio manager, uninfluenced by considerations other than the best interests of the Fund; (iii) is in compliance with the Manager's written policies and procedures; and (iv) achieves a fair and reasonable result for the Fund.

Other Transactions with a Related Party

During the Period and pursuant to applicable securities legislation, the Fund relied on standing instructions and positive recommendations provided by the IRC with respect to engaging a Related Party as a derivatives counterparty or service provider.

Brokerage Commissions

The Fund pays standard brokerage commissions at market rates to BMO Nesbitt Burns Inc., an affiliate of the Manager, for executing a portion of its trades. The brokerage commissions charged to the Fund (excluding exchange and other fees) during the periods indicated, were as follows:

	Period ended Sep. 30, 2025 \$000	Period ended Sep. 30, 2024 \$000
Total brokerage commissions	49	32
Brokerage commissions paid to BMO Nesbitt Burns Inc.	14	9

Distribution Services

The Manager markets and distributes the Fund through BMO branches and/or (depending on the series) through registered dealers and brokers, including BMO InvestorLine Inc. and BMO Nesbitt Burns Inc., both affiliates of the

Manager. The Manager pays to these affiliates a service fee called a "trailing commission" based on the average daily value of the units that are held in investor accounts. This service fee is paid monthly or quarterly and varies by purchase option and by series.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements.

⁽²⁾ Includes commissions and other portfolio transaction costs and withholding taxes.

⁽³⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽⁴⁾ Distributions were either paid in cash or reinvested in additional units of the Fund, or both. The allocation of the distributions from each of income, dividends, capital gains and return of capital is based on the Manager's estimate as at September 30 of the period shown, as applicable, which is the Fund's financial period-end. However, the actual allocation of distributions is determined as at December 15, the Fund's tax year-end. Accordingly, the actual allocation among income, dividends, capital gains and return of capital may differ from these estimates.

+ Operating expenses are paid by BMOII and management fees are paid directly to BMOII as negotiated with the investor.

⁽¹⁾ This information is provided as at September 30 of the period shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Manager is responsible for the day-to-day management of the business and operations of the Fund. The Manager monitors and evaluates the Fund's performance, pays for the investment advice provided by the Fund's portfolio manager and provides certain administrative services required by the Fund. As compensation for its services, the Manager is entitled to receive a management fee payable monthly, calculated based on the daily net asset value of each series of the Fund at the annual rate set out in the table below. The management fee is subject to applicable taxes. The Manager may, at its discretion, waive a portion or the entire amount of the management fee chargeable at any given time for each series of the Fund.

	Annual Management Fee Rate %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Series A Units	0.55	74	26
Series F Units	0.05	0	100
Series G Units	0.60	41	59
Series I Units ⁽¹⁾	—	—	—

⁽¹⁾ For Series I Units, separate Series I fees are negotiated and paid directly by each Series I investor. The combined management and administration fees for Series I Units will not exceed the management fee charged for Series A Units.

PAST PERFORMANCE

The Fund's performance information assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund and is based on the net asset value of the Fund. The reinvestment of distributions increases returns. The performance information does not take into account sales, redemption, distribution, other optional charges or income taxes payable that, if applicable, would have reduced returns or performance. Please remember that how the Fund has performed in the past does not indicate how it will perform in the future.

The returns of each series may differ from one another for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of the different levels of management fees and expenses allocated and payable by each series.

On April 24, 2017, the management fee on Series A Units was lowered from 0.85% to 0.75% and on Series D Units from 0.60% to 0.50%.

On September 1, 2024, the Manager increased the trailing commission payable on Series G of the Fund from 0.25% to 0.50%. This change has no impact on the cost of ownership of these securities.

On November 22, 2024, Series G Units of the Fund were terminated and switched to Series A Units.

On May 29, 2025, the management fee on Series A and F securities were reduced by 20 and 15 basis points to 0.55% and 0.05%, respectively. The fixed administration fee of 0.10% paid to BMOII by this Fund in respect of Series A and F was eliminated. BMOII continues to be responsible for payment of the administration expenses for the Fund, other than the fund expenses which continue to be paid by the Fund directly.

These changes could have affected the performance of the Fund had they been in effect throughout the performance measurement periods presented.
